LIQUOR CORK FITS TIGHT

Canadian Export Trade Dries Up

Figures Supplied Treasury Reveal Great Falling Off in Output During June

Increases in Border Patrols Given Credit for Decline of Bootlegging Fervor

WASHINGTON, July 9. (AP)—The Treasury's intensive war on bootleggers who import liquor into the United States from Canada in the month of June cut the amount of alcoholic beverages exported from Windsor (Ont.) area by 357,155 gallons.

The statistics, prepared for the Treasury by the Canadian Collector of National Revenue at Ottawa, show that in June, 1929, after the establishment of an increase in the border patrol only 112,878 gallons were exported to points in the United States while the figures for June, 1928, show that 470,033 gallons of alcoholic beverages were exported.

The Treasury attributes the decrease to the effectiveness of the border patrol established to stop the smuggling of liquor from Canadian points between Lakes Erie and Huron into adjacent American territory.

TEXT OF STATEMENT

The statement issued by the Treasury said:

"The following is a comparative statement of exports from Canada to the United States of alcoholic beverages through the port of Windsor for the month of June, 1928, and June, 1929:

"June, 1928, 470,033 gallons.

"June, 1929, 112,878 gallons.

"The above figures were supplied by the Canadian Collector of National Revenue at Ottawa, yesterday.

"The port of Windsor comprises that territory commonly referred to as the Detroit sector. An extraordinary effort to tighten up the Canadian international boundary is being made by customs officers all along the line, with the co-operation of the Coast Guard and prohibition bureaus. The official figures for the entire Dominion of Canada for the month of June, 1928, are not yet available, but it is estimated that these figures will show a very marked decrease.

FIGURES FOR YEAR

"In the twelve months ending May 31, 1929, figures on the exportation of liquor from Canada to this country from points opposite the Detroit area showed that approximately 5,000,000 gallons of alcoholic beverages had been exported to points within the United States."

Figures made public for the preceding year by the Department of Justice showed that Canada exported 1,169,000 gallons of whisky, valued at $18,883,541, to this country, and that exportation of other alcoholic beverages to the United States brought the value of such liquors to a total of $24,397,925.

"Hello, Bill!"

NEW YORK'S HEAT KILLS TWO MORE

High Temperature Keeps Up, With No Relief Seen by Weather Bureau

NEW YORK, July 9. (Exclusive) The damp, sticky heat which since Sunday has made of New York a gigantic steam bath continued today, unabated by the brief thunderstorm which drenched the city early this morning.

Two more men died, both at their work, bringing the total of deaths attributable to the heat to ten in two days. As the mercury soared, prostrations continued to be reported from all parts of the city.

The latest victims of the sweltering weather were Samuel Rosenthal, 50 years of age, of Brooklyn, a vest maker, and Michael Gutchaka, 56, a factory worker.

The humidity was unusually high and the temperature's peak was 88 at 4 p.m., and the minimum 72 at 6 a.m. Average temperature for July 9 is 73 deg. The heat record for that date was set in 1876, when the mercury went to 99. Today's heat was the more oppressive by reason of the fact that there was no relieving breeze.

The Weather Bureau promised a little relief by tomorrow. Tonight there is a possibility of more thundershowers, and if they come, tomorrow will be cooler. Little substantial relief is to be expected, however, before tomorrow night, by which time the south wind, chiefly responsible for the heat problem, is due to have shifted to the west or northwest.

Fire Threatens School for Blind

BERKELEY, July 9. (AP)—Fire starting in a pile of rubbish, the remains of a building partially wrecked, for a time today threatened several buildings at the California School for the Blind. Immediate response of the fire department when the fire was discovered by a pedestrian saved the structure and kept the fire from spreading.

Pupils at the institution are absent on a vacation. A new $100,000 classroom building is a short distance from the building fired.

MONEY WILL SHRINK TODAY

New Small Bills Go in Circulation With Large Demand Due From Curious Persons

WASHINGTON, July 9. (AP)—The myriad ranks of money seekers tomorrow will become, at the same time, curiosity seekers, for with the opening of banks for business tomorrow morning the nation-wide scramble will begin, to acquire some of the new, attractive, unfamiliar currency which, within a few months, will replace the long-familiar, larger paper money now in circulation.

The "curiosity demand" for the new currency, one-third smaller than the old, is expected to keep up for several weeks. With about $12,000,000 pieces already printed, the Treasury is prepared to meet that demand, but only to a limited extent.

Approximately $3,921,000,000 of the new paper money has been shipped to Federal reserve banks today for issuance beginning tomorrow.

The amount that goes into circulation tomorrow depends on the number of worn-out bills received by the banks. Treasury officials estimate that $50,000,000 or more of that immediately issued will disappear to be held as souvenirs.

This change in currency, which is to be completed in about a year, is the first undertaken by the government since 1861 and is expected to reduce the cost of materials, printing, storage and distribution about $1,500,000 a year.

Only limited amounts of the new currency in denominations from $1 to $20 have been made available to the banks for distribution tomorrow. The new national bank notes are not to be introduced until Monday, and the larger denominations of all kinds will follow. All will measure 6 5-16 by 2 11-16 inches, as compared with the old currency's dimensions of 7 7-16 by 3 1-8 inches.

For about three or four months, most folks will have to do their spending with bills of both sizes, but by the end of that period practically all of the old currency in the most widely used small denominations will be out of circulation.

INDIAN WOUNDED BY TRIBE MEMBER DIES

NEZ PELEM (Wash.) July 9. (AP) Baptist Dick, Okanogan Indian, shot yesterday when he attempted to protect two squaws from an Indian who officers said was drunk, died today. Okanogan medicine men had been denied permission to attempt to cure Dick. The medicine men pressed their claims after government hospital officials said he was beyond human help.

CONDITION OF KING GEORGE HELD SAME

Physician's Failure to Issue Bulletin Taken to Mean No Change

LONDON, July 9. (AP)—Absence of a bulletin this evening after Lord Dawson of Penn had paid a half-hour visit to King George led to the inference that the condition of the monarch, who is afflicted with a reopening of the sinus leading to the right chest cavity, was unchanged.

The King again today pursued his ordinary mode of daily routine. He spent much of the time in the palace gardens.

The physicians carefully examined the X-ray photographs taken yesterday, but issued no report upon them.

Angeleno, Head of Latin-America Railways, Dies

SAN SALVADOR (Republic of Salvador) July 9. (AP)—S. H. Clegg of Los Angeles, general superintendent of the International Railways of Central America, is dead from injuries received when a tank car overturned en route from Texistepeque to San Salvador.

The body will be taken to Los Angeles by the widow and child for burial.

Talkie-Musician Battle Renewed

SAN FRANCISCO, July 9. (AP)—The battle between the talkies and the theater musicians, in which the musicians recently lost the first clash, was renewed today with filing of a $2832 suit against a local showhouse by the former leader of its orchestra.

The musicians' union recently lost a suit to compel the owners of the theater to keep the five-piece orchestra. Edwin B. Love, plaintiff in today's action, charges breach of contract and asks damages totaling the difference between his orchestra's earnings since the theater turned to talkies and the amount he says was guaranteed under his contract.

KING TO SEE MANEUVERS

PRAGUE (Czecho-Slovakia) July 9. (AP)—It is reported that King Alexander of Jugo-Slavia will attend the Czecho-Slovakia autumn maneuvers which will be the greatest of their kind since the World War. He will be accompanied by officers of the Jugo-Slav general staff.

Attention Visiting Elks!

ALL THE CONVENTION NEWS 7 ISSUES OF THE TIMES, 50c

Starting with last Sunday's Times and the special Elks rotogravure section, and including every daily issue to and including Saturday, July 13, mailed postpaid to any address in United States, Canada, or Mexico for 50c.

An opportunity to furnish the folks at home with a complete day-by-day record of convention happenings without having to write a word! Pictures, cartoons, graphic stories of each day's events!

You'll enjoy looking through the papers on your return, and many clippings and photographs will be worth a place in your scrap book.

A special order blank is printed elsewhere in today's "Times."

PATHFINDER FAILS GOAL

Plane Forced to Land in Spain

Williams and Yancey Will Resume Flight to Rome This Morning

American Pair Held Back by Headwinds in 3400-Mile Hop Over Ocean

SANTANDER (Spain) July 9. (AP) Roger Q. Williams and Capt. Lewis Yancey, forced down today after a trans-Atlantic air voyage of 3400 miles from Old Orchard, Me., slept on their laurels here tonight before completing their flight to Rome tomorrow morning in their airplane Pathfinder.

Want of gasoline forced them down as night was falling over the northern Spanish coast, not far from the very spot where their French comrades of the Yellow Bird had to land.

They did not seem fatigued when the Associated Press correspondent found them drinking a glass of whisky with Gov.-Gen. Saliquet.

Williams and Yancey said they had realized a few hours after leaving Old Orchard they could not reach Rome, when they met headwinds.

FLY ABOVE FOG

During their flight since they left Old Orchard at 7:49 a.m. (eastern standard time,) yesterday, they had to weather one storm and flew above heavy fogs which veiled the sea from them nearly all the time.

Their gasoline supply of 500 gallons was exhausted completely by the unforeseen struggle against headwinds.

Williams and Yancey said their flight had been "magnificent" despite the fog.

"We flew thirty-one and one-half hours, encountering low fogs, which cut us off from the sight of the sea. For only two hours were we free of the fog and able to see the ocean.

"We didn't sight any ships. Near Cape Ortegal we saw land for the first time and were very glad, but we continued the flight, wishing to go as far as our gasoline would take us.

"Having drained our supply we tried a landing which we made successfully at 9:30 p.m. (3:30 p.m. eastern standard time.) We flew about 3400 miles."

NOT FATIGUED

Williams and Yancey explained that they had been well prepared for the flight and it was not physical fatigue which prevented them from reaching Rome.

They said that during the flight they ate only four bars of chocolate and drank coffee out of a vacuum bottle. They were greatly pleased with the hospitality shown them at their landing.

Williams and Yancey had hoped to reach Madrid, after they realized they couldn't make Rome, to meet Maj. Ramon Franco and the aviators of the Dornier Wal 16, but had been prevented by lack of gas.

In view of the impossibility of refueling quickly the flyers decided to spend the night here and take off early tomorrow morning. Spanish authorities hunted tonight for special gasoline for the Pathfinder.

At 11 p.m., despite their long vigil and the strain of the flight, the American flyers were guests at a special supper in the Club Maritimo (Maritime Club.)

The Pathfinder appeared over Santander just as dark set in.

The aviators waved handkerchiefs to show they wanted to make a landing and peasants started a huge bonfire on the former military airfield at Albericia to guide them.

They made a perfect landing. The workmen who first greeted them on the field found an interpreter and went with them to the Civil Governor.

PAIR DISAPPOINTED

Williams and Yancey said they are disappointed over their failure to make the nonstop flight from Old Orchard to Rome, but had had a "magnificent" flight just the same.

All that they wanted to do when they realized that head winds would prevent them from reaching Rome

(Continued on Page 6, Column 5)

Will Rogers Remarks:

BEVERLY HILLS, July 9. [To the Editor of The Times:] I always knew the farmer not only needed relief, but he needed some help, and I had become kinder discouraged as to him getting it, for there didn't seem any actual way, but this new farm board has come through with an original idea. For one hour every day the farmer is to receive assistance over the radio. Different cigarettes have had an hour and they are all doing pretty well, so they figure that an hour's advertising over the radio will just about put agriculture on the level with cigarettes, and no farmer could ask more than that.

Yours,
WILL ROGERS.

ENDURANCE RECORD SET AND ANGELENO SOARS ON

Mendell-Reinhart Flight Becomes Man-Machine Test With Honors Even at 185 Hours

Setting a new world record for endurance refueling flights and adding to the same with each passing hour, the black sesquiplane Angeleno, piloted by Loren W. Mendell and R. B. Reinhart, continued its steady drone over the Culver City Airport early today and at 12:30 a.m. had been aloft 185 hours.

The mark set by two Cleveland flyers last Saturday of 174 hours and 59 seconds, was shattered at 2:30 p.m., yesterday, when the single-motored plane, with the two pilots aboard completed the one additional hour necessary to make their feat official.

As dusk settled over the flying field last night the determined pilots sounded their battle cry in a note which declared that the endurance flight has just begun.

"If you think we're coming down tonight you are crazy," the note said. "Before we started, you remember we all agreed that this flight was not to stop until all existing records had been broken. So stand ready to furnish us with fuel and we'll give you a real record to shoot at." The message was addressed to Paul Whittier, pilot of the refueling ship.

NURSE SHIP REMOTORED

The night refueling contact was carried out at 7:30 p.m., and a supply of gasoline, oil and food sufficient to carry the plane through the air until 7:30 a.m. today was taken aboard. Officials at the airport shared the optimism of the new endurance champions, but nothing was being left undone to accord the flyers a safe landing should their motor fail.

A new motor was being installed in the plane which has "nursed" the endurance ship and pilots since their start on Tuesday, the 2nd inst.

Shortly after 8 p.m. yesterday R. B. Reinhart, Sr., father of one of the pilots, an investment broker at Long Beach, made his appearance at the field. At noon today, the senior Reinhart will go aloft and signal his congratulations to his son. Mr. Reinhart was unaware of his son's record-breaking attempt until yesterday when he read a news account of the flight in The Times, he said.

"Flood lights burned throughout the night as a cheer beacon for the new champions of the air, and an acknowledgment of their helpfulness was dropped from the skies addressed to Metro-Goldwyn-Mayer, film company, who installed the apparatus. The note said: "Want to thank you for the lights you installed on the Culver City Airport. We could see the beam for miles and it has been a great comfort to have the entire field lighted. We appreciate your help more than you realize."

SWOOP FOR SIGNAL

When the two flyers were officially notified that they had set a new world endurance record, they swooped down over the field to acknowledge the signal from Joseph Nikrent, official timer of the N.A.A., who waved the red flag. Nikrent stood on the field with a stop watch in his hand, and it had evidently been synchronized with the watch of the flyers.

Just as the official second arrived the airplane started its long sweep, and as the flag dropped the throttle was thrown wide open and the ship and pilots roared away. Passing over the official timer, Reinhart climbed out in the rear cockpit, where gasoline contact is made, and shouted and waved his arms to the cheering crowd. Mendell, at the controls, edged his head out of a cabin window and joined in the demonstration. He was seen to yell a few words, but they were lost in the roar of the motor.

STUNTS AVOIDED

Mendell then took the plane over the field in a series of long dives and spirals, but carefully refrained from attempting any stunts. After this acknowledgment of the plaudits of the watchers on the ground below, and revealing their apparent intention to remain aloft many additional hours, the pilots settled back to their steady flight over the field.

Ground officials and observers now declare the flight duration only a question of the sturdiness of the

FOG BEATEN BY BOWLER

Plane Arrives at Port Burwell

Three Flyers Marooned for Two Nights in Icy Bay as Mists Close In

Forty-Foot Tide Threatens to Wreck Their Amphibian; All Set to Go On

BY ROBERT WOOD

(Copyright, 1929, by the Chicago Tribune)

PORT BURWELL, (Labrador) July 9. (Exclusive)—The 'Untin' Bowler, the Chicago Tribune's amphibian plane which is making a flight from Chicago to Berlin, swooped down out of a cloudy sky and landed in an ice-strewn strait here at 8:10 a.m. Chicago daylight saving time, today, with a worn and hungry crew. We have spent two nights and a day on the lonely rockbound coast of Ungava Bay, forty miles south of Port Burwell, waiting for a dense fog to lift.

Since the Bowler left Remi, Lake Ontario, six days ago, a thick, milky fog, sweeping down from the Arctic ice fields, has formed an impregnable barrier to its progress. The flight of the Bowler to Berlin is being made as a survey of possible commercial routes, and not as a death-defying spectacle. We have awaited the lifting of the fog, taking advantage of each brief clearing, to push in farther north. When the sun broke through the mist this morning we made a dash for our objective. An hour after the arrival of the Bowler, the skies cleared and the sun shone brightly. We expect to be off tomorrow for Mt. Evans, Greenland, 700 miles northeast of here. Today Eskimos ferried fuel drums from the harbor, two miles around rocky hills to the fjord, where the Tribune plane is being refueled.

STORY RELATED

The story of the lonely vigil of the last two days goes back to the flight of the Bowler up from the Hudson Bay station on Great Whale River. We were marooned there for two days by the same fog that held the plane to the ground in Ungava Bay. Although mists still blew in from the bay, the eastern skies were fairly clear and Robert H. Gast and Parker D. Cramer, the pilots, decided to make a run for it. Flying up the wide river only a few feet from the water, the Bowler left the fog fifty miles inland and struck across the unexplored wilderness of Canada. A little more than four hours after leaving Hudson Bay the Bowler sailed into Ungava Bay, crossed a field of icebergs, and headed toward Burwell along the jagged eastern coast.

The trouble started fifty miles south of here. Gray clouds appeared ahead and a moment later a southwest wind drove the steam off the ice beneath. The plane got swung around immediately and started back toward Chimo, Hudson Bay post on the Koksoak River,

(Continued on Page 2, Column 1)

WILBUR URGES STATE RULE

Secretary Wants Water, Forest and Land Control Placed Back With Regional Governments

BOISE (Idaho) July 9. (AP)—Secretary Wilbur, addressing the governors of Western States or their representatives, today advocated the transferring to States willing to accept the responsibility the control of surface rights to all public lands not included in national parks, monuments and forests.

The Interior Department head said that "with sound factual thinking it may develop eventually that it is wiser for the States to control even the present national forests."

Such a public land policy, he said, will need to be worked out "so as to hold the oil, coal and mineral rights of public lands subject to some form of proper prospecting law with development on a royalty basis of discoveries with due consideration to conservation for the future.

MUST PREPARE STATES

"You men, representatives of the Western States, can well prepare your State governments by proper park, grazing, lumbering, and water conservation laws for the reception of the responsibility of the public domain," Dr. Wilbur declared. "I feel that in the long run you can be more safely trusted to administer that heritage wisely than it can be done from offices in the national capital."

Secretary Wilbur prefaced his new public-land policy with the statement that the West must "become watershed-minded instead of homestead-minded."

"The public domain has been abused, overgrazed, and not respected in many sections of the country," he declared, "and unless we cherish and care for the lands now in possession of the United States, in forest and public domain, we in the West will repeat the fall of ancient Nineveh and Tyre, which was due to abuse of plant life and water failure."

WARNS OF FUTURE

"We must stop thinking in terms of immediate production," he said. "The forests must be protected or harvested constructively. Overgrazing must be stopped and experts in water conservation and plant life must be our guides. It is difficult to understand and properly control such problems from Washington."

Dr. Wilbur declared that the "real conservation of the West is water conservation."

"From Nebraska west, water and water alone is the key to our future," he said.

Dr. Wilbur reaffirmed his declaration that the national government in matters of reclamation should be helpful in building dams and assist-

'UNTIN' BOWLER GAINS ONE GOAL

Plane Reaches Fort Burwell on Journey to Berlin

Flyers Marooned for Many Hours in Icy Inlet

Thick Fog Proves Barrier to Their Progress

(Continued from First Page)

which we had passed a hundred miles south. But reluctant to lose ground, we came down to 300 feet, sighted an island off the bay where a narrow channel kept out the larger ice and left a clear landing-place. There the Bowler alighted among scattered ice. We tossed out the anchor to wait an hour, as we thought at the time, for the skies to clear. That was Sunday afternoon. We waited until this morning.

FORCED TO RETURN

An hour after landing the fog appeared to rise above the stony hills. Cast took off, but got only as far as the bay. Before the fog lowered again we returned to our lonely haven, dropped the anchor in the crevice of a boulder and prepared to spend the night on the bleak shore. There was no sleep that night or the night following. Twice a day the tide rose and fell forty feet. It required constant watching to keep the Bowler from going aground and smashing her keel. At high tide the ship was even with our camp, and at low tide it was out of sight below.

The place was a picture of desolation. Great moss-covered rocks rose 300 feet, burying their summits in the low-hanging fog. As a stately procession of icebergs borne on the tide passed back and forth across the bay great chunks of melting snow broke from the crevices of the rocks and plunged into the water. At first we thought it was the distant rumble of thunder.

Three Eskimos hunting seals on the northern shore of the bay sighted the Bowler riding at anchor and scrambled through the ice in their kayaks, defying all the laws of equilibrium. The three brown men, with the walrus mustaches came and stood thunderstruck before the great kayak with the wings. There ensued a conversation in which Shorty Cramer employed a half-dozen Eskimo words to learn the direction and distance from Burwell to Cape Chidley. "Kidley, ugh!" the trio replied, motioning to the northwest.

MESSAGE WRITTEN

So Cramer wrote a message to the Northwest Mounted Police at Burwell, stating that we were down, waiting for the fog to clear, forty miles south of Burwell; that the plane and crew were safe, but might be marooned for several days.

"If possible to reach us by motor boat," he wrote, "come at once, bringing warm food. The Eskimos will show you the way."

We gave the Eskimos the note and a $20 bill, pointed in the direction of Burwell and made motions toward heaven. The visitors grunted acquiescence, but stayed to peer longer at the Bowler. Thinking to clear the mystery Cramer pointed to the Bowler and flapped his arms. He got only giggles for his monkeyshines.

In due time our messengers paddled away through the ice. Eskimos are known to travel ten miles an hour in their kayaks, but the note had not reached here when we arrived this morning. It was impossible to radio the whereabouts of the ship. Our transmission over the Bowler's radio requires that the left motor be kept running to charge the batteries. The whirling propeller would have dashed the boat on the rocks. Ice filled the bay during high tide, making it impossible to taxi about. While the signals were being sent a drizzling rain set in at dusk and kept up all night. As we climbed up and down on the steep shore to keep the anchor moving in and out with the tide, the Bowler came perilously close to going aground on a submerged rock, but we pulled through the ice-chilled water to push it free.

CLOUDS DODGED

Shortly after 9 o'clock the next morning the fog lifted considerably. We were off in ten minutes, taking advantage of the break, flying 800 feet through the wide ice fields along Ungava Bay. The Bowler ducked under the clouds and proceeded northward. We were in the air only thirty minutes when the thick fog closed in about us again. Cast turned quickly about and landed in the first protected water. The second haven from the storm was no more hospitable than the first. The fruitless rocks bore no firewood. The fog came down on the hills again and thicker than before. Then rain set in; the ice drifted back into the bay and made the Bowler a prisoner in its rocky cove.

Again we took up the battle with the tide. We set up what might generously be called our camp under the edge of an overhanging rock high above the shore. The site was selected at low tide. Six hours later, at high tide, while we were coaking a contrary gasoline jet to a can of dehydrated turnips, water suddenly moved in on us and sent us scrambling higher on the rocks. All day the fog hung over the island, covering the mainland half a mile away.

NAME GIVEN ISLAND

Cast named the rocks Big Fog Island to distinguish it from the island of the night before, which he had named simply Fog Island. It is not unlikely this particular island has no other name, for hundreds like it line the lonely shore of Ungava Bay.

Much of the region is still unexplored. Maps of the territory are inaccurate. Having named the place we started to explore it, climbing to the highest peak to peer north through the fog in the direction of Fort Burwell, which the flight map showed to be little more than ten miles away. Fog cut off the views.

We heard the high cry of Eskimoes hunting beyond the hills and shouted to them. The cries ended abruptly after 1 o'clock. At the first sign of daylight the fog lifted. Again we weighed anchor and were in the air again before 2 o'clock. Fog lay in about the hills as the Bowler flew northward. We caught the first sight of the lofty Labrador Mountains to the east, between the pinnacles. We saw patches of light which we took to be the Atlantic.

DIFFICULT SEARCH

Cape Chidley and the whole northern point of Labrador was blanketed in fog with only the tops of the mountains and hills visible. "Not a chance in the world of finding Burwell in this mess," Cast shouted back into the cabin.

We landed in a fjord a moment later. The fog bore down again. This was to be the last of the worst fog on the records of the meteorological station at Fort Burwell. At 4 o'clock the sun climbed into the bay and a northwest wind started the fog southward. At 5:30 o'clock the operators of the Canadian government radio station, who have awaited the Bowler since Thursday, heard the drone of the Sikorsky's motor. It was twenty minutes later that Cast and Cramer sighted the three houses which comprise the settlement, hidden in the tumbling hills of Cape Chidley.

Cast swung the Bowler between two high cliffs and alighted in a fjord which runs into Hudson Straits. A moment later a high tide came in, bringing in with it a stream of icebergs. Ten Eskimoes, under the direction of two Canadian mounted police, pushed the ice away from the ship with poles.

If weather reports covering the route from here to Baffin Land across Davis Strait to Greenland continue favorable tonight the Bowler will take off early tomorrow. The reports received here today indicate good flying weather between Mt. Evans and Reykjavik.

LETTER CARRIERS GIVE CHIEF CAR

Rural Route Men Donate 35,000 Dimes for Auto Presented Billany

WASHINGTON, July 9. (AP) Thirty-five thousand dimes, each the gift of a rural letter carrier, purchased a seven-passenger automobile presented as a farewell surprise to former Fourth Assistant Postmaster-General Billany.

For the last eight years, Billany has been "chief" to the rural letter carriers. N. H. Goodsell of Edinboro, Pa., national president of the Rural Letter Carriers' Association, made the presentation in behalf of his organization, which includes 25,000 of the 43,700 rural letter carriers in the United States.

"You have humanized the service," Goodsell told Billany.

ANGELENO SETS NEW AIR RECORD

Cleveland Mark Passed at 2.30 p.m. Yesterday

Flight Continues With No Definite Goal Set

Crew and Motor Both in Finest Fettle

(Continued from First Page)

motor and the physical ability of the pilots. Officials, just at the hour of breaking the record, estimated that the two pilots have guided the small plane approximately 13,000 miles, using 2100 gallons of gasoline and forty-five gallons of oil. Special apparatus enables the flyers to change the engine oil while aloft.

MAN-MACHINE TEST

The motor has made no complaint, and continues its steady drone, neither have the pilots. On the contrary, the two flyers wave to their audience each time the plane crosses the flying field, and notes dropped are filled with optimism and assurance that physical man is in a test with mechanical construction.

A check of the motor yesterday revealed that it is performing at a slightly increased speed and consuming only thirteen gallons of gasoline hourly, compared with the fourteen gallons required at the beginning of the flight.

A record of 200 hours, if the pilots can stand the strain, is the mark now set by the motor experts, who said that the power plant had 450 hours of flight before the endurance attempt and they believed it capable of a total of 1000 hours. The motor is equipped with special lubrication to the rocker arms to prevent the condition which forced the Question Mark to land during its flight. Oil is forced to the rocker-arm bearings by a hand pump.

WILL ROGERS SENDS NOTE

Will Rogers, an overjoyed spectator at the setting of a new world's record, sent his greetings to the flyers in a note which read:

"Stay up there, boys, for I don't mind telling you you're not missing a thing. We had an earthquake yesterday, but we can't tell how big it was yet until we get the San Francisco papers. Fly out over Beverly Hills. The air is lighter there than any other place I know. While you was up there it's too bad you didn't go some place. Why don't you go to Oklahoma? See you on Christmas."

The pilots are both commercial flyers. Mendell was once in the United States Army Balloon Service. He is chief pilot of the flight. Reinhart was in the enlisted personnel of the United States Navy during the war, but learned to fly in Vancouver, B. C. Mendell is 30 years of age and Reinhart is 29.

ENCOUNTERED FOG

The world's record flight began at 7:29:30 a.m. on Tuesday, July 2, and the flyers experienced immediate trouble. The first few days, and intermittently since, dense banks of fog hindered refueling and caused missed contacts, which threatened to force the plane to earth. At one time only three minutes' supply of gas remained in the tanks, and the motor spit on two occasions, when the fuel failed to flow to the cylinders. With the exception of one flight to Imperial Valley to avoid bad weather, the plane has been piloted steadily over the airport.

The plane is a cabin ship, four-passenger model, and designated as a stub wing job. This gives it a tiny appearance as it sails through the skies. The motor is identical to the engines in the Army's plane, Question Mark, which set an endurance record here six months ago of 150 hours and 15 minutes.

WILL GO THE LIMIT

When the plane had equaled the record of the Ohio flyers at 1:30:29 p.m. yesterday, of 174 hours and 58 seconds, a note was dropped reading: "Gas us again about 1:45. Awfully bumpy over the field. Make contact over beach. Five gallons of oil, too. Old motor going great. Just like a clock. Doing 1900 revolutions now, which is a little faster than when we started."

A. E. McManus, Jr., and William O. McAdoo, Jr., backers of the flight, who were at the field almost constantly all day yesterday, announced that Mendell and Reinhart will not land until the motor gives up the struggle.

"The boys apparently are in good shape," McManus said, "and they will stay up until they are forced down."

When Long Sky Grind Got Under Way

[Herbert Photo.]

Hope Was All They Had a Week Ago

Loren Mendell and R. B. Reinhart climbing into their Wright-powered Buhl Airsedan at Culver City Airport on the flight that yesterday broke all air-endurance records.

HERE'S VICTORS' HISTORY

Mendell Had 3500 Hours in Air While Reinhart Only Recently Obtained License

When two more young men swooped up out of obscurity yesterday and grasped the crowns for flying endurance, hasty investigation revealed that while Loren W. Mendell has been a barnstormer with 3500 hours flying to his record, R. B. (Pete) Reinhart had just obtained his private license before embarking on his epochal flight.

Mendell is 30 years of age, and was born in Russell, Kan. He had been a member of the United States Army balloon corps. Mustered out, he became an aviating barnstormer. Following that he flew for the United States Treasury Department in spotting smugglers. Up to the time when this endurance flight began, he had done 3500 hours of flying.

Reinhart is 29 years of age, and was born in Salem, Or. He was a ground mechanic at a Dallas airfield, and recently was graduated from an aviation school in Vancouver. So little flying had he done that he had just obtained his private license.

FLIGHT BACKERS

The principals of this endurance record smasher are A. E. McManus, Jr., Paul Whittier and W. G. McAdoo, Jr.

Their first talk of going after the endurance record was broached last spring, when Whittier, who had known Mendell a year, bought two Carrier Pigeon planes in Dallas. Mendell was in Dallas at the time, and was engaged to fly one of the planes back to Los Angeles. With him flew Reinhart. En route, the men expressed a mutual desire to try for the endurance record, this being at the time when Reg Robbins and Jim Kelley were starting their 172 hours' flight at Fort Worth.

They urged the idea on Whittier, who introduced them to McAdoo. The latter agreed to let them have a Buhl Airsedan, a used cabin biplane, for their effort. Mendell and Reinhart pooled all their money, a few hundred dollars, to recondition the plane. They worked night and day to remodel it for the peculiar needs of an endurance flight. They fixed for refueling additional tanks and a forced feed system for lubricating the rocker arm. When their resources were exhausted, Whittier supplied the remainder.

HAD CLOSE CALL

Their 225-horsepower Wright Whirlwind motor had 400 hours in the air before it was considered for the flight. Mendell and Reinhart had it overhauled by the Pacific Aeromotive Company.

They took off at 7:29:30 a.m. Tuesday, the 2nd inst., and when that hour was passed yesterday they entered into their eighth consecutive day in the air.

Since their flight began, Paul Whittier and Slade Hulbert, refueling pilots of the nurse ship, have remained on the job day and night, refueling three times a day. Their refueling contact at 7:27 p.m. last night was the twenty-fifth one of the flight. During the first three days the flyers and the refuelers had adverse conditions to buck, which threatened to prevent their refueling operations. During the last few days they have had clear weather for their refueling and flying.

On Monday Mendell and Reinhart nearly were forced down because they had underestimated their fueling on Sunday night, but a hasty refueling at 7 a.m. Monday saved them.

ENDURANCE RECORDS GO DOWN FAST

Belgian Pair Started This Craze of Trying to Stay Away from Mother Earth

Two Belgian flyers, Louis Crooi and Arturo Ferrarin, started American aviators on their recent burst of refueling endurance air records when they stayed aloft over Brussels for sixty hours and eight minutes in June, 1928.

Since then more than a dozen planes have tried to set new records above American soil, but only three ships and their crews have succeeded.

The Army's trimotored Fokker, Question Mark, droned over the Los Angeles Metropolitan Airport for 150h. 40m. and 14s., before it came to earth on January 7, last. Maj. Carl Spaatz headed the army crew consisting of Capt. Ira Eaker, Lieuts. H. A. Halverson and R. Questada, and Sergt. Roy Hoss. Motor trouble grounded the giant plane.

Washington officials hailed this record as a new chapter in aviation history but two Texans, Reg L. Robbins and James Kelly, took off in their Ryan monoplane, from Fort Worth, Tex. and stayed in the air for 172h. 32m. and 1s. The Fort Worth flight ended on May 26, last, after a cracked propeller forced the ship to land.

The short-lived record of Byron Newcomb and Roy L. Mitchell of Cleveland, 174h. 5m. and 29s., was set on the 9th inst., when a storm forced their Stinson monoplane down.

Wright Whirlwind motors of 220 horsepower were used in the Fort Worth and Cleveland records.

The Culver City flyers are using a similar motor but it is equipped with different lubricating systems than the other two.

Survivors Clear Wreck Mystery

LONDON, July 9. (AP)—With rescue of eighteen survivors of the Swedish steamer Botte wrecked near Yarmouth on a sand bank Saturday night, an explanation has been offered of a mysterious North Sea explosion which led to fear of a major sea disaster.

A Dutch steamer took the officers and crew of the Botte off when it was seen she would founder. Later the steamer Arneberg in the same locality wireless Lloyd's here an unidentified ship had sunk near by after an explosion.

The crew of the Botte was landed at Hull today.

WILLYS STOCK SALE RUMORED

New York Reports Overland Head Steps Out

Accredited Toledo Buyer Denies It, However

Diplomatic Post Said to be Aim of Auto Maker

NEW YORK, July 9. (AP)—The personal holdings of John N. Willys, president of Willys-Overland, Inc., in that company have been obtained by C. O. Miniger, George M. Jones and associates of Toledo, giving that group control of the company, it was learned today.

Jones is a Toledo banker and Miniger is president of the Electric Autolite Company. Both are directors of Willys-Overland.

Mr. Willys, one-time Elmira (N. Y.) bicycle repair man, has been president of the company since the founding of the business by him in 1908.

According to reports in Wall street, Willys said out to accept the post of Ambassador to France, left vacant by the death of Myron T. Herrick of Cleveland.

The deal will make Miniger's interests one of the most outstanding in the automobile field. His achievements with Electric Autolite have formed his most outstanding record, but he also is said to be one of the largest individual holders in the Auburn Automobile Company, and to have substantial holdings in other motor firms.

MINIGER DENIES NEW YORK STORY

TOLEDO (O.) July 9. (AP)—C. O. Miniger, president of the Electric Autolite Company, declared that an announcement of the purchase by him and associates of John North Willys's interests in the Willys-Overland Company was unauthorized and not true, as far as Mr. Miniger is not concerned.

WILLYS NOT SLATED FOR FRENCH POST

WASHINGTON, July 9. (AP)—John N. Willys of Toledo is being considered by President Hoover for a post in the Diplomatic Corps, and it was strongly indicated today that he would be tendered such a position.

It was said, however, that this would not be the French Ambassadorship.

PACIFIC STEAMSHIP

ESTABLISHED 1889 :: RESOURCES OVER 40 MILLION DOLLARS

SUPREMACY: Pacific States Savings' Surplus and Undivided Profits to equal Surplus and Undivided Profits of 103 California building and loan associations

TODAY

The Last Day for 6% Interest from July 1st

A Spur to Tardy Dollars — 10 days extra interest at 6% to those who bring or mail their funds to any Pacific States Savings' office today.

Two classes of people will heed this with profit.

Those who are receiving small interest, and who thus are needlessly limiting their income, are making an unnecessarily slow job of building their capital.

Those who are enjoying insufficient safety, and who thus are hazarding their funds and periling their peace of mind.

A Full Six Months for Sound Financial Accomplishment

Look back to January 1st. Have you made all the progress financially you planned to make?

Look ahead to December 31st. Will you make greater headway in the second six months of the year than you did in the first?

For 41 Julys people have been asking themselves this question, and answering it by placing their funds in Pacific States Savings. Their wisdom has been abundantly demonstrated. Why not follow their example?

We welcome large and small funds. Save as you please. Stop when you please. Convenient withdrawal facilities.

Mrs. McPherson Rests in Chicago

CHICAGO, July 9. (Exclusive)—Aimee Semple McPherson, Los Angeles evangelist, rested in Chicago today on her way to California from a camp meeting at Detroit, where, she says, she saved 3200 souls.

Before coming to Chicago, Mrs. McPherson said she visited her home town, Ingersoll, Ont., which she had not seen for fourteen years. After two weeks in Los Angeles Mrs. McPherson will conduct meetings in Denver, she said.

Slayer of Wife Gets Life Term

SAN FRANCISCO, July 9. (AP)—Norman C. Crosby pleaded guilty in Superior Court today to the murder of his estranged wife, Mrs. Ethel Crosby, and of a neighbor, William Van Hatten, on May 26, and was sentenced to life imprisonment in San Quentin penitentiary.

Lad Killed by Practical Joke

KANSAS CITY (Kan.) July 9. (AP) Believed to have been the victim of a boyish prank, Kenneth Wilson Brown, 6 years of age, was electrocuted here tonight as he touched the charged bars of a window grating at a garage.

Police investigating the boy's death said an older playmate had told him if he would touch the bars of the grating he "would see some monkeys."

The bars carried a 110-volt current from an electrical apparatus in the garage. Police said they believed the boy connected the grating with the electrical apparatus while several other boys were outside watching Kenneth.

Army Man Wed to Ex-Countess

CHICAGO, July 9. (AP)—Mrs. Charles King Corsant today announced the marriage of her daughter, Josephine Fish, the former Countess Anthony De Bondari, to Lieut. Thomas J. Ryan, Jr., of Washington. The marriage took place here last night.

Mrs. Ryan's first marriage was to Count Bondari of Italy, March 15, 1923, following a courtship which extended from Italy to Chicago by way of Los Angeles and was one of the social events of that season.

Countess Bondari was granted a divorce in October of last year after she and Mrs. Corsant returned to Chicago, leaving the Count in Europe.

OPIUM AFFAIR VEXES CHINESE

Kuomintang Urges Recall of Bay City Vice-Consul

Trial of Wife in Her Native Land Also Advised

Report on Dope Seizure Will be Given to Envoy Wu

SAN FRANCISCO, July 9. (Exclusive)—A movement for the recall of the Chinese vice-consul in this city and trial of his wife in China under laws whose maximum penalty is death was the aftermath today of yesterday's disclosure that the inbound baggage of Mrs. Ying Kao contained taels of opium whose retail value was placed by customs officials as high as $1,000,000.

Official and racial sentiment differed extremely in the matter, but the Kuomintang, Chinese Nationalist organization, assumed disciplinary interest in the case by reason of Nationalist regime in China.

STATEMENT ISSUED

At the conclusion of a lengthy meeting of that organization at which neither Mrs. Ying Kao nor her husband was present, Atty. Hugh K. McKevitt issued the following statement:

"Kuomintang of America, in cooperation with Dr. W. S. Anching-Kung, consul general, is investigating the case of Mrs. Ying Kao for the republic of China and will report to Minister Wu in Washington for action.

"Both Kuomintang and Dr. An-Ching-Kung deplore the occurrence and the executive committee of Kuomintang of America has requested that Mr. Ying Kao be recalled in the interest of the consular service and that Mrs. Ying Kao be returned to China and prosecuted under the laws of the country which her represented.

"China recently has enacted stringent laws against the narcotic traffic and for such a high crime by such a person, conviction carries the penalty of death."

ACTIVITIES ENDED

On the advice of friends, Ying Kao terminated his activities with the consulate, but there still is a question as to the power of Minister Wu to remove him from office.

Mrs. Ying Kao reiterated her denial that she knows anything of the purported smuggling plot. The baggage registered specifically to her contained no contraband, customs officials said, but they aver she must have had knowledge of the contents of the trunks in the possession of her party. She declared they belonged to friends whom she refused to name.

A petition for a writ of replevin to recover the contents of the seized baggage was presented on Mrs. Ying Kao's behalf but was held by Federal Judge Louderback to be defective. It was denied but with leave to amend.

BAGGAGE RULED SUBJECT TO SEARCH

WASHINGTON, July 9. (AP)—Assistant Secretary Lowman said today that the personal baggage of Ying Kao, Chinese Vice-Consul at San Francisco, is subject to search. Lowman added that he issued orders yesterday to that effect.

Three thousand tins of opium were found in trunks brought to San Francisco by Mrs. Ying Kao after a search by agents yesterday.

"The Treasury orders providing for the search of the baggage of Mrs. Ying Kao, wife of the Chinese Vice-Consul at San Francisco," Lowman said, "included her personal baggage as well as other trunks."

Lowman declared that even the baggage of a diplomat of unquestioned standing will be searched if there is evidence that he is smuggling drugs into the country. He said that the Vice-Consul has no diplomatic standing whatever, and that the evidence gathered by the customs authorities in San Francisco will be turned over to the United States attorney there for whatever action the Department of Justice believes warranted.

TRIAL AND POSSIBLE DEATH MAY BE HERS

[A. P. Photo]

Mrs. Susie Ying Kao

OAKLAND MERCHANT SUCCUMBS

H. C. Capwell, Former Commerce Chamber Head, Expires Suddenly

SAN FRANCISCO, July 9. (Exclusive)—Stricken suddenly at dinner at his home tonight in Piedmont, H. C. Capwell, one of Oakland's best-known civic and commercial leaders, expired while medical aid was being summoned.

Capwell, former president of Oakland Chamber of Commerce and for thirty years one of the dominant factors in the commercial and industrial development of the entire East Bay area, had been apparently in the best of health today. He had attended to his business affairs at his office in the Oakland Bank Building during the entire day.

Leaving his offices, he went home, still apparently in the best of health and spirits. The Capwell home, where his death occurred, is at Monte Cresta avenue and Kelton street in Piedmont.

Funeral arrangements will be announced later.

New Japanese Regime Pledges Chinese Amity

TOKIO, July 9. (AP)—The new Minseito government today issued a statement outlining the foreign and domestic policies it intends to follow, one of the most important of which emphasizes the necessity of friendly relations with China.

The government promises to exert itself to the utmost to attain this object, and will have as its aim the prosperity of the two countries. It will refrain from any aggressive action and pledges itself to give every possible assistance to enable China to attain its legitimate desires.

The importance of the League of Nations is stressed in the statement which said that the government will do its utmost to assist and co-operate with the other powers in the cause of disarmament as long as its own naval safety is not impaired thereby.

Yachtsman Dies Trying to Save Drowning Guest

NEW HAVEN (Ct.) July 9. (AP)—Acting Coroner James J. Corrigan tonight issued a finding which said that Nathan B. Hendryx, 49 years of age, New Haven bird cage manufacturer, whose body was found floating near his yacht, the Nabyx, off Stony Creek last Wednesday night, died in an attempt to save a woman member of a party aboard his craft at the time.

Police after questioning witnesses said that Mrs. George I. Robinson of this city, fell into the water and was saved by a motorist. But the acting Coroner decided that Hendryx, having dived for Mrs. Robinson, "suffocated to death in the water" while others were pulling the woman ashore.

Mr. Corrigan attributed the events of the evening to "intoxicating liquors that had been served during the course of the party."

Eva Dugan Gets Added Respite

PHOENIX (Ariz.) July 9. (AP)—By stipulation between attorneys for the defendant and for the State, the case of Eva Dugan, sentenced to be hanged for the murder of A. J. Mathis, aged Tucson rancher, now pending in the Arizona Supreme Court, will be carried over to the fall term of the court for argument.

The condemned woman, now in the State prison at Florence, was sentenced to be hanged on June 18, 1928, but her attorneys appealed from the sentence, automatically staying the execution. This appeal has been pending before the high court since.

If the Dugan woman hangs, she will be the first woman to pay the extreme penalty in Arizona.

LABORITES WIN ON FREE TRADE

Liberals Aid Government in Defeating Conservatives

Snowden Outlines Britain's Policy on Safeguarding

Removal of All Foodstuffs Duties Contemplated

LONDON, July 9. (AP)—Premier MacDonald's government, supported by the Liberals, tonight won the first division in the new House of Commons on the free trade issue, defeating the Conservatives, 340 votes to 220.

The union of Liberals and Laborites against the Conservatives was a foregone conclusion because the central plank of Liberal policy is free trade. The division tonight occurred over a Conservative amendment to the reply to the King's speech in favor of safeguarding. Chancellor of the Exchequer Snowden previously laid down in unmistakable fashion the government's policy on safeguarding, or tariff protection, duties.

PREFERENCE "UNSOUND"

Mr. Snowden as a prelude to Labor's first clash with the opposition on the Conservative side, characterised the policy of imperial preference as "fallacious and unsound" and indicated the government's strong dislike for all such duties.

He challenged the Conservative party to resort again to protection as a party policy, saying that if the Conservatives do so they might content themselves with being in opposition for an interminable period.

Declaring the government's determination eventually to remove all duties on foodstuffs and recalling the late Joseph Chamberlain's dictum that real imperial preference is possible only if foodstuffs are taxed, Mr. Snowden proceeded to allay possible indignation among the dominions by announcing the government's desire to call another imperial conference. This conference will discuss whatever other means are available to foster trade between Great Britain and her dominions.

FRIENDSHIP DESIRED

The government is most anxious to promote the closest relations of friendship with every part of the empire, but Mr. Snowden does not believe that such relations can be placed on the best footing or on a mutually advantageous footing by a system of preferential tariffs which can only be effective if food and raw materials are taxed.

The Chancellor said the government will go into the difficulties of sugar producing colonies, but will not assist them by tariff measures.

Mr. Snowden also outlined the government's attitude toward the Young reparations plan. He said it is a matter for final decision by the proposed conference of foreign ministers and held that the British government is in a position to ask for modifications.

Three hundred and forty members of the combined strength of 347 Labor and Liberal members voted on the government's side. Out of 260 Conservatives, 220 supported their party's amendment.

Mrs. Whitney in Nevada Denies Seeking Divorce

CALNEVA, July 9. (AP)—Mrs. Marie Whitney, wife of Cornelius Vanderbilt Whitney, wealthy New Yorker, has rented for three months the J. L. Stack residence, known as Pola Lodge, on the Nevada side of the line here, it was learned today.

Under the Nevada law a residence of only three months is necessary to file suit for divorce. Mrs. Whitney today denied, however, that she contemplates seeking a divorce.

"I have no statement to make and I deny all reports," Mrs. Whitney told the Associated Press.

Japan Signer of Pact Quits

TOKIO, July 9. (AP)—The Emperor today accepted the resignation of Count Yosuya Uchida from the Privy Council. The Count, who signed the Kellogg anti-war pact for Japan at the Paris ceremony, had been critised in the council in connection with the wording of the pact.

The former Japanese opposition, now the government party, or Minseito, objected to the phrase, "in the names of their respective peoples," which, they asserted, violates the prerogatives of the Emperor. He tendered his resignation June 26, last, preceding the fall of the government of Premier Baron Tanaka.

Arizona to Get New Air Line

TUCSON (Ariz.) July 9. (AP)—Details of plans of the Southwest Air Service, Inc., to establish a service from Nogales on the international line to Winslow in the northern part of the State were not forthcoming today, all officers being out of the city.

It is known, however, that the company plans to inaugurate a daily service from Nogales via Tucson, Phoenix, Prescott and Ashfork along Northern Arizona to Winslow.

GIRLS ENTER CRIME CAREERS IN TEENS

NEW YORK, July 9. (AP)—If a girl gets safely past the age of 19 the chances are she won't become a criminal, a report made today by Elizabeth R. Butler, social worker, indicated. After four months study of women inmates of city penal institutions, where she mingled with her subjects and got their stories first hand, Miss Butler forwarded her report to the commissioner of corrections, Richard C. Patterson, Jr. Of all the women offenders she said she found shoplifters most baffling.

PAPERS FORM RADIO SERVICE

Press Wireless, Inc. to Have Office at Chicago

Will Make Use of Twenty Transocean Channels

"Times" Associated in New News Enterprise

WASHINGTON, July 9. (AP)—The Press Wireless, Inc., was organized by a group of newspaper publishers here today to use the twenty transoceanic channels set aside by the Federal Radio Commission for the use of the American press and intrusted to Joseph Pierson, chairman of the American Publishers' Committee.

Pierson of the Chicago Tribune was made president of the new organization. Other officers are R. R. Harrison of the Christian Science Monitor, vice-president; William S. Hedges of the Chicago Daily News, secretary; John P. Gallagher of the Los Angeles Times, treasurer.

The newspapers forming the corporation are the Chicago Daily News, Chicago Tribune, Los Angeles Times, San Francisco Chronicle, Christian Science Monitor and the Gannett publications, a chain of newspapers. The organization will have headquarters in Chicago.

The necessary three members of the Radio Commission immediately approved the new organization.

TODAY IS THE LAST DAY

Accounts opened today will draw interest from July 1st. Pass book accounts may be opened with $1 and up.

Full paid certificates are issued in units of $100, and are legal investment for banks, insurance companies and trust funds.

We Pay 6%

To Day of Withdrawal

We transfer your out-of-town funds and cash your securities without charge for exchange or loss of interest.

DOLLARS SENT FORTH GUARDED

Lord Tells How Budget Plan Achieves Its Goal

Post-War Surplus Stocks Sales Co-ordinated

Plea Made for Severance of More Red Tape

[This is the fourth of a series of personal reminiscences by Gen. Herbert M. Lord, who retired recently as director of the United States Budget after seven years' service, during which he supervised the expenditure of more than $25,000,000,000 in government funds.]

BY GEN. HERBERT M. LORD,
Former Director of the United States Budget
As Told to William P. Helm, Jr.

[Copyright, 1929, by the North American Newspaper Alliance]

WASHINGTON, July 9. (Exclusive)—Not long after my appointment by President Harding, and on a sizzling night in June, I was trying to balance my personal budget. For years I have kept strict accounting of all I receive and spend, balancing income and outgo daily with cash in pocket.

Mrs. Lord watched me sympathetically as I struggled to square my book with the fact that I had a few cents more in cash than I could account for.

"I do hope," she said presently, "that you will have less trouble balancing the budget of the United States than you are having now with your own."

EASILY BALANCED

Her wish has been fulfilled. The government's expenditures for seven fiscal years have been budgeted since that night, involving the spending of more than $35,000,000,000. The budget has been balanced every year. And I do not recall having had any such difficulty in balancing it as I had in running down that truant item of a few odd cents in my personal account.

I have already said the budget was started with the idea uppermost that the expenses of the various departments were to be budgeted, held within national income and submitted to Congress—that and little more. It soon became apparent that the idea did not cover enough ground to make the budget thoroughly effective.

Almost immediately it became obvious that we would have to send a policeman along with each dollar appropriated, so to speak, to protect it to its destination, to see that it did not fall by the wayside, that it delivered its full worth.

As I recall it this realization was borne in on us somewhat dramatically by efforts of various branches of the government to dispose of huge post-war stocks of surplus materials and supplies.

CONFUSION ARISES

Four billion dollars' worth of wartime equipment and supplies scattered among many branches of the executive departments and independent establishments had to be disposed of. Each branch started to sell its own surplus independently, none considering what other branches of the government might be doing. For a brief period there was confusion, and the results were disheartening. Moreover, the work was ever attended by a continuing menace to national prosperity and to many private industries.

It would have been entirely possible for the government to have thrown whole industries into bankruptcy or panic by dumping its huge surplus suddenly on the market, without thought of the consequences.

Here, for instance, were the War Department, the Navy Department and the Shipping Board, all heavily overloaded with identical merchandise and each about to sell its surplus without thought of the others. Canvas, for example; let us say it was one of the surplus articles in all three branches. I recall that the War Department alone had 46,836,000 square yards of surplus canvas. What would have happened to American canvas-makers if the government's huge stock had been thrown on the market precipitately?

CANVAS NEEDED

And at the same time there was the Postoffice Department going into the market periodically to buy canvas in huge quantities for its mailbags. The Postoffice Department knew nothing officially about the Army's surplus canvas, or the Shipping Boards' or the Navy's. All the Postoffice Department knew was that it needed certain quantities of canvas at certain intervals; that it had been buying the canvas, in accordance with law, in a certain manner for years. The Army and the Navy might have been in another world so far as their surplus canvas affected the Postoffice Department.

Now the Budget Bureau, designed to save the taxpayers' money, would have failed to be truly effective had it not injected itself into such situations. Hence the next step—co-ordination, team-work, among the departments. In the case of canvas, as I recall it, the Postoffice Department saved approximately $1,500,000 by filling its requirements from the surplus canvas of other departments.

Here, then, was an instance where police work was needed to guide the dollars going out of the Treasury to their proper destination, to the place where they could deliver greatest value to the taxpayers. In this case, to guide them away from the public bidders on the postoffice canvas requirements—doubtless to the disgust of those bidders—and into the surplus stocks of the other departments.

CO-ORDINATOR FOUND

The first thing in undertaking this work was to find a man to direct the team-work or task of co-ordination. The right man was found in Col. H. C. Smither, appointed chief co-ordinator. Col. Smither, later appointed brigadier-general, brought to his task a peculiar liking and aptitude. His job began to grow. Soon it was spreading, sending shoots into every bureau of the government. It rapidly extended along many lines of money-saving, and fast became one of the most important in the Federal service.

Col. Smither had the idea, which I shared, that it was necessary to cut red tape to get maximum results. And after all, that happened to be what was needed most at the time—to cut red tape. To cut it intelligently, of course, using the scissors of common sense, but to cut, nevertheless.

Long before I had become convinced there was too much red tape in the government's business. To digress briefly from Col. Smither's work, to which I shall return presently, I am thoroughly imbued with the idea that we must free ourselves of red tape more than we have done already—for a start has been made—if we are to accomplish all we should accomplish.

A NEW WORLD ENDURANCE RECORD

FLYING the "Angeleno," a Buhl, Wright-motored air sedan, Loren W. Mendell and "Pete" Reinhart have already passed the world's refueling endurance record of 174 hours, 59 seconds and are still "going strong."

Fighting their way through fog and unfavorable flying conditions which made contact with their refueling ship, a Curtiss Carrier Pigeon both difficult and dangerous many times since their take-off from Culver City Airport, Los Angeles, Tuesday July 2nd at 7:30 a. m., these sturdy fliers are proving their own courage as well as the strength and endurance of their ship and motor.

That after repeated tests, both Richfield gasoline and Richlube motor oil were chosen *exclusively* for this epochal flight that has surpassed all others, is a tribute to their purity and dependability; the same qualities that have made them the choice of the world's greatest pilots and drivers; that make Richfield and Richlube the ideal combination for everyday driving in *your own* car.

NON-STOP REFUELING ENDURANCE FLIGHT

RICHFIELD & RICHLUBE

Sheriff Starts After Suspect

MIAMI (Okla.) July 9. (AP)—Sheriff Waters left here today for Globe, Ariz., to bring back Ammett Hedgeborth, who surrendered there and told officers he is ready to return to Oklahoma to face a murder charge. Hedgeborth is wanted for the killing at Picher last March of W. M. Haskins.

NEW SKYSCRAPER PROJECTED

CHICAGO, July 9. (AP)—A sixty-story office building 670 feet tall will be erected immediately at the northeast corner of Randolph street and Michigan Boulevard, it became known today with the issuance of a building permit. The building will be erected for John F. Cuneo, head of the Cuneo Press, and will represent a total investment of approximately $8,000,000.

DUKE OF GLOUCESTER HOME

SOUTHAMPTON, July 9. (AP)—The Duke of Gloucester, looking bronzed and fit after his mission to Japan, and his visit to Canada, disembarked from the steamship Empress of Australia this afternoon. He had discarded the arm bandages which he had worn since his polo accident at Vancouver, and played some deck games yesterday.

GREEKS WOULD BAN BEAUTY IN POLITICS

ATHENS (Greece) July 9. (AP)—The government, in opposing a universal suffrage measure introduced by the opposition, today professed favoring exclusion of beautiful women and women under 35 years of age from the Grecian chamber. Premier Venizelos promised his support for a municipal woman's suffrage measure, but not for national political franchise, saying to grant universal suffrage would be to flood the country with illiterate voters.

CAR'S SKID KILLS FARMER

MANTECA, July 9. (AP)—A. Goudy, 60 years of age, a farmer, was killed this afternoon when his car skidded into an irrigation ditch near his home. His skull was crushed and several ribs broken. No one witnessed the accident.

Argentine Nation Has Natal Fete

BUENOS AIRES, July 9. (AP)—From the tropic of Capricorn to the Straits of Magellan, Argentines today celebrated the anniversary of the birth of the Argentine nation.

The date, July 9, 1816, is significant to the American continent as the beginning of the first recognized republic in Spanish America. Six years before the colonists of Buenos Aires had declared their freedom from Spain, but it was not until 1816 that the patriots of what is now Argentina met at Tucuman to establish a national congress and elect the first president of the new States Federation, Francisco de Laprida.

Swedish Flyer May Hop To

REYKJAVIK, Capt. Albin Ahrenberg, who ed out the new route of the Sverige, with the hope of ing a further advance to Greenland terprise.

If successful the flyer plans to continue his Ivigtut and then to New York after a short

JUAREZ AIRPORT PROJECT

MEXICO CITY, July 9. (AP)—Plans for construction of a port at Juarez, across the have been submitted to the government by a private interested in developing and the Juarez route.

COUPLE JAILED AS TORTURERS

Nevada Officers Charge Lad Brutally Punished

Nine-Year-Old Confined in Closet Ten Days

Victim Succored and Father and Wife Arrested

RENO (Nev.) July 9. (AP)—Locked in a closet for ten days where he was permitted to have only bread and water twice daily, a 9-year-old boy, his pallid cheeks sunken and his hands bony, was at the home of Judge Longabaugh in Reno tonight while his father and stepmother spent the night in jail.

The boy's father, John L. Roberts, and the stepmother, Lora Roberts, both of Reno, were charged with cruel and inhuman treatment and the stepmother faces an additional charge of assault and battery. Roberts's bail was fixed at $500 and his wife's at $600.

FOUND IN COLLAPSE

The arrest was made by County Probation Officers Wallace and Warren after they had investigated a report that the boy was held a prisoner behind locked doors. They found the lad in the closet, his eyes sunken and his body wilted down against the wall.

During the entire ten days, the officers said, he was not permitted to leave the closet and all the food he had was bread and water and an occasional glass of milk. The milk, they said, was given the lad when he showed symptoms of weakness.

AS "PUNISHMENT"

The story which the lad related to the officers was one of cruelty on the part of both his father and stepmother. He said his stepmother had beaten him and then locked him in the closet as punishment. There was no ventilation in the closet, the officers declared, and the door was kept locked, although the lad begged constantly to be released, promising to be good. He slept nights on the floor and said he had almost suffocated with the heat and that his head ached.

The father and stepmother would make no statement when lodged in jail.

COMMUNISTS ARRESTED

SOFIA (Bulgaria) July 9. (AP)—The police arrested about 100 Communist workmen who, in defiance of prohibition by the authorities, held a monster mass meeting yesterday near the capital.

SEX IN BUSINESS NEUTER

Federal Specialist Finds "Appeal" Fails in Selling, Women's Clubs Convention Informed

MACKINAC ISLAND (Mich.) July 9. (Exclusive)—Business women of the general type of the more than 2000 now gathered in conference at Mackinac Island have marked off sex appeal as an asset in the commercial world, in the opinion of Louis E. Van Norman, chief business specialist of the United States Department of Commerce. His address on "A Man's Point of View in a Business Woman's World" was the main feature of this evening's session of the tenth national and the first international convention of the Federation of Business and Professional Women's Clubs.

Discussing the revelations of a special survey conducted by the Federal Department of Commerce to determine the effect of sex on salesmanship, this expert asserted that it has little or no value, at least in the mind of a male purchaser.

For instance, he stated, questionnaires returned in the survey revealed that when men purchase articles for their own use or comfort they prefer not to do so from a feminine salesperson. When they intend to buy for women, they want the advice and assistance of a woman behind the counter, but when they are seeking neutral articles such as stationery, cards, pens and so forth, they have no preference between masculine and feminine attention, let the saleslady exercise her wiles as she will.

Miss Martha Connole, woman attorney of East St. Louis, will bring before this convention as head of the legislation committee three major projects for which she is asking support. They are the federation's tax exemption bill, which seeks to reduce the income taxes of single persons through an increase in exemption; indorsement of the renewal of conversations with other powers relative to the entry of this country into the World Court, and the education bill, which seeks to have established a Federal Department of Education with a secretary in the President's Cabinet.

'MAYO DIET' DISCLAIMED BY CLINIC

Medical Center Was Not Originator of Fad, Says Department Head

CHICAGO, July 9. (Exclusive)—Mayo Clinic definitely disowned today the "Mayo eighteen-day reduction diet," which has been circulating throughout the country in pamphlets and which has caused hundreds of heavyweights to hope for sylph-like figures.

"Mayo Clinic never issues diet instructions for reducing purposes or for any other that will cover the case of more than one person," was the answer to an inquiry today by Dr. Daniel S. Adams, head of the special diet department of the Rochester (Minn.) medical center.

"We have been tracing this so-called 'Mayo' diet list for weeks but we have never found its originator. The clinic had nothing to do with it and has no notion as to why it bears its name. That its circulation has been wide we know from the inquiries about it pouring in from all parts of the country."

Dr. Adams went on to say that Mayo Clinic issues diet lists in any event only after the study of a particular case and that frequently his department has sent out warnings about indiscriminate fasting and dieting.

The theory advanced by Dr. Adams is that it was reprinted by some former patient of the Mayo Clinic who had received the list for his own use.

SUBMARINES IN CHANNEL CRASH

(Continued from First Page)

stages of the war and was sent to Europe under its own power.

The L-12 was a much larger submarine, with displacement of 1070 tons.

SUBMARINE SINKINGS HAVE TAKEN HEAVY TOLL

NEW YORK, July 9. (AP)—Submarine disasters have taken a heavy toll of life in the navies of the world. Some of the major accidents to undersea craft follow:

March 24, 1915—United States submarine F-4 sunk in Honolulu Bay. Loss of life, twenty-one.

March 23, 1922—British submarine sunk by another British submarine off Gibraltar, death toll, twenty-three.

August 21, 1923—Japanese submarine foundered beside a dock at Kobe, Japan. Eighty-five dead.

January 10, 1924—British submarine L-24 sunk by British battleship off Portland, Eng. Death list, forty-three.

March 19, 1924—Japanese submarine sunk by Japanese battleship off Sasebo, Japan. Forty-nine dead.

September 24, 1925—United States submarine S-51 sunk off Block Island, R. I., by steamer City of Rome. Thirty-three dead.

December 17, 1927—United States submarine S-4 sunk off Provincetown, Mass., by Coast Guard cutter Spaulding. Forty dead.

August 6, 1928—Italian submarine F-14 sunk in Adratic Sea in collision with destroyer. Thirty-one dead.

PHILIPPINE AIRLINE COMPANY CHARTERED

MANILA, July 9. (AP)—A permit was granted today for the establishment of the Aviation Corporation of the Philippines, with a stated available capital of $5,000,000. Twenty planes have been ordered from the United States for a passenger, mail and freight service to be started in November between Philippine points.

'TWO MARINE FLYERS DIE IN AIR CRASH

Lieut. G. B. Stephens Was Angeleno Until Called Into Service Last Year

QUINCY (Mass.) July 9. (AP)—Second Lieutenant G. B. Stephens and Gunnery Sergeant E. B. Jones of the Marine Corps drowned near the Squantum naval base here today when their airplane fell into the harbor.

The plane went into a nose dive at a height of 600 feet and struck the corner of a dock in falling. It was raised within fifteen minutes and the bodies recovered. Their homes were in this city.

Lieut. George Bane Stephens was well known here, and lived in Los Angeles with his mother, Mrs. Charles R. Stephens at 310 South LaFayette Park Place, until he was called into active service in June, 1928. He was 32 years of age and a member of the Reserve Officers, until taking active command of the marine flying base. He was a son of late Charles R. Stephens of the Moline Plow Company of Moline, Ill.

A sister, Mrs. Clarence Martin Neuner, Jr., resides here, and he also leaves a widow and two children. The relatives here will go to Moline, Ill., the old family home, to meet the body where funeral and interment services will be conducted.

FLYERS FORCED DOWN IN SPAIN

(Continued from First Page)

was to fly farther than their French comrades of the Yellow Bird, they said.

They said they realized the adverse conditions which faced them soon after starting and feeling that it would be impossible to reach Rome they decided they would solely try to break the distance mark of the Yellow Bird.

SEEMED EASY

Williams and Yancey constantly repeated that now they were safely across the Atlantic, it all seemed easy to them and without great importance.

"We first sighted the Spanish coast about 11:30 New York time. We were flying about fifty feet above the land, and we quickly found our bearings.

"Our chief difficulty seemed to lie in finding a favorable landing site and still be certain that we had surpassed the Yellow Bird's mark.

"Gasoline was scarce and night was coming on and not more than three-quarters of a gallon of combustible was left in the reserve tank. We began to fly over a field, which seemed to us to be suitable for landing purposes and soon we saw a huge bonfire, which gave us sufficient light for coming down.

HAD ROUTE MAP

"The landing gear suffered a slight mishap when we touched the earth but it is of slight importance and will not prevent us continuing our flight."

Asked how they chose the Albericia landing field, the aviators said they had a map of the route of their flight and that the field was marked as suitable for landing, therefore they had no hesitation in crossing it.

"In general, our navigation was satisfactory," Williams said. "At midnight we were surprised by a storm, but we rode out of it by climbing to 12,000 feet."

Asked if he brought along any stowaways, Williams replied:

"In airplanes there are no stowaways, but there are passengers disguised as stowaways."

BUTTON TO INSPECT BANKS

PHOENIX, July 9. (AP)—James B. Button, State Superintendent of Banks, left here this afternoon for Prescott and Northern Arizona on an inspection trip.

PUBLIC SHOWN GERMAN PLANE

Hundred-Passenger Sea Bird Ready for Test

Crowd Views Huge Machine at Lake Constance

Ship to Carry Freight and Mails at First

BERLIN, July 9. (Exclusive)—The 100-passenger Dornier seaplane, which is three times bigger than America's huge NC-4 and three and a half times bigger than any plane constructed in Germany so far, overwhelmed the gasping spectators when the doors of the hangar were thrown open at the Dornier Works at Altenrhein, on Lake Constance.

Hundreds assembled to catch a first glimpse of the mystery seaplane which has been held in secrecy for the last two and a half years while it was being constructed at a cost of $500,000.

The constructors are especially proud of having built a seaplane which they believe will continue to fly even if half of its twelve motors fail.

The whole seaplane very closely resembled a ship, with its three decks and navigation bridge for the crew, modeled after that of ocean liners with the only difference that to start with its builders do not want it to carry passengers. It will start its career as a mail and freight carrier.

The constructors are convinced the ship with its inch-thick sides will be able to ride indefinitely in the heavy Atlantic sea. A small sister of the Do-X, the Dornier Numancia, showed itself to be seaworthy in the recent effort to reach South America from Spain.

With full tanks and no load it can do 2800 miles without a stop. With a full load it can do 600 miles. It will be taken from the shed tomorrow for a final test of the motors and will be launched in the course of a week or ten days.

PARIS BALKS AT MEETING IN LONDON

French Insist on Neutral Country for Conference on Young Reparations Plan

PARIS, July 9. (AP)—The French government today sent a note to London holding firm to its insistence that the forthcoming conference on the Young reparations plan should be held in a neutral country. Great Britain has been holding out for London.

A note in reply to the British proposals was approved by the Cabinet today and immediately transmitted to London.

The French indicated a willingness to accede to the British proposals as to the methods of procedure once the conference gets under way.

ENGLAND TO DISCUSS REPORT AT CONFERENCE

LONDON, July 9. (AP)—Philip Snowden, Chancellor of the Exchequer, in reply to a question in the House of Commons today on the reparations report, indicated the attitude of the Labor government.

"The House will realize," he said, "that this country is in no way committed to acceptance of the recommendations of the Young committee. They are to be the subject of discussion at the forthcoming international conference."

Aileen Stanley Divorces Mate

CHICAGO, July 9. (AP)—Aileen Stanley, vaudeville and revue singer, won a divorce in Superior Court yesterday from her accompanist-husband, Charles N. Buttenuth.

Miss Stanley entered Judge Gemmill's court wearing a severely plain tailored suit reaching to her ankles, a nondescript hat at an unusual angle and tortoise-shell glasses. None might have known her identity had not the bailiff been overheard to whisper to the court clerk, "That's Aileen Stanley."

The actress, who is a featured player with the musical show now showing here, charged Buttenuth with drunkenness.

MARATHON DANCERS LOSE OUT ON PRIZES

EL CERRITO (Cal.) July 9. (AP)—The three couples remaining in a dance marathon here sat down at 9 o'clock this morning when they heard the dance's promoters had left town. The report was erroneous, and the couples immediately were declared to have forfeited claims to prizes of $600, $300 and $100. Each dancer, however, was given $70, equal to about 15 cents an hour for the duration of the marathon.

BLINDED WINDOWS UPHELD

Kern County Judge Says Freak Delano Ordinance "Fritters Away Other Half of Constitution"

BAKERSFIELD, July 9.—"We have frittered away about half of our Constitution as it is and this court is not inclined to fritter away any more." Superior Judge R. B. Lambert said today during the hearing on a writ of habeas corpus of Frank Neles and "Shorty" Steele of Delano, arrested in an asserted gambling house. The two defendants were arrested on a Delano city ordinance making it a crime for three or more men to "meet in a house" and pull down the blinds.

The constitutionality of the ordinance, ostensibly directed against gambling, is being attacked by Attorney Calvin Conron, who is representing Neles and Steele.

"Any ordinance making it a crime for three men to meet in a house and pull down the blinds so that a policeman can't snoop around and see in, will not be upheld by the court," Judge Lambert said with his characteristic directness.

"No law should prohibit a man from going to his home and pulling down the blinds if he desires and having a friendly game of cards," the court continued. "Though some people are opposed to card playing, others like it, and our laws are framed so as to give reasonable liberty to the greatest number."

Judge Lambert will announce his decision within four or five days after points and authorities have been submitted in connection with the case.

International Chamber Hears New Yorker's Plea

Industrial Statistics Help Progress, Says Speaker

Delegates Study Question of China's Situation

AMSTERDAM, July 9. (AP)—The need of adequate international industrial statistics as an aid to world progress was stressed by Magnus W. Alexander, president of the National Industrial Conference Board of New York, in an address today before the International Chamber of Commerce.

"Production capacity in various industries the world over has increased to a point where balanced output, which is the basis for stable industrial activity, has become a paramount world economic problem," said Mr. Alexander. "It is the proper co-ordination of production, the proper balancing of the various economic activities, which makes possible the economic equilibrium that reflects itself in stable business conditions."

CHINA STUDIED

The question of China's economic situation is still engaging the attention of the delegates, especially the British and American members.

The preparation of industrial statistics, double taxation of foreign corporations, the transport of goods by rail, airplane and automobile as well as highway finance occupied the second day's sessions of the technical committees.

Edwin Rogers, Frank P. Reed and Allan M. Reed of Chicago presented the American viewpoint respecting the protection of industrial property, trade marks and inventions. Roy D. Chapin of Detroit spoke on transports and communications and A. J. Brosseau on highway finances.

The American delegates are striving to keep the proposed revised American tariffs from being discussed in the open plenary session, feeling that any precipitate attacks or criticisms at this time could only react unfavorably on the United States Congress.

MELON CARRIER BALKS BANDIT

Bay City Man Has His Hands Full So He Refuses to "Stick 'Em Up"

SALT LAKE CITY, July 9. (AP)—W. G. Wells of San Francisco likes watermelon. Intent in the anticipation of one last night, he firmly declined to let a little thing like a hold-up interfere.

Carrying a good-sized melon along the street, Wells was confronted by a youth with a drawn revolver.

"Stick 'em up," he commanded in approved bad-man fashion.

Wells glanced at the melon. "Sorry, but I can't," he replied and passed on.

The youth did likewise.

Lewis Replies on Car Shortage

WASHINGTON, July 9. (AP)—Chairman Lewis of the Interstate Commerce Commission today wired Senator Brookhart, Republican, Iowa, that the commission is attempting to provide sufficient cars to care for the marketing of wheat.

The telegram was in reply to one from Senator Brookhart in which he asked the commission to take speedy action to see that an adequate number of railroad cars are provided. Senator Brookhart said that he found a "most critical and distressing wheat situation" in Oklahoma and Kansas.

DEATHS LEAD TO NEW WATER SUPPLY SUITS

PHOENIX, July 9. (AP)—Making the fifth case within twenty-four hours against the Cady Lumber Corporation as the result of deaths, asserted to have been caused by diseases from the pollution of the water supply of McNary, Ariz., three new actions involving $60,000 were instituted in Federal Court here today. The total amount sought in the five actions is $131,500. Other cases of a similar nature are to be filed, it was stated.

WIFE SUES DRY OFFICIAL

NEW ORLEANS, July 9. (AP)—O. D. Jackson, prohibition administrator of the New Orleans district, and adviser to Federal Prohibition Commissioner James M. Doran, was made defendant in a separation suit filed today in Civil District Court by Mrs. Annie Ruth Lifsey Jackson, who charged "extreme cruelty, defamation of character and threats on her life."

BRAZIL FILM MARKET HAS THIRD PLACE

Lead Only by Argentina and Australia in Total American Footage Bought

WASHINGTON, July 9. (Exclusive)—The importance of Brazil as an outlet for American motion-picture films is revealed in a survey of that market and Argentine which has just been issued by the Department of Commerce.

Based on the amount of film exported, the report shows Brazil ranks as our third largest customer, only Australia and Argentina taking a greater amount of footage. Last year 16,464,000 linear feet of film was shipped from the United States to Brazil, a figure representing approximately 85 per cent of the total footage exhibited in the country during 1928. German films accounted for about 7 per cent while those from French studios represented a little more than 5 per cent.

Although American pictures ranked first in the Brazilian market, it is pointed out that European pictures are popular. The Brazilian public seems to be more influenced by the actors than the picture itself, and unless a star is featured the attendance is likely to be limited. According to the report the higher class Brazilian prefers the more sophisticated type of story and is little interested in highly colored "westerns" or films depicting American rural life. The former type of film, however, still is popular at the cheaper houses.

TRAINMAN DIES IN CRASH

WEBB (Miss.) July 9. (AP)—One trainman was killed, another seriously hurt and a dozen or more passengers received minor injuries today when two passenger trains of the Yazoo and Mississippi Valley Railway crashed head-on. R. S. Bidlake, flagman, was killed.

UNION VETERAN TAKES BRIDE

Father, 98 Years of Age, Gives Daughter, 70, to Groom, 81

MILFORD (Neb.) July 9. (AP)—William H. Campbell, 81-year-old Civil War veteran, and Mrs. Ida B. Carter, 70 years of age, a descendant of Daniel Boone, were married last night at the State Soldiers' Home.

The bride was given in marriage by her 98-year-old father, Hiram Boone, an inmate of the home.

AUSTRALIAN PLANS NEW SEA FLIGHT

Kingsford-Smith Proposes to Hop From England to America in Near Future

ROME, July 9. (AP)—Capt. Charles Kingsford-Smith, Australian trans-Pacific flyer, told the Associated Press today that he virtually has decided to fly from England to the United States in the Southern Cross as soon as he has time to have his three motors overhauled.

When the captain arrived here today en route to London from Sydney, N.S.W., he was met by C. C. Maidment of the Wright Whirlwind Motor Company, who was asked to accompany the plane to London in order to supervise the overhauling.

The three Whirlwind motors of the plane have been flown 500 hours.

WALES PRESENTS INSIGNIA

LONDON, July 9. (AP)—The Prince of Wales, wearing the uniform of a colonel of the Welsh Guards, walked from York House to St. James's Palace today where on behalf of the King he presented the insignia of honors conferred recently on His Majesty's birthday.

When a Child is FEVERISH, CROSS, UPSET

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children, generally show food is souring in the little digestive tract.

When these symptoms appear, give Baby a teaspoonful of Phillips Milk of Magnesia. Add it to the first bottle of food in the morning. Older children should be given a tablespoonful in a glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will sweep the bowels free of all sour, indigestible food. It opens the bowels in constipation, colds, children's ailments. Children take it readily because it is palatable, pleasant-tasting.

Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address The Phillips Co., 117 Hudson St., New York, N. Y. It will be sent FREE.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.—[Advertisement.

Radio Buyers will find it to their advantage to read the radio advertising appearing in the LOS ANGELES TIMES.

WHALEN FORMS SECRET SERVICE

Fifty New York Policemen to Work Under Cover

Staff Will Associate With City's Underworld

Commissioner Copies Plan of Scotland Yard

NEW YORK, July 9. (Exclusive)—Fifty New York City policemen are going to live their lives, for some years to come, at least, in the underworld, shorn of badges, uniforms and power of arrest. They'll even shed their true identities as individuals, for they can't use their real names. These men will be identified chiefly by numbers known neither one to another, nor to other members of the department.

The transformation of the fifty is another move of Police Commissioner Whalen to combat specialized crime, such as breeds murders like those of Arnold Rothstein and Frankie Marlow. The half hundred men will make up what the commissioner calls his secret service bureau.

WILL JOIN GANGS

These men are to become, in effect, members of hoodlum gangs, pals and confidants of bootleggers, even sweethearts of underworld queens. When they get information of value to the police department they will telephone the Chief, giving only their number. They will not appear at police headquarters and can't make an arrest if they want to.

The commissioner announced that twenty - five of the undercover agents thus far selected speak two languages and one speaks four. Most of these men are newcomers to the department not known to thieves and racketeers.

COPY SCOTLAND YARD

Scotland Yard's success is due in a large measure to such a secret service, said Whalen. He added that if such a department had been functioning for some time past he would have known all about the Marlow killing immediately afterward.

"We have questioned forty-eight witnesses in the Marlow case," the commissioner declared, "and a lot of valuable time has been wasted. We could have found those witnesses within forty-eight hours after the killing if we'd had a secret service bureau."

WOMEN DRIVERS LAUGH AT UNFORTUNATE MALES

WASHINGTON, July 9. (AP)—The old-fashioned cartoonist who still shares the general masculine belief in the inability of women to drive automobiles was given a severe test today in figures made public by the District of Columbia traffic bureau.

The bureau has been conducting an intensive campaign for several weeks in an effort to cut down the heavy toll of casualties in traffic accidents. Of 859 persons arrested for various violations of the traffic rules since the 1st inst. only twenty-eight were women.

That's less than 3.3 per cent of the total and indicates, according to ardent feminist calculators, that women are about thirty times as good as men when it comes to driving automobiles.

The standpatters for the old doctrine on the other hand, argue that it merely goes to show that most traffic policemen are men of an excessively susceptible nature, that women drivers (so-called) are exclusively and unscrupulously able to turn that nature to their own end, and that, anyway, the subject under consideration is not ability to drive automobiles, but ability to avoid charges of violating traffic rules.

GRAPE SHIPPERS WIN LAW TILT

Court Scores State Act on Size of Containers

Individual May Market as He Deems Advisable

Safety, Health, Morals Only Legal Restrictions

SAN FRANCISCO, July 9. (AP) The State District Court of Appeals today upheld the right of California grape shippers to market their products in any size container, without following the provisions of the 1927 legislative act requiring that the containers be marked as "irregular" size.

Constitutionality of the act was attacked by A. Mattei, Fresno county grape grower, who obtained an injunction from the Fresno County Superior Court restraining G. H. Hecke, State Director of Agriculture, and Fred P. Roullard, Fresno county horticultural commissioner, from placing him under arrest for violation of the act.

The Court of Appeals, in upholding a Fresno county decision granting the injunction, said: "Unquestionably an act restraining the personal liberty of a citizen is invalid unless the restriction is necessary for protection of the public safety, health and morals."

The court also pointed out that the net weight and name of the product is enough on a grape container, and said it failed to see how marking the boxes as irregular size in "letters not less than one-half inch in height" would assure the purchaser of getting a certain quantity.

"The liberty of a citizen and his manner of conducting his business or marketing his product should not be curtailed or interfered with unless it is necessary for the protection of public safety, health and morals," the decision concluded.

POLISH PREMIER ON LEAVE

WARSAW (Poland) July 9. (AP)—Premier Casimir Bartel, with his family and the assistant chief of the cabinet, M. Przesmycki, left today for a month's vacation in southern France.

WORLD WARDOG HERO GIVEN MILITARY BURIAL

WEST ORANGE (N. J.) July 9. (AP)—A stray dog that became a battle-scarred veteran of the A. E. F. today lies in a military grave in a local cemetery.

His tombstone bears the epitaph: —"Rags—wounded in action with the American Expeditionary Force." The lone mourner at his funeral yesterday was Joseph L. Bock, a retired member of the East Orange Fire Department, to which Rags had attached himself during the years following his return from the war.

Bock said the dog joined the Eleventh Engineers one morning in the Argonne, scampered along with the regiment wherever it went into action, and trotted proudly at its head on the march into Germany. The dog was slightly wounded by shrapnel and severely shell shocked. He died a natural death and Bock purchased for him a satin-lined casket about which he wrapped an American flag.

First Message Received From Arctic Party

FREEPORT (Me.) July 9. (AP)—The first word from the Arctic expedition headed by Lieutenant-Commander Donald B. MacMillan which left Wiscasset June 22, was received today in a radio message from Dr. William P. Kendall, ichthylogist of the United States Bureau of Fisheries and a member of the scientific staff aboard the schooner Bowdoin.

The message was addressed to Mrs. Kendall at South Freeport and said:

"Arrived at Red Bay (Labrador) this p.m. (July 7.) First iceberg seen today. All well and apparently happy."

PRUSSIAN DIET APPROVES PACT

Treaty With Vatican Given Ratification

Measure Opposed Solidly by Communists

Provides Increase of Money Payments

BERLIN, July 9. (AP)—The treaty between Prussia and the Vatican passed its third and final reading in the Prussian Diet today. The vote was 243 to 172 in favor of the treaty.

The Communists voted solidly against the bill and greeted the announcement of the result with cries of derision.

The treaty stipulates that henceforth in the appointment of bishops the Prussian chapter will submit a list of candidates to the Pope, who will select three names. The chapter then will appoint the bishops. The Catholic Church renounces the right held since 1821 to donations of real estate from the State, but monetary donations will be increased from 1,800,000 marks (about $432,000) to 2,800,000, (about $672,000.)

Hospital Nurse Tells How She Gained 7 Pounds in 2 Weeks

Build Up Weight Quickly and Easily with New IRONIZED YEAST —or Pay Nothing

Don't be "Skinny" and Unattractive

"I am a nurse at the hospital and I am writing you to let you know I am glad to recommend your tonic, IRONIZED YEAST.

"It gave me a good appetite, I got strong and gained 7 pounds in 2 weeks. I could work all day then and have much good IRONIZED YEAST did me. You could be surprised at the strength I gained in 5 or 6 days. I will send you some of my friends' names or you can write them about it." —Martha Burns, Sumrall, Miss.

People are amazed at the wonderful benefits of IRONIZED YEAST. Many were doubtful before they started. But after taking it regularly for a few short weeks they gained 5 to 15 pounds. Ugly hollows fill out. Skinny limbs become gracefully rounded. Blemished skin gets clear and beautiful.

IRONIZED YEAST is two weeks in one. Weight-building YEAST and 2 kinds of blood-enriching IRON. The Yeast is Vitalet Rayed to increase weight-building values. We concentrate it so that 13 SACKS of raw, live YEAST make only 1/2 SACK of the concentrate which goes into IRONIZED YEAST. You can easily see why each small tablet of this new IRONIZED YEAST gives you quick, EXTRA, weight-building results through this 24-to-1 concentration.

Only when Yeast is ironized is it most effective; for iron is needed to bring out the weight-building, strengthening values of Yeast. Pleasant tablets. No "yeasty" taste. No gas or bloating.

Try It on Money-Back Offer

Go to any druggist today. Get a full size treatment of IRONIZED YEAST. If after this generous trial, you are not delighted, get your money back—from your druggist or from the manufacturer.

Amazing numbers of Californians write letters like these!

What IRONIZED YEAST has done for all these folks it should certainly do for you. Take advantage of our generous trial offer. If not delighted, get your money back.

Gains 12 Lbs. Ends Boils. Gains 8 Lbs. Clears Skin.

"Gained 12 lbs.; cleared up worst of boils; with IRONIZED YEAST."—Patrick Mast, Livermore, Calif.

"IRONIZED YEAST made a different woman in 15 days. Gained 8 lbs.; smooth, velvety complexion."—Mrs. M. Porter, Los Angeles, Cal.

Taft Man Files Action for Oil Prospect Right

WASHINGTON, July 9. (AP)—George O. Retherford of Taft, Cal., today filed suit for a mandamus in the District of Columbia Supreme Court to compel Secretary Wilbur of the Interior Department to grant him a permit to prospect for oil on a tract of 560 acres in California.

Through his attorney, Retherford attacked the validity of the ruling of the Secretary rejecting applications pending in the department at the time President Hoover issued his oil conservation edict.

Retherford's suit is similar to that filed on March 12 in behalf of Ethel M. McLennan of McKittrick, Cal., in which it was asserted no discretionary power resides in the Secretary to withhold leases to persons qualified under the law to have them.

Death Decreed for Rich Man

CHESTER (S. C.) July 9. (AP)—Rafe F. King, 37 years of age, member of a wealthy Shelby (N. C.) family, was convicted of murdering his wife, Faye Wilson King, by a jury in Chester County Criminal Court here today.

The verdict automatically carries the death penalty.

FOREST ROADS HOPE REVEALED

State Highway Officials in Session at Boise

Legislation Now in Hands of Congress Backed

Concerted Action Sought to Promote Project

BOISE (Idaho) July 9. (AP)—Hopes that the forest road program dreamed of by western States for the past several years will come to an early fruition, were held out to the Western Association of State Highway Officials by President Henry H. Blood, in his annual address to the convention which opened here tonight.

Blood, who is chairman of the Utah State Highway Commission, declared present legislation before Congress calling for increased appropriations for forest roads appears acceptable and urged the association to support it.

VITAL PROGRAM

Under the present rate of appropriation, the Federal aid systems will be completed in about ten years, he said. Forest roads, however, will require forty years to complete, he added. Yet this construction, he contended, is vital to the general cross-country program.

President Blood explained that much adverse criticism has been made of changes in the present legislation. He said the criticism developed because many in the Western States look askance at loss of legislation calling for special appropriations for forest highways. On the other hand, a change has been made, he said, which is even more favorable than the previous legislation. This is the proposed amendments to the basic highway act, which would continue spending of the money under present system without setting up new agencies as would have been provided in the earlier special appropriation measures.

STUDY PROPOSED

President Blood urged the appointment of a committee to study the present bills and to outline ways of promoting them during the December session of Congress.

He sees little hope that the legislation will be considered during the special session.

"We'll Go Out Of Way To Tell About Sargon"

"About all my wife and I can talk about now is Sargon and you can't blame us, after all this wonderful medicine has done. I don't believe we ever felt better in our lives.

"My wife had become dreadfully run down from ten years suffering with stomach trouble and about

WILLIAM HAGLAND

two years ago, I began to get in the same fix. Nothing agreed with me and I had heartburn and gas on my stomach all the time. My wife suffered from nervous indigestion and often would complain of a bloated feeling for hours after a meal. We got to where neither one of us had any appetite. Constipation was a continual bother and we had to be always dosing up on strong laxatives. I had a dull, tired feeling that hung on to me all day and generally ended up with a headache. My wife looked like she could hardly struggle through her housework. I spent a lot of money on different treatments but nothing seemed to help us much until we started taking Sargon.

"We have each taken five bottles of this wonderful medicine and it's been worth a thousand times what it cost! If ever two people felt like they had been made over, we do. What a relief it is to be able to sit down to the table and enjoy a hearty meal without either one of us having to worry about stomach trouble. Our appetites couldn't be any better and we've both gained about five pounds. My headaches are gone and I feel full of life and energy, instead of half-dead like I used to. My wife is so much stronger, she looks and acts like a different person.

"Sargon Soft Mass Pills are the finest laxative we've ever had in the house. They are mild, but effective and keep your system in healthy condition.

"We both feel so good over what Sargon has done for us, that we'll go out of our way anytime to tell others about this remarkable treatment."

The above grateful statement was made recently by William Hagland, of 2380½ Portland st., Los Angeles.

The special Sargon representative at the Owl Drug Store, 6th and Broadway, is personally meeting hundreds of people daily who call to learn first hand of its wonderful powers. Sargon may also be obtained at all Owl Drug Stores in Los Angeles and other cities.—[Advertisement.

AIR REGULATORY LAWS DEPLORED

Congress Curb Criticised at Boise Meeting

Gov. Baldridge Says State Should Control

All-Western Association Plan Outlined

BOISE (Idaho) July 9. (AP)—A demand that the western States organize to keep aviation free of too much throttling Federal legislation was made by Gov. Baldridge today at the closing session of the Western States Aeronautics Conference. The demand came in face of repeated statements in addresses befor the convention that the States should pattern after the Department of Commerce in setting up aeronautics regulations.

Already the reach of Federal regulatory powers has been felt in aviation, Gov. Baldridge declared, and he deemed it time for the States to organize themselves to settle these matters "without having to carry everything clear back to Congress.

"I dread the prospect of aviation coming under the jurisdiction of the Interstate Commerce Commission," he said.

CLOSES TODAY

The conference will close tomorrow after a meeting at which plans for a permanent organization will be presented to the assembly for possible ratification. The afternoon session closed early to permit the general committee to draft the general form of the organization, which, in view of developments of the day, was expected likely to embrace other subjects in its field than aviation.

The four governors attending the session today called on the governors of the rest of the eleven western land grant States to attend a conference in Salt Lake City to form an organization that would embrace not only aviation, but reclamation and other subjects of general west interest.

STATES BLAMED

Near the close of the session a charge was hurled at the States by Edison E. Mouton of San Francisco, district aeronautical supervisor for the Department of Commerce, that they are responsible for the greater part of all airplane accidents in the United States. He charged that failure to enforce licensing regulations corresponding to Federal regulations permits unairworthy pilots and planes to continue in operation to the hazard of passengers.

"The unlicensed intra-State operators still are left pretty much to themselves," he continued, "and it is this type of operator that constitutes a public menace and contributes so largely to the accident columns. Recently there were four fatal accidents involving unlicensed planes in Northern California, and during the same period there were none among the licensed, although 95 per cent of the flying is done in licensed planes."

An appeal to the States to forego taxing aeronautical interests until they are well established was made by C. W. H. Smith of Salt Lake, representing the Western Air Express. Smith declared there are very few aviation lines actually making any profit.

In reply, C. C. Thompson of Boise, Governor of the American Aeronautical Association for Idaho, declared that aviation will likely be required to bear its share of the burden as it begins to take business away from the railroads which he said now are bearing heavy burdens.

The matter of airway marking and town designation was taken up at length on the floor of the convention with most delegates conceding that failure of towns to paint names on broad roofs is a matter of dire distress to aviators.

MILITARY ASPECT

Dr. L. I. Hewes of the bureau of public roads predicted a rapid development of airplane tourist travel in the West "as soon as the visitors become tired of viewing the scenery from the ground and want to see it from the air."

Warning that no more cities will be included in mail routes unless they have adequate airports and are located on prepared air routes was given by Earl B. Wadsworth of the Postoffice Department.

The advantages to the military arm of the government of adequate airways were outlined this morning by Maj. H. B. C. Laggett of the War Department and Lieutenant-Commander E. W. Spencer of the San Diego naval air station.

Gov. Emerson of Wyoming lauded the idea of a general Western States organization to settle aviation problems as well as reclamation, highways, public lands and other matters.

WILBUR URGES STATE CONTROL

(Continued from First Page)

ing with State compact, but should withdraw from the details of management of community enterprises properly subject to State laws.

WESTERN GOVERNORS PLAN ORGANIZATION

BOISE (Idaho) July 9. (AP)—Six governors were in accord today in favor of a general Western States conference to be held in Salt Lake City August 26 and 27, next, to form a permanent organization of Western States to settle all problems of reclamation, highways, areonautics and public lands that arise within Pacific and mountain section.

The idea for the conference evolved from a meeting here last night called incident to the visit of Secretary Wilbur and Dr. Elwood Mead, Commissioner of Reclamation. Approval of the plan was received from Gov. Balzar of Nevada, and Gov. Adams of Colorado. Word came from Phoenix, Ariz., that Gov. Phillips is out of the city.

The four governors signing the telegram of invitation are: H. C. Balbridge, Idaho; George H. Dern, Utah; Frank C. Emerson, Wyoming; I. L. Patterson, Oregon.

BAPTIST LEADER DIES

BERKELEY, July 9. (AP)—Funeral services for Rev. Millard L. Thomas, Northern California Baptist leader, will be conducted here tomorrow. He died Sunday.

CAR SEARCH IN FLY WAR VEXES DRYS

Federal Departmental Friction Revealed by Letter of Doran

SAN FRANCISCO, July 9. (AP)—Friction between Federal operatives of the Agriculture and Treasury departments over enforcement of the California quarantine against the Mediterranean fruit fly was revealed today with publication of a letter from Prohibition Commissioner Doran, at Washington, to Acting Prohibition Administrator Cooper here.

"It has been brought to the attention of the Treasury Department," the prohibition commissioner wrote, "that certain officers of the Federal government, including officers of the Bureau of Prohibition, in some instances have not given the proper co-operation to officers intrusted with enforcing the quarantine directed against the Mediterranean fruit fly. It is charged that some of the Treasury operatives have objected to having their cars searched in this connection."

The letter requested co-operation between operatives of the two agencies, which Maj. Cooper said will be granted, adding:

"Prohibition agents should have nothing in their cars which they object to having found."

CONVICTS ESCAPE CAMP

SAN QUENTIN, July 9. (AP)—Prison authorities today reported the escape of J. B. King, Butte county burglar, and Fred McParson, Imperial county burglar, from a road camp near Oroville.

DEPEND ON ZEMO TO STOP ITCH

Use soothing, healing, invisible Zemo for that itching torture, caused by mosquito or insect bites, sunburn, prickly heat, poison ivy or summer rash. NEWS OF SOUTHERN COUNTIES

TOURISTS HURT IN COLLISION

Texan Drives Machine Into Train at Montalvo

Branching Tracks Believed to Have Confused Him

Dallas Packer and Wife in Ventura Hospital

VENTURA, July 9.—Confused by the Santa Paula tracks which branch from the main line of the Southern Pacific Railway at Montalvo this morning, W. L. Armstrong of Dallas, Tex., turned squarely into the southbound passenger train, the Lark. He and his wife were perhaps fatally injured.

At the Big Sisters' Hospital it was believed Armstrong may have a fractured skull and his wife concussion of the brain. Both were too seriously injured for X-rays today.

The couple were driving toward Ventura about 7 a.m. It is believed that Armstrong, seeing the train coming toward him, and seeing the branch track crossing diagonally across the road in front of him, believed his only means of safety was to swerve to the left. This he is thought to have done, and his car ran squarely into the train as it swept to his left along the main track.

Armstrong is a son of the founder of the Armstrong Packing Company in Dallas and is connected with that plant now, it is said.

HUNTINGTON PARK WOMAN RUN DOWN

HUNTINGTON PARK, July 9. While crossing the intersection at Pacific Boulevard and Clarendon street, at 11 a.m. today Mrs. Lena W. Adams, residing at the home of Jennie Shute, in this city, was struck by a large truck loaded with hay and driven by G. D. Rickert of Montebello. She was rushed to the Suburban Hospital in South Gate, where her condition was reported serious. The front of the machine struck Mrs. Adams, running over her right leg.

It was some time before her identity was established. A pocketbook was found near the scene of the accident some time later, and in it was a check signed by Mrs. Adams. Investigation by Detective Sergeant W. L. Lee led to identifying by this means.

It is said that she had started across the street, and then was in the act of retracing her steps when Rickert made an effort to avoid striking her but was unsuccessful.

Deputy Constable Alfred Ells, of this city, and James Hughes met with a peculiar accident at Hooper and Washington streets in Los Angeles yesterday. The two men were attempting to fasten the front of Hughes's car to the rear of the Ells car, which was to be towed into a service station for repairs, when a third car struck the rear of the Hughes car, pinning the two men between the machines. Hughes was injured about the arms and taken to a hospital. Ells suffered a badly injured left leg, fourteen stitches being taken to close the wound.

Pioneer Dies at Montebello

MONTEBELLO, July 9.—Funeral services for Joseph I. Caneer, pioneer of this city, were held today. Twenty-three years ago Caneer with his wife and four small children left their eastern home, crossed the plains and the desert and located in Los Angeles. Mr. Caneer visited Montebello and purchased a large ranch. At that time Montebello boasted some 300 citizens and was a ranch-and-dairy community.

Caneer had been active in civic and community work. He served on the local School Board for nearly ten years. He had been a member of the Chamber of Commerce since its inception and was interested in real estate for many years. He was born in Maryland, Tenn., in 1859. He leaves his widow, two sons, two daughters, three brothers and two sisters.

WOMAN ASKS LARGE SUM FOR INJURIES

VENTURA, July 9.—Mrs. Dora McPhail today filed suit in the Superior Court against W. H. Landmesser of Salt Lake City for $50,300 as a result of injuries received when she was struck by the Landmesser car Saturday. Mrs. McPhail, an elderly woman, was knocked to the pavement as she attempted to cross Main street. She sustained a fracture of the skull, several ribs were crushed and she was badly bruised and hurt. In the complaint she charges negligence. Dist.-Atty. Hollingsworth had not filed criminal complaint today against Landmesser, who has volunteered to do anything he can for the woman.

CHECK PASSING HELD EASY

Monrovia Girl Says Its Simplest Method When in Need of Funds for Living Expenses

MONROVIA, July 9.—"It's just an easy way of getting money when you're broke," Margaret Addis, 23-year-old check forger, told Chief of Police Scott before appearing yesterday for arraignment before Police Judge Sturgeon, who set preliminary hearing for Friday morning.

The girl was arrested in Arcadia Friday after she had been recognised by a local woman on the street.

When questioned again this morning as to her activities during the past few months, the girl began relating a long list of towns in which she said she had passed fictitious checks, but suddenly stopped to declare that it would take days to enumerate all of the names and places where she had cashed spurious paper.

"I worked the small towns," she stated, "because people are not so suspicious as they are in larger cities."

When questioned concerning work, and whether she would rather pass bad checks than work, she answered that she preferred to work providing she could get the kind of position she wanted, namely, nurse-maid, waitress or housemaid.

During a lengthy confession yesterday to Chief Scott, the girl said that she had stolen a diamond bar pin from Mrs. Olive Marshall while employed at her home, and pawned it for $65 in Los Angeles.

A tour of the small cities in which the girl said she cashed checks was made this morning, and investigation disclosed that six checks amounting to $90 had been passed in Pasadena; five amounting to $35 in South Pasadena; $20 worth in Covina; two for $5 each in Glendora, and two $3 checks in Sierra Madre.

Elderly Banker Loses $10,000 in Bunko Scheme

LONG BEACH, July 9.—Forty-eight years' experience as an employee at a London bank failed to protect James M. Mee, 72 years of age, from losing his life's savings of $10,000 to a pair of bunko men who fleeced their victim and then caused him to go to Sioux City, Iowa, where he waited a month to keep an appointment which did not materialize.

Mee told police here today that he met a man who introduced himself as Williams, in Lincoln Park. Later Williams presented a Mr. Collier, who was reputed to be a wealthy stock broker.

Mee was taken in as a partner on what was represented as a sure market tip. He and Williams occupied a room adjacent to a supposed stock exchange from which Collier emerged carrying a grip that appeared to contain $75,000 in currency, the "winnings."

The old trick of demanding a deposit as a guarantee of good faith was employed. Mee, his wife and the bunko men went to Phoenix, Ariz., where the bunko man suddenly appeared with tears streaming down his face, to report that he had gambled the winnings and the deposit, losing all.

Collier, declaring he proposed to see that Mee was reimbursed, presented the victim with $200 on which to travel to Sioux City to keep a later appointment with the pseudo stock broker. After waiting nearly a month for Collier to show up, Mee returned here and reported his experience to police.

Road Extension Survey Starts

VAN NUYS, July 9.—The survey for the extension of Magnolia Boulevard, from Sepulveda Boulevard west to Ventura Boulevard, began today with field men working out of the office of the district city engineer, it is stated following receipt of an order from the Los Angeles City Council which has authorized plans. The much-sought improvement will be done under the Mattoon Act.

The cost of the extension of the highway will be about $100,000 for the three and one-quarter miles. An eight-inch concrete roadway, twenty feet wide will be laid. The plans for the extension of Burbank Boulevard from Sepulveda Boulevard to Ventura Boulevard are under way, the surveys having been completed. This paving also will be done under the Mattoon Act.

HE LIKES HIS FLIVVER

VAN NUYS, July 9.—James H. Gurney of Indianapolis passed through here today in his flivver 1920 model, bound for Los Angeles. In stopping long enough to buy gasoline, Gurney stated he had used the car in ten trips back and forth between his home town and Los Angeles, and that he believed within the next two years he might make two or three more trips.

HOME BOY DROPS IN FOR CHAT

Member of Blimp Crew Pays Back-yard Visit in Air and Dog Responds

COMPTON, July 9.—It is not given to every boy to sail majestically over his own back yard in a dirigible, swoop down to the tree-tops, yell "hello" at his dad and whistle to his own dog, and then sail away with his fellow townsmen gazing open mouthed.

That is what Frederick Leuders, 524 East Main street, did this morning when the Goodyear blimp "Volunteer" paid a visit to Compton. Leuders is a member of the crew and at his request the motors were shut off and the blimp slid down directly over his home. His father was standing in the back yard and with him stood old Jack, his aged yellow dog. When Leuders whistled, despite rheumatism, Jack did his best to answer.

Leuders's father is Prof. F. H. Leuders, art instructor in the local high school. Leuders was taken from the Goodyear factory with others and trained as a member of the crew. The blimp sailed about over the town for fifteen minutes giving an exhibition for steering control.

Neglected Tree Held Menace in Fruit Fly War

SIERRA MADRE, July 9. — A survey of local orchards to combat any menace of abandoned fruit trees as a precaution against an invasion of the Mediterranean fruit fly will be made here through the State Department of Agriculture, according to a communication to the local Chamber of Commerce. Following complaints registered by citizens, the chamber made a plea to the state Department several weeks ago to remove the trees.

Although there is no State law governing such nuisance in incorporated communities, the fruit fly problem in Florida has placed a different aspect on conditions, with the result that the State Department is preparing an intensive survey with the intention of destroying all trees that may harbor the fruit fly in case the existing quarantine method of prevention fails.

"In connection with the Mediterranean fruit fly survey, we are laying definite plans to provide for an adequate survey of all residential areas in Southern California where there may be any host trees," is an excerpt from the letter of H. J. Ryan, officer in charge of the southern district, to R. O. Copenhaver, secretary of the local chamber.

Board Approves Street Opening

PASADENA, July 9.—Protests against the opening of a new sixty-foot street between El Molino and Lake avenues, 305 feet north of Colorado street, were denied by a 4-to-3 vote at today's meeting of the Board of City Directors, and resolutions passing on protests and ordering acquisition of the land were given first reading by a vote of 4 to 2.

Action of the board came as a surprise as it had been intimated at last week's hearing that the proceedings would be abandoned if protesting property owners would reimburse the city for the $620 cost of engineering surveys and plans already made. The protracted session was marked by heated argument voiced by both advocates and opponents of the project.

COUPLE OBSERVE GOLDEN WEDDING

VERDUGO CITY, July 9.—Mr. and Mrs. John H. Weltmer, 2928 Sycamore avenue, who were married fifty years ago in the Methodist Church of Paterson, N. J., last night observed the anniversary of their wedding with a reception for their friends and a dinner for the members of their immediate family. The dinner was held at American Legion hall, with Mr. and Mrs. Andrew Estra of La Crescenta acting as hosts. Six of their sons and daughters were present at the dinner, together with their children. Only one son, J. H. Weltmer of Bath, Me., was absent. After the dinner a reception was held at which more than 200 friends were present to congratulate the aged couple and to enjoy the program of entertainment.

SURPRISE HEARING ENCOUNTERS DELAY

SAN DIEGO, July 9.—The District Attorney's office staged a surprise arraignment of Lee Cochran and Marty (Silent) Colson, accused of robbery and murder in the Agua Caliente money-car hold-up, when the pair appeared today before Superior Judge C. N. Andrews. No pleas were made by the pair, however, and the arraignment was continued until Thursday morning.

Cochran and Colson were heavily guarded on their trip from the jail to the courtroom. It is presumed that at the arraignment Thursday Colson will take the stand.

GAMBLING SHIP AT NEW ANCHOR

Johanna Smith Now Rides Off Ventura Five Miles

Owners Say Access Quicker Than Long Beach

County Authorities Delve Into Laws on Case

VENTURA, July 9. — Hundreds focused binoculars today on the Johanna Smith, palatial gambling ship, which dropped anchor in the channel five miles off Ventura Pier last night. The joy palace was towed up shortly after dark, and work was started today on enlarging the passenger slip where three speed boats are to load passengers.

Fred Baggs, owner of the ship, and M. D. Page were on shore early today getting supplies.

"We have never been in any clash with the authorities," Page declared. "It was best to move up here because off Long Beach it took our boats from two to three hours to reach the Johanna Smith. Added to that was the drive to the pier that our patrons had to take.

"By coming up here it means an hour and a half or two-hour drive by car and then only a twenty-minute trip by water to the ship. We have a dining-room to seat 100 guests, a large ball floor which, with the dining-room, takes up half the ship. We are engaging a local orchestra to play for the dancing.

"There's gambling, of course, but you can come out and eat and dance if you prefer. The bulk of our business will come from the south and from Santa Barbara."

Workmen were enlarging and rebuilding the slip on the wharf. The management of the ship first sought the pier at Pierpont Bay, but the request was refused by the management there.

Sheriff Robert Clark and Dist.-Atty. James Hollingsworth were reviewing the State laws today in an effort to determine whether they had jurisdiction over the ship and could in any way prevent its operations off the coast of this county.

Dancer Sues for Divorce and Alimony

RIVERSIDE, July 9. (AP)—Ruth Repplier, noted dancer, today filed suit in Superior Court asking divorce from her wealthy husband, John George Repplier, on charges of cruelty.

Mrs. Repplier charges in her petition that her husband tried to eject her from their home near Banning last October and that he threatened to cut off her credit. She asks $300 a month alimony, attorneys' fees and a deed to the estate near Banning.

Kiwanians Plan Mountain Club

ANAHEIM, July 9.—By unanimous vote today the Kiwanis Club approved a plan for the acquisition of a site for a mountain clubhouse and for the erection of suitable buildings at Idlewild. Financing of the project was provided by a rise in monthly membership dues.

The club will begin work immediately on the project which calls for the erection of a clubhouse with a kitchen, two bedrooms, restrooms and a main lounging room 28 by 40 feet. Actual construction is to be done by members of the club working with one or two artisans.

In order that the entire membership of the group and their families may be accommodated at the clubhouse at one time small sleeping cabins equipped for four persons each will be constructed. The club hopes to have the clubhouse in use before the end of the present year. The site is ninety-six miles from Anaheim.

VALLEY MERCHANT SICK

VAN NUYS, July 9.—Frank Colgrove, pioneer merchant here and well known all over San Fernando Valley in sportsmen's circles, has been taken to the Veterans' Hospital at Sawtelle for treatment for stomach trouble. Colgrove is a veteran of the Spanish-American War. He has been ill for some time.

TAXES TO BE RECONSIDERED

Values in Old Ontario City Will be Rechecked

Result of Wide Protest on Assessment Increases

Citrus Property Excluded from Any Decreases

ONTARIO, July 9.—Decision of the County Supervisors, sitting as a board of equalization, to order a recheck and reassessment of all property in old Ontario city, except citrus property, was viewed today as a victory for taxpayers, the Chamber of Commerce and Judge O. N. Hilton.

County Assessor A. E. Allen recently announced assessment valuation increases that ranged as high as 300 per cent in certain districts. Protests poured into the office of the Supervisors and property owners in Ontario district, particularly heavily hit, sought reconsideration of the increased valuations. It was declared by the board of equalization that peach growers of the district have for years borne the brunt of the tax burden and that citrus growers have been favored. For this reason a reasonable advance in assessment on citrus property would not be opposed, C. E. Grier, chairman of the Board of Supervisors, said.

Grier announced that the board has directed Assessor Allen to make a reassessment of all property, not citrus, in old city of Ontario. The board advised Judge Hilton that persons considering themselves aggrieved must file petitions of protest before the board before Saturday of this week. Property owners who consider the present advanced tax too excessive were urged to interview James R. Austin, Ontario deputy Assessor, and seek opportunity for a hearing when the recheck is made.

SAN DIEGO SUPERVISORS STUDY RANCHO VALUES

SAN DIEGO, July 9.—With Col. Ed Fletcher calling attention to the huge watershed of Rancho Santa Margarita, and Charles Hardy, representing the owners of the big property, protesting that the water yield has declined rather than remained on a level in resent years, the inquiry into the action of Tax Factors, Inc., which lowered valuation on the rancho, opened before the Board of Supervisors at the Courthouse today. Ranchers from all parts of the county, but principally from the northern region, filled the chamber as the first of a number of witnesses summoned testified.

Supervisor Thomas M. Hurley of Oceanside, whose district includes that portion of the rancho which lies in San Diego county, made formal announcement of the reason for the investigation. Hurley said that while practically all other property in San Diego county has been raised considerably by the revaluation survey performed under contract by Tax Factors, Inc., the valuation of Rancho Santa Margarita has been lowered about 15 per cent. The board, sitting as an equalization body, was led to make the investigation in an effort to determine what actually lay behind the lowered valuation, Hurley explained. If there was good reason for the lowering of value then it should be made public. And if there were good reasons for increasing the valuation, that, too the public should know, Hurley pointed out.

Hardy mentioned that "public clamor" began twenty and thirty years ago with respect to valuations, assessed and actual, of the Rancho Santa Margarita. The rancho, like a principality, occupies much of the northern portion of the county and overlaps into Orange and Riverside counties.

Shotgun Ends Chicken Thefts From the Air

UPLAND, July 9.—Nightly chicken dinners enjoyed by a beautiful, large white owl, were lopped off the bill of fare today by a shotgun in the hands of Officer C. S. Lehman. According to complaint of ranchers in the neighborhood of Mountain avenue and Eleventh street, the owl has averaged one chicken daily for the past four months. Lehman accomplished the execution at 10 a.m. today.

The owl had a wing spread of more than four feet and was said to be the finest specimen of white owl ever seen in this district.

FALL VICTIM NOT LOCATED

Two Boys Report That Another Lad Fell from High Coaster at Beach But Search Fails

SANTA MONICA, July 9.—The body of an unidentified boy about 13 years of age was being sought by police and lifeguards today, following a reported fall from the Hi-Boy roller coaster, on the Ocean Park pier, last night. Considerable mystery was attached to the case when no clew to the lad's identity could be obtained beyond statements made by tyo young Los Angeles boys, Kenneth Robertson, of 2915 Oregon avenue, and Billy Dyson, 2130 Darwin avenue.

They had ridden four times around the dizzy dips and bends of the coaster trip with the boy, and when they reported he had fallen out, were frightened, police said.

"He may be down in that pile of lumber under the coaster," one of them told F. W. Kasl, one of the concession's proprietors. "We can't bear to see him," he added as attendants summoned police and started to search the dark section beneath the tracks and along the lofty supporting trestles.

The two boys disappeared before police could question them, and further reports were being sought from them today. It was believed that in their terror over the accident they had gone to their homes. Detective Captain Watson, and Lieuts. Greer and Young investigated the tragedy, and obtained a statement from Al Osten, dispatcher of the cars on the ride.

According to Osten, the missing boy had arrived alone, and had waited for other passengers to join him in the car. "More people make it heavier, and it goes faster," the boy told Osten. He added that he had "ridden all the 'rides' between San Francisco and San Diego, and this gave him the biggest kick."

From this statement police believe he may have been a runaway bent on adventure and excitement, taking in all the thrills along California beaches. No report of a missing boy locally had come in this morning. The youth was described as 5 feet 1 inch in height, about 110 pounds in weight, wearing a gray coat or sweater, dark cap and fairly good clothes. He had a light complexion, but not blond, and a prominent nose.

BLIMP BASE PARLEY TODAY

Committees from Santa Ana and Los Angeles to Plan for Arrival of Navy Officers

SANTA ANA, July 9.—Members of the recently appointed general dirigible committee of the local Chamber of Commerce, who will meet the United States Navy board headed by Rear-Admiral W. A. Moffatt, and present for their inspection several sites in Orange county for the location of the Pacific Coast dirigible base, received notification today that they are to attend a joint meeting with a similar committee from the Los Angeles Chamber of Commerce at Los Angeles tomorrow.

This is in line with the recent announcement made by George Raymer that the Los Angeles chamber has decided to support the Orange county sites for the proposed base and would appoint a committee to serve with the Orange county committee.

The navy board conducting the investigation of various locations that have been offered for the location of the hangars for the giant dirigibles that are now being constructed, is scheduled to arrive here the 25th inst., according to recent advices from James F. Archibald, who is representing the local chamber in the East.

Members of the Orange county committee are: W. C. Jerome, chairman; A. J. Cruickshank, J. Frank Burke, A. B. Rousselle, Clyde L. Jensen, Berle F. Merthlan, Willard Smith, Charles H. Chapman, John C. Mitchell, George Jeffrey, William Schumacher, William H. De Wolfe, James Irvine, Jr., F. L. Purinton, William G. Knox; J. P. Gresley, Sherman Stevens, Dr. C. G. Huston, S. H. Woodruff, Ole Hanson, W. J. Carmichael, V. D. Johnson, Carl Mock, James F. Archibald, G. A. Raymer.

CORONADO WILL BUY PARK SITE

City Council Authorizes Fund of $6600 for Tract of Thirty-three Acres

CORONADO, July 9.—The City Council today authorized the expenditure of $6600 for purchase by the State Parks Commission of thirty-three acres of strand land, south of Coronado Tent City, from the United States government. With the resolution stating that the property must be leased to Coronado for a nominal yearly rental for park purposes until establishment of a State park on the site, the municipality would be reimbursed for the entire purchase price in the latter eventuality.

Option for purchase of the property is now held by the State and expires the 28th inst. Should the State fail to exercise its right to purchase the land it was indicated to the Council, the option will not be extended by the government to the State or a similar one granted Coronado.

Preceding the Council's authorization of the money Tam Deering, secretary of the San Diego County State Parks Committee, and Levi Kincaid and Maj. T. C. MacAulay, both representing the Southwest Boundary Park Association, addressed the Council and urged the appropriation.

State Forestry Officials Visit Orange County

SANTA ANA, July 9.—State forestry officials were guests of D. Eyman Huff, a member of the State Forestry Board, yesterday on an inspection tour of national forest reserves in Orange county. Huff invited the forest officials here in an effort to obtain additional protection for the forest lands in the county.

The group included H. C. Trapp, State Forester; J. N. Coupe, State Forest Inspector; H. L. Gilman, member of the State Forestry Board; Willard Smith, County Supervisor; Ed Atkinson, forest ranger; W. G. Munhall and M. Turner, State forest rangers. They left the Hewes ranch at 9:30 a.m. for a tour through Trabuco Canyon and its tributary canyons to inspect conditions.

Dr. Kennedy May Retire

ALHAMBRA, July 9.—Rev. Samuel D. Kennedy, who has been pastor of the First Presbyterian Church more than nine years, has tendered his resignation to take effect not later than September 1. Although he has not definitely disclosed his future plans it is understood that Dr. Kennedy will retire from the ministry. A congregational meeting has been called for the 21st inst., when action on the resignation will be taken.

He came here from Pomona, where for five years he was pastor of the First Presbyterian Church. Previously he was at Yakima, Wash. Dr. Kennedy is a former president of the Kiwanis Club here.

CITY AND COUNTY PLANNERS DISAGREE

ALHAMBRA, July 9.—The City Planning Commission does not agree with the suggestions of the County Regional Planning Commission with reference to certain local projects. Garfield avenue should be an eighty-foot thoroughfare, instead of 100-foot, as recommended by the county body, and the widening of Marengo avenue is not approved by the Alhambra planners. Likewise the local commission objects to the plan to extend Garvey avenue through Granada Park which, it is said, would destroy many existing homes. The city planners will recommend to the City Commission, however, that Wilson avenue, the link through this city of Atlantic Boulevard, be made a 100-foot thoroughfare when conditions warrant.

PASADENA TO GET PUBLIC AMBULANCE

PASADENA, July 9.—Purchase of a municipally owned ambulance, to be operated by city employees, was assured today when R. L. Daugherty, chairman of the City Board of Directors, disclosed that reorganization of the city engineering department will result in a saving of approximately $20,000 annually. Curtailment in pay-roll expense will be achieved by elimination of extra help, he stated.

Women's organizations have been prominently identified with the campaign favoring a city-owned and operated ambulance for emergency cases.

NATIVE SON DIES

COMPTON, July 9.—Charles Penter, 125 East Olive street, a Native Son, is dead here after a long illness from cancer. He was born at Bakersfield and his father was born at Sacramento. The body has been shipped to Lemoore for interment.

NEW BID MADE FOR CITY [illegible]

General Motors [illegible] Proposal

Willrich Seeks [illegible] $3200 Per Acre

City Directors [illegible] Higher Price

PASADENA, July [illegible]—[illegible]rich, 245 North [illegible] today entered a bid of [illegible] for 243 acres of the [illegible] farm, totaling $771,[illegible], accompanied by a [illegible] check for a ninety-day [illegible].

Willrich emphasized [illegible] generally circulated [illegible] represented General [illegible] ing this property.

"It is hardly worth [illegible] into the matter of [illegible] sent," Willrich said at [illegible] night, "as the city has [illegible] property so high that there [illegible] chance of my bid being [illegible].

The Board of City [illegible] fused to accept the check [illegible] the option inasmuch as [illegible] predict, a higher price [illegible] be obtained, particularly [illegible] Valley Boulevard frontage [illegible] long by 200 feet deep.

Willrich declined to [illegible] corporation he represented [illegible] negotiations. It was [illegible] Willrich handled negotiations [illegible] the southern half of the [illegible] sold to the Western Air [illegible] $517,000, or $2700 per acre.

Last week, he made an offer of [illegible] acre for the remaining [illegible] City Manager R. V. Ogden [illegible] day raised that offer to [illegible] acre. If, as Ogden predicts, [illegible] boulevard frontage can be [illegible] $300 a front foot and the remaining acreage can be sold at [illegible] an acre or more, the city [illegible] ceives approximately $1,[illegible].

Although agents who [illegible] bids to the City Manager [illegible] last few weeks have declined [illegible] veal what firms they are [illegible] ing, it is known that [illegible] land will be used as an [illegible] site, since the Southern Pacific [illegible] revealed plans looking toward [illegible] taining a right of way for a [illegible] track to the site. Ogden said [illegible] today that an airport company [illegible] made one offer but that it was declined because the bid was too [illegible]. More than fifteen persons, [illegible] as agents, recently have sought [illegible] on the city's sale price.

While the State Board of [illegible] requires that a certain amount [illegible] retained by the city for the [illegible] quate maintenance of the [illegible] farm, Ogden has estimated [illegible] approximately 25 acres [illegible] sold.

Example of Chino Orator

CHINO, July 9.—The "[illegible]" known today why Chino [illegible] in California. Richard [illegible] way, Grand Patron of the Order [illegible] nia Order of the Eastern [illegible] an address to Chino [illegible] night, declared the city [illegible] given local power over [illegible] the fact that Chino is one [illegible] leading dairy centers of [illegible]

Sun baths for some [illegible] ter teeth. With better [illegible] health is better, they [illegible] munch more of [illegible] strengthened [illegible] quently the quality of the [illegible] duced is higher.

The bovine gets great [illegible] tentment chewing on [illegible] sun-kissed cuds during [illegible] meal hours and [illegible] tems in higher state of [illegible] he declared.

EXTRA VOW ADDED IN WEDDING [illegible]

LA CRESCENTA, July [illegible] ding ceremony in which [illegible] and groom not only [illegible] truth to one another [illegible] pledged themselves to [illegible] lives to work in the [illegible] was held here last night [illegible] Thelma J. Shuttle, [illegible] Glendale, became the bride [illegible] Helmer M. Mandersen, [illegible] in the Four-Square Church. The ceremony was [illegible] Mrs. James Shuttle. [illegible] groom are students at the [illegible] Temple Bible School and [illegible] devote their lives to the [illegible] church.

POSTAL RECEIPTS [illegible]

GARDEN GROVE, July [illegible] receipts at the local [illegible] the fiscal year ending [illegible] a gain of [illegible] cent, or [illegible] cording to figures given out [illegible] Mabel Reed, local [illegible]

Tragedy Calls Parents Home

ARCADIA, July 9.—Arrangements for funeral services for Cecil Herbig, 24-year-old assistant teller at the First Trust and Savings Bank of Pasadena, will be completed tomorrow when the young man's parents, Mr. and Mrs. Rob Herbig, 1131 Eighth avenue, return from Alberta, Can.

Herbig was swimming with a cousin, Claude May, manager of the Long Beach-Belmont branch of the Bank of Italy, in Alamitos Bay Sunday when Herbig is said to have stepped into a deep channel. His cousin attempted to rescue him, but narrowly escaped with his own life when the drowning young man dragged him under the water.

May called Capt. Roy Miller for aid and the channel was dragged for some time before the body was found in thirty feet of water. Attempted artificial respiration proved unsuccessful.

Mr. and Mrs. Herbig were visiting at their ranch in Canada when informed of the tragedy.

EGYPTIANS DEVELOP TASTE FOR MACKEREL

SAN DIEGO, July 9.—Eight tons of canned mackerel, the first shipment of its kind ever sent to the markets of Europe, were forwarded to Alexandria, Egypt, today by the K. Hovden Company, according to announcement from the Chamber of Commerce. The chamber also announces that the local cannery has shipped several tons of sardines this year to Piraeus, Greece.

DEER TAGS AVAILABLE

SANTA ANA, July 9.—County Clerk J. M. Backs today announced receipt of 750 deer tags, which will be immediately placed on sale to hunters, not only at the County Clerk's office but also with his various agents throughout the county. Dealers in sporting goods and hunting supplies in various cities will handle the tags, in connection with hunting and fishing licenses.

LAKE WATERS HELD AMPLE

Irrigation Supply for Redlands and Highlands District Inspected by Prendergast

REDLANDS, July 9.—Big Bear Lake is four miles long, [illegible] deep in places, and is holding ample water for the needs of [illegible] Highlands and East Highlands, according to J. J. Prendergast, [illegible] of Bear Valley Mutual Water Company, who came down from the [illegible] tains today after a visit to the properties of the company.

The water level at present is [illegible] and keeps the fish healthy, he said, or three feet higher than it was at the end of the season last year. The lake will be considerably lower at the end of October this year but there will be no cause for alarm of irrigators, he said. Those seeking recreation in the mountains may be assured of no curtailment of water sports until the season is over this fall.

"Fishing is excellent this season," Prendergast said, "and the lake is the cleanest and clearest I have ever seen. This is due to the blue stoning which keeps the alkali down [illegible] person going to the lake [illegible] not think of it as being [illegible] kept from the [illegible] been higher. It varies every [illegible] although it is lower [illegible] has been and the new dam [illegible] completed. One [illegible] it is as high as it was [illegible] the old days before the [illegible] was completed.

"Not only is there [illegible] the motor boats and [illegible] are keeping a record [illegible] tained. The water [illegible] clean and clear. The [illegible] and all this talk [illegible] should be forgotten. [illegible] water for all [illegible]

PALISADES ASSEMBLY OPEN

Religious Gatherings at Beach Colony Will be in Session for Three Weeks

SANTA MONICA, July 9.—The eighth annual summer schools and assembly opened at Pacific Palisades this afternoon, with Dr. Oren B. Waite, vice-president of the Pacific Palisades Association, presiding. The sessions will continue three weeks, with educational, religious and cultural speakers from this and other countries on the programs, which include many musical features.

Dr. Tully C. Knoles, LL.D., president of the College of the Pacific at Stockton, was the chief speaker this afternoon. Music was by the Pacific Palisades Assembly quartet. Mrs. Frances M. Hawley of Los Angeles, executive secretary of the Chautauqua Literary and Scientific Circle, led the first meeting of that group at 4 p.m. Children met at the library, with John Smallman organizing the children's chorus for the season.

Summer school sessions open tomorrow morning, also the special courses. Dr. Waite is assembly chaplain this week in place of Bishop Charles Wesley Burns, who was called east by official duties.

Hundreds registered yesterday and were assigned cottages, tent houses and other quarters beneath the oaks of the assembly grounds.

NEW BID MADE FOR CITY FARM

General Motors Interest's Proposal Denied

Willrich Seeks Option at $3200 Per Acre

City Directors Refuse Higher Price Sought

PASADENA, July 9.—E. G. Willrich, 245 North El Molino [illegible] today entered a bid of $2[illegible] for 343 acres of the Pasadena farm, totaling $771,[illegible]. His bid was accompanied by a $[illegible] check for a ninety-day option.

Willrich emphatically denied generally circulated reports that he represented General Motors in making this property.

"It is hardly worth while going into the matter of whom I represent," Willrich said at his home tonight, "as the city has placed the property so high that there is little chance of my bid being accepted."

The Board of City Directors refused to accept the check or grant the option inasmuch as, it was predict, a higher price per acre could be obtained, particularly for the Valley Boulevard frontage, 200 feet long by 200 feet deep.

Willrich declined to state what corporation he represented in the negotiations. It was revealed that Willrich handled negotiations when the southern half of the farm was sold to the Western Air Express for $317,000, or $2750 per acre. This week, he made an offer of $3000 per acre for the remaining property. City Manager R. V. Orbison said today raised that offer to $3200 per acre. If, as Orbison predicts, the boulevard frontage can be sold for $300 a front foot and the remaining acreage can be sold for $2000 an acre or more, the city will receive approximately $1,250,000.

Although agents who have submitted bids to the City Manager during the last few weeks have declined to reveal what firms they are representing, it is known that the [illegible] and will be used as an industrial site, since the Southern Pacific has revealed plans looking toward obtaining a right of way for a spur track to the site. Orbison reported today that an aircraft company had made one offer but that it was declined because the bid was too low. More than fifteen persons, [illegible] agents, recently have sought options on the city's sale price.

While the State Board of Equalization requires that a certain acreage be retained by the city for the immediate maintenance of the airport farm, Orbison has estimated that approximately 250 acres can be sold.

Example of Chino Oratory

CHINO, July 9.—The "secret" [illegible] known today why Chino's cows [illegible] California. Richard Bert [illegible], Grand Patron of the Golden Order of the Eastern Star, in an address to Chino chapter [illegible] night, declared the daily sun baths [illegible] when local cows are responsible for the fact that Chino is one of the leading dairy centers of California. Sun baths for cows give them better teeth. With better teeth their health is better, they are able to munch more of Chino's sun-enriched alfalfa and consequently the quality of the milk produced is higher.

The bovines gain greater satisfaction chewing on their cud during and between meal hours and keep their moods [illegible] declared.

EXTRA VOW ADDED IN WEDDING RITE

LA CRESCENTA, July 8.—[illegible] ceremony in which the bride and groom not only plighted their troth to one another, but [illegible] pledged themselves to devote [illegible] to work in the mission field, was held here last night, when [illegible] Selma J. Scullin, 417 Ivy street, Glendale, became the bride of [illegible] Monrovia, at a service in the Four-Square Gospel Church. The ceremony was performed by [illegible] James Skellier. The bride and groom are students at the [illegible] Bible School and plan to devote their lives to the work of the church.

POSTAL BUSINESS GAINS

GARDEN GROVE, July 8.—Postal receipts at the local postoffice for the fiscal year ending June 30, 1929, [illegible] $[illegible], or 10 per cent according to figures given out by Postmaster Joel Head, local postmistress.

HELD AMPLE

Highlands and Highlands
Prendergast

[illegible] four miles long, forty-six feet wide for the needs of Redlands, according to J. J. Prendergast, president of the company, who came down from the mountains [illegible] keeps the fish healthy. Aside from going to the lake now would not think of it as being low on account of the fact that it is higher. It varies every year, though it is lower now than it has been and the new dam has been completed. One should realize that as high as it used to be in [illegible] days before the new dam was completed.

Not only is there fine fishing but motor boats and water sports, keeping a record crowd entertained. The water is beautifully clear. The reeds are gone and all this talk of a few [illegible] be forgotten. There is room for all people," he said.

Studebaker announces *a larger, finer* DICTATOR SIX

ONE HUNDRED AND FIFTEEN (115) INCH WHEELBASE

at a lower price $1298

fully equipped—Los Angeles

STUDEBAKER'S famous Dictator Six, the finest car ever built and sold at its price, now becomes a still finer car—offered at a still lower price!

Wheelbase of The New Dictator Six has been increased to 115 inches. It is fleeter, lower—smarter in line and color—smoother in its supple power—than its champion predecessor, The Dictator which sped 5,000 miles in 4,751 consecutive minutes.

Studebaker's unique One-Profit manufacture alone permits such a car to be sold at a price lower than that of any Studebaker closed car in history.

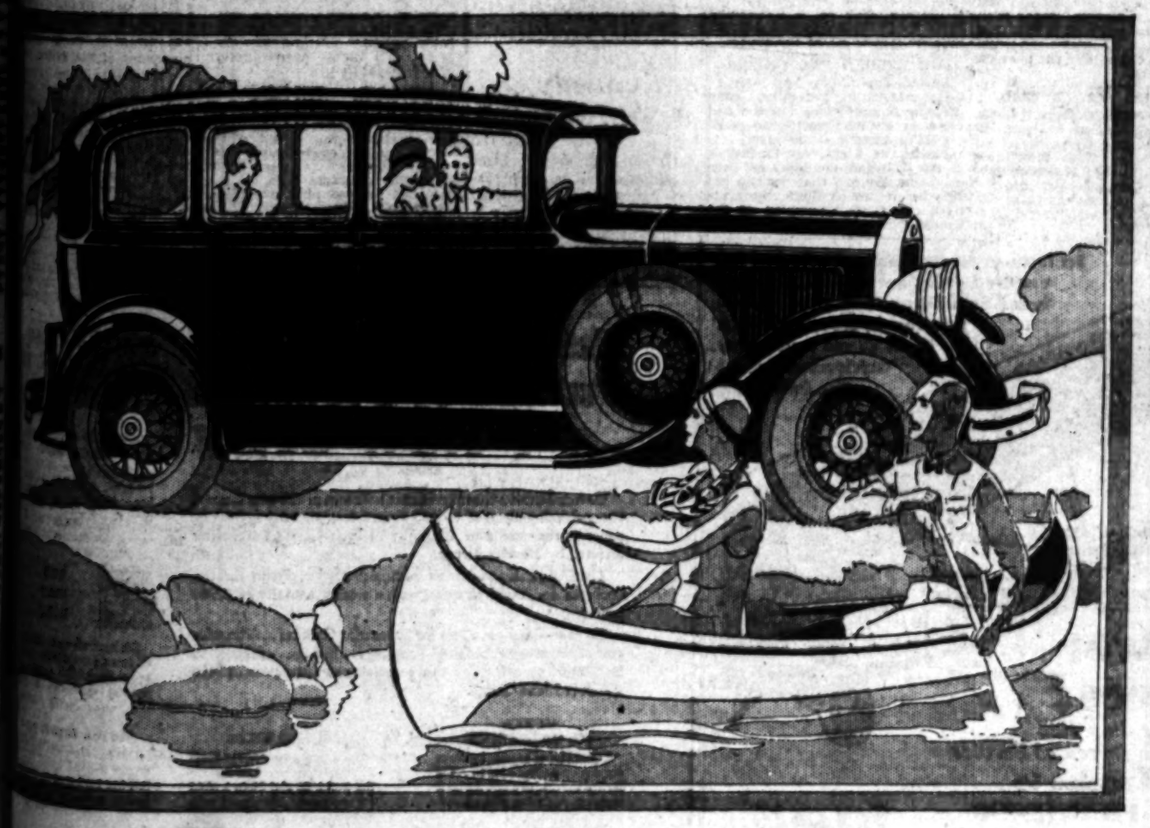
The New Dictator Six, companion to The New Dictator Straight Eight, is low-swung on a costlier double-drop frame which enhances security.

Power is remarkably smooth from idling to mile-a-minute motion, and beyond. Studebaker performance, which holds *every* official stock car speed and endurance record, is strikingly evident in The New Dictator.

Find a rough stretch and float over it with hydraulic shock absorbers to insure restful riding.

Take stock of The New Dictator's Interior—Studebaker fine-car quality is apparent wherever you look.

Come take the wheel of The New Dictator Six, or Eight. Whatever you drive now, you will be impressed with The New Dictator's champion quality, at its low price.



115-inch wheelbase.

Rubber engine mountings, and bronze-backed and babbitt-faced crankshaft bearings provide maximum life and smoothness.

Lanchester vibration dampener.

Oil filter, gasoline filter and crankcase ventilating system insure maximum engine efficiency.

Fuel pump insures constant, adequate flow of gasoline, regardless of speed or grade.

Thermostatically controlled cooling system retards flow of water until motor has reached precisely correct temperature for highest operating efficiency.

Timken tapered roller bearings in rear axle, front and rear wheels and steering knuckles.

Double-drop frame of new, compound flange—far costlier but sturdier, safer and permitting graceful lowness of body lines.

Hydraulic shock absorbers, front and rear.

Genuine mohair upholstery.

Upholstered arm rests at each side of rear seat, which is 46 inches wide.

Hardware of soft Butler finish, further beautified by an etched design.

Full-vision, full-ventilated bodies, of steel over hardwood foundation—the accepted fine car coachcraft.

One-piece steel core safety steering wheel.

Fully adjustable steering wheel and front seat.

Amplified-action 4-wheel brakes which stop The Dictator in half the distance accepted as standard.

Tarnish-proof chromium plating of all exterior brightwork.

Tilt-Ray headlights for added convenience and safety, controlled by switch on steering wheel.

Coincidental lock to ignition and steering assures Dictator owners lowest theft insurance rates.

Complete dash equipment including speedometer, hydrostatic gasoline gauge, oil pressure gauge, ammeter and engine thermometer, neatly grouped under glass and indirectly illuminated. Auxiliary floodlight to illuminate driving compartment.

The Dictator may be driven *40 miles per hour the day it is delivered*—the result of advanced engineering, precision workmanship and careful inspection.

MODELS AND PRICES

President Eight	$1785 to $2575	Commander Six	$1350 to $1525
Commander Eight	1495 to 1675	Dictator Six	995 to 1195
Dictator Eight	1185 to 1435	Erskine Six	860 to 1045

PRICES AT THE FACTORY

NEW DICTATOR SIX REGAL SEDAN—*Six wire wheels and luggage grid standard equipment—$1195.* DICTATOR SIX CLUB SEDAN—*$1035.* DICTATOR SIX FOUR-DOOR SEDAN—*$1095.* DICTATOR SIX COUPE—*$995.*
Prices at the factory. Bumpers and spare tires extra.

OFTEDAL MAY BE COLLECTOR

Dry Official in Line for Bay Revenue Post

Intelligence Service Fitted Him for Place

Appointment Indicated in Capital Circles

WASHINGTON, July 9. (AP)—The appointment of Alf Oftedal as Collector of Internal Revenue at San Francisco was indicated strongly today.

Oftedal, a former member of the Internal Revenue staff, is known to have wanted to return to the Internal Revenue Bureau from his position as deputy commissioner of prohibition.

Oftedal formerly was a member of the intelligence service of the Internal Revenue Bureau and did much field work which familiarized him with the duties of a collector of the Internal Revenue Bureau.

For years Oftedal was a special agent in charge of the intelligence unit on the Pacific Coast with headquarters in San Francisco and was supervisor of all prohibition activities in his area. He has served as assistant prohibition commissioner for two years.

NICE POST FOR HIM AT SAN FRANCISCO

Alf Oftedal

RIVER AIDE EXPECTED

PHOENIX, July 9. (AP)—John P. Gray of Idaho, special assistant to the Attorney-General of Arizona in the Colorado River controversy, will arrive here this week for a conference, according to announcement today by Atty.-Gen. Peterson.

Greet the new bills with a pocket fold that *fits!* Soon the older generation of bills will be gone and you can't have smaller bills rattling round in roomy folds!

BUXTON BILLTAINERS, two folds for old and new money . . . not a stitch anywhere to rip, pocket for cards. Brown, tan, black leathers. $3.50 to $12.50. Leather Goods—First Floor.

POSTAL DEFICIT BARS TAX SLASH

Treasury Surplus Canceled, Says Senator Smoot

Survey of Mail Service to Make Economies Ordered

Prospective Five-Year Loss Exercises Officials

WASHINGTON, July 9. (AP)—Prospects of huge Postoffice Department deficits during the next five years, disclosed today in administration circles, were cited immediately by Chairman Smoot of the Senate Finance Committee, to support his views that there could be no tax reduction this year.

President Hoover has ordered a survey of the postal service aimed at effecting economies and coincident with its initiation a general realignment in executive departmental duties was announced today by Postmaster-General Brown. Frederic Tilton, Third Assistant Postmaster-General, will conduct the survey, going over division by division to determine sources of the deficits and to ascertain means of economy.

HUGE DEFICIT SEEN

Mr. Hoover has been informed that an average annual deficit of $85,000,000 can be expected until 1935. This does not include expenditures planned for new postoffice buildings, which will bring the annual unfavorable balance to approximately $120,000,000.

Much tax reduction talk occurred after the Treasury revealed the fiscal year ended June 30, left the government with a $185,000,000 surplus. Chairman Smoot, whose Senate speeches generally are taken to reflect administration opinion, opposed a lowering of taxes at that time and today asserted the indicated postal deficits support his position.

DEMOCRAT OBJECTS

Senator Harrison of Mississippi, a Democrat on the Finance Committee, opposed adding postoffice construction costs to the deficit figures. He favors more government buildings.

After the Tilton survey it will be determined what can be done to reduce the threatened deficits. President Hoover regards the postal service as a business institution, the cost of which should be borne by those who benefit by it.

MAY MEAN RISE

Whether this means an increase in postal rates may be expected has not been made clear by the White House.

The Department has been showing steadily increasing deficits over the last five years. Figures presented to the President show a deficit in 1924 of $13,000,000; in 1925, $29,000,000; 1926, $99,000,000; 1927, $37,000,000; 1928, $32,000,000, and in 1929, $95,000,000. In addition to the $95,000,000 deficit noted for the last fiscal year the government has been ordered by the Court of Claims to make payments amounting to $42,000,000 to public carriers for back transportation of mail.

CHANGES IN STORE

Postmaster-General Brown today announced important changes in the postal service.

The division of rural mails will be transferred from the supervision of the fourth assistant Postmaster-General to that of the first assistant Postmaster-General; the division of postoffice quarters, excepting contract stations, from the supervision of the first assistant Postmaster-General to the fourth assistant Postmaster-General; contract stations, from the division of postoffice quarters to the division of postoffice service under the first assistant Postmaster-General; motor-vehicle service from the first to the fourth assistant Postmaster-General, and star route service from fourth to second assistant Postmaster-General.

Court Rebukes Society Beauty

SAN FRANCISCO, July 9. (Exclusive)—Efforts on the part of Mrs. Milo Abercrombie, twice divorced society beauty, to collect $3500 in asserted alimony arrearage from Lieut. Lyman K. Swenson, United States Navy, her second husband, brought her a sharp rebuke today from Superior Judge Shortall.

"I will not sign any such order," the court announced. "Mrs. Abercrombie is in contempt of every department of this court with which she has had any dealings. She has refused to allow Lieut. Swenson to see his children. As long as I am on the bench I have no intention of affording her relief unless she comes into court with clean hands."

DEFENSE OUTLINED ON NEW AUTO LAW

SAN FRANCISCO, July 9. (Exclusive)—Means to insure municipalities, counties, school districts and other political subdivisions against damages under the new automobile law, effective on August 14, next, were the subject of a conference of State and city officials today. The meeting, called by Alexander S. Heron, State Finance Director, voted to ask H. C. Bottorff, president of the California League of Municipalities, to appoint a committee of representatives of his own organization, school districts, county boards of supervisors and State officials to confer with the insurance companies.

SHE MURDERED TO KEEP REPUTATION

[P. & A. Photo]
Laura Weaver

GIANTESS NOT SORRY SHE SLEW

Weaver Woman Insists Fear of Past's Exposure Led Her to Murder

TOULON (Ill.) July 9. (Exclusive)—Laura Weaver, 21 years of age, 225-pound confessed slayer of her 52-year-old sweetheart, Wilbur Kitselman, sits in her cell in the little jail here and steadfastly refuses to express remorse. She reiterated her statement today that it was fear of Kitselman's revelation of her past life that led her one week ago to murder the man and afterward endeavor to burn the body.

Declaring that, despite the fact that her father is a well-to-do farmer, her life has not always been a "bed of roses," the Weaver woman is said to have told authorities here how, "going from bad to worse," she readily grasped at the opportunity when Kitselman "offered her a better chance."

However, she declared, that chance was not accorded her. Kitselman, she said, instead of giving her "that chance," virtually made life worse. On various occasions, the Weaver woman declared, when she threatened to leave Kitselman because he had beaten her, he told her that he would reveal their relations to her father. And it was his determination to do this, she said, that led to her slaying him.

After strangling Kitselman to death with his belt, the Weaver woman told police here, she wrapped the body in a blanket, loaded it in an automobile and took it to a field near Annaman, Ill., where she ignited it after saturating the blanket with naphtha.

MAJ.-GEN. COLE BURIED

SAN FRANCISCO, July 9. (AP)—Maj.-Gen. Eli K. Cole of the United States Marine Corps, was buried here today. The officer died the 4th inst. at the Letterman Hospital. Gen. Cole, who served in the marine corps for forty-six years, left his widow and a son. Funeral services were simple.

WORLD VOICING TARIFF PROTEST

Thirty-eight Notes Filed by Foreign Countries

Senate to Publish Sentiments of Alien Opponents

Democrats See Trade Lost in Higher Rates

WASHINGTON, July 9. (AP)—More than a score of communications from foreign governments expressing opposition to the House tariff bill will be made public tomorrow by the Senate Finance Committee.

The committee, now holding hearings on the measure, is receiving the notes of protest from the State Department as fast as they are delivered by the diplomatic officers in this city. Chairman Smoot, in a brief statement, said the communications were "similar in substance to former protests."

"Representatives of foreign countries," he added, "make public their grievances because Congress intends to impose a tariff against imports from those countries."

RESENTMENT DEEP

In Democratic quarters, however, the notes were described as representing a world-wide protest against the House bill. The Democratic National Committee office said it was "nothing new for foreign countries to register disapproval of tariff levies against their products, but never in the whole history of our tariff raising has resentment been so deep or universal."

The statement embraced a declaration of Senator Harrison of Mississippi, a minority member of the Finance Committee, that "there is today an impression throughout the world that this government has inaugurated an imperialistic policy in trade and commerce as baneful in its effect as an imperialistic war."

"There is hardly a European or South American country that has not made vigorous protest against the proposed increases carried in the House tariff bill," Harrison continued. "Up to date thirty-eight protests have been filed. The sentiment against us in Europe has reached such a magnitude that conferences have been called to devise some plan of retaliation against us."

TRADE LOSS FEARED

The Mississippi Senator closed his statement with a demand that the notes be made public, contending this nation was losing the "high position" attained in the World War "through this new imperialistic policy."

"The whole world is becoming angered at us," he said. "Canada, on the north, has been one of our best friends and customers. The same is true with Cuba and many of the South American countries, especially Brazil and Peru. If many of the present rates carried in the House bill are retained, our exportations to those countries will be further decreased and those markets may be completely lost to us."

Many of the notes which come principally from European countries, are understood to be merely expressions from particular industries in those countries which are able to get their views before this government only through diplomatic channels.

In such instances the governments act only as a forwarding agent for individual protestants and take no official stand themselves.

AIR RECORD RECOGNIZED

PARIS, July 9. (AP)—The International Aeronautic Federation today officially recognized as a new world seaplane altitude record the mark of 11,753 meters (38,569 feet) established by Lieut. Apollo Soucek of the United States Navy on June 4. Lieut. Soucek exceeded by 864 feet the record of 37,905 feet made by Lieut. C. C. Champion of the United States Navy two years ago.

DOCTORS TO WAR ON GASES

Medical Association Convention Authorizes Survey of Peril Caused by Poisonous Fumes

BY WATSON DAVIS
Managing Editor, Science Service

PORTLAND (Or.) July 9. (Exclusive)—The medical profession has been called into action to protect the public against its latest man-made menace, the toxic gases contained in mechanical refrigerators, and the older danger of carbon dioxide from automobiles and poisonous illuminating gases.

This growing menace caused the American Medical Association meeting here to order a survey of toxic gases of all sorts.

Complete physical examinations for all aviators were recommended by the delegates and a resolution urging examination of all automobile drivers for moral and mental fitness as well as good hearing and sight was introduced.

The practice of the American Red Cross allowing its nurses to work with chiropractors, osteopaths, and other medical cultists was condemned.

BIRTH CONTROL

Birth control and cigarette smoking aroused discussion.

The establishment of birth control clinics in connection with medical centers was urged in resolutions before the medical women's national association. Birth control is advisable, the women physicians declared, in order that better children be born, health of mothers be conserved and the widespread practice of abortion may be abolished. The resolution was introduced by Dr. Etta Gray of the Los Angeles County Medical Women's Society.

Charging that cigarette advertising is changing public opinion and adolescent physiology, enslaving boys and girls too young to make a wise choice, the women physicians condemned the propaganda of the tobacco producers. The tobacco question did not come before the legislative body of the association although agveral papers on scientific aspects of tobacco will be read before the technical sessions which open tomorrow.

REJUVENATION

The hope that glands can be transplanted from one kind of an animal to another, was further dissipated by unsuccessful interchanges of sex glands between mice and rats, reported by Prof. A. J. Carlson of the University of Chicago. Mice and rats are as closely related as monkeys and men or goats and men, Prof. Carlson said in explaining that the failure of all 300 of the attempted transplantations made by Dr. George Crysler in his laboratory does not offer much promise of successful rejuvenation of sexual function of human beings by borrowing of glands from other animals.

dent Harris, your committee desires to reiterate what has been said concerning the agitation on the subject of the high cost of medical care, but it especially desires to call attention to a fact often overlooked, that the increasing cost of sickness cannot be justly charged to the medical profession inasmuch as in a general way compensation for medical and surgical services has not increased in proportion to the increased cost of sickness occasioned by other contributing factors, nor has the compensation of physicians and surgeons increased to anything like the increase that has occurred in the cost of everything else. The committee recognizes that the cost of sickness may not be evenly distributed and may depend upon conditions over which the physician has no control.

"Competent and adequate service should be available to all, but the plan of distribution will require a continuation of constructive thought and especially in view of the fact that a plan that may prove adequate and satisfactory to one community may not do for another, and any proposed plan may have to be modified to suit certain conditions or certain communities.

"Your committee does believe that this whole subject should receive the serious consideration of the medical profession and that the problems confronting us in connection therewith must be solved by the medical profession and not by lay individuals or lay organizations."

LIQUOR DOCTOR HIT

The committee had been advised concerning the efforts of the Rockefeller Foundation and the Julius Rosenwald Fund to organize clinics [illegible] middle classes could be served at low rates.

The house of delegates also cautiously subscribed, in the following language of its committee, to the denunciation of the prohibition laws which had been delivered by President William A. Thayer of Baltimore:

"The committee specially commends and indorses the sentiments expressed by President Thayer concerning legislative enactments that are inimical to the best interests of the medical profession and public by restricting medical men as to what and what not shall be prescribed for the relief of human ills."

Dr. Harris in his inaugural address tonight traced the history of medicine to the days of the ancients and he upheld proudly the sustaining life of the anciently established and still sound code of medical ethics.

The President told of the great advances of medicine, how it had practically banished from the intelligent world the dread disease of plague, typhoid, smallpox, cholera, yellow fever and tetanus and had reduced the mortality rate from tuberculosis 60 per cent. Medicine has added a full ten years to modern man's lifetime, he said,

ETHICS DEFENDED

"All these have been accepted by the people with an equanimity amounting almost to indifference," Dr. Harris continued. "Little thought is given to the thousands of men whose lives have been spent and indeed, often sacrificed in toil and labor endeavoring to wrest from nature the great truths that have made these living conditions possible.

"Has it ever occurred to the people that not a single truth has been added to the science of medicine by the hordes of quacks and charlatans, by the faith healers, by the magic vendors, by the druglest practitioners and cultists, who by an advertising propaganda have spread broadcast tales of their marvelous knowledge and skill?

"The medical profession has been chided of late by the commercial world for its adherence to its principles of ethics. It is meet to mention, however, that the ethical and ideal faculties of the commercial world have been held in check by the superdevelopment of the faculty of cupidity, which seems to justify the means to the end.

"It is chiefly the press that has raised its voice the loudest against the principle of medical ethics that places a taboo on advertising by the physician. It is readily admitted that the lifting of the ban against advertising by the physician would result in a great financial gain to the press, but at the expense of demoralizing the profession and removing the most powerful barrier that now protects the public against the quack and charlatan and faker."

FEE SPLIT FORBIDDEN

The house of delegates today strengthened the ethical code making it unprofessional for physicians to divide fees or take commissions.

The delegates also voted to have all its members in large cities withhold permission for the use of their names in classified telephone directories if the directory publishers persist in a new plan to charge a $6 annual fee for the service.

Cud Exercise Helps Teeth, Expert Declares

Bay City Convention Hears Training Debated

SAN FRANCISCO, July 9. (Exclusive)—"Use your dentist's office as a service station, not as a repair shop," was stressed today as the first and foremost rule in care of the teeth by Dr. George H. Wandell of Chicago, supervisor of dental health education for the American Dental Association before the Pacific Coast Dental Conference.

"In dentistry, as in medicine, ideas are changing concerning the various diseases which present themselves," he said. "A few short years ago we used to think of the treatment of disease; now, the attention is focused on the prevention of disease. The greatest possibility for the prevention of dental diseases and to secure strong, healthy teeth in adult life is prevention practised in childhood."

Elaborating upon this subject, Dr. Wandell called attention to the diet of children, saying:

MUSCLES MAKE BONES

"The facial bones of a child are readily molded by all manner of forces. It is through the pull by the muscles upon the bones that the bones are shaped. Greater use of the muscles provides greater possibility of proper development of the bones retaining the teeth. For this reason, children should be fed food that requires chewing—not the soft foods easily swallowed without much teeth exercise.

"Leafy and green vegetables, fruits like oranges, apples, pears, whole-grain breads and cereals and a moderate amount of meat constitute a proper diet for children. Raw carrots are excellent, particularly after a starchy meal.

"In addition to diet, other childish habits should be watched. Sleeping posture, finger-sucking, mouth breathing all have their influence on the teeth. I do not believe a child should be taught to brush his teeth after every meal. We know that half of them won't do it. Better to stress the morning brushing and the very important evening one."

GUM PRESCRIBED

Dr. Wandell also explained a gum-chewing practice employed by many orthodontists—specialists in the art of straightening the teeth—to overcome the habit of non-use of certain teeth.

"These men prescribe a type of gum so as to teach their patients how to use their teeth in the act of chewing. Oftentimes there is found a lack of jawbone development caused by the disuse of the muscles of mastication. This disease probably occurs from the habit of eating foodstuffs which do not require chewing or is brought about as the result of a tooth ailment which at one time may have caused the individual to refrain from using certain teeth. Gum chewing, about which there has been much discussion pro and con, has proved efficacious in many instances."

DENTIST EDUCATION

Dr. Angelo Chiavaro of Genoa, Italy, guest lecturer, took issue with Dr. John E. Gurley, president, regarding the correct method of training would-be dentists. Dr. Gurley yesterday advocated a medical degree, followed by two years of dentistry as the proper education for a dentist and relegated the methods of present-day dentistry to the laboratory worker.

Dr. Chiavaro said:

"No man can learn all about dentistry in a mere two years' course. I see for the future a combined course, identical for both students of medicine and those of dentistry. Then we will send our dental students to medical faculties of universities for three or four years, so they may become fully conversant with dental laboratory work.

TEN-YEAR COURSE

"This will be followed by two years more of study in which the dental student will, like the medical interne, be given an opportunity to apply his knowledge to the clinical practice and business of life.

"Economically, this plan will be a 'two-in-one' proposition. Dental and medical students will be able to learn the medical fundamentals from identical faculty members. Also if the student finds at the end of his first years of training that dentistry is not for him and that he has made a poor choice he can follow into the medical course without the loss of years, time or money."

Ship Companies Worried by Curb on Disease Area

SHANGHAI (China) July 9. (AP)—The State Department executive order restricting the entrance of all persons into the United States from China or the Philippine Islands because of cerebro spinal meningitis in those countries was stated to be little understood here.

It is causing uneasiness among steamship companies operating in the trans-Pacific service since they fear that the order forbids all classes of travel from the countries concerned.

The Shanghai foreign health authorities today stated that the number of cases had declined in recent weeks.

Border Shooting Causes Surprise

WASHINGTON, July 9. (AP)—Treasury officials expressed surprise that Clarence G. Griffith withheld his fire in dealing with a Mexican attempting to make illegal entry into the country and permitted himself to be shot by the Mexican.

The officials pointed out that customs border patrolmen riding the southern border faced at all times desperate bands of persons and were expected to use their firearms in situations that demanded it. No report of Griffith's shooting had been received here today.

Neighbors!

Transportation by AIR has made the World small indeed!

Los Angeles and San Francisco become "Next-Door Neighbors"

This Morning at 8 o'clock—with

Col. LINDBERGH as Pilot,

a Plane of the Maddux Division of the Transcontinental Air Transport, carrying the UNITED AIR EXPRESS, will leave Los Angeles for San Francisco - - It is a matter of Pride with the Innes Shoe Co. that this plane will carry a Rush Delivery to a customer of ours in San Francisco, who will receive her shoes before NOON TODAY!

FINANCIAL

UTILITY INCOME GIVEN FOR YEAR

Pacific Lighting Corporation Tells of Operations

Consolidated Net for Period Set at $7,245,070

Rate of Earnings on Common Outstanding $5.45

Consolidated net earnings of the Pacific Lighting Corporation and subsidiary companies for the twelve months ended May 31, last, totaled $7,245,070 after all charges including depreciation, amortization of discount and dividends on preferred stocks of subsidiary companies, it was announced yesterday by the company. No statement was issued at this time last year with which an equitable comparison can be made. The statement includes earnings of the Southern California Gas Company only from May 1, 1929.

After providing for dividends on the preferred stock of the Pacific Lighting Corporation, there remained a balance of $6,645,802.68, equivalent to $5.45 a share on the average amount of common stock outstanding during the period covered by the report, or 1,219,429 shares.

The last statement issued by the company and covering the twelve months closed March 31, last, revealed a net profit after all charges of $6,594,568 which, after preferred dividends, was equivalent to $5.08 a share on the average amount of common stock outstanding.

After providing for common stock dividends amounting to $3,872,938 there was carried to surplus a balance of $3,072,954. The balance carried to surplus as of March 31, amounted to $2,814,365.

Gross revenues for the twelve months reached a total of $34,182,-293. Gross revenues for the year closed March 31, 1929, amounted to $32,014,948.

Operating expenses totaled $14,-964,318 and taxes, $3,261,927, leaving a net profit before interest of $17,626,345. Interest charges amounted to $3,352,625, depreciation, $4,342,997 and amortization $330,282.

Powell Long in Title Service

W. W. Powell, vice-president and trust officer of the Title Insurance and Trust Company, is today being congratulated by his many friends throughout trust company circles upon the completion of his thirtieth year in the service of the title and trust institution.

Joining the company as a young man on July 10, 1899, Mr. Powell became affiliated with the title insurance department. From 1906 to 1918 he was in charge of the company's Pasadena office, transferring in the latter year to the trust department. In 1920 he was elevated to the position of vice-president and in March, 1923, was appointed trust officer. During the six years since Mr. Powell has been the active head of the trust department.

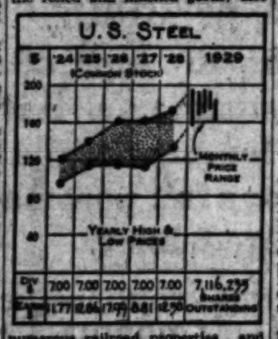
WHAT'S BEHIND YOUR STOCK

UNITED STATES STEEL CORPORATION

The United States Steel Corporation is the leading iron-and-steel producer in the world. It controls its output from the raw material to the rolled and finished goods; also



numerous railroad properties and extensive floating equipment.

In April, 1929, stockholders of the company approved an increase in the authorized common stock from $783,321,000 to $1,250,000,000, and stockholders were offered $100,860,-900 new stock at $140 in the ratio of one share for each seven shares held.

Reflecting th ehigh degree of prosperity in the industry, net income for the first quarter of 1928 was $42,185,400, nearly double the $21,531,900 reported in the 1928 first quarter.

CAPITALIZATION

Funded debt (Par $100) $410,346,415
Preferred stock (7% cum.) 211,281,100
Common stock (Par $100) 711,281,100
Current data: Shipments in Mar. 1929, have been reported as reaching a new peak and were estimated at approximately 1,600,000 tons.

Pacific Bank Elects Smith

E. M. Smith, chairman of the board of directors of the Pacific National Bank of Los Angeles, was elected president of the bank to fill the vacancy caused by the recent resignation of Thomas A. Morrissey, it was announced yesterday afternoon following a directors' meeting. Mr. Smith will continue as chairman of the board.

He was president of the bank when it was organized in 1923 and remained in that position until February, 1926, when Mr. Morrissey became president and Mr. Smith was elevated to the position of chairman of the board. Mr. Smith is president and principal owner of the Emsco Derrick and Equipment Company.

Coast Counties Gas Profits Up

Net earnings of Coast Counties Gas and Electric Company, a subsidiary of the Pacific Public Service Company, totaled $21,710 for the month of May as compared with $18,731 for the preceding month and $19,208 for the same month in 1928, according to a statement released yesterday.

Operating revenue for May amounted to $189,557 against $169,-539 for the preceding month and $172,370 for the same month in 1928.

GROUP OF HONOLULU BANKS IN COMBINE

SAN FRANCISCO, July 9. (Exclusive)—Merger of the First National Bank of Honolulu, Bishop & Co., First American Savings Bank and the Army National Bank of Schofield Barracks of Honolulu into the Bishop First National Bank of Honolulu was announced today The Bishop Co., Ltd., has been organized as a holding company and its paid-in capital is to be increased to $3,250,000, represented by 167,500 shares of $20 parity.

OIL RECTIFIERS DECLARE INITIAL

D. C. Norcross, president of the Petroleum Rectifying Corporation, announced yesterday an initial quarterly dividend of 35 cents per share on the company's stock, payable August 1 to stockholders of record the 15th inst. The company has 120,000 shares of stock outstanding, on part of which public offering was recently made.

PACIFIC FINANCE EXPANDS

Future Growth Believed Assured Through Development of New Lines of Operation

BY DOUGLAS A. McKAY

Pacific Finance Corporation through the development of lines of business other than automobile sales financing, is now making available its large reserves of liquid capital for the financing of accounts receivable of a number of various Pacific Coast industries and merchandising houses that is destined to play an important part not only in the community, but in the future earning power of the company.

The corporation through extending its activities into other lines of financing is cutting into the large portion of western financing conducted by eastern companies, which are, in many cases, not thoroughly conversant with conditions here nor properly equipped with branch offices. This would have a tendency to keep circulation on the west coast.

The importance to the Pacific Finance Corporation is seen in the fact that in a few months time its new divisions, based on the first five months of operation this year, are doing an annual business of approximately $27,000,000. These lines include dairy cattle, commercial, mercantile and aircraft divisions. In addition, the company through its wholly owned subsidiaries, Rule & Sons, Inc., and the Elliott-Horne Company, is engaged in a general insurance and investment bond service.

The aircraft division makes it possible for individuals and commercial organizations to buy machines on the deferred payment plan and enables the dealer to realize 100 per cent cash on every sale through purchase of his contract. It also finances carload factory shipments for the distributor.

The dairy cattle division performs similar functions for the dairymen and the cattle dealer. This section recently took over the Los Angeles Cattle and Loan Company and has since been joined in an operating association, by Rhoades & Rhoades, said to be the oldest livestock auction house on the Coast.

The commercial and mercantile divisions finance accounts receivable, which includes the many luxuries and labor-saving devices now sold on the installment plan. Installment financing, which in recent years has reached huge proportions for the country as a whole, has been conducted on the Pacific Coast mainly by eastern organizations.

The recent advance of Pacific Finance stock to a new high at 120 1-2 on the Los Angeles Stock Exchange has led to a number of rumors of a stock split-up. O. Rey Rule, executive vice-president, stated yesterday that directors have not discussed anything of this nature and expressed the opinion that the action of the stock was probably due to the expectation of a favorable earning statement. While a half-yearly report has not yet been prepared, he stated gross business for the first six months was at an annual rate well over $100,-000,000, which compares with $75,-000,000 in 1928 and $56,000,000 in 1927.

Two New Issues on Mart Today

Included in the new financing to be offered publicly today for distribution on the Pacific Coast are issues of public utility and banking securities. A syndicate headed by Kidder, Peabody & Co., and the N. W. Harris Company and including Mitchum, Tully & Co., and others, is marketing a $15,000,000 issue of $3 Class A convertible stock of the Commercial Credit Company, a pioneer in the receivable banking field. The stock is priced at $50 a share to yield 6 per cent and is convertible at $55 per share into common stock.

Diversified Investments, Inc., is tendering through the N. W. Harris Company, Guardian Detroit Company and Telephone Bond and Share Company 8500 shares of 7 per cent cumulative first preferred stock of $100 par value, priced at 103 and accrued dividend to yield about 6.80 per cent. The corporation controls through stock ownership a number of prominent independent telephone companies in the Middle West and has investments in companies affiliated with the telephone business.

Melvin Added to Richfield Staff

Bradford M. Melvin, San Francisco attorney, has been elected vice-president, secretary and general counsel of the Richfield Oil Company of California, James A. Talbot, chairman of the board, announced yesterday.

Mr. Melvin has been senior member of the law firm of Melvin & Sullivan, and has been looked upon as one of San Francisco's outstanding attorneys, especially in the field of corporation law. He was formerly assistant City Attorney of San Francisco, and was attorney for the Pacific department of the General Electric Company, and the Fidelity and Deposit Company of Maryland.

APPOINTMENT ANNOUNCED

Hartley Rogers & Co. yesterday announced that Paul E. Combs has joined their house and has been assigned to take charge of the Southern California distribution of Insuranshares Certificates. Insuranshares Corporations, which acts as fiscal and selling agent for investment trusts and companies dealing primarily in insurance and bank stocks is the second largest investment trust of its kind in the United States.

ILLINOIS UTILITY NET UP

CHICAGO, July 9. (Exclusive)—Illinois Power and Light Corporation in a report issued today showed net income of $6,303,532 for the twelve months ended May 31, last, as against $4,657,187 for the preceding twelve months. Gross earnings totaled $36,315,671, against $32,197,-902.

Western States Life Insurance Honors Hawley

At the regular directors' meeting of Western States Life Insurance Company held yesterday afternoon John V. Hawley, who has been associated with the company since it began business in 1911, was elected as vice-president.

Hawley's elevation to this post, according to members of the directorate, was in recognition of his long and efficient service. He has advanced successively from the post of cashier in a branch office of the company to his present position through various phases of the organization. Since 1919 Hawley has been secretary and treasurer of the company.

At the same meeting James K. Lockhead, vice-president and director of the American Trust Company, was elected a director to succeed Paul C. Davies. The directors declared a dividend of 50 cents per share on the capital stock payable to stockholders of record the 9th inst.

Anglo National Tells Profits

Ne income of the Anglo National Corporation, organized last December and which became operative early in January of this year, totaled $421,567.89 up to the 2nd inst., Herbert Fleishhacker, president, announced yesterday. Interest and dividends received totaled $301,573 and other income, $126,097.95. No allowance was made for market appreciation of holdings.

The Anglo National Corporation at the time of its organization acquired approximately one-quarter interest in the Anglo and London Paris Company, a substantial or controlling interest in ten California and Pacific Coast banks, and an investment interest in ten other banks and the Pacific National Agricultural Credit Corporation. Since then the corporation has completed a number of other bank affiliations throughout the State.

Plan of Wabash Railroad Fought

WASHINGTON, July 9. (AP)—The Chesapeake and Ohio Railroad today filed a brief with the Interstate Commerce Commission in opposition to the application of the Wabash Railroad to have hearings held jointly on consolidation plans of four railroads

The Chesapeake and Ohio requested the commission to deny the Wabash application and declared that the Chesapeake and Ohio application should be held separately. The application of the Wabash requested the commission to have hearings at the same time on the applications of the Baltimore and Ohio, Chesapeake and Ohio, Nickel Plate and Pittsburgh and West Virginia.

Chapman's Ice Cream Sales Up

Gross sales of Chapman's Ice Cream Company for the first six months of this year aggregated $284,030.84, an increase of $47,562.90 over the same period in 1928, it was reported yesterday in a statement by A. A. Comey, president.

Sales for June reached an all-time monthly record of $73,600, an increase of $36,530.25 over June, 1928. With the scheduled opening of two additional stores, the company will have a total of twenty-two units in its chain.

RUDE ELECTED BY CREDIT EXECUTIVES

Chester A. Rude, vice-president of the Citizens' National Trust and Savings Bank, was elected second vice-president of the Robert Morris Associates, a national organization of financial credit executives, at the annual meeting held at Lansdowne, Pa., it was announced here yesterday. This election places Mr. Rude in line for the presidency two years hence.

PROFITS OF MOTION PICTURE CAPITAL UP

NEW YORK, July 9. (Exclusive)—Motion-Picture Capital Corporation today reported for six months ended June 30, last, net income of $945,629 after charges, equal after preferred dividends to $4.52 a share on 212,-073 common shares, as against $86,-099 or 35 cents a share in the 1928 period.

BOND PRICES LOWER

The average price of forty high-grade bonds has declined approximately 8 points from the high of 94.75 scored last May to approximately 87 at the present time, according to the July bulletin issued yesterday by Bowes Brothers & Co. At the same time equities back of the bonds have shown substantial increases as a result of the larger amount of common stock financing and net earnings are generally running ahead of 1927, thus strengthening the position of the bonds, it was pointed out.

INVESTMENT UNIT TELLS OPERATIONS

Gross Profits of North American Company Given as $984,728 in Year

North American Investment Corporation yesterday reported gross profits of $984,728 for the twelve months ended June 30, last, and net profits available for dividends after taxes, interest and amortization of $734,796, equal after payment of $135,017 for preferred dividends to $14.68 a share on 40,898 common shares.

The corporation carried $496,927 to surplus after preferred and common dividends amounting to $237,-868, which brought the surplus as of June 30, last, to $767,799.

Appreciation in its portfolio over cost was shown at more than $35 a common share. Bond interest was earned 3.89 times and preferred dividends, 5.44 times. Net tangible assets June 30, last, were $46.36 for each $1000 bond and $247 for each $100 par preferred share. The common shares showed a book value of $113, up $13 for the twelve months.

Classification of investments on cost basis showed 11.04 per cent in bonds, 2.40 per cent in preferred stock, 72.95 per cent in common stock, and 13.61 in cash and call loans. Common stocks were diversified as follows: Railroad, 7.16 per cent; utilities, 19.66 per cent; industrials, 23.04 per cent; banks and trust companies, 14.89 per cent; insurance, 9.22 per cent; metals and oils, 8.68 per cent.

The corporation had 1500 stockholders June 30, last, as compared with 575 at the beginning of 1928.

Land Project on Financial Basis

Successful refinancing of San Joaquin delta region lands to the extent of $2,400,000 through the substitution of corporate finance for the reclamation district type was announced yesterday by William R. Staats Company and E. H. Rollins & Sons, investment bankers, who engineered the project.

After six months' work on the part of the investment bankers who were the original underwriters, the bond-holders have accepted a plan whereby the district bonds are being exchanged for twenty-year 6 per cent first mortgage bonds. Thus the threatened default has been avoided.

Australia Trade Status Improves

SYDNEY (N. S. W.) July 9. (AP)—Although Australia is at present passing through a period of economic depression, the latest trade figures for the financial year ended June 30, last, indicate conditions are improving. The commonwealth statistician reports the balance of exports over imports in the past year approximately $25,000,000, which reversed the balance of trade in 1927-28, when imports exceeded exports by almost the same amount.

Arizona Cotton Returns Higher

PHOENIX, July 9. (AP)—The value of the 1928-29 cotton crop of Arizona will reach between $17,000,000 and $18,000,000 upon consummation of all sales transactions soon, it was announced by H. E. Thompson, Arizona Pima Cotton Growers' Association official.

Last year's business exceeded by more than three times the volume handled in any previous year and sale of the 1929-30 crop has already been made in eastern markets, Thompson said.

DEPARTMENT STORE MERGER DEAL OFF

NEW YORK, July 9. (Exclusive) Due to difficulties of an organizational nature, the proposed acquisition by National Bellas Hess Company of the common stock of Interstate Department Stores, Inc., is now considered impractical to consummate, managements of both concerns announced today.

COTTON MARKET

NEW YORK, July 9. (AP)—Reports of increasing boll weevil activity as a result of recent showers in the South and a feeling that the technical position of the market had been improved by the selling which preceded yesterday's government acreage figures, were reflected by further covering in the cotton market today. Some trade and commission-house buying was reported on the advance, but demand tapered off as prices approached the 18¾ per cent level for October and there were partial reactions later.

The mid-afternoon market was quiet, but steady at net advances of about 14 to 15 points on the new crop months.

WORLD PROBLEM STATED

International Chamber of Commerce Told Balanced Industrial Output Paramount Question

BY JOHN F. SINCLAIR

[Copyright, 1929, by North American Newspaper Alliance.]

NEW YORK, July 9.—When Magnus H. Alexander, president of the National Industries Conference Board, spoke before the International Chamber of Commerce at Amsterdam yesterday he made this statement:

"Production capacity in various industries the world over has increased to a point where a balanced output, which is the basis for stable industrial activity, has become a paramount world economic problem."

This New York business leader went on to say that production alone creates purchasing power. So all the industries in the world could not possibly produce too much, for each product in effect should be in demand for other products.

But one important factor always has to be kept in mind, and that is how to correlate and exchange production "in a well-balanced market."

Mr. Alexander holds that only by proper co-ordination of production and the proper balancing of the various economic activities are stable conditions produced.

At its best, therefore, the world needs facts—definite, concrete, simple authoritative facts. Then the problem of exchanging one article for another should be a simple matter indeed, did not national boundary lines interfere. For tariff walls which obstruct and prevent the free exchange of goods from one nation to the other always stand as a threat to world prosperity.

So in the end the problem of the tariff is, at best, the problem of civilization.

Who is Stuart Chase, whose business writings in recent years have commanded such wide attention?

Mr. Chase was born in Somersworth, N. H., forty-one years ago. After graduation from high school he became a student at the Massachusetts Institute of Technology. He transferred to Harvard, specialized in accounting and economics, became one of Prof. W. Z. Ripley's "bright" boys and was graduated "cum laude" from Harvard in 1910.

For the next few years he was a partner in a firm of public accountants, with headquarters in Boston. But commercial work as such did not appeal to him. So he resigned and became a special investigator for the Federal Trade Commission, centering his studies on the meat industry. During this time he had occasion to study the wastes and inefficiencies of the industry. In 1922 he resigned from the Federal Trade Commission and became an expert adviser with the Labor Bureau, Inc., of New York.

Since that time Mr. Chase has published several well-known books, including "The Tragedy of Waste" and "Your Money's Worth," both of which commanded national attention.

Mr. Chase is a product of the new school of economic thinking. He is slightly under average in size, weighing about 140 pounds, is dark complexioned, athletic and muscular. He stays in the city as few hours as he can, and his youthful, tanned face shows much of the outdoors.

"I have always been interested in balance sheets," he remarked to me. "That's the auditor's life. If you tie that up to the significance of assets and liabilities you immediately enter the field in which I have written most extensively.

"No, it is not hard work. Nothing is hard when you like it. Balance sheets are just as interesting as novels. The trouble with most people is that they don't understand them. If they did they'd all be reading them."

GRAIN EXPORTS DROP

WASHINGTON, July 9. (AP)—Grain exports from the United States last week were 1,823,000 bushels, compared with 1,919,000 for the previous week and 600,-000 for the corresponding week last year.

New Investment Securities Unit in Local Field

Organization of the Ferguson-Smith Company, Ltd., for the underwriting and distribution of investment securities was announced yesterday by Harold G. Ferguson, president of the Harold G. Ferguson Corporation, and Linton R. Smith, formerly of the James R. Martin Company. Offices of the new concern are located in the Great Republic Life Building.

Mr. Smith, who has been associated with the James R. Martin Company for more than twelve years, will be in general charge of the operations of the new company. He is a director of the Harold G. Ferguson Corporation, Hal Roach Studios, Inc., and Producers Engineering Corporation.

He is a special lecturer on investment securities at the University of Southern California and is president of the University Club of Los Angeles. Mr. Smith is also a director and trustee of the Hollywood Post of the American Legion.

Profits to Bank Employees High

Distribution to employees of the Bank of Italy, during the past four and one-half years, of more than 100,000 shares of Transamerica Corporation stock, with present value in excess of $13,500,000, is tangible evidence of the progressive success of the employees' extra compensation plan of the Bank of Italy, whereby 40 per cent of the net profits of the bank are semiannually set aside for employees, officials of the bank declared yesterday.

During the six-months period just closed, the 40 per cent which went to employees of the bank amounted to $1,148,564. During the same period, employees received cash dividends to the amount of $74,059 and stock dividends of $117,-695 on Transamerica stock already owned. On the 25th inst. another dividend will be due which is not included in the figures just quoted. This will amount to $101,307 in cash and $136,759.05 in stock.

REMINGTON RAND HEAD OPTIMISTIC

NEW YORK, July 9. (Exclusive) W. F. Marrill, president of Remington Rand, Inc., told stockholders at their annual meeting today that operations for the first quarter were running ahead of last year and that profits would be considerably better than the same period of last year. "We are making splendid strides as a result of the recent reorganization. I see no reason why earnings for the current fiscal year should not be very much better than for the year just closed," he said.

UTILITY PROFITS HIGHER

Eastern Minnesota Power Corporation, a subsidiary of People's Light and Power Corporation, reported yesterday gross revenues of $278,085.71 for the year ended May 31, 1929, as compared with $252,-979.17 for the preceding twelve months.

HESITANT ON STOCK

Recent Favorable Bear

Bulls Shift to New

Tight Credit Unsettles

NEW YORK, July 9. (AP)—Hesitancy among leading stock market factors was attributed to a score of banks up to record levels.

Firmness of call money, held at 9 per cent, and on the verge of going higher, time was considered particularly as 6 and 7 per cent loans were still reported in the market's range.

The firmness of money was still reported largely due to selling by banks to pay for year-end loans. Call money loans were called, but as the year-end approached, money market experts were hourly expecting a sharp advance in rates. Some of the leading banks were reported to have increased their call money rates to 10 per cent.

American Can rose 4 points to a new high record for the year, selling at 119 per cent.

American Can was the only one of the leading issues to show any material gain. Motor shares, which have been the strongest group in recent months, were unable to register a new peak in a quiet market, with a slight decline in trading affected this group, owing to the coming week end.

Columbian Carbon, Kelsey Hayes, Lee Rubber, Liggett & Myers Tobacco, Montgomery Ward, American Machine & Foundry made wide gains, the latter reacting new high ground, and received renewed attention.

(Continued on Page 5, Column 5)

In purchasing capital stocks, look first to the calibre of the management and you will find that profits will take care of themselves. Note how well this rule applies to International Reinsurance Corporation.

International Reinsurance Corporation

BACKED by unusually powerful management, including interests affiliated with the Pacific Mutual Group and by strong financial interests, the growth of this Corporation has been unusually rapid. Directors include the following well-known men:

CARL M. HANSEN	O. REY RULE	E. J. NOLAN
GEORGE M. WALLACE	JAMES R. PAGE	W. P. JEFFRIES
STUART O'MELVENY	C. SUMNER JAMES	D. C. McEWEN
FRED S. ALBERTSON	P. D. PLUMB	D. E. C. BOOTH

Reflecting this outstanding management, net premiums written during the 10 months since organization amounted to nearly 2½ times the anticipated volume of the entire first year. Earnings are highly satisfactory and the future growth of the company should be rapid. As in the past, we continue to recommend this strong investment stock, and will be pleased to execute orders on the Los Angeles Stock Exchange.

We have compiled a new four-page analysis of this important corporation for distribution without charge. Send name and address below for a copy.

NEW YORK BOND PRICES

NEW YORK, July 9. (AP)—The American Telephone convertible 4½ per cent debenture was the bond market's star performer today, making a net advance of 3 points to 101 in reflection of the stock's gain. Turnover in this bond, which on January 7 last was exchanged for stock at $190 a share, approximated $1,800,000, or about one-fourth of the total market volume.

Other share privilege issues were mostly higher. International Telephone 4½s jumped 2½, recovering yesterday's decline, and Reading Coal & Iron 6s showed a net gain of 1¾, finishing at 98½. Railroad convertibles traded in only moderate volume, the Atchison 4½s yielding fractionally while Baltimore & Ohio 4½s and Missouri Pacific 5½s moved up nominally.

Other listed obligations found a generally narrow market, although the price trend as reflected in the averages was upward. Secondary rails and industrials made the best improvement. Rock Island 4s, and the St. Paul issues advanced a point.

First-grade rails showed an even distribution of small gains and losses.

United States government obligations resumed their steady climb under the leadership of the Liberty 3½s, which gained about ⅛. Foreign bonds were firm and without important changes.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices in the order given. To expedite transmission, the closing is omitted when the same as the low, but both low and close when same as high.

SAN FRANCISCO

SAN FRANCISCO, July 9. (AP)—Sudden upward moves by a few market favorites in the last half hour of trading furnished a fairly strong close to what would otherwise have been an irregular market on the San Francisco Stock Exchange today. An uncertain tone was in evidence at the opening as continued through the greater part of the session. Last-minute strength enabled many of those which had receded to recoup in part and get back within fractional distance of the preceding day's closing levels. California Packing was a case in point, Preferred Tractor was a case in point. Preferred, up 2 points at 64½, but it closed at 64¾, off ¼.

Paraffine's activity developed late in the day and it advanced rapidly to 84½, with 1,400 shares of it on good volume. Golden State Milk rose ¾ to 54½. John Bean at 80, California Packing at 78, Oliver Filters B, at 30¾, and Crown Zellerbach common at 18¾ closed fractionally higher. Mercantile American Realty 6 per cent preferred at 98½ was up ½.

Ludlow dealt at 20¾ and Byron Jackson at 36¾, were down 1 point each. Avis, Inc., Corporation of California was off ½ at 24½, and Transcontinental Air was off at 11½. Other fractional losses were chalked up against Emporium at 34½, Union Sugar, which at 18¾ was down per 1 pound. A new low was also touched by El Dorado Oil Works at 6½.

Pacific Public Service 1st Pfd the utilities with an advance of ¼ to another new high at 21¼. Pacific Lighting common gained ¼ to 74¾, Pacific Gas & Electric common dipped ¼ to 67 after touching 68½. Gas Preferred was steady at 24½, as did the North American issue at 26½. Shell of California Tidewater common fell off ¼ at 20, and Shell Union 6 at 27½. Standard Investment at 73½ and Richfield was off ¼ at 41½.

In the radio section Kolster dipped ½ to 27½ and Kolster Radio were off 1 cents at 94.25.

Transactions closed at 1385¾. Down ¼. Atlas and Lomas & Parts was steady at 30.

Total sales: Stocks, mine: shares, 31,744; market, Fulton, 81,347.

CHESS MATCH ARRANGED

WIESBADEN (Germany) July 9. (AP)—Alexander Alechine, famous Russian chess master, has accepted the challenge of E. D. Bogoljubow of Russia, for a world champion chess match beginning September 5. Both agreed to essentially the same rules as were followed at the Buenos Aires world tournament.

An Industrial Giant of the West
BYRON JACKSON COMPANY

As the outgrowth of a business founded in California in 1872, Byron Jackson Co. has become one of the leading manufacturers of pumps and similar equipment in the United States, distributing its products in many foreign countries. Consolidated net earnings during the first 3 months of 1929 showed an increase of 50% over the same period of 1928.

Company has only one class of stock outstanding and no funded debt. It has maintained an unusually liberal policy toward its stockholders, having paid a 100% stock dividend on March 1, 1929, and at the same time advancing the dividend rate to $2.00 per share per annum on the new stock (or $4.00 on the old).

This past record and present prosperity indicate an attractive future for this Company's stock, which is listed on the Los Angeles and San Francisco Stock Exchanges.

LOS ANGELES EXCHANGE

Market Price Fluctuations Narrow as Trading Activity Holds Slackened Pace

Although a greater activity was evidenced among oil securities, the general turnover of yesterday's session on the Los Angeles Stock Exchange again held to quiet levels as the market manifested no tendency to move one way or the other. No changes of consequence were recorded and prices ended the day in an irregular manner with only fractional gains and losses.

Union Oil and Union Associates transferred in a brisk fashion probably stimulated by the publication of a favorable earning statement. The former advanced 1-2 point to 48 1-4, while the latter eased 1-4 to 47 3-4. Rio Grande was more active than usual and firmed up 1-8 to 30. Richfield dropped 5-8 to 21 1-4. Standard of California at 73 1-2, was down 1-2.

Southern California Edison performed briskly and added 1-4 to end at 64 1-8. On the industrial board Emsco and Globe Grain strengthened fractionally, while Douglas eased 1-8 to 35 7-8, and Byron Jackson yielded a full point to 37. Security-First National Bank dropped 1 1-4 points to 126 3-4, while California Bank advanced a point to 123.

Sales totaled 835,205 shares, valued at $733,259; previous day, 34,904 shares valued at $639,565.

Grain Futures Turn Lower on Bearish Market

CHICAGO, July 9. (AP)—Sellers far outnumbered buyers of wheat in the late dealings today and prices tumbled down 1¾ cents, together with some payments of moisture tonight both north and south of the Canadian line, tended alike to stimulate selling and curtail demand toward the last, would-be purchasers meanwhile apparently holding off to await United States and Canadian government crop reports due tomorrow.

Closing quotations on wheat were nervous, 2¼@2⅞c under yesterday's finish. Corn closed 1¼@2¼c net lower, oats ⅝@1⅛c off and provisions varying from 3c decline to a rise of 3c.

Although today's advices from the spring wheat belt northwest continued to tell of ill-starred crop conditions, the plants in widespread districts fired and dying, with farmers plowing the wheat under; many traders leaned to the bear side of the market and effects of numerous standing orders to sell on advances in price were much in evidence.

Notwithstanding that for at least the time being the drought gave appeared to be of less influence than has been the rule of late, good absorption of offerings kept the market two-sided and fluctuations rapidly, with rallies frequent until near the end of the day. Then liquidation grew plain that aggressive buying support had given out and a general rush of selling set in. Big receipts of newly harvested wheat southwest, with relative slowness of milling and export demand, were an evident factor in putting a damper for the moment at least on enthusiasm for higher prices.

Corn and oats weakened with wheat. Commission-house buying of lard gave firmness to the provision market, despite downturns in the value of hogs.

LOS ANGELES MARKET

CATTLE—A fair supply, mostly steers, was on hand yesterday. Offerings included 382 head of cattle, mostly steers, held over from Monday, and only about 100 fresh arrivals, mostly odd head and small lots of dairy types recieved. Demand was not very active for steers and values were slow and about steady. A good clearance was made of the she stock supply at steady to strong prices. Other classes ruled steady.

Three loads of medium 903 to 1000-pound heifer steers sold from 10.50@11.25, while odd lots of common steers were noted down to 8.50.

Odd head of heifers cleared from 9.50@10.00, while odd head and small lots of cows, including dairy types, cashed from 6.50@8.50. Common and low medium cows were in small supply from 6.00@8.25, including part loads at 7.50@7.85. Cutters and low cutters turned from 2.75@3.50. A few medium bulls sold from 7.50@8.00 with common kind around 6.00.

CALVES—Offerings were limited to odd head and small lots of calves and vealers that sold at steady prices. Odd lots of calves and vealers cashed from 10.00@13.00, with a few vealers up to 14.00 and better.

HOGS—No loads of butchers were offered, the supply being limited to odd lots o fstock-ins. The general market was quoted steady to strong or around 10c higher for good and choice butchers. Odd lots of 140 to 210-pound truck-in butchers cashed from 12.00@12.50. A few packing sows sold from 8.50@9.00.

SHEEP—The general market was quoted around steady. Lamb offerings consisted of a stable lot of common to good weights at 12.00@13.00, and steady lots of cull and common 71 to 75-pound weights at 10.00. A small lot of 94-pound wethers made 10.00, while a short clean lot of medium 118-pound shorn ewes turned for 8.10. Strictly choice lambs were quoted up to 14.25, with choice lightweight shorn ewes up to 8.25. Two short decks of lambs and wethers held over from Monday were still unsold.

YESTERDAY'S QUOTATIONS

Slaughter cattle and calves: Steers, 1100 to 1300 pounds, good, 11.75@12.50; 1100 pounds, good, 11.50@12.00; 900 pounds up, medium, 10.50@11.50; common and medium, 8.50@10.50. Heifers, 750 pounds down, good, 9.75@11.00; common and medium, 8.50@9.75. Cows, good, 8.00@9.50; common and medium, 6.50@8.00. Calves (steer and heifer), 2.50@6.50. Bulls (yearlings excluded), good, beef, 8.25@9.50; cutter to medium, 6.50@8.25. Calves, 500 pounds down, medium to choice, 11.00@14.00; cull and common, 8.00@11.00. Vealers (milk fed), good and choice, 13.00@14.00; medium, 11.00@13.00; cull and common, 8.00@11.00.

Slaughter cattle and calves: Steers, 1100 to 1300 pounds, good, 11.75@12.50; 1100 pounds, good, 11.50@12.00; 900 pounds up, medium, 10.50@11.50; common and medium, 8.50@10.50. Heifers, 750 pounds down, good, 9.75@11.00; common and medium, 8.50@9.75. Cows, good, 8.00@9.50; common and medium, 6.50@8.00. Calves (steer and heifer), 2.50@6.50. ONE OF THE LOS ANGELES INVESTMENT GROUP

"AN INSURED INVESTMENT OF THE HIGHEST TYPE"

6%
For Joint Tenants

PLACING an Investment in the names of two or more persons as "Joint Tenants" has real advantages.

On the death of any one of the parties holding such an Investment the surviving party or parties will automatically become the owner without probate. The income during the life of the Investment can be made payable to any one or more of the parties, or to their account in any Bank.

This type of security is most convenient for husband and wife—mother and daughter—father and son, and can be arranged to meet almost any investment need.

"FIRST MORTGAGE ASSIGNMENTS" are particularly adaptable for use in Joint Tenancy. Executed by Pacific Mortgage Guaranty Company they are a legal investment for Savings Banks and all Trust funds in the State of California, and are pre-eminently safe. They are available in amounts from $100 to $100,000 and for convenient periods.

Resources $10,000,000

HESITANT TONE ON STOCK MART

(Continued from Fourteenth Page)

theory that the recent selling movement in this group had run its course. Philadelphia Company and People's Gas shooting up 16 and 20 points to new tops. Coppers received better support than for some time past, particularly Anaconda and Greene Cananea.

MOTORS UNSETTLED

The market was particularly unsettled by a bear raid on the motors around midday, which was facilitated by renewed apprehensions, apparently based on nothing tangible, of a sharp decline in production after the high rate of activity in recent months. General Motors and Chrysler were sent down about 3 points, while Auburn fell back nearly 12. Case Thresher lost 13 points in profit taking on its recent violent upswing, and such important issues as United States Steel, Radio, General Electric, Atchison, Allied Chemical, Union Pacific and Eastman Kodak lost 2 to 4 points. Pere Marquette yielded 10 points of yesterday's 12-point rise. Clustt-Peabody dropped 6 points to a new low for the year at 82, but rallied 8 little later; National Bellas Hess sagged a couple of points upon abandonment of the proposed merger with Interstate Department Stores.

In the commodity markets wheat lost 2 cents and more a bushel on bearish weather and crop advices from Argentina, Canada and Texas. Corn was also heavy, sagging from 1 to 2 cents. Cotton, however, sold up 45 to 90 cents a bale on increased apprehension of boll-weevil damage.

Foreign exchanges were firm, sterling cables rising further to $4.85 1-4. The Japanese yen, however, fell back nearly ½ cent, losing much of the gains recorded with the more optimistic sentiment since Finance Minister Inouye took office.

601 BOARD OF TRADE BLDG. 111 West 7th TR 4836

DAILY EASTERN CITRUS MARKETS

(By the Associated Press.)

Carlot shipments of California citrus, compiled for the California Fruit Growers' Exchange from railroad passing reports, were reported as follows:

SOUTHERN CALIFORNIA

	Oranges.	Lemons.
July 8	99	29
Season to date	41,358	10,943
Last season to date	38,544	7,773

CENTRAL CALIFORNIA

July 8	1	0
Season to date	3,797	173
Last season to date	3,677	290

NORTHERN CALIFORNIA

July 8	0	0
Season to date	462	47
Last season to date	685	100

California oranges found unfavorable market conditions at virtually all eastern and middle western auction centers yesterday. Boston's report of spottedly higher and lower price trends was the best received here. All other points indicated easier or firmer markets. Lemons, however, managed to break a little better than even with four out of eight reporting centers indicating strong or higher ranges and one steady.

Analysis of trading showed the following price range per box:

	ORANGES Graded above choice.	ORANGES Choice.	LEMONS Graded above choice.	LEMONS Choice.
New York	2.60@7.50	2.00@4.85	4.75@7.30	4.00@6.20
Boston	2.85@5.50	2.50@3.50	3.15@6.10	3.60@5.25
Chicago	2.85@5.75	2.40@4.75	4.10@6.75	4.00@5.75
Philadelphia	2.75@5.65	2.35@5.15	4.10@6.75	4.45@4.45

SHIPPING NEWS
AND ACTIVITIES AT
LOS ANGELES HARBOR

MARKET FLASHES

NEW YORK, July 9. (AP.)—Stocks irregular; American Telephone resumes sale to new high.

Bonds irregular; Chilean offerings strong; American issues rising nearly 8 points.

Curb strong; Grigsby Grunow leaves 25 points to 19½, record price.

Foreign exchanges irregular; Japanese yen slumps nearly 1c.

Cotton higher; boll weevil complaints.

Sugar easy; poor spot demand.

Coffee advanced; trade buying.

CHICAGO, July 9. (AP.)—Wheat lower; beneficial rains Argentina. Corn easy; large receipts.

Cattle irregular.

Hogs higher.

feet when killed to deepen. It is drilling ahead below 2682 feet.

Road is being constructed for Chandler-Canfield's Hobson No. A-2. The Hobson No. B-9 is reaming to set ten and five-eighths casing to about 4631 feet. Field reports state that gray sand streaked here and there with oil was picked up.

In the Midway field, the No. 8 well is drilling ahead in sand and boulders below a depth of 1100 feet.

Geologists Lease

The Marland Oil Company's geologists are reported to be working on a 2560-acre lease northwest of the Ventura-avenue field, and if indications are promising a location may be made shortly. Marland leased the land a month ago.

Completes One

The Shell Oil Company recently completed its Slusher No. 16 well at Santa Fe Springs for a daily yield of approximately 1950 barrels cutting about 3.5 per cent. The gas output is 2,000,00 cubic feet a day. Bottom of the hole is at 6809 feet.

Makes Location

George F. Getty, Inc., yesterday made location for Becker No. 2, and will drill it on a site about 130 feet east of the Lincoln Drilling Company's Williams No. 1 well at the extreme western end of the old Summerland field.

This project will be an offset to Williams No. 1, which came in several days ago for from 300 and 400 barrels of 20-deg. gravity oil a day. Yesterday, field reports indicated that Lincoln Drilling was having difficulty with sand which shut off production, and that there was insufficient gas pressure to lift the oil. The well probably will be placed on the pump.

METAL MARKETS

CLEVELAND, July 9. (Exclusive)—Daily Metal Trade today says: While the slowing down in automotive and implement production is affecting bar mill specialties, demand for copper, nickel and zinc have been reached the highest point in months. Third quarter contracting in the steel industry, it is indicated, is the heaviest since the war.

Steel mills have stepped up operating rate following the 4th of July week-end holiday. Producers order books continue loaded with tonnages and deliveries in many instances are deferred as much as seven weeks. Tin plate producers report steady specifications on contracts with shipments seasonally heavy.

METAL PRICES

NEW YORK, July 9. (AP.)—Copper steady; electrolytic spot and future, 18.

Iron steady, unchanged.

Lead quiet; spot New York, 6.90. East St. Louis, 6.75.

Zinc firm; spot New York, 6.20. East St. Louis spot and future, 6.10.

Antimony, 9.50.

RUBBER MARKET

NEW YORK, July 9. (Exclusive)—A natural consequence of the sudden strength in spasic rubber prices at the local rubber exchange on Monday, today's business was of declining volume through the day. Earlier optimism from the London market was given contributing factors. New York is active at the opening every week, but by the final five minutes of business. The final tone of the market was nearly steady, with considerable trading of 2400 long tons had changed hands.

London spot declined 1-64 to 11 7-16d. Outside spot fell 1/2 to 27 1/2.

FLAXSEED MARKET

MINNEAPOLIS, July 9. (Exclusive)—Flaxseed, July, 2.69½; September, 2.41½. Duluth: Flaxseed, on track, 2.81½; to arrive, 2.81½; July, 2.81½; September, 2.31½.

SUNRISE ON TRINIDAD

Under a heaven of exquisitely tender blue, the whole smooth sea has a perfect luminous dove-color, the horizon being filled to a great height with greenish-golden haze, a mist of unspeakably sweet tint, a hue that, imitated in any aquarelle, would be cried out against as an impossibility.

As yet the hills are nearly all gray, the forests also enwrapping them are gray and ghostly, for the sun has just risen above them, and vapors just hang like a veil between. Then, over the glassy level of the flood, bands of purple and violet and pale blue and fluid gold begin to shoot and quiver and broaden; these are the currents of the morning, catching varying color with the deepening of the day and the lifting of the tide.

Then, as the sun rises higher, green masses begin to glimmer among the grays; the outlines of the forest summits commence to define themselves through the vapory light, to left and right of the great glow. Only the city still remains invisible; it lies exactly between us and the downpour of solar splendor, and the mists there have caught such radiance that the place seems hidden by a fog of fire. Gradually the gold-green of the horizon changes to a pure yellow; the hills take soft, rich, sensuous colors.

One of the more remote has turned a marvelous tone—a seemingly diaphanous aureate color, the very ghost of gold. But at last all of them sharpen bluely, show bright folds and ribbings of green through their haze. The valleys remain awhile clouded, as if filled with something like blue smoke; but the projecting masses of cliff and slope swiftly change their misty green to a warmer hue.

All these tints and colors have a spectral charm, a preternatural loveliness; everthing seems subdued, softened, semivaporized, the only very sharply defined silhouettes being those of the little becalmed ships sprinkling the western water, all spreading colored wings to catch the morning breeze.

The more the sun ascends, the more rapid the development of the landscape out of vapory blue; the hills all become green-faced, reveal the details of frondage. The wind fills the waiting sails—white, red, yellow, ripples the water and turns it green.

Little fish begin to leap; they spring and fall in glittering showers like opalescent brown spray. And at last, through the fading vapor, dew-glittering red-tiled roofs reveal themselves; the city is unveiled—a city full of color, somewhat quaint, somewhat Spanish looking—a little like St. Pierre, a little like New Orleans in the old quarter; everywhere fine, tall palms.—[Lafcadio Hearns, in "A Midsummer Trip to the Tropics."

PERMITS ISSUED

The following permits have been granted by F. G. Athearn, Commissioner of Corporations:

Mission Springs Water Company, Ltd. Directors, Harvey Timmerman, Frank P. Pesch, James M. Culley, George Martin and Otto Pesch. Capital 5000 shares, $100 par value. Permitted to issue 2340 shares.

Fuller Specialty Company. To manufacture oil well supplies. Officers, E. D. Fuller, R. H. Fuller, A. S. W. McComb, Guy Orcutt and W. C. Bartlett. Capital 250 shares, $100 par value. Permitted to issue all.

Construction and Mortgage Loan Company. Building corporation. Officers, A. A. Smith, O. J. McCullin and S. E. Coulter. Capital 1000 shares, $100 par value. Permitted to issue 250 shares.

Commercial Auto Electric Company. Electrical appliances. Officers, William A. Gerber, Jr., F. N. Green and Austin E. Longpre. Capital 100 shares, $100 par value. Permitted to issue all.

Aeronautical Engineering Company. To manufacture airplanes. Officers, Dorsey F. St. Baker, Frank E. Merriam, Samuel M. Haight, Gavin W. Craig, John J. Craig, Edward W. Byrd and Morgan Wilford. Capital 500,000 shares, $1 par value. Permitted to issue 463,927 shares.

Stationers Holding Company, Ltd. Officers, Directors, Ray L. Lorrey, John L. Armstrong, L. T. Shelton, Robert F. Burns, W. Allen, Carl G. Grant and Ray E. Smith. Capital 12,500 shares, $20 par value; and $5,000 shares of $5 par value stock. Permitted to issue 11,190 preferred and 31,543 common shares.

Modern Casement Hardware Company. To manufacture window hardware. Officers, Samuel R. Simmons, George E. Reiser, Samuel R. Simmons, Gertrude E. Simmons. Capital 5000 shares, $10 par value. Permitted to issue all.

Barrington Theatre. To operate patents. Officers, Mark Benson, John R. Bailey, Hannah Benson, Ida M. Bailey and Rosetta Olson. Capital 250 shares, $100 par value. Permitted to issue all.

Barrington Spanish Tile Company. To manufacture tile. Officers, Ralph J. Perkins, Jean Holden and William M. Fredericks. Capital 2500 shares, $10 par value. Permitted to issue 1000 shares.

Crescent Beach Club. Social club. Officers, Albert Stanley, Oscar Goldsmith and Martin L. Mainzer. Permitted to issue 2000 memberships.

Pantages, Seventh and Hill—Jack Dempsey.

NAVY BOARD COMING TO PICK BASE

Newport Bay Area Believe Most Likely Site for New Dirigible Center

WASHINGTON, July 9. (Exclusive)—The special naval board appointed to select a permanent hangar base for the naval dirigibles in Southern California will leave next Thursday for a close inspection of all the sites that may be offered in Southern California.

Rear-Admiral William A. Moffatt, as chairman of the board, expects that a suitable site will be found near Los Angeles either in that county or in nearby Orange county and preliminary information already received indicates that Newport Bay, Orange county, may be selected if a suitable site can be obtained on a proper financial basis for the United States to accept.

These dirigibles will be approximately three times the size of the present dirigible Los Angeles, now housed at Lakehurst, N. J. Such a base would be a great aid to the naval air defense in connection with the battleship fleet.

NEW BRITISH EMBASSY TO HAVE WINE CELLAR

WASHINGTON, July 9. (Exclusive)—Great Britain's new $1,000,000 embassy, now being completed, will have a wine cellar despite the dryness of Sir Esme Howard, the British Ambassador. Inquiry following the announcement from Sir Esme that the Embassy will go on the water wagon as soon as present liquor stocks are used up, disclosed there has been no change in the original plans for the new home of the British government in this country. The original plans called for a well-protected wine cellar and examination of the premises shows it has been built.

THE WEATHER

(Official Report)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, July 9.—(Reported by H. R. Mersey, Meteorologist.) At 5 o'clock a.m. the barometer registered 29.93; at 5 p.m., 29.88. Thermometer for the corresponding hours showed 65 deg. and 72 deg. Relative humidity, 5 a.m., 84 per cent; 5 p.m., 66 per cent. Wind, 5 a.m., south, velocity 2 miles; 5 p.m., southwest, velocity 8 miles. Temperatures, highest, 73 deg.; lowest, 64 deg. Barometer reduced to sea level.

WEATHER CONDITIONS.—July 9: Local showers and thunderstorms have occurred during the past twenty-four hours in many districts from the Rocky Mountains eastward to the Atlantic Coast. The rainfall was generally light to moderate, but it was quite heavy at some points in Kansas. It was quite cool this morning in the Northern Rocky Mountain country and the Northern Plains States, but the temperature was considerably above normal in the North Atlantic States. Southern California fair weather prevailed yesterday, with moderate temperature. It was cloudy or foggy this morning at all points from the sea to the mountains, but clear weather was reported east of the mountains. Temperatures were generally a little above normal. Fair weather will continue in Los Angeles and vicinity Wednesday, with moderate temperature. Fog or cloudy may be expected in the morning.

SUN, MOON AND TIDES.—Los Angeles, July 10: Sun rises 4:50 a.m., sets 7:07 p.m. Moon rises 9:06 a.m., sets 6:36 p.m. Los Angeles Harbor, July 10: High tides, 12:34 p.m., 12:50 a.m.; low tides, 6:38 a.m. and 6:10 p.m.

LOCAL TEMPERATURES.—July 9: Minimum and maximum temperatures from Southern California points reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations—	Max.	Min.
Imperial	106	69
Los Angeles Harbor	72	61
Mt. Wilson	79	62
Pasadena	86	60
Pomona	85	61
Porterville	97	63
Redlands	90	57
Riverside	97	60
San Bernardino	92	60
Santa Ana	91	63
Santa Barbara	73	59
Sierra Madre	83	59

LOCAL FORECAST

For Los Angeles and vicinity: Fair Wednesday and Thursday, with moderate temperature; cloudy or foggy in the morning.

STATE FORECAST

SAN FRANCISCO, July 9. — Weather forecast:

San Francisco and vicinity: Fair and mild; fog; moderate westerly winds.

Northern California: Fair weather and normal temperature; fog on the coast; moderate westerly winds on the coast.

Sierra Nevada: Fair and moderately warm; gentle southwest winds.

San Joaquin Valley: Fair and mild; fog at night; moderate northwest winds.

Southern California: Fair; fog on the coast at night; no change in temperature; moderate northerly winds on the coast.

ARIZONA FORECAST

PHOENIX (Ariz.) July 9.—Forecast for Arizona: Mostly fair in west, probably local thunderstorms in east portion Wednesday; Thursday generally fair; little change in temperature.

COLORADO RIVER

YUMA (Ariz.) July 9.—(Exclusive Dispatch from the U. S. Reclamation Service.) Gauge height Colorado River, 30.05 feet. Discharge, Tuesday, 43,000 cubic feet.

PORTES GIL WILL CALL CONGRESS

Special Session Expected on 20th Inst. to Take Up Labor Quote Question

Mexico City, July 9. (AP)—President Portes Gil will issue a call immediately for a special session of the Mexican congress to convene the 20th inst., to consider the special labor code which he announced last November.

The code involves radical changes in the relationship between employee and employer. Its adoption will mark one of the young revolutionary government's greatest strides along the path designated for it by its mentors, the late Alvaro Obregon, Plutarco Elias Calles and President Portes Gil.

Many innovations are contemplated in the measure, probably the most severe of which is a system of obligatory labor. Senor Portes Gil published his proposals shortly after he was elected provisional president and while still minister of interior in the Calles cabinet.

Coast Lumber Freight Block to East Cited

SEATTLE, July 9. (AP)—Free use of lumber from the Pacific Coast is blocked in Michigan, Indiana and Ohio by a "barrier of freight rates," Col. W. B. Greeley, secretary-manager of the West Coast Lumbermen's Association, testified today at an Interstate Commerce Commission hearing.

Col. Greeley appeared before Examiner Mohundro, who is hearing the requests of Pacific lumbermen for freight-rate reductions to the three States. The reductions would amount to from $2.25 to $2.50 per 1000 feet of lumber.

A map was offered by Col. Greeley as evidence of the contended restriction of Pacific Coast lumber. He said that but 21 per cent of the total soft wood consumption of Michigan, Indiana and Ohio is procured from the Pacific Coast while in the North Atlantic States the per cent consumed is 35.

CHAMBERLAIN BACK IN BED

LONDON, July 9. (AP)—A severe cold and high temperature have sent Sir Austen Chamberlain, former British Conservative foreign minister, back to the sick bed which he was able to leave only a few months ago. The Daily Express said today his condition is not alarming but rest and quiet were thought advisable.

VITAL RECORD

INTENTION TO MARRY

The following notices of intention to marry were issued yesterday. Name and age given.

ABBOTT—YEATON. Donald R. Abbott, 24; Jennie F. Yeaton, 22.

Miss Mae A. Schnurr Gets Post Under Reclamation Commissioner at Capital

WASHINGTON, July 9. (AP)—...first woman to be given an ... administrative post in the ... Department, Miss Mae A. ... has been appointed to fill the ... post of assistant to the Commissioner of Reclamation.

This appointment is not ... Schnurr's first venture into an entirely new field for women. ... ing the World War she was ... first woman appointment clerk ... the patent office, which had a personnel of approximately 100 officers and employees.

For five years she has been secretary to Dr. Elwood Mead, Commissioner of Reclamation. ... recommendation she has been ... the title of assistant by Secretary Wilbur. In addition to aiding Mead in his work on all reclamation projects Miss Schnurr is secretary of the International Water Commission, which will negotiate with Mexico in August with a view to formulating a treaty basis for water rights on the Rio Grande, Colorado and Tia Juana rivers.

She also conducts a magazine section dealing with home and community interests of women on reclamation projects and last year was sent abroad to make a study of European farm studies.

NEW TRIAL SOUGHT FOR ARIZONA COTTON MAN

PHOENIX, July 9. (AP)—Attorneys for T. E. Kendall, former manager of the Arizona Pima Cotton Growers' Association, are expected to appear in Superior Court here tomorrow morning and make their plea for a new trial for him. Kendall recently was convicted of embezzlement of funds belonging to the Arizona pima cotton growers. He will be given sentenced tomorrow.

CHIEF OF RAILROAD ON BUSINESS VISIT

Carl R. Gray

EAST SHOWS INTEREST IN GREAT DAM

Visiting Union Pacific President Tells Plan for Line to Boulder Project

Surprising interest in the Boulder Dam project and its various phases is being manifested on the part of the average easterner, according to Carl R. Gray, president of the Union Pacific System, who, with other officials of the system, is on a business visit in Los Angeles.

The American, as a class, likes big things, Mr. Gray observed, and the gigantic proportions of the Boulder Dam project appeal to him. To the American, Boulder Dam is not a cold engineering project but the symbol of the West, its romance, its vastness.

The Union Pacific has filed an application with the Interstate Commerce Commission to build a branch line of its system from a point near Las Vegas to the interchange yards, about seven miles from the dam site. From this proposed terminus, or interchange yard, the mesa country drops off rapidly toward the river, and whatever railroad requirements will be demanded can best be handled by the government or construction organization building the dam in knowing just what rail facilities will be needed. Construction of the proposed railroad will begin as soon as the government is ready to go ahead with the dam, assuming, of course, the permit will be granted.

Touching on the railroad business generally, Mr. Gray said railroad men are interested in anything touching transportation in various developments in this field. The employment of busses by railroads to handle some of the traffic has seen some activity by the Union Pacific in some districts. What the ultimate outcome in this direction is to be is hard to say just yet.

COMMENT ON TRAVEL

Mr. Gray is in Los Angeles on one of his several swings over the country that he makes each year from his headquarters in Omaha. He will leave for a visit to some of the national parks tonight, accompanied by Frank W. Robinson, vice-president in charge of traffic, and J. L. Haugh and E. E. Adams, the latter two being assistants to the president.

Both Mr. Gray and Mr. Robinson commented upon the increase in the amount of passenger travel into the West this season. The increase has not been due solely to the number of conventions on the Coast this season, but is noticeable also in the

(Continued on Page 2, Column 5)

DAVIS BRIBERY CASE NEAR END

Jury Expected to Ponder His Fate This Afternoon

Mayor Can't Recall Who Denounced Keyes's Aide

Prosecution Rests After It Makes Brief Rebuttal

Seven women and five men, the jury that for the last eight days has been listening to the testimony for and against Harold L. Davis on trial before Superior Judge Wilson on a bribery charge, will be deliberating on the former chief deputy District Attorney's fate late this afternoon.

But one hour and ten minutes of Chief Defense Counsel D'Orr's argument to the jury remained at the close of the court session yesterday. Chief Deputy District Attorney Stewart, who with Dep. Dist.-Atty. Simpson prosecuted the case, is to speak for one hour and twenty-five minutes when D'Orr closes, and Simpson's argument, brief and to the point, already stands in the record. Instructions on the law by Superior Judge Wilson will be read in about thirty minutes.

REBUTTAL WITNESSES

The close of the case came suddenly yesterday afternoon when the prosecution rested with a brief rebuttal. First in rebuttal appeared Mrs. Anna O'Brien, Getzoff's sister. She testified that Davis together with his wife and Forrest Murray visited the Getzoff home on Christmas Eve, 1926. This testimony was given by Getzoff and later denied by Mrs. Davis, her husband and Murray.

Following Mrs. O'Brien in quick succession came a group of rebuttal character witnesses. Five in all they with one exception swore that Davis bore a bad reputation. In each case but one, however, the witnesses under cross-examination either declared themselves as "unfriendly" to Davis or were unable to name a single person asserted to have told them of the defendant's reputation.

MAYOR TESTIFIES

Superior Judge Fricke, the first rebuttal character witness, after testifying to Davis's asserted bad reputation, admitted under cross-examination that "he (Davis) had trouble with me while in the District Attorney's office and there is a feeling of unfriendliness."

Col. Thomas Cooke, former foreman of the 1928 grand jury and now a member of the City Council against Davis and said that more oil, said that about fifteen persons had discussed Davis's asserted bad reputation with him. Cross-examined, he was unable to remember who they were.

Mayor Porter, also a member of the 1928 grand jury, then testified that 100 persons had told him that Davis had a bad reputation. As in the case of Col. Cooke, the Mayor under cross-examination, admitted that he was unable to remember any of the persons who had spoken to him.

"Give us the name of a single one of these hundred people," questioned D'Orr.

"I can't say that I can remember their names now," was the Mayor's reply.

WRIGHT UNDECIDED

Harry Wright, head of the criminal division of the Sheriff's office, the last rebuttal witness, proved somewhat of a "flop," when he replied to a question regarding Davis's reputation with the information that he was unable to say whether it was good or bad.

"Davis has a lot of friends and a lot of enemies, some of them say good things about him and some bad."

This was Wright's final remark before he was excused from the witness stand.

With the close of the testimony Dep. Dist.-Atty. Simpson swung at once into his argument and for the next thirty-five minutes summed up the case against Davis. He spoke clearly and in a concise manner,

(Continued on Page 9, Column 1)

PORTER HAS NAMES READY

List of New Officeholders Scheduled to be Sent to City Council This Morning

Mayor Porter's sword of Damocles, which has been suspended above the heads of the Cryer appointees on the city's seventeen commissions for the past ten days, is due to strike this morning when the names of the new crop of officeholders will be submitted to the City Council, according to reliable reports yesterday about the City Hall.

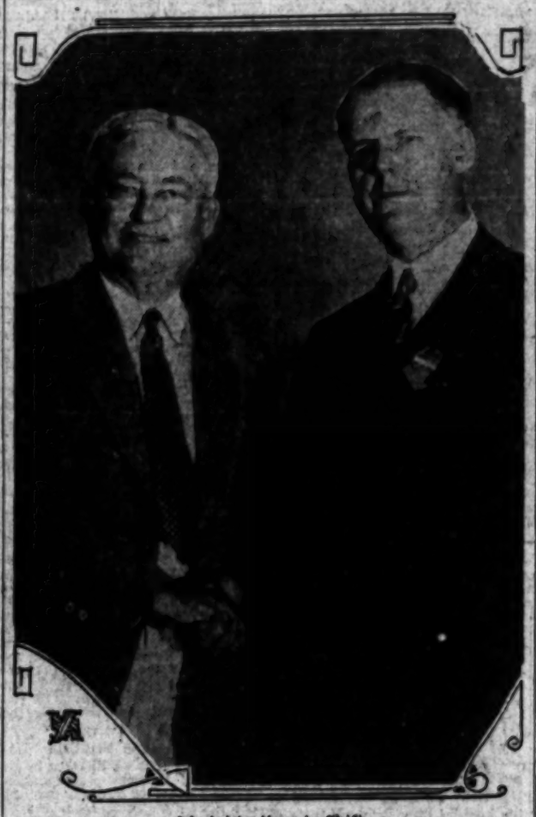
Chief among these appointees, it is reported, is Merle Allen, to succeed John S. Horn on the Board of Public Works, the only salaried commission. The compensation is $500 a month. Allen is an investigator and has been very close to Mayor Porter for several years. Allen has been working for the Federated Church Brotherhood, an organization in which Mayor Porter has been interested, and was active in the campaign of Dist.-Atty. Fitts last summer, as well as that of Mayor Porter. Since the new administration took office Allen has been about the Mayor's suite frequently, apparently on a semi-official basis.

NAMES READY

Mayor Porter did not confirm this report yesterday afternoon. Instead, he said he has six names ready to submit, but did not indicate when he plans to do so. He stated that he plans to confer with "the Council" before submitting them. It is understood that he has placed the names of several of the potential appointees before certain members of the Council.

According to reports, Mayor Porter went into office with his entire list practically made up, but has changed it since that time.

Elkdom's New and Outgoing Rulers



Administrations to Shift

Walter P. Andrews, Grand Exalted Ruler-elect, and Murray Hulbert, present Grand Exalted Ruler, following Andrews's election to the office yesterday.

BOWL OPENING TRIUMPHANT

Molinari's First Symphonic Concert of Summer Season Attains High Art

BY EDWIN SCHALLERT

In an enchanted amphitheater of the hills music's magic prevailed last evening. It combined melody of perfection with harmony of sovereign charm. And it attained the estate of great popular interest, along with—though far from secondarily—the high quality of art.

In a word Bernardino Molinari's first concert this year at the Hollywood Bowl, and also the initial program of the summer season of symphonies at this outdoor center of natural beauty and melodious enticement were a triumph.

Fifteen thousand persons heard and applauded the erudite and fascinating Italian maestro. They gave him the even higher tribute of a rapt attention through each and every composition that he conducted. And they did the unusual thing of tendering him an especial ovation right at the close of the concert, when ordinarily the mood of everybody, because of traffic congestion, is for hastening home.

The Bowl renews its promise . . . and brilliantly this summer. The new season is splendidly launched. It gives every indication of being one of fine musical progress. The outlook is for a superior Bowl year.

And evidently the interest is to be coequal. There has seldom been so large a crowd for an opening event. The beginning certainly is one of the most auspicious in all the eight years since the institution of this favored open-air temple of the music lover.

THREE CONDUCTORS

Three conductors only are to officiate for the season. Besides Molinari, there are Bruno Walter and Eugene Goossens. Like Molinari both are known here, and certainly all three have at least a passing acquaintance with the orchestra that plays at the Bowl. Goossens, of course, has more than that, since he has been here several times.

The limited group makes for good music. It affords opportunities for training and rehearsal. This will tell. It has told already in the case of Molinari's first concert, which showed few lapses, if any, from perfection that is by the more musical desired.

The opening program was as varied as one could wish, and historically quite an epitome for a single evening. It began with an old Corelli Suite for string orchestra alone (not a dazzling but an intriguing start) led through Beethoven's somewhat Mozartian Symphony No. 1 in C major, and after the intermission supplied some more modern impressions. For appeal to popularity it included the Scherzo from the Fourth Symphony by Tschaikowski, and the always exquisite "Pines of Rome" by Respighi. None can perhaps surpass Molinari in the interpretation of this last.

NOVELTY INTRODUCED

As a novelty there were introduced for the first time on the Pacific Coast two excerpts from the Symphonic Suite, "Sicilia Cantora" by Mule (that name should by the way have an accent over the "e" so as

(Continued on Page 11, Column 2)

SERVICE FOR JOHN BIXBY CONDUCTED

Member of Pioneer Family Paid Final Honors After Death Due to Car Crash

By a "Times" Staff Correspondent

LONG BEACH, July 9.—Funeral services for John T. Bixby, 32 years of age, member of a pioneer Long Beach family, were conducted this afternoon at the Church of Our Savior, San Gabriel. He died Sunday in a Los Angeles hospital as the result of injuries received in an automobile accident June 20, when the machine he was driving crashed against an ornamental light post on Wilshire Boulevard near Sayre avenue.

John T. Bixby was the son of Mr. and Mrs. Fred H. Bixby, Los Alamitos Ranch, near Long Beach. He was educated at the University of Southern California and was a member of Delta Kappa Epsilon fraternity. He was employed by the Los Angeles Warehouse Company at 316 Commercial street, Los Angeles, of which concern his father is president.

Besides his parents, Fred Bixby and Florence Green Bixby, he leaves three sisters, Katherine Bixby Hotchkiss of San Marino, the Misses Elizabeth and Deborah Bixby, living with their parents, and one brother, Frederick H. Bixby.

The Bixby family has been an extensive land owner in Southern California since 1866, when the Bixbys acquired an interest in the vast Los Cerritos Rancho for 80 cents per acre. Sheep raising was the leading industry there for many years.

CHIEF MAKES REPORT ON LICENSE REVENUE

Revenue produced by the police license division for the fiscal year ending June 30, last, was $272,378.19, according to Chief Davis's report to the Police Commission yesterday. Of the total, new license business amounted to $151,882.66, enforced collection of delinquent licenses amounted to $119,910.53, and fines and bail forfeitures came to $585.

REINSTATING OF OFFICERS IN GRIMES CASE UPHELD

Reinstatement of Capt. Hubert J. Wallis, Detective Lieutenant Frank Williams and Patrolman Frank B. Cox by Chief of Police Davis, following dismissal of the charges against them of being implicated in the asserted frame-up against Councilman Jacobson, was approved unanimously by the Police Commission yesterday.

The action followed an opinion by Deputy City Attorney Kitsmiller that unless the commission has evidence before it that would warrant its refusal to confirm the reinstatement of the officers, the commission would be bound by the dismissals in the court action.

The charges against the three were filed February 19, last, when they were suspended from duty. The reinstatement means that they will receive their pay for the period of suspension the same as though they had been on duty.

When the court charges were filed, Williams had but thirty days more to serve to complete the twenty years of service that would entitle him to a pension. Reinstatement restores his eligibility for a pension.

BEQUEST FOR ELKS' FUND OF $1,000,000 PROMISED

Gift to Be Used for Blind Children; Andrews Named Grand Ruler; Annual Reports Due Today

Details of the Elks' golf tournament will be found in the Sports Section.

(Full Page of Pictures on Page 8, Part II)

An eastern multimillionaire will make a bequest in the form of a memorial to the Elks National Foundation Fund that possibly will exceed $1,000,000, it was revealed last night by Grand Exalted Ruler Murray Hulbert, following the election of Grand Lodge officers of the organization yesterday at the Biltmore, and as various committees prepared to report today on national activities of the lodge.

Contests Will Feature Elks' Events Today

Today will be known as Foothill Day at the sixty-fifth national convention of the Benevolent and Protective Order of Elks, now in session here. The program for the day follows:

Grand Lodge sessions morning and afternoon in the Biltmore.

9 a.m. Finals of national golf tournament at Rancho Golf Club.

8:30 a.m. Trap-shooting tournament at Los Angeles Gun Club.

9 a.m. Auto tours leaving Elk's Temple including principal points of interest in the city and Hollywood, universities, Roosevelt scenic highway, Los Angeles Harbor, beach cities, old Spanish missions, oil fields and citrus groves.

10 a.m. Drill team contests in the Los Angeles Coliseum.

10 a.m. Band contests, Westlake Park opposite Elk's Temple.

1:30 p.m. Antlers' Band of Denver will give concert at Westlake Park.

12 m. All visiting Elks who are former residents of the Philippine Islands and their ladies are invited to be luncheon guests of the Philippine Society of Southern California at the Elite, 641 South Flower street.

1 p.m. Yachting trip in and around Los Angeles Harbor, courtesy California Yacht Club, Wilmington.

2:30 p.m. Aeronautical spectacle and air circus at Grand Central Air Terminal, Glendale, by courtesy of Glendale, Pasadena, Alhambra, Burbank, San Fernando and Monrovia lodges, B.P.O.E. Stunt flying by combined Army and Navy pursuit squadrons. Parachute jumping.

4 p.m. Preview of fall fashions by the Retail Dry Goods Merchants' Association of Los Angeles in honor of the ladies attending the convention in Cocoanut Grove, Ambassador.

4:30 to 5:30 p.m. Vesper organ recital, lodge room, Elk's Temple, Westlake Park, by Sibley G. Pease.

5 p.m. Massed band twilight concert in Westlake Park.

8 p.m. City Hall night. Inspection of America's greatest municipal building. Holders of hospitality coupons will be admitted to the observation tower, affording a wonderful night view of the city from an elevation of 400 feet. There will be dancing in the spacious marble corridors and refreshments served.

FREE CLASSES ANNOUNCED

Two new free classes at Manual Arts vacation school were announced yesterday by Mrs. Helen V. Peasley, principal. A class in agriculture, from 8 a.m. to noon daily for a six weeks' term ending August 16, next, will cover floriculture and landscape architecture as related to home development; and a class in book-binding and art leather, for the same period, will include the manufacture of pocketbooks, key cases, brief cases, fancy magazine and book covers.

ONE STIPULATION

The only contingency, it is understood, on which the bequest hangs is a stipulation that the Elks Foundation Fund directors direct the expenditure of interest accruing from the memorial funds. The attorney for the eastern man, Hulbert said, wanted all the information that could be furnished him regarding the Elks Foundation Fund of $20,000,000 that now is in the process of being raised.

The Elks Foundation Fund is the largest national movement of the Elks' Lodge. The fund was inaugurated at the Miami convention last year. It is proposed that 1000 Elks Lodges produce $1000 each, and 1000 individuals also give the fund the same amount, creating a nucleus of $2,000,000 as the basis for the $20,000,000 total. The California Elks Association the day before yesterday voted to appropriate its $1000 share.

Hulbert made his announcement immediately after the first executive session of the Grand Lodge in the Sala de Oro of the Biltmore where election of Grand Lodge officers for the next year took place.

As predicted, Col. Walter Pemberton Andrews of Atlanta, Ga., was elected Grand Exalted Ruler, the highest office in Elkdom.

OTHER OFFICERS

The other officers elected are as follows:

William Conklin, Englewood, N. J., Grand Esteemed Leading Knight.

Dr. F. J. McMichael, Gary, Ind., Grand Esteemed Loyal Knight.

E. A. Moody, Houston, Tex., Grand Esteemed Lecturing Knight.

J. E. Masters, Charlerol, Pa., Grand Secretary.

Lloyd Maxwell, Marshalltown, Iowa, Grand Treasurer.

R. W. Jones, Pocatello, Idaho, Grand Tiler.

J. P. Gribbin, Gallup, N. M., Grand Inner Guard.

Rev. Dr. John "Dysart, Flint, Mich., Grand Chaplain.

A. Charles Stewart, Portburg, Md., was elected a member of the Board of Grand Trustees, succeeding Edward W. Cotter of Hartford, Ct.

Atlantic City, N. J., was selected as the 1930 convention city.

The new Grand Lodge officers will be installed in office tomorrow. While the Grand Lodge session held yesterday was of a secret nature, it was learned that the officers elected were the unanimous choice of the thousands of delegates from all parts of the country, who thronged the meeting.

ATTORNEY IN GEORGIA

Col. Andrews is well known in the national affairs of the lodge. He is a practicing attorney in Atlanta, has served two terms in the Georgia Assembly and has been prominent in Elks lodge activities for years, holding many important positions in the fraternal order.

Lloyd Maxwell, the new Grand Treasurer, is a resident of Chicago and president of the Williams & Cunningham Advertising Agency there. He belongs to the Marshalltown (Iowa) lodge. He was Grand

(Continued on page 12, Column 4)

NEW PIPELINE FIGHT BREWS

Opponents See Relation Between Bell Cement Plan and Gadd Dirt Conveyance Project

While petitions protesting the action were in circulation yesterday, Mayor Michel of Santa Monica announced that sealed bids for a franchise for a pipe line through the beach city, in which Peter Gadd, a contractor, is said to be the principal bidder, will be opened Friday at 10 a.m.

While the controversy over the Santa Monica division of the proposed line expanded, opponents of the proposition announced the finding of two franchises awarded the Central Securities Company, said to be the same concern for which Gadd seeks Santa Monica rights, granted by the city of Los Angeles in beach areas to the north and south of Santa Monica.

Those protesting against Gadd's scheme, which is to convey earth in solution through the pipe line for filling in lowlands at the south of Santa Monica, assert their belief in a connection between Gadd's plan and the cement mill project of Alphonzo Bell in the Beverly-Riviera district.

ROUTE DESCRIBED

Gadd could not be reached yesterday for a statement on his plan, but the franchise ordinance at the City Clerk's office disclosed as follows the proposed line route in Los Angeles territory below Santa Monica:

On Coast Boulevard, being an extension of Grand avenue from the easterly boundary of the city proper to Coast Highway or Vista Del Mar; Vista Del Mar or Coast Highway from the Standard Oil Company property at southerly city limits to Waterloo avenue; Ocean View Lane. Coast Highway paralleling Pacific Electric Railroad from Waterloo avenue to intersection with Del Rey Boulevard and Vista Del Mar; Vista Del Mar from Del Rey Boulevard to Sixtieth avenue, Ballona Lagoon; Sixtieth avenue from Vista Del Mar to Esplanade, Ballona Lagoon; Esplanade; Ballona Lagoon, from Sixtieth avenue to Thirty-ninth avenue at Grand Canal; Grand Canal from Thirty-ninth avenue to Venice Boulevard; Canal street from Venice Boulevard to Mildred street; Grand Canal from Canal street to the intersection of Riviera avenue and Mildred avenue; Riviera avenue from Mildred avenue to Westminster avenue; Westminster avenue from Riviera avenue to Second avenue; Second avenue from Mildred avenue to Brooks avenue crossing Kinney Plaza; Brooks avenue from Second avenue to Washington Boulevard; Washington Boulevard from Brooks avenue to a point not more than 400 feet northerly of Rose avenue.

The records at the City Clerk's office show that the franchise was signed by Mayor Cryer June 12.

(Continued on Page 2, Column 1)

The Lancer

by Harry Carr

IT MAY be all right to sentence his fond mama for something or other; but what has any public school-teacher done to deserve being sentenced to the youthful prodigy—Jack J. Barry?

Imagine asking arithmetic problems—if a farmer sells two pigs for $10, how much does a tinsmith pay for apples—of a young man with sixty-six lectures on astronomy ready to burst into flame at the slightest excuse.

HE'LL FIND OUT

Jack's mama says that her poppigy has "higher standards" than other boys and does not care to associate with them.

The first day at recess Jackie's standards will—I predict—experience a sharp revision. He will need all that his scientific 9-year-old mind has been able to learn about arnica.

DREADFUL

I think it is wonderful to have education and everything; but it just makes me nervous to live in the same town with a 9-year-old boy loaded with sixty-six lectures on "everything from California history to theology."

AN INK-STAINED WRETCH

When I was a boy in school they marked all the failures in red ink. Whenever spies from Wall street feign that I was about to take an examination there was a nation-wide panic in the ink stocks. When I finally got a diploma it must have been a crushing blow to the red-ink industry, from which I doubt if they have ever recovered.

COME ON DOWN

I make this next remark in fear of physical violence from Mr. Bill Henry and other air enthusiasts; but I am getting fed up on aviation stunts.

To me these endurance contests are just about as interesting as the ladies and gents who used to see how long they could sit on the top of a flagpole. As far as I can see, all they do is to go up in the air, stay a while and come down again.

THE TIMES TRAVELER

Perhaps this is not entirely modest, but I am compelled to say that the most interesting travel book—of all the travel books now flooding the market—is the series of articles by Fred Hogue appearing in The Times on his wanderings in the Orient.

Had it been I who went to Japan, I should have been filled with despair as to something to say about that overwritten-about country. His articles have been charming, fresh and eager—the reflection of a mind that can never grow old or bored.

INSECT WARS

There is nothing to joke about in the remarks of Prof. E. O. Essig of the University of California. He says that in the end man is likely to be annihilated by the insect armies.

Each succeeding invasion of farm pests grows more dangerous and harder to lick. It is very small use for America to spend millions in conquering fruit flies as long as Europe sits in stupid idleness and lets them breed and multiply. There is no more reason why the Mediterranean countries should be allowed to endanger the food supplies of the world than to scatter any other kind of disease.

WHEE! COSMETOLOGY!

From the morning dispatches

AIR-RAIL PLANE ARRIVES HERE

Lindbergh and Shore Land With Passengers

Gloria Swanson Christens Eagle's Airplane

Amelia Earhart Makes Trip from New York

(Continued from First Page)

place was wheeled out and substituted for the slightly damaged plane.

All the passengers yesterday were unanimous in praise of the air voyage. Brilliant sunshine, they said, lighted the course as they flew over extinct craters and lava beds of historic volcanoes. Over the Zuni Indian reservation mist closed in on them for a few minutes and the air grew a bit choppy, but the trimotored ships rode the bumps easily.

In an address to the crowds, both plane-loads were extended an official welcome by Mayor Kimlin of Glendale. He said Glendale is proud of the part it has been its pleasure to play in making the historic flight possible, by having been chosen as the western terminal.

Following the ceremonies, the passengers went their respective ways, in the manner of regular railroad passengers. Col. and Mrs. Lindbergh, accompanied by Mrs. J. U. Maddux, wife of the Maddux Lines president, and Miss Earhart, were driven away in one of the airport automobiles.

This morning at 8 o'clock, Col. Lindbergh is scheduled to fly a sleeping plane to San Francisco, inaugurating that company's increased service to the Bay City. He will be accompanied by Mrs. Lindbergh.

Officials at the airport took occasion last night to thank Chief of Police Fraser of Glendale for his efficient handling of yesterday's record-breaking crowds. There was not an untoward incident to mar the ceremonies.

REQUEST TO ABANDON STAGE LINE GRANTED

A request by the Southern Pacific Motor Transport Company for cancellation of its interurban passenger stage line between Los Angeles and El Paso, obtained April 2, 1928, as it discontinued the service on June 30, was approved by the Board of Public Utilities and Transportation yesterday. The board found that other lines are operating over the route and that the public will not be inconvenienced.

INCOME TAX LIENS NAME THOMAS WILKES

Thomas Wilkes, as transferor of the properties of the Wilkes Theater Corporation of New York, is mentioned in three income tax liens. In the liens, filed by Collector of Internal Revenue Welch, additional taxes are claimed by the government for $2011.47 for 1923; $2971.58 for 1924 and $7809.11 for 1925, making a total of $12,494.16.

Famed Trio Who Helped Make Plane-Train History

Sky Pair and Screen Star

Col. Charles A. Lindbergh seated between Gloria Swanson, left, and Mrs. Lindbergh, during ceremonies following his arrival with first westbound rail-air travelers at Grand Central Air Terminal.

Alfred Branch Funeral Today

Funeral rites for Alfred R. Branch, local restaurant man, a resident of Los Angeles for thirty-four years, will be conducted at 2 p.m. today at the Angelica Lutheran Church, 1805 West Fourteenth street. Interment will be in Forest Lawn Memorial Park.

Mr. Branch was 63 years of age. He came here in 1896 from Sweden. His home was at 1142 Rosedale street. Besides his widow, Mrs. Sophia Branch, he leaves a daughter, Mrs. Frieda Perry of Los Angeles.

ASPHALT FUND PROVIDED

The City Council yesterday allocated from the motor vehicle fund the sum of $70,000, in three monthly installments, for the purchase of asphalt, rock, sand and other materials. The Board of Public Works requested the sum of $200,000 for the whole year, but the Finance Committee cut this to a quarter.

SIGN PROTEST REFERRED

Complaint made by the Los Angeles Realty Board against the tacking of signs on vacant lots without permission of the owners, causing a fire menace when the torn signs litter premises, was referred by the Police Commission yesterday to the police license bureau.

Bromley Plans Take Off Today for Local Tests

Lieut. Harold Bromley, who proposes to hop from Tacoma to Tokio in a specially built low-wing Lockheed monoplane, expects to hop off from the Metropolitan Airport some time today for Dry Lake in Kern county, where he will spend two or three days testing the load-lifting ability of his ship.

Replacement of parts of the power unit were completed yesterday at the Lockheed plant, giving Bromley a practically new 420-horsepower Pratt-Whitney Wasp motor.

If the Dry Lake tests prove satisfactory, Bromley will take off immediately on a nonstop flight to Tacoma and will start for the Orient as soon as weather conditions are favorable, it was announced at the Lockheed plant.

DEVIL TO BE DISCUSSED

Dr. Radoslav A. Tsanoff, visiting professor at the University of Southern California summer session from Rice Institute, where he is a professor of philosophy, will address a gathering of students and their friends today at 4 p.m. in Bovard Administration Building. His topic will be "The Devil in Modern Poetry," with special reference to Milton, Byron and Goethe.

Husband Takes Poison in Row

Poison was preferable to choosing between wife and mother, Manuel Burciaga, 27 years of age, 3422 Lancaster street, last night told police surgeons at Georgia-street Hospital. Burciaga was rushed to the hospital after drinking the poison following an argument with his wife concerning his going to see his mother for the evening. He said it was the climax of many such disagreements.

Mrs. Burciaga went to her husband's bedside at the hospital and a reconciliation followed. Burciaga will recover.

AUTOMOBILE DRIVER ARRESTED AS "SHEIK"

Arrested by Police Officer S. H. Russell at Wilshire Boulevard and Hudson street, Theodore Clements, chemist of 1201 Ogden Drive, faces trial on charges of disturbing the peace of Sally Drahoe, 316 South Elm Drive, Beverly Hills, because he attempted to "pick her up" for an automobile ride. Miss Drahoe said Clements halted his machine alongside the curb and accosted her. Officer Russell, who was standing on the opposite corner, then interfered, he reported.

EAGLE PAINTS AIR FUTURE

Lindbergh Predicts Growth for Plane-Train Line; Comments on Own Family Plans

Col. Charles A. Lindbergh asserted his belief yesterday that railroads will be benefited greatly by an increase in the volume of business done by air transports and that competition between the two methods of travel never will be developed. Lindbergh also asserted the day is not far distant when fleets of airplanes will leave the airports to maintain the passenger and freight schedules between cities on the transcontinental routes.

The famous flyer and his bride, Anne Morrow Lindbergh, greeted interviewers at their suite in the Ambassador after the colonel had made the first return trip from Winslow, Ariz., to Los Angeles on the newly inaugurated Transcontinental Air Transport Company's line. Lindbergh and his bride avoided all notice when they arrived at the hotel in an automobile from the airport.

Even the doorman and bellboys who received their baggage did not recognize them. When he received newspaper men in his rooms the colonel was garbed in a dark gray business suit. He was eager to discuss technical details of his business ventures, but also was anxious that his interviewers correctly understand the facts. His bride did not appear.

After talking about the number of passengers his company expects to carry during the next year, and the costs of operating and maintaining the service the colonel was asked where he expects to make his "family home."

PLANS "UP IN AIR"

"That's a kind of tough question," he answered with a laugh.

"Mrs. Lindbergh and I haven't settled that problem definitely yet. I guess our address will just be the United States of America for a while. We are going to live here and there for the time being. The main offices of the company will be in St. Louis, but I probably will be up and down and all over the line most of the time. Mrs. Lindbergh hasn't got tired of flying yet and as there is a lot of it to do you might say that our plans for the future are up in the air.

DISCUSSES FUTURE

"I believe that an increase in air travel will increase proportionately the volume of business done by the railroads. There never will be any competition between the two methods of transportation. Where now only one plane leaves its terminal the business will increase to such an extent that whole fleets will leave on the schedules.

"In the near future we will eliminate the train travel between Clovis, N. M., and Waynoka, Okla., and fly direct to Columbus, O., from Los Angeles. This will reduce the air-rail time between Los Angeles and New York to thirty-six hours. The cost of air travel will be reduced proportionately as the volume of business grows.

"The elimination of the 900 miles of train travel will necessitate night flying. We now are experimenting with night planes that will be fitted up like Pullmans. Just when that service is to be inaugurated I cannot say, because I do not like to make guesses."

COLORADO DAM INTERESTS EAST

(Continued from First Page)

amount of tourist travel. Mr. Robinson pointed out that unfavorable weather conditions during the spring throughout the Midwest and East were reflected immediately in an increase in train travel to the West.

CITY'S GROWTH DISCUSSED

Being in the passenger end of railroading, Mr. Robinson centered his comment on passenger travel to the West. Southern Utah, Nevada and Northern Arizona, a general territory tapped by the Union Pacific, is presenting a very interesting new field for the tourist from the East. The north rim of the Grand Canyon, Zion National Park, various canyons, caves and archeological discoveries in that general territory are attracting travelers in greater numbers.

Mr. Robinson also was much interested in the rapid growth of passenger patronage of the new East Los Angeles station of the company. It is found that passengers in growing numbers are using the station to avoid the traffic congestion of downtown Los Angeles. This tendency is particularly noticeable on the part of passengers to and from such cities as Long Beach, Alhambra and the foothill towns.

The great industrial development of the East Side of Los Angeles with new tire factories, furniture, can and other industrial plants, is nothing short of remarkable, in the opinion of the railroad executive. It is evidence of the real substantial growth of Los Angeles.

THE LANCER

(Continued from First Page)

I learn that the great State of California is the proud possessor of a State Board of Cosmetology. Inspecting the work of lipsticks, the State Board of Cosmetology has thousands of volunteer assistants among the sheiks of Hollywood.

N.B.: I feel inwardly convinced that Prof. Jack J. Barry, aged 9, has a wonderful lecture prepared upon the virtues and horrors of cosmetology.

Dog Population Shows Decline

Licenses were obtained for 406 fewer dogs in Los Angeles during the fiscal year ending June 30, last, than during the previous fiscal year, according to report of the Humane Commission. Receipts for the year are $113,384. The total of dogs licensed for the fiscal year was 45,029.

The period for obtaining new licenses began on the 1st inst., and during the first week a total of $10,544 was taken in by the humane department.

TEXANS MEET FRIDAY

All Texans, resident and visiting, are invited to a reunion Friday evening in the hall at 1137 South Hope street. President Lyston Black will offer a popular program and dancing will follow.

CLUB HAPPY OVER PRIZE FOR ITS ADS

All-Year Organization Widely Congratulated for Winning High Award

Messages of congratulation from many parts of the country have been received by the All-Year Club since the organization recently was given first prize for the most effective community advertising campaign in Western United States and Hawaii for the second consecutive year, it was announced yesterday.

The prize was awarded at the recent annual advertising competition of the convention in Oakland by the Pacific Advertising Clubs' Association. Commenting on the award Don Thomas, executive secretary of the All-Year Club, says in a letter from the East, where he is now on a trip:

"The winning of this award is the highest honor organized advertising in the West can pay to advertisers in its ranks. We are gratified to receive this recognition."

Air-Mail Line to Open From Canal to Chile

Air-mail service from Cristobal, Canal Zone, to Santiago, Chile, will be inaugurated next Tuesday, it was announced yesterday by Postmaster P. P. O'Brien. The weekly schedule calls for departure from Cristobal every Tuesday morning and arrival at Santiago the following Sunday at noon. The northbound planes will leave Santiago Sunday at noon and arrive at Cristobal Friday afternoon.

Rates per half ounce or fraction thereof will be 70 cents from Miami to Chile, and 45 cents from Cristobal to Chile. Articles prepaid at the first rate will be dispatched by United States domestic air-mail service to Miami, when practicable, or from San Juan to Miami on F.A.M. route No. 6, as well as from Miami to Cristobal by F.A.M. route No. 8 and thence by F.A.M. route No. 9 to Colombia. The last rate applies to articles to be dispatched by sea from the United States to Cristobal and from that place, by F.A.M. route No. 9, and will include dispatch by domestic air-mail service, when practicable, to the port of dispatch by steamer. All articles for this service must be marked "Par Avion—By Air Mail."

BULLOCK'S

$25

One Hardly Expects Suits So Smart At $25

It has taken the lithe, freedom-loving American woman to prove the utter utility PLUS grace of the smart tailleur!

Well-made—sturdy—but not clumsy—not even in the larger sizes—they drape and follow the supple lines and movements of the body—ideally moulding, but never outlining the figure! There is subtle tailoring to these new suits—inspired no doubt by the softer quality of the new tweeds—tweeds of course—no one thinks of suits without thinking tweeds these days.

The seven-eighths length coats may well be worn over silk dresses as well as on suits—and the color choice offering tans, browns, blues, grays and mixtures enlarges this interesting possibility. So much more than one expects at $25—instance of Bullock's leadership.

Women's Suits, BULLOCK'S, Third Floor, Broadway Building

Beginning at 9 A.M. THURSDAY

DEATH ENDS DREAM OF HOMELAND TRIP

Masashi Goto

JAPANESE IN HOMEMADE PLANE DEAD

Gardener-Flyer on World Trip Found in Wreckage of Craft in Utah

Masashi Goto, 33-year-old local Japanese gardener-flyer, who took off from here on the 2nd inst. on a 'round-the-world flight in a home-made airplane, was found dead in the wreckage of his tiny craft Monday night in Dry Canyon near Heber, Utah, dispatch received here last night from Salt Lake City stated.

Telephone linemen found Goto's body. It is believed the Japanese flyer plunged on the 4th inst., the day he left Salt Lake airport for Rock Springs, Wyo. He was headed for New York City where he planned to cross the Atlantic by boat and take off from England in his plane for his home in Japan.

A three years' dream was shattered with the unwitnessed crash. Goto had saved his earnings while trimming lawns here and put it into material for the little single-seated biplane which he and his friend Takeo Watanabe constructed nights and holidays in a Venice aircraft factory.

Watanabe was grief stricken yesterday but made arrangements for the return of Goto's body to Los Angeles. Friends said that Goto had no relatives here. He came from Japan eight years ago and had been flying for three years. He held a private pilot's license.

Youth Held as Drunk Driver

Clarence Palmer, 19 years of age, was ordered held for trial in Superior Court on charges of drunken driving and a hit-and-run count by Municipal Judge Frederickson yesterday. Bail was set at $2000.

Witnesses called by Dep. Dist.-Atty. Stahlman testified that Palmer was driving his car at approximately sixty miles an hour on the 4th inst. when he crashed into a machine occupied by Louis F. Terry, March Field aviator, and his brother, Harry W. Terry of 823 East Seventy-fifth street. The Terry car turned over four times, they declared.

CALEDONIANS TO DANCE

The Caledonian Club of Southern California has arranged a midsummer dance for 9 p.m. Friday in the new Foresters' Hall, 1339 South Hope street. President Burr has extended the invitation to members of all other Scottish societies in the Southland.

MADERA PICNIC SUNDAY

Next Sunday is the date selected by the Maderans for their annual picnic at Bixby Park, Long Beach. All old residents of the San Joaquin Valley who have lived in Madera are invited.

the Bell application to operate a cement plant north of Pacific Palisades, is shooting too wide of the mark. Why would anyone want to lay a twelve-inch pipe line to Venice, seven miles, to convey cement in solution? There is no industrial zone at Venice where cement could be manufactured from the solution, and I question whether an extension of the pipe line twenty-five miles down to San Pedro would be a practicable plan."

He added that the question before the commissioners was one of making for the city taxpayers a profitable and legal sale of a franchise, with all guarantees and safeguards.

A large attendance at the Santa Monica Council meeting Friday, when the sale or rejection of franchise bids takes place, was predicted. If the petitions are presented, and carry enough signatures, officials said, they will be considered. It was generally believed that Gadd would be the only bidder at the sale, though possibility that some concern seeking the franchise for use in the future, as a natural gas main or some other purpose, was admitted.

Today's Bible Text

But he that doeth wrong shall receive for the wrong which he hath done; and there is no respect of persons. Colossians iii:25.

QUICK ON THE DRAW

Lots of men who never saw the inside of an art school have it all over the best of painters when it comes to drawing money at the bank.

THE CITADELS

The church buildings in which America worships are of themselves valued at more than $4,000,000,000. Those who hold that religion is a fad will notice that it is mighty well intrenched.

FIELD OF PRACTICE

These experts and inventors who have suggestions or devices for use in an offensive war might be given a chance to practice on the rum raiders at the Detroit border. The wastrels appear to be on the alert to cope with anything we have.

WILLING TO SERVE

The head of the International Harvester Company sacrifices a $100,000 job in order to serve his country as an expert on the farm board at about one-tenth the salary. How many of our labor leaders would be equally patriotic under kindred circumstances,

MINES OF ARIZONA

An expert survey places the value of all the active mining properties in Arizona at $282,000,000. This is a fat sum in itself, but it may be only a curtain-raiser for the ultimate development. The State has certainly something to be proud of in the extent of its mining and mineral resources.

THE BIG ORDER

It will take nearly 3,500,000 barrels of cement to create our San Gabriel dam. This is thought to be the largest order ever indulged in Greatest America and it will need the Colorado improvement to give it competition. This is a land of big undertakings and nothing frightens our engineers as long as the money market holds out.

OIL PRODUCTION

During the month of May the State of Texas produced over 800,000 barrels of oil a day and thus took a long lead in national output by States. The daily production of the whole country for the month was 2,733,000 barrels. California, which once supplied more than half of the national yield, now produces less than one-quarter. No wonder there is a call for conservation.

APOSTLE OF GLOOM

Senator Brookhart arises to tell his colleagues that an acute political situation exists. It always does with a calamity howler. The average man sees the political skies clearing and notes a general adjustment of the popular mind, but the somber and saturnine Iowan can see only the approach of famine and pestilence. He doesn't want the sun to shine upon a contented people. If it did he would fear for his job.

SALE OF SURPLUS STOCKS

Some days ago there was an auction sale of some surplus stock or excess baggage at the Central Park Zoo in New York. The samples included a camel, a hyena, a ten-year-old lion and a zebu. There seemed to be a market for all of the subjects save the hyena. The bidding for the hyena was weak and dispirited. Nobody seems to deeply care for hyenas or worry whether they have homes or not. This seems almost pitiful.

NO SUCH ANIMAL

The score card for perfect husbands as compiled by a survey of several hundred graduates of a co-educational college shows no less than 143 items. In the face of this the conclusion must be that there is no such animal. The perfect husband must not only be a good provider, but a plumber, carpenter and paper hanger. He must yield to the wife's wishes without argument and he must even be polite and hospitable to her relations. He should be not only able to fix the furnace, but patch his own pants. The man who can do all this would be foolish to get married and expose his disposition to a strain.

THE FRENCH DEBT

French opponents of the Mellon-Berenger war debt accord are making a great outcry against ratification of that agreement without what they term a safeguard clause. They want it stipulated that France is not to pay the United States the $400,000,000 due the country on August 1 until she has been paid herself by Germany.

Our Congress has gone on record as insisting upon ratification of the agreement and it is realized by the majority of the French Chamber of Deputies that there is no particular virtue in further evasion of admittedly just obligations. By ratifying the debt agreement France will gain time for payment of the amount due in August, our government having made it known that in such case it is willing to defer its demand until a later date. What America wants is to be given to understand that France is willing to bind herself to pay her debts by a specific contract which many of her people are apparently unwilling to let her make.

France and America always have been good friends, and these French opponents of the projected settlement seemingly are counting upon this friendship and what they consider our easy-going, good nature to release their government from a business obligation it is amply able to discharge. These would-be repudiators of an honest debt do not seem to consider that a friendly nation owing money to another is in the same position as a man who has borrowed money or purchased goods from a friend and has made no attempt to pay him. The friend hesitates to insist upon his just rights because of his amiable relationship with his debtor, but in justice to himself and his own creditors he feels that he must be firm in his demand for payment.

For the friendly debtor to say that he will discharge his obligation provided he can collect the money from somebody who owes him is puerile and no commercial or moral principle can be cited to uphold such a stipulation. It is equally idle for France to plead inability to pay considering the large sums she has been spending for military and other purposes which are distinctly not of a pressing nature.

Our firm-but-friendly attitude in this matter is fully justifiable and is based not only upon moral and legal rights, but upon common sense. To do otherwise would be unfair to other countries who do pay their debts and would cost us the world's respect. Who believes that France, in our place, would act differently, much as she has liked and respected us? France will receive a large share of the $525,000,000 to be spent by American tourists in Europe by mid-September, as estimated by the Department of Commerce. This sum is twice what Europe pays us annually in settlement of war debts. France, it is estimated, will receive about $200,000,000 of it. This ought to help some, though, of course, it is not all profit.

The French Cabinet is inclined to consider the settlement a fair one and everybody in France or elsewhere having a decent regard for financial obligations should be willing to accept this view of it.

ROCKEFELLER AT 90

When a man can get a double-column heading and space at 90, he is yet a force in the world. And "force" is the descriptive word of John D. Rockefeller. Possibly he has had as much to do with finding and releasing the forces of Nature as any other man. When he attended to business matters and played a nine-hole game of golf on his ninetieth birthday, Monday, obviously his personal energy has not all been used up.

His real worth has been much obscured by his wealth. J. I. C. Clark, who for years was intimately associated with Standard Oil, asked Mr. Rockefeller in the intimacy of the golf links one day, what was the secret of his private fortune. How did he manage to amass more money than his associates.

Mr. Rockefeller's eyes narrowed, then widened, as he said, "Faith!" He further amplified, "Faith in oil!"

Andrews, his partner in pioneer years, whose skill in refining oil first made success possible, early lost faith in the enterprise and sold out. On the other hand, Henry Rogers never sold a share. John D. Archbold was ever ready to buy more.

Nor was Mr. Rockefeller the first to discover oil in the Pennsylvania hills. A farmer on the land where Oil City now stands was bothered by a scum on top of the stream where he watered his cattle. He sold out for a few hundred dollars and went to Canada to work for his brother.

Even when oil was largely a smell, Rockefeller persisted. When Ohio Lima oil first came in, it "outstunk" all who tried to refine it, according to the memoirs of Mr. Clark. E. T. Bedford invested $24,000,000 in the product. Folks thought him crazy. He shared Rockefeller's optimism.

The modern motor world owes much to these seers in oil. The gas engine made the automobile possible; but Rockefeller furnished the gas. But for it the airplane industry would not exist. Lindbergh would never have made his flight. The refueling records of the past few days would never have been hung high in the heavens.

The way Rockefeller holds on to life is but a hint of the way he held on to oil in the early days amid seemingly insuperable difficulties. By sheer grit he helped to put humanity on wheels and wings.

THE PLASTIC ART

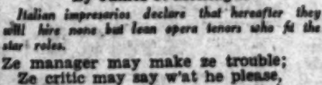
In a recent volume from the pen of a Chicago surgeon proof is furnished that attempts at plastic surgery for the beautification of the human face were familiar in Egypt and India more than 2000 years ago. Centuries ago it was the custom amid certain Hindus to disfigure the nose and face of an unfaithful wife by a process of mutilation. Later efforts to disguise or remove this damaging evidence gave to many operators a remarkable skill. They could patch up a lady so that she would look as good as new to some unsophisticated bozo. The tidings spread to other lands.

As early as 1480 clever Italian face-fixers carried their plastic methods into Germany. A large family in Sicily had a wonderful reputation for the ability of all its members to build new noses from the skin of the face. In other lands and climes the plastic art has been essayed with more or less success.

Now if a jealous husband bites or nicks his lady's beak she can jog down to her surgical shop and have herself made over into another Helen. The experiences of the war gave our doctors an almost uncanny skill. They can rear a temple of beauty on a broken ruin.

PEACE IN MEXICO

Under recent regulations there will be no plays or pictures in Mexico that deal with the religious or political affairs of the country. It is figured that at this time they would only tend to disturb the peace and arouse the public feeling and that, therefore, they can best be dispensed with. If this be censorship the objectors will have to make the best of it.



A PROTEST FROM A FAT MAN
By James J. Montague

Italian impresarios declare that hereafter they will hire none but lean opera tenors who fit the star roles.

Ze manager may make ze trouble;
Ze critic may say w'at he please,
But putting ze art in ze opera part
I tal you myself, is no eas'.
Zey lie for ze tenor go hongry
So he looka romantic an' thin,
But w'en for so long I have singa ze song
I wanta ze great bigga din'.

Ze people zey lika ze moosic,
Zey wanta ze bootiful sound,
And I singa more sweet if so moocha I eat
Zat I weigh two or t'ree hondred pound.
Lean tenors is more zan a plenty,
Zey swarma as t'ick as ze dust,
But zem fellars will last joost so long in ze cast
Zat de opera beezinees go bust.

All day long I moost practice ze aria,
Do re me sol—note after note,
Low down and oop high, till I get by an' by
Like ze camel, so dry in ze t'roat.
An' zen I send out for chianti
An' pretty soon hongry I feel,
So zen I must eat ze spaghetti an' meat
Till I maka ze nica fine meal.

Let zem take ze leetle thin fallars—
To look at zem maka me seeck—
When ze singa zere best with zere t'in hollow chest
Like ze small leetle mouse zey go "squeak."
My voice he is big an' robusto,
Like a beautiful bell he can ring,
But I'm not ze darn fool, so I maka ze rule
No eata ze plenty, no sing!

(Copyright, 1929, by The Bell Syndicate, Inc.)

The LEE SIDE O' LA
By Lee Shippey

RECENTLY we mentioned the fact that there are eighteen Japanese baseball clubs playing league matches arranged by the playgrounds department of the city of Los Angeles, and about 300 Japanese tennis players in touch with that department. The fact that the rising generation in the large Japanese colony here is decidedly American is further indicated by the English section which Rafu Shimpo (the Los Angeles Japanese Daily News) has been publishing once a week for some time. We are informed that soon that English section is to be published twice a week—because so many of the young Japanese here cannot read Japanese.

Chased to the Farms

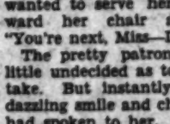
"When cops chase bums from Pershing Square,
A Congress student ventures,
"There's farm relief in action there—
Those coppers are dehenchers."
W. A. S.

Tricks in All Trades

A pretty, dark-eyed dark-haired girl entered a Hollywood beauty shoppe and one of the two girls who wanted to serve her waved her toward her chair and murmured: "You're next, Miss—Del Rio!"

The pretty patron had seemed a little undecided as to which chair to take. But instantly she flashed a dazzling smile and chese the girl who had spoken to her.

When she had gone grandly out, after taking about everything the beauty sales girl had to sell, the girl whose chair she had not taken said:



"Say, where ya get that stuff, Heloise? That wasn't Dolores Del Dio. You're crazy."

"Am I?" asked Heloise, sweetly ignoring the way the other had unduly accented the first letter of her name. "Well, mebbe so. But she took $2.40 worth of work and then tipped me a dollar."

Advantages of Being Unknown

One reason why motion-picture stars and others much in the public eye prefer not to be recognized when they go shopping is that lordly tips and utter disregard of cost are expected of them.

We were telling a local sportsman what Jack Dempsey had told us—that he didn't expect ever to fight again—when he exclaimed:

"He'll have to. It costs him too much to live. He never gets a shave that he isn't expected to tip at least $1. Think of a dollar tip for a 35-cent job! And other things are in proportion."

We didn't even ask where those 35-cent shaves are. We didn't want to know.

Jack's Future

But we don't believe Dempsey will ever fight again for any such reason as need of the money. He strikes us as a much shrewder business man than the public gives him credit for being. Some people think the mighty Jack is a dumb-bell wholly handled by his managers, but we never met a dumb-bell who can talk as well, snap out unequivocal answers and show that he is thinking all the time.

Besides that, an insurance man tells us it is gossiped in insurance circles that Dempsey has taken out an annuity which probably is unparalleled. It is said to be absolutely attachment-proof and foolproof. If all Dempsey's other assets were wiped out tomorrow, he said, that annuity would pay him $1200 a month as long as he lived. Of course, that wouldn't be much for Jack, but still a fellow wouldn't have to starve on it.

Water to China

Last week a Los Angeles company was asked for prices on biweekly shipments of 25,000 bottles of water to Hongkong, China, for relief of the white residents of that drought-stricken city. It gives one an idea of how close we are to China—and of how terrible the need of the yellow residents in Hongkong must be.

Fads in Show Cards

Strolling about town yesterday, we were struck by the surprising number of show cards with raised letters in store windows. They seemed to be something new, so we asked about them.

"They write a lot of show cards with machines now," a store manager informed us. "Several years ago a machine appeared which would cut out designs traced on 'compo board,' but they didn't catch on. Lately they've been improved, and now many are in use. Letters about one-fourth of an inch thick are cut out, and sometimes two layers are pasted together. Usually, though, the effect of depth is gained by shading. Pasted on a show card, those letters stand out strikingly, and if a good show card writer shades in the background they look pretty."

WHAT OTHERS THINK ABOUT IT

CHILDREN ARE IN THE STREETS
[Detroit Free Press]

School is out and a great many children are playing on the streets. We agree without reservation with those who say that children ought not to play on the streets; but they do and they will. That is partly because a great many of them have no other places to play except the alleys, which are almost as bad as the streets, and the sidewalks, which do not provide much space for a baseball game. There are some playgrounds, but not enough to take care of the situation. So there are going to be a great many sad traffic accidents this summer at the best. Some can be avoided, however, if every motorist will be as watchful and as careful as he can, and also sympathetic, remembering that he was once a child himself.

In writing this, we admit doing so with a hopeless feeling that it is not likely to accomplish very much general good. But somebody may remember, and so somebody's life or limbs may be saved.

THE SENATE AND THE MARKET
[Philadelphia Public Ledger]

Discussions in the Senate on the subject of what to do about the stock market have not unexpectedly yielded more heat than light. But common ground seems to have been reached upon at least one point. It is that there has been too much speculation, that speculation is bad and should be checked.

No Senator rose to take the opposite view, though the whole case of what might be called the stock market versus the Federal Reserve Board has depended upon the debatability of this question. Those who have raised their heads against the dictates of the Federal Reserve during the last twelve months have argued that there has been no overspeculation or, alternatively, that if speculators have tended to overstep the usual bounds, it is good rather than bad for the country, shows optimism in the potentialities of prosperity and hastens the development of the nation's resources.

The rather bewildered public, which for so long has been watching this battle from the sidelines and dodging occasional brickbats, may take this spoken and implied Senatorial opinion for what it is worth—or let it alone. The general feeling, however, that there has been too much speculation here finds support.

MARRIAGE IN THE FUTURE
[Chicago Tribune]

The new woman and the new home that mark the modern age are bringing with them a new idea of marriage. Marriage and children used to be an economic asset to grandfather on the farm. Now they are an economic liability to the grandson in the city. With the home changed by modern industry from a producing unit to a consuming unit, the home, marriage and children become a luxury, as it were, that fewer men afford in youth.

The decline of marriage is due in part to women with freedom economically to stay single. They are free to depart from marriage, or to avoid it, and many of them do. For men and women both it is easier than once to refrain from marriage. And for men it is more profitable than in the past.

On this modern situation sits an antique set of marriage customs of an old, rural age. They give the man authority and they protect a woman presumably unable to support herself. Lawyers and their clients who will use the old laws' devices unscrupulously may inflict grave injustice and disaster on an estranged mate. Increases in divorce are not unwholesome. But the lying and the trickery and the great injustice involved in meeting antique laws make a serious social problem.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

"Mare Clausum"?

MONROVIA, July 6.—[To the Editor of The Times:] Having read in The Times letter column a reader's ideas of the public here being shut off from the seashore I wish to say I heartily agree with him. The State of California is forever booming its beautiful coast attractions the year round, etc., but I have heard several visitors after coming here from the East say that California is spoiling its beauties to boom real estate. There is hardly a spot left to be enjoyed except by those who can buy real estate or belong to a beach club.

When private parties will stick a barbed-wire fence all along the ocean front, as has been done on the new highway to Oxnard, the beauties along the coast drive are entirely spoilt for easterners used to enjoying the Atlantic shores where the ocean is free to everyone though there be fashionable houses near by.

Taking our lunch with us July 4 we hoped to enjoy the sands beside the waters. We were greeted everywhere by unsightly fences and "keep-out" signs. We did finally find one place that was open but it was long after lunch time. So we sat down in a patch of dry grass, but were ordered off. That last California welcome will send us back to Massachusetts, where the ocean is free. California should wake up to the fact that to hold visitors they must give them something more to admire than real estate signs.
A MASSACHUSETTS NATIVE.

Express a Preference

SANTA PAULA, July 6.—[To the Editor of The Times:] May I have the pleasure of correcting your correspondent, L. V. Shepherd, in today's Times? He takes an alleged quotation from Judge Hahn—"Our jails shelter 14,000 criminals and those who will, in large measure, take their places in the future are in our public schools today"—and uses it as a text to advocate putting the Bible in the schools. After telling us that the Bible is the text-book of Christianity, he declares, "Christians are not found in our jails."

Now when we find a zealous Christian making a positive and sweeping statement so notoriously contrary to easily verified facts, it is small wonder to learn that, although less than 50 per cent of the population is claimed by the Christian churches, well-authenticated statistics covering 82,525 inmates of State's prisons throughout the country show the following: 65,853, or 84 per cent, express a preference for some form of Christianity, while those not having preference number but 13,672, or 16 per cent.
DANA L. TEAGUE.

Preparedness

LOS ANGELES, July 5.—[To the Editor of The Times:] I see by your paper that our new Mayor has the appointing of eighteen different commissions and is asking for the resignations of present members.

I think if he would follow the example of ex-Mayor Carter Harrison, Jr., of Chicago he would have no trouble in the future.

When Carter Harrison made appointments and they were accepted and confirmed by the Board of Aldermen he also had appointees file their resignations with him, which he held, so if anything went wrong while they were in office he had no trouble to get rid of them.
JOHN F. JEFFERS.

Why Is a Beacon?

LOS ANGELES, July 7.—[To the Editor of The Times:] To settle an argument between several visiting Elks, will you please publish in your column the solution to the following baffling problem:

What is the meaning of that fellow sitting in a chair on top of your City Hall holding a flag between his legs?
EMMET SINCLAIR.

Deaf Drivers

LOS ANGELES, July 2.—[To the Editor of The Times:] As a deaf man, I want to protest against this new ruling (reported in today's Times) that voids all auto drivers' licenses issued prior to 1927, and requires one to pass a physical examination before another license will be granted.

I understand this leaves deaf people out in the cold. If true, it strikes me as the grossest unfairness. Deaf people, notoriously careful drivers, rarely, if ever, figure in accidents. Do you ever hear of any?

I myself, deaf over eleven years, having driven a car nearly every day in that time, have never had the slightest accident. Although I lost my hearing as a result of war services, I by no means offer that as a reason why I should have special privileges; but I do emphatically expect it to guarantee me the rights and privileges of other law-abiding citizens.

Can't our legislatures and officials do something to blight the crook and reckless driver crops and let the rights of the rest of us alone for a while?
SUBSCRIBER.

The Dangerous Rabbit

Some days ago as Dan Carrey, bus driver on the Solomon Valley stage operating between Beloit and Manhattan, was going along the highway on his trip a jack rabbit pursued by hounds came racing down the line and dashed into the radiator at full speed, hurling itself so hard that a $40 damage resulted.—[Topeka Capital.

THE BARRY CASE

BY ALMA WHITAKER

The case of Mrs. John Barry and her 9-year-old Jack is intriguing. Mrs. Barry is being prosecuted in the courts because she refused to allow her boy to attend the public schools.

Not, however, that Jackie's education is being neglected. On the contrary. The mother says that her boy is so exceptionally intelligent and has become so learned under her own instruction, that he has already given sixty-six lectures on subjects ranging from California history to theology during the ten months they have resided here. The court, however, decided that the boy's mentality was irrelevant and judgment was given for the school authorities.

One's reactions on reading this case are conflicting. After all, if education is the problem, it cannot be said that the mother has neglected her duty. Instead, she has made the education of this boy her main career in life, just as others of us mothers take to law, politics, art, business, writing, etc., and has evidently made a good job of it. She must surely shine among us as a devoted mother par excellence and it seems ironical that this could be held against her in an age when mamas are said to be so neglectful.

It is probable, of course, that she made the boy a bit of an intellectual snob . . . but snobs can be created even in public schools, certainly in private schools, and very effectually in college.

Another point that seemed to impress the court unfavorably was her claim that the boy has never been absent from her side for more than an hour since his birth. This is regarded as denying the boy "a normal life." One does feel, of course, that human contacts, especially with children of his own age, are necessary in a world where we all have to rub shoulders with our kind when the age of responsibility arrives.

Precious few of us mothers could safely flatter ourselves that our own company would be all-sufficient for our youngsters. I know mine couldn't stand it. All the same, I cannot help admiring a mother who has been able to accomplish it, apparently with grace.

I missed a lot of "normal" schooling when we were traveling up-country in South Africa and also when I was blind for eighteen months. During that time my father devoted himself to me and my "education." That still stands out as the happiest time of my life . . . and made that temporary blindness positively fun. Also I will wager I learned more then than at all my thirty-two schools in nine different countries put together. So Jackie isn't necessarily to be pitied for mama's exclusive company.

Where, then, is this mother's crime? What exactly is the offense she is committing? Why is the boy's mentality "irrelevant"? In what respect can the schools claim to be superior? Always we are bemoaning the fact that classes have become so large, schools so huge, that our children can no longer receive a semblance of individual attention. When a boy has to meet a difficult examination at high school or college and is "behind in his grades," the first suggestion is a private tutor.

And even the schools brag sumptuously about star scholars, superior intellectual achievement. Well, here's a mother who can boast a really star pupil. She must be a good teacher. She can show results. Any mother among us who had achieved as much would be amazed to hear that we had affronted the law of the land and were regarded as "delinquent."

Parents everywhere must surely be tremendously interested in the case. Because, you see, we evidently must not make sonny boy our "career" and try to raise supermen. It is an insult to the public schools. . . .

WHERE CAN I LEARN
Machine Shop?

BY LOUISE L. TEMPLE

[Prepared in co-operation with the Los Angeles evening high schools. Questions concerning free evening classes will be answered if stamped addressed envelope is inclosed. Address Louise L. Temple, care of The Times.]

Trade preparatory and advanced machine-shop practice is offered free to all adults by the Polytechnic Evening High School, 400 West Washington Boulevard. There is a laboratory fee of $1 and a deposit of 50 cents for keys and checks. The latter is returned when the student returns all school property.

This class cannot take the place of the four years of day work required to become a journeyman machinist, but evening school will give a boy technical information which he cannot get in a shop.

There is also opportunity for an experienced machinist to advance through the practice on lathe, planer, shaper, grinding machine and milling, which involves various gears, as spiral, bevel, spur and the like.

Every student in this class must learn the whole course or any parts of it which he does not know, for no one is admitted who does not wish to enter or advance in the trade.

The class meets, beginning July 8, on Monday, Tuesday, Wednesday, Thursday and Friday evenings, from 7 to 9 in room 122 on the ground floor of the main building. The instructor is Arthur E. Summons, journeyman machinist of ten years' experience in various contract shops in Los Angeles and vicinity.

The famous Brigade of Guards in London has formed a flying club with seventy members.

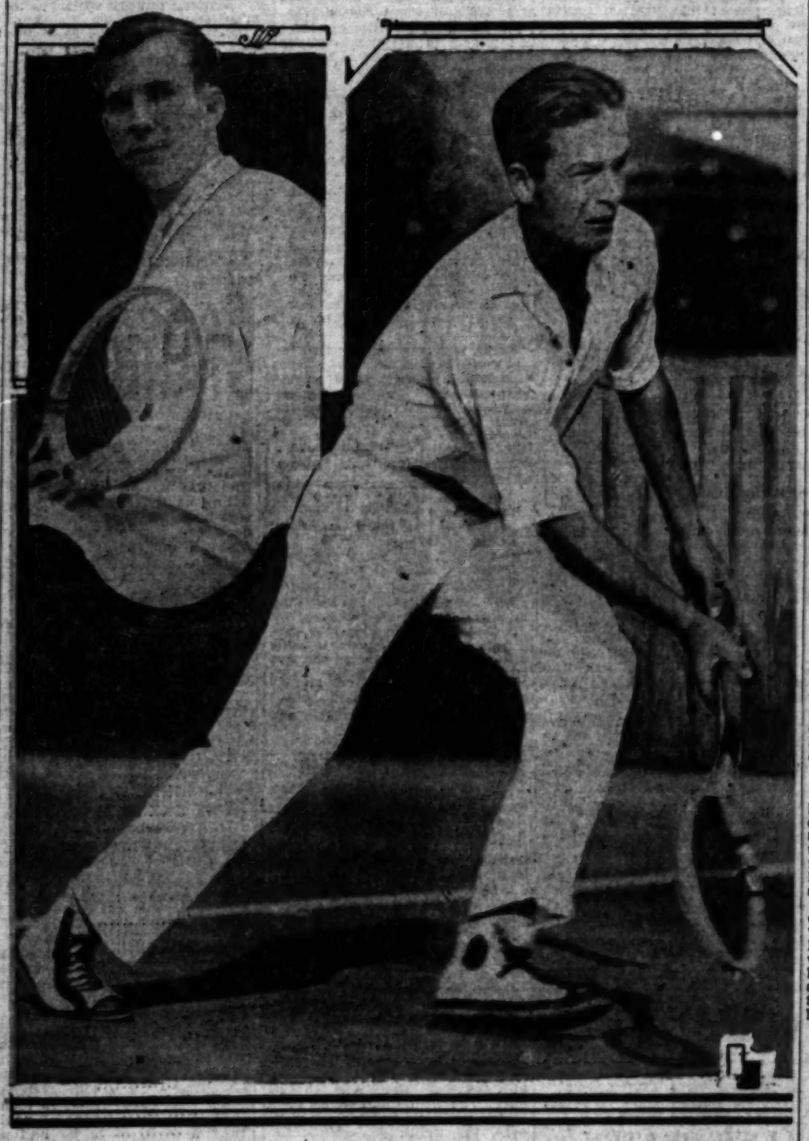
WEDNESDAY MORNING, JULY 10, 1929. C

JUNIOR OLYMPIC CHAMPIONSHIPS START TODAY

Shellenback Scalps Seattle Tribe, 13-5

SEEK SECOND NATIONAL CROWN

Here are Southern California's favorite tennis sons, Ben Gorchakoff, in action, and Art Kussman, of Occidental College, who make their bid for a second national doubles championship at Indianapolis today. A few weeks ago the Tiger pair won the national intercollegiate doubles crown, and today they play Fritz Mercur and Gilbert Hall for the national clay-court crown. They won their way into the finals yesterday, with a thrilling come-from-behind victory over Berkeley Bell and Louis Thalheimer. The scores were 6-2, 6-8, 2-6, 9-7, 7-5.



THOMPSON COPS GOLFING LEAD

Glendale Youngster Annexes Qualifying Honors

Tours Sunset Fields Course in Even Par

Los Angeles Team Captures Championship

BY BRAVEN DYER

As the result of a particularly brilliant round over Sunset Fields No. 1 course yesterday afternoon, young Mr. Russell (Buddy) Thompson of Glendale, today finds himself leading the parade in this struggle for the golfing championship of Elkdom. Nipping birdies here and there and bagging more than his share of pars, the University of Southern California boy turned in a 72 card, even par, to win the qualifying round of thirty-six holes.

RUSSELL THOMPSON.

This was considerably better than anything chalked up by the other leaders, and when added to his 75 of Monday, gave "Buddy" a total of 147.

Thompson is little more than a a calf as Elks go, but he showed the old-timers how to get around the course yesterday. This has been a great year in Southern California for the youthful divot diggers and, unless "Buddy" falters today he should win the national title with the concluding eighteen holes at Rancho.

Paul Johnson and L. S. Stroud, who tied for low gross honors during the first round with 73's, encountered rough going yesterday and slipped back considerably. Johnson took a 77, which gives him a total of 150 for the two days'

SONNENBERG KEEPS TITLE

Champ Suffers First Fall of Career, But Later Flops Lewis Twice as 25,000 Fans Look On

BOSTON, July 9. (AP)—Gus Sonnenberg's famous flying tackle overcame Ed (Strangler) Lewis for the second time in seven months and enabled the former Dartmouth football player to retain his heavyweight wrestling title here tonight at Fenway Park.

In so doing the champion suffered the first fall of his mat career, which came when Lewis flattened him with a breast lock, but he gained the next pair with his deadly butting tactics.

GUS SONNENBERG

Lewis was a cautious grappling for the second fall, but the champion evened the count by taking the second fall in 19 minutes with a terrific flying tackle. Lewis dropped when Sonnenberg bumped him squarely on the chest before he could turn his back.

The champion had his shoulders pinned to the mat.

They started off fast, Sonnenberg testing Lewis's boast that he had perfected a defense for his vicious tackle. Lewis was able to avoid two of them with ease, and Sonnenberg stuck to straight wrestling up to the fifteen-minute mark.

Soon afterward Sonnenberg started another series of tackles and he was dashed to the mat when Lewis sidestepped one of them. The champion appeared shaken by his fall, and Lewis leaped on him, obtained a breast lock and slowly turned the champion around on his back and forced his shoulders to the mat just before the expiration of eighteen minutes.

After the first fall Sonnenberg

MOE WINS MEDAL HONORS IN KANSAS CITY TOURNEY

MISSION HILLS, KANSAS CITY, July 9. (AP)—Don Moe, smiling collegian from Portland, Or., today captured medalist honors in the qualifying round of the thirtieth annual western amateur golf tournament here. Moe's card of 144 strokes for thirty-six holes was one stroke better than the total of Keefe Carter of Oklahoma City, who was champion in 1925. The Portland golfer turned in two consistent par 72 rounds to top the field.

For the first time since he began competing in the western amateur "Chick" Evans of Chicago, eight times titleholder, failed to qualify. His two-day total was 156, a good 78 today failing to atone for an 81 of Monday.

Three of the four golfers who had 71 to lead the qualifiers in the first round yesterday scored much higher than on their initial round, but gained entry into the select thirty-two who will start match play tomorrow. They were Frank A. Aylward, Kansas City, with 71-80—151; Chester C. Jones, Kansas City, with 71-80—151, and Clarence Hubby, Dallas, Tex., with 71-78—149. Frank J. English, Kansas City, who was tied for the lead yesterday, went so high with his 85 today that he failed to qualify.

Two eighteen-hole rounds

STARS CAPTURE SERIES OPENER

Spitball Twirler Has Easy Time Beating Tribe

Three Seattle Slabmen Hit Hard by Hollywood

Shellenback Swats Pair of Homers for Vittmen

BY BOB RAY

Frank Shellenback, Hollywood's celebrated spitballer, turned in his thirteenth victory of the season out at Wrigley Field yesterday and enjoyed a pleasant afternoon doing it. Shelly not only completely silenced the Indian war clubs until such time that it didn't matter, but also hammered out a couple of home runs to play a prominent part in seeing that the Stars captured the series opener from Seattle, 13 to 5.

FRANK SHELLENBACK

The big Hollywood hurler struck out nine Indians and held the invading Siwashes to one run until the ninth, when he eased up and the Tribe banged across four tallies to ease their afternoon's sufferings.

While Shellenback was making the Indians play dead, the Stars were battering a trio of Seattle shinbeers for seventeen hits and rolling up such a lead that the Tribe was forced to give up early.

Although the Stars won, they didn't gain any ground in the second half race for the Angels, Seals and Missions all captured their contests.

KYLE GRAHAM ROUTED

Kyle Graham, the lanky right-hander with the half-hitch in his delivery, started on the mound for Seattle but was batted to cover in the fifth. Andy House followed and remained until the eighth, when Pipgras was called in to get the side out.

The Hollywood batting attack, excluding Shellenback, was led by "Red" Rollings, Bill Rumler, Eli Funk and Howdy Burkett, all of whom collected three hits. One of Rollings's hits was a home run with a man on in the eighth, when the Stars piled up their final five tallies.

The Sheiks also did considerable rambling on the bases, Funk pilfering five sacks and Rumler and Rollings getting the others. Rumler astonished all those present in the seventh, when he stole third standing up. For fear that Big Bill might tire himself on the paths, Skipper Vitt let him have the rest of the game off, sending Wally Rehg to right to finish the contest.

The Indians started out as though they meant to make it a ball game. Ellsworth's double and Wade's single giving them a run in the first inning. Eckhardt also got a hit in the first, but Burkett tossed out Almada to retire the side.

Hollywood evened it up in its half of the first, when Wade slipped while after Carlyle's drive, which went for a triple, and Rumler followed with a hit.

SHEIKS ANNEX LEAD

The Sheiks made three more runs in the third to take the lead. Singles by Rollings and Funk, Rumler's double, a couple of walks and two stolen bases did the damage to Graham.

A pass to Bassler and Shellenback's home run over the left-field wall gave Hollywood another pair of markers in the fourth.

Graham was chased in the fourth after Funk had singled and Heath had walked. Burkett sacrificed on House and then Bassler sent a long fly to Wade that scored Funk.

Rumler's double and steal of third and Burkett's single produced an eighth Hollywood run in the seventh.

House blew up in the eighth

(Continued on Page 2, Column 4)

Herr Max and Manager are Suspended

NEW YORK, July 9. (AP)—Max Schmeling, German boxer, and Joe Jacobs, his manager of choice, were suspended today by the New York Athletic Commission until such time as Schmeling fulfills his contract to box Phil Scott of England at Ebbetts Field. The tentative date is August 7.

Humbert Pugsay, New York promoter, holds a contract for the proposed Schmeling-Scott fight signed by Arthur Buslow, Schmeling's repudiated German manager. Neither Schmeling nor Jacobs was present at the commission meeting today.

SENATORS BOW TO ANGELS, 6-3

Norman Plitt Hurls Seraphs to Easy Victory

SACRAMENTO, July 9.—The Krugless Angels, with Truck Hannah temporarily at the helm, vanquished the Senators here this afternoon, 6 to 3, in the first game of the series. Norman Plitt was master of the Solons in all but one inning and did not allow a safe hit until the fifth round.

NORMAN PLITT

The Angels hit with considerable vengeance against the offerings of Doe Crandall and Pudgy Gould, driving the former off the pitching knoll in the fifth inning, when the southerners chased over four runs. Up to that point the game had been scoreless.

Plitt's early inning pitching exhibition was just about perfect. Not a ball was hit out of the infield off his delivery until the fourth inning when Backer lofted to Sisler. Although Plitt looked to be weakening in the eighth as Sacramento scored twice, the bespectacled hurler came back in the ninth to retire the side with ease.

Haney was the instigator of Doe Crandall's grief in the fifth inning

LOCAL BOYS ON EDGE FOR MEET

Three Events Scheduled for First Day

Southern California Kings Set for Action

Deal Makes Proper Weight for Best Effort

BY JOHN F. NESS
"Times" Staff Representative

ATLANTIC CITY, July 9.—Southern California's Junior Olympic Games champions are on edge here tonight, awaiting the start of the national finals tomorrow morning. The opening event of the meet is the 75-yard dash, billed to be run at 10 o'clock. This will be followed by the baseball throw and broad jump to be held in the afternoon.

JERRY DEAL

Thursday the program calls for the two most difficult events on the schedule, tossing the basketball and chinning. These two tests will conclude the meet and at the end of all competition it is to be hoped that Los Angeles will have at least one champion.

According to the schedule of events, it would not be surprising if the Southern California boys were trailing at the end of the first day as all the Southern Californians are particularly strong in the basketball throw and the chinning, both of which are on the second day's program. Last year at the end of the broad jump and 75-yard dash the Southern Californians, who finally won the championship, were trailing behind a number of easterners.

ROLL PEANUT

The writer will have to roll a peanut with his nose six feet down the most crowded part of the boardwalk to pay the bet with Jerry Deal, the laughing, yes, leering, little junior champion of Los Angeles, who firmly believes in two more days he will be the national junior champion of the Junior Olympic Games.

When the party passed through Kansas City, Jerry tipped the scales at 83 pounds, and the writer bet he could never reduce to the 78 pounds which he had to weigh to keep his same coefficient for the national games.

Arthur A. Dietz, the veteran

Malcewicz Favored Over Lutze in Main Event of Olympic Mat Prog

POPULAR STARS WILL HOOK UP

Body Slam Expert Rules Public Choice

Great Battle Expected as Heavies Tangle

Preliminary Bouts Promise Plenty of Action

Joe Malcewicz vs. Nick Lutze, best two out of three falls to a finish.
Jack O'Malley vs. Nick Velcoff, one fall, one-hour time limit.
Bill Beth vs. Jack Wingo, one fall, 30-minute time limit.

BY RALPH RUSTON

Two of the most popular wrestlers that Lou Daro ever has trotted out on the Olympic Auditorium mat clash tonight in what promises to be a sensational and spine-tickling struggle.

JOE MALCEWICZ

The combatants are Nick Lutze, the local mat idol, and Joe Malcewicz, the fast, crafty Utica panther. Both are blessed with immense local followings, and their large groups of backers are expected to turn out in full force to witness the triumph of their particular favorite in this finish match.

Malcewicz is a slight favorite, among those speculatively inclined, largely because of his victory over Lutze here in a match last year. It was the best bout of the entire season, and Daro confidently expects another such encounter tonight.

COMEBACK WINS

Malcewicz had to stage a comeback to win that last tilt. Lutze took the first fall in about thirty-five minutes with a jack-knife arm scissors. After the rest, he started throwing headlocks all over the ring, with Malcewicz apparently growing weaker and weaker. But the fiery Utican suddenly clamped on one of his famous backward body slams, tossed Lutze on his head, and Nicholas passed a pleasant evening in the Georgia-street Hospital.

That match was rated as the best ever seen at the Olympic up to that time. There was not a second in the match that the pair were not traveling at top speed. The two were in the ring for about forty-five minutes, and the fans present were standing in their seats, almost every minute of the time.

Malcewicz and Lutze are in perfect condition for tonight's battle. They have been in training and wrestling here for the past three months. They are so evenly matched in weight, height, build, strength, speed and ability, that the match is almost certain to be faster and more closely contested than that of last year's, but also more spectacular.

Yesterday afternoon Daro announced that he was eagerly awaiting the outcome of the Sonnenberg-Lewis match in Boston with a view of inducing the winner to come west to meet the local victor. Both grapplers suspected something of this nature was up Mr. Daro's sleeves, and have been throwing a bit of additional endeavor into their recent workouts. Malcewicz has added a forward body slam to his long list of effective holds, to mix with his well-known backward variety; while Lutze, after figuring out a defense for the backward slam, experimented a bit, and then announced he had discovered a new backward slam all his own.

TWO PRELIMS

The preliminary card carries every promise of fitting in perfectly with the main engagement. Daro is introducing a couple of new hopefuls in these bouts. Nick Velcoff, a 215-pound rough-house expert from San Francisco faces Jack O'Malley in the one fall semi-wind-up. O'Malley is not exactly unknown to local fans, but Velcoff is something entirely different. He is reputed to be a grappler along the lines of Dick Daviscourt, which means he will not find much popularity, but he'll give the fans a lot of interesting moments. Jack Wingo, a 240 pounder, from Oklahoma, faces (Bouncing Bill) Beth, the snarling lumberjack, in the opener.

Waivers Asked for Ruether

SAN FRANCISCO, July 9 (AP)—Wade (Red) Killefer, president of the San Francisco Mission Reds announced today he had asked for waivers on Walter (Dutch) Ruether, veteran left-hander and one-time New York Yankee star. The waiver price is $3000.

Ruether led the Coast League last season as a member of the San Francisco Seals but he has been troubled with a sore arm this year. He is one of the high salaried twirlers in the circuit. Ruether was purchased by the Missions this spring for $7500 after the Seals had refused to increase his salary. The Seal owners came in for much criticism for allowing the left-hander to go.

ALEXANDER LIKELY TO REJOIN TEAM SOON

ST. LOUIS, July 9. (AP)—Grover Cleveland Alexander, veteran Cardinal pitcher, may be able to rejoin the club somewhere in the East next week, it was announced today at St. John's Hospital, where he is recovering from an attack of lumbago. Physicians said that if Alexander continues to maintain his present rate of progress, he will be released from the hospital in three days.

RABBIT PUNCHES

BY PAUL LOWDY

ANOTHER DEMPSEY TIP

IT WAS necessary to go all the way to Denver to get the real low-down on the Dempsey situation.

Here it is:

Agua Caliente interests have offered the old Manassa Mauler a big per cent of all the intake for sixty days from everything—hotel, casino, fight receipts—for a battle there with George Godfrey or Max Schmeling next spring.

Dempsey is holding out for a larger percentage.

This information was revealed by a man almost as close to Dempsey at Philadelphia when he lost the heavyweight title to Gene Tunney as was Gene Normile, his business manager.

Based on the enormous intake per month at Agua Caliente during the "fat" season—and there are few periods when things aren't "fat" down there—Dempsey would collect the million he asks for fighting again.

He is said to be sure of it on the percentage he asks.

Not quite sure of it on the basis of the Agua Caliente offer.

At any rate it's a "hot" tip, and Denver has been hot—or was last week.

* * *

GREAT TENNIS ACTIVITY

THERE are signs of great local interest in the activities of the tennis athletes these days.

Particularly in the Messrs. Ben Gorchakoff and Art Kussman of Occidental, who galloped away with the national intercollegiate doubles crown in the East.

And yesterday the same pair reached the finals of the national clay-court championship by beating Berkeley Bell and Thalheimer in a terrific five-set match.

Gorchakoff's win in the intercollegiates was particularly pleasing because the Tiger has been trying for three years without success to win the crown in the singles.

Another interesting bit of information is the news that the annual Pacific-Southwest net championships will be staged slightly later than usual in order to get the cream of the national and foreign talent. The dates are September 20-29.

According to Mr. William Mellors Henry, president of the L. A. Tennis Club, where the meet will be held, the following are likely participants:

The entire English Wightman Cup team, Benny Austin and J. S. Olliff of the British male forces, the Misses Heinle and Tapscott of South Africa, Lily Alvarez of Spain, leading members of the French Davis Cup team, Bill Tilden, Francis T. Hunter, Van Ryn and Allison, the Wimbledon champions; Lott and Hennessey.

Quite an imposing array, isn't it?

* * *

MR. HENRY DOES WELL

MR. LESLIE A. HENRY, the chairman of the national A.A.U. track and field committee, returned yesterday from Denver, where he accomplished several things of import.

In the first place, he convinced the members of the championship committee, gathered at the mile-high city, that several clarifying rules on the matter of eligibility are necessary.

Secondly, he worked out a three-year scheme with his fellow-members that will bring the championship meet to this city next year, the Far East the following year and to the Midwest the ensuing period.

The local man also served as referee of the relays on the closing day of competition of the three-day championships, and on behalf of the L.A.A.C. received the beautiful trophy which went to the team winning the relays.

CHURCHILL RETURNS FROM TRIP

Veteran Yachtsman Back from European Trip With News for Southern California Skippers; May Switch Class In Annual Battle for "Times" Trophy

BY THE SKIPPER

Owen Churchill, one of the leading figures in Southern California and west coast yachting circles, is back in the Southland after a year's absence, most of which was spent on the European continent. Churchill is the owner of the eight-meter sloop, Babe, which captured the King of Spain Trophy and other yachting laurels during the past eight months. He announced yesterday that he had gathered quite a bit of information of interest for Southern California skippers. Churchill is past commodore of the Catalina Island Yacht Club and commodore of the Skippers' Club.

ARRANGE PLANS FOR REGATTA

The Chamber of Commerce of San Clemente and the San Clemente Yacht Club are laying plans for the yacht regatta, scheduled for San Clemente waters the 13th and 14th inst. The regatta is the second annual cruise and race to San Clemente from Newport Harbor.

When the fleet arrives in Spanish Village waters they will take part in other races. It is planned to hold outboard motorboat races also. On Saturday night a banquet will be held and a dance is scheduled for the Social Club.

Dan Mulherron, president of the San Clemente Chamber of Commerce, will appoint a committee to work with the San Clemente Yacht Club in taking care of visiting yachtsmen from Newport, Long Beach and San Diego.

NEW CLASS MAY RACE FOR CUP

With the R sloop the Pirate in the East The Times Trophy may be contested for in another class, according to word passed along in yachting circles yesterday. The Pirate won this famous trophy from Friendship last year. California Yacht Club officials are expected to make some announcement about the race which is scheduled for the 21st inst. within a few days.

Another famous Southland trophy, the Nordlinger, will go on the block again on the 20th inst. This race will be staged by California Yacht Club also.

DON MOE WINS MEDAL HONORS

(Continued from First Page)

will be played tomorrow to pare the field to eight for the quarter-finals Thursday. All match play, beginning with the quarter-finals, will be over thirty-six holes. Rain fell on early starters today but those who did not get off the tee until late in the morning finished their rounds under a blazing sun.

The second day of the tournament came to a close with the disqualification of James C. Ward, Kansas City, through an unintentional error of Chick Evans who marked Ward a 3 where he should have had a 4 and failed to check his card before it was posted. Ward, discovering the error, called it to the attention of the executive committee which immediately went into session and emerged with the disqualification, explaining the rules of golf made such an action necessary.

Until the disqualification of Ward, playoff was necessary for thirty-second place between John Van Nortwick, Jr., of Chicago and Art Ecklund of Wichita, Kan. Each had 180. When Ward was ruled out, both men gained a place among the qualifiers.

Pairings for the championship flight tomorrow, with the qualifying scores, follow:

Don Moe, Portland, Or. (144.) vs. W. S. Critchlow, Ardmore, Okla., (151.)

Clarence Hubby, Dallas, Tex., (149.) vs. Robert McCrary, Des Moines, Iowa, (152.)

John McKinlay, Chicago, (149.) vs. John Hughes, Omaha, (154.)

C. L. Bailey, Jr., Kansas City, (151.) vs. Russell Martin, Chicago, (152.)

A. L. Novotny, Chicago, (149.) vs. John Van Nortwick, Chicago, (153.)

George F. Johnston, Tulsa, Okla., (151.) vs. Frank Jurith, Chicago, (153.)

John Lohman, Gary, Ind., (150.) vs. Billy Sixty, Milwaukee, (154.)

Robert Cerulli, Oklahoma City, Okla., (146.) vs. A. J. Stawler, Kansas City, (152.)

Keefe Carter, Oklahoma City, Okla., (145.) vs. Chester Jones, Kansas City, (151.)

C. A. Kennedy, Tulsa, Okla., (150.) vs. Art Sweet, Chicago, (154.)

Marshall Becker, Topeka, Kan., (145.) vs. H. Benedict, Kansas City, (153.)

James L. Norberg, Kansas City, (151.) vs. E. J. Keller, Racine, Wis., (154.)

Don Armstrong, Aurora, Ill., (149.) vs. Gilbert Carter, Nevada, Mo., (154.)

Roy Kemper, Odessa, (151.) vs. Art Ecklund, Wichita, Kan., (155.)

Frank Aylward, Kansas City, (151.) vs. Charles D. Hunter, Tacoma, Wash., (152.)

C. Van Natta, Tulsa, Okla., (150.) vs. Lawrence Moller, Quincy, Ill., (148.)

Canzoneri Wins From McGraw

NEW YORK, July 9. (AP)—Tony Canzoneri, chesty little Italian who once held the featherweight championship of the world, easily outpointed Phil McGraw, Detroit florist, in a ten-round bout at the Queensboro Stadium tonight.

Canzoneri won the decision hands down, outboxing the Detroit veteran in virtually every round. McGraw seemed to have lost almost all the form that once made him a contender among the lightweights. He was continually in trouble but Canzoneri could not bring over the finishing punch. There were no knockdowns.

WELTERS TANGLE AT WILMINGTON

Wilmington is showing a pair of popular welters, Zenaydo Chaves, the sensational young Mexican who scored three consecutive knockouts at Wilmington, and Joe Bell of Long Beach, in the ten-round main event booked for tonight. Bell is back in the game after a brief rest. He took a warm-up fight last week and showed plenty of his old-time form. The winner of the Chaves-Bell scramble may be paired with either Sammy Jackson or Bobby LaSalle the latter part of this month. Kayo Jack McKnight and Jackie Stewart meet in the six-round semi-final. A six and two fours complete the program.

STARS CAPTURE SERIES OPENER

Spitball Twirler Has Easy Time Beating Tribe

Three Seattle Slabmen Hit Hard by Hollywood

Shellenback Swats Pair of Homers for Vittmen

(Continued from First Page)

and the Stars ran across five more tallies. Shellenback hit House's first pitch over the right field screen for his second homer of the game. Lee singled to center and then Rollings lined another homer over the right-field screen. That blow caused a couple of enthusiastic Elks to put on a trumpet duet down in the box seats.

When Carlyle singled, House was rushed to the showers and Pipgras sent to the mound. Rehg popped to Ellsworth, but Funk singled Carlyle to third. Heath's sacrifice fly scored Carlyle. Funk then swiped second and scored on Burkett's hit to left. Burkett took second on the throw home, but was out stealing third on one of Perie Casey's delayed decisions.

The Indians picked up their last four runs in the ninth on singles by Borreani, Pinch-hitter Allington and Knothe and Wade's homer into the bleachers. Score:

SEATTLE	AB	R	H	O	A

Runs responsible for—Shellenback, 2; Graham, 1; Shellenback, 1. Bases on balls—Off Graham, 1; House, 1; Pipgras, 1. Struck out—Shellenback, 2; Graham, 4; House, 2; Pipgras, 1. Two-base hits—Carlyle, Casey. Home runs—Shellenback, 2; Rollings. Stolen bases—Rollings, Carlyle, Funk. Double plays—Funk to Almada. Time of game—2h. Umpires—Powell, Geanios and Sweet.

Foul Tips

Hank Hulvey and Lefty Pinch will be the rival fingers in today's Hollywood-Seattle struggle. Pinch is the young southpaw who broke a finger here during the first week of the season. He has been pitching good ball and last week turned in one of the wins against the Seals.

* * *

Jack Lelivelt, the new Angel manager, will not take charge of the Seraphs until next Tuesday at Wrigley Field when the Cherubs open their series against the Oaks. Lelivelt arrives today from Milwaukee and is not expected in Los Angeles until Friday.

* * *

It looks as though Frank Shellenback has reached his peak this year. The veteran ghost spitballer has clicked three circuit clouts in the last two games, ramming one in the Seattle fence Sunday at Sacramento and getting two more Yesterday.

* * *

Frank Johnston is pretty hard up for catchers. Both Steinecke and Dox are out with broken fingers, so Borreani is the only Seattle backstop left. If anything happens to Borreani the Tribe will be out of luck.

* * *

Johnson, Muller and Taylor are other Indian regulars on the casualty list injuries.

* * *

Oscar Vitt claims that some of his athletes are complaining of injuries. Just what the players' alibi is this year they'll have to explain to Oscar. They've been playing better ball than they've played since the Pepperg Star pilot.

* * *

Shellenback's second home run and Oscar Vitt's were paid. Vitt propelled a homerun ball that bounced from rooting for Rally-wood a new ball if Shellenback hit a home run. Both players came up in the ninth inning. Shellenback responded with a wallop clicked one over the right field screen.

* * *

Virgil Garvers, the former ex-secretary of the Seattle club, is in Los Angeles for the Elks' convention. Garvers was out on Wrigley Field yesterday renewing acquaintances with such old timers as Robert Alfonzo Cronin, the veteran scribe.

LEWIS BEATEN BY SONNENBERG

(Continued from First Page)

started butting immediately and for the first fifteen minutes Lewis was content to remain on the defensive, several times he avoided the champion's rushes.

After Lewis obtained five headlocks and got Sonnenberg groggy, he left an opening. Sonnenberg butted him squarely under the chin and threw him. The force of the fall stunned Lewis, and the champion took the second fall in nineteen minutes.

The champion's winning fall required but three minutes. Sonnenberg renewed his rushing tactics, which worried Lewis until the latter gained an opening for a headlock. Sonnenberg slipped free.

He missed a tackle and Lewis knocked him outside of the ropes. Sonnenberg landed heavily and feigned injury. He staggered back inside the ropes, rubbing his neck, his actions deceived the challenger and he was wide open when Sonnenberg made a bull-like rush. His head struck Lewis's middle with a thud, and, as the latter dropped, Sonnenberg flattened his shoulders.

The match drew 25 000 customers and gate receipts of $90,000.

SONNENBERG AGREES TO BATTLE VICTOR

Immediately upon learning of Sonnenberg's successful defense of his crown, Lou Daro, wrestling promoter of the Olympic Auditorium, got into long-distance telephone communication with the champion, and offered him $15 000 to defend his laurels against the winner of tonight's match between Joe Malcewicz and Nick Lutze. Sonnenberg not only accepted, but also agreed upon the 24th inst. as the date for the title engagement.

BURNS DEFEATS ROSS

CHICAGO, July 9. (AP)—Johnny Burns, California middleweight, tonight scored a ten-round decision victory over Ted Ross of Chicago in the final bout at the Logan Square Arena. Ross failed to take a round from the Californian.

Brix Going to Enter Foreign Track Meets

Herman Brix, national shot-put champion of the Los Angeles Athletic Club, yesterday accepted an invitation to compete in a number of European track and field meets this summer. He plans to leave soon with a group of nationally famous stars. Brix is going to Europe with the intention of meeting and defeating Emil Hirschfeld, the giant German, who has been credited with a new world's record of 52ft. 10in. for the sixteen-pound shot put. Brix has been national A.A.U. champion for the past two years and is the lone American conceded a chance to take the record away from the German star.

Call Players in Probe of Wilson Bout

NEW YORK, July 9. (AP)—Echoes of a battle of words and fists between Cincinnati and Chicago baseball players in a Chicago railway station, on the evening of the 4th inst., were heard today at headquarters of the National League when President John A. Heydler started an inquiry promising to extend throughout the rest of the week.

Acting on an official complaint from President C. T. McDiarmid of the Cincinnati club, the league executive summoned Cincinnati and Chicago players before him to testify as to their first-hand knowledge of an encounter between Lewis (Hack) Wilson, outfielder of the Cubs, and Pete Donohue, pitcher of the Reds, while the ball players were waiting for a train.

Sworn testimony was received today from Donohue, Ray Kolp, Jakie May and Eppa Rixey, all Cincinnati pitchers, with President Heydler acting as judge, jury and cross-examiner. Further testimony will be placed in the record tomorrow from Adolfo Luque, another Cincinnati pitcher, and "Jersey Joe" Stripp, an infielder.

President William Veeck of the Chicago club has promised to produce the Cubs' eye-witnesses Friday morning and it is expected that the taking of testimony will close then.

The league president will find a verdict and probably some time Saturday he will announce it.

Wilson was fined $100 and suspended for three days for a clash with Kolp during a game the 4th inst. The Wilson-Donohue incident, in which Donohue is said to have been knocked down, now under investigation, was a later development the same day.

SEASIDE YOUTH EARNS VERDICT

(Continued from First Page)

front and establishing a safe lead in the first three rounds.

As early as the first round Hess gave an indication of what was to follow, when he planted five hooked rights on Morgan's face. The second brought a shade for Hess, but the third round was a ding one for the Ocean Park kid, when he had Morgan teetering and rocking about the ring and bringing his headwork into play to save himself from a trip to the canvas.

Morgan's best round was the fourth, when he scored repeatedly with left and right jabs to the face. The fifth was another Hess round, the sixth and seventh were even, the eighth was Hess's, the ninth brought a shade to Morgan and the tenth was all Hess.

SCALES SAVE TITLE

Morgan saved his junior lightweight championship last night because his title was not at stake, the match having been made over the weight. Morgan weighed 131, Hess 131½. The title poundage is 130.

When Morgan last defended his crown here he easily defeated his Sal Sorio, a straight puncher with a heavy kick in his right mitt.

Last night he met a different type—a hooker with both hands. And these hooks beat Morgan handily. He didn't fight like the champion who handled Sal with consummate ease. He was kept busy working out his salvation with a defensive battle.

The house was just fair. It would have been larger had there been any inkling of the terrific surprise in store.

Two of the preliminary fights brought a horrible uproar from the fans over the verdicts. Nearly everybody in the place thought Hurcita Evans beat Charley Sullivan—everybody but Referee Tommy McFarland.

FANS IN UPROAR

When he raised Sullivan's hand the bedlam broke loose and when he called a draw after Larry Murphy had bested Leo Hernandez in the semi-wind-up it was even worse. Both of these fights were six-rounders.

In the two four-rounders of the evening Eddie Flow was beaten by Pat Hayward and Mission Bolo and Leonard Porter fought to a draw.

PITCHER HENLEY DIES

SACRAMENTO, July 9. (AP)—Clarence T. (Cack) Henley, Coast League ball pitcher for ten years, died here today. Henley was with the San Francisco Seals for almost eight years and played with the Vernon team, now the Mission, for two seasons. Henley was known for his twenty-four inning hurling victory over Oakland, while pitching for San Francisco in 1926.

ROJAS STOPS MARRIOTT

JACKSONVILLE (Fla.) July 9. (AP) Paul Rojas, Santiago, Cuba, knocked out Bobby Marriott, Baltimore, in the third round of a ten-round bout here tonight.

POLO TILT AT NIGHT SCHEDULED

Novel Game Will Divide Honors With Pageant in Coliseum Tomorrow

Society will be in the saddle tomorrow night at the Coliseum when the first night polo game ever played on a regular turf field makes up one-half the main event of the climax of the Elks' convention.

The other half of the wind-up is the million-dollar electrical pageant, elaborated on from the original showing during Shrine week.

Both the polo game and the "Edison miracle" parade come under the heading of spectacles. The electrical pageant will be in the Coliseum by 9 o'clock. It will take an hour to play the polo game along with the handling of the equipment.

The ponies will be brought from Beverly Hills in their own special taxicabs. The thoroughbreds will not have to walk a step until they reach the field.

The players will take their mounts in front of the stands and be announced separately by Charley Keppen, famous sports radio "mike" man.

The game will be refereed by Elmer Boesske, seven-goal player from Santa Barbara. Boesske is one of the first ten players in this country. He played with Tommy Hitchcock on the American team.

Harry Burdick, Snowy Baker and others of the Uplifters' Club are co-operating 100 per cent with the Elks to make the polo tilt the most colorful game ever played.

Motion pictures may be made of the game since it is the first time that the sport has ever been attempted at night on a real field.

The players will be given motorcycle escorts into the huge Coliseum, furnished by the police department.

OCCIDENTAL NET TEAM TRIUMPHS

(Continued from First Page)

rain at 6 o'clock this evening. The title rests between the intercollegiate champions, Ben Gorchakoff and Art Kussman of Los Angeles and Fred Mercur, Bethlehem, and Hall, New Jersey. Mercur and Hall won by default from Wray Brown, St. Louis, and Harris Congesall, Des Moines. Gorchakoff and Kussman were twice down on point match against them but came through with a five-set victory over Louis Thalheimer and Berkeley Bell of Texas, 6-2, 6-8, 3-6, 9-7, 7-5. Bell and Thalheimer had just beaten Murray and Edward Sutter, New Orleans, 7-5, 4-6, 6-2, 6-4. Only the fourth set of the latter match was played today. Rain halted the contest. The doubles finalists are slated for battle at 10 o'clock tomorrow morning.

Overswing Bad for Accuracy

BY SOL METZGER

The golf swing is much the same whatever the shot. The main difference in it for a drive or an approach is the length. Thus, Chick Fraser at the top of his backswing for a pitch has not gone far enough back to cause his left hip to come around, as it does in driving. Also as in the drive his last move in taking back the club is to cock the wrists. And as in the drive his head remains anchored, eyes down on ball.

True, his shoulders turn. That is another automatic affair that takes care of itself if you do the other things right. And you will do them right if you keep relaxed and do not sway. Hold the right hip firm to do this. Also take the club back with a straight left arm, keep the right elbow in close to the right side and cock the wrists at the top.

Be sure not to overswing. Fraser's is most abbreviated. The reason is that a short backswing insures one hitting through crisply and under control. You are not after distance but accuracy. A long backswing softens the shot and works against accuracy. Tomorrow — the downswing.

When your approach shots hit the green do they trickle off into the sand? Want to make them fall dead? Send stamped, addressed envelope to Sol Metzger, in care of The Times, and ask for his leaflet on "The Art of Pitching."

JUNIOR STARS START ACTION

(Continued from First Page)

playground director and Jerry's coach, formed a conspiracy with the champ and supervised a steady vegetarian diet, which took 4 pounds off Jerry, so that when all the national contestants weighed in this afternoon, he tipped the scales at exactly 75. To make the writer feel more miserable, and yet happier, Jerry announced he was in fine fettle, and never felt better in his life.

Yes, Jerry doesn't see possibly how anyone is going to keep him from winning the junior championship. But he is conceded nothing by Vane Baker, the junior champion of Southern California. In fact there may be a peanut rolling bet up between Vane and Jerry, and the writer may have some peanut-rolling company on the boardwalk after the contest is completed. Thursday afternoon. Both boys agree that the other is good for second place.

No less confident are Robert San Jose and Fernando Ramos, the two senior champions who were sent by Los Angeles with Deal and Baker to the finals here.

BRISK WORKOUT

Dietz and "Pop" Squire, Huntington High School coach, had the four boys out early this morning for brisk workouts at Atlantic City's huge municipal airport, where they practiced on the seventy-five-yard dash and the baseball throw. After weighing in at the gymnasium, California's juvenile hopes all polished up on their form at tossing the basketball, and they made ringer after ringer, taking time off now and then to work out on the chinning bar.

They went to bed early tonight, after giving the rush act to the hundreds of amusements on the famous Steel Pier. A fleeting look in at each attraction sufficed. For the California boys have made up their minds that they can wait until the games are over for most of their fun.

California is conceding nothing to the other nine States in the contest. Morris (Mushy) Pollock of San Diego, the junior champion of last year, promises to be well up in the running in the senior division.

The boys Tuesday met H. Jamison Swarts, who is to referee the meet. Swarts is graduate manager of athletics at Pennsylvania University and manager of the popular Penn relay carnival. Swarts is about the best track man in the United States, outside of California.

Dog Races

First race, 1-4 of a mile—Gold Lad, first; Dan Sheehan, second; Sleepyhead, third. Also ran—Fast Voter, Speedlem, Promise Me, The Thunderer, Cheyenne. Time :28 2-5s.

Second race, futurity—Danny Boy, first; Nedra the Third, second; Hazardous (Imp), third. Also ran—Sun Chief, Peanut Mc, Golden Mac, Bounteer, Repeater, Johnny Meadows. Time :28 4-5s.

Third race, 5-16 of a mile—The Sweep, won; Pinto Pete, second; Faithful Garry, third. Time :32s. Caplin Star, Dream Fix, Lady Pisa, Baumstark, Northall also ran.

Fourth race, 1-4 of a mile—Speedy Dick, won; Flashy Dick, second; Ladies Oh, third. Time :26s. Mr. Tuna, Frosty Boy, Fire On, Guhard Boy, Foxboro, Fort also ran.

Fifth race, 5-16 of a mile—Slippery Bill, won; King Model, second; Mark O, third. Time :31 4-5s. Peppers, Quincy Sammy, Stern, Doc J., Rise Harvest, Drive Carefully also ran.

Sixth race, 1-4 of a mile—Jerry Dubois, won; Rambling Dick, second; Virginia F, third. Time :26 1-5s. First Money, Kid O'Dreams, Miss, Irish Pete, True Blue also ran.

Seventh race, 1-4 of a mile—Calhoun Boy, won; Chief's Dragon, second; Kid O'Barr, third. Time :26 1-5s. School Boy, Mister Herbert, Starwar, also ran.

Eighth race, futurity hurdles—Judy Meadows, won; Our Choice, second; Mrs. Ike's Favorite, third. Time :30 4-5s. Dorothy May, Smut J., Cicero Boy, Buck Rock, also ran.

ACADEMY RECONSTRUCTION

Due to the widening of Olive street, the front of the Angeles Bowling Academy is now undergoing reconstruction, announces Manager Eddie Cleckner. The new front will be completed by the end of the week. During this reconstruction, bowling and billiards are going on as usual, several summer leagues holding sessions daily.

WRIGLEY BACKS CUB BOSS IN HACK WILSON SQUABBLE

AVALON (Catalina Island) July 9.—Not only does Boss Bill Wrigley of the Cubs back President Bill Veeck and Outfielder Hack Wilson "to the limit" in their differences with the Cincinnati club, but Mr. Wrigley said today:

"I really can't blame Jack Hendricks and his club, because I know they're pretty sore, being in last place and with the club not paying.

"Hack Wilson is a sensible man," he added. "Of course, it wasn't baseball for him to go after Kolp, but a man can't take everything. I don't blame him for not swallowing abuse. I understand it all comes to a showdown on Friday. They will get together back there and talk this thing all over. But I am backing Bill Veeck and I know the club is backing Hack Wilson to the limit."

WILSON BACK

BOSTON, July 9. (AP)—Sen Cantwell fêld the Cubs to five hits today and the Braves defeated the westerners, 6 to 2. Rabbit Maranville returned to the game after a week's lay-off because of injuries and walked to start the Braves' big third inning when the Boston team touched Claude Jonnard for five runs. Hack Wilson returned to the Cubs' outfield after a three days' suspension and his double was Chicago's only extra base hit. Score:

PLAYERS CHASED

NEW YORK, July 9. (AP)—The Giants made it four straight over the Cincinnati tail-enders by taking the last game of the series, 8 to 5, here today. Lindstrom drove in four runs and Cohen three. George Kelley touched Jack Scott for two homers, which accounted for all of the Cincinnati runs. Cohen hit a home run for New York.

The latter half of the game was marked by a running verbal battle between the Reds and Edward McLaughlin, the plate umpire. McLaughlin first chased Purdy. Next he stopped the game and removed Jack Hendricks, the Red manager. Later the umpire evicted most of the Cincinnati bench hands, Luque, Rixey, Donohue, Ehrhardt and May, all pitchers. "Windy" Kolp, central figure in the trouble, was not molested. Score:

NEVERS HURLS VICTORY FOR REDS OVER DUCKS

SAN FRANCISCO, July 9. (AP)—With timely hitting on the part of his team-mates, Ernie Nevers pitched the Mission Reds to a 7-2 win over Portland today. After allowing two runs in the first inning, Nevers settled down and blanked the visitors for the other eight inning. The Reds reached Fred Ortman for two in the first and piled up a big lead in the middle innings. Score:

WIN IN TENTH

PHILADELPHIA, July 9. (AP)—Sunny Jim Bottomley used his trusty club with telling effect and slammed out two homers to give St. Louis a 7-to-4 victory over Philadelphia in ten innings.

The big Cardinal first-sacker sent the ball over the right-field wall in the fourth inning with High on base, and the Cardinals took the lead. In the tenth Bottomley found two mates on the sacks and slammed out his twenty-second circuit clout of the year to win the ball game. Score:

QUINN ROUTED

CHICAGO, July 9. (AP)—The league-leading Athletics dropped the first series of their second western invasion by losing to the White Sox today, 6 to 4. Old Red Faber again was the Athletics' master, holding the Macks to eight hits, scattered except in the sixth when Philadelphia scored twice. Jack Quinn started for the Athletics but was driven to cover in the fourth when the Sox scored five times. The win gave Chicago three out of four games in the series. Score:

BRAXTON HERO

DETROIT, July 9. (AP)—With Garland Braxton pitching four-hit ball, the Washington Senators evened their series with the Tigers today by taking the last game, 2 to 1. Braxton's control was near perfect. He walked only one man. One of Heinie Schuble's two errors gave the Senators a run in the first inning and their second was the result of a triple by Buddy Myer, and West's single. The single pass Braxton allowed was converted into a run in the first inning when Gehringer later doubled. Score:

KREMER CHECKS BROOKLYN, 3-1

Cantwell Tames Cubs for Boston Victory

Giants Win Fourth Game from Cincinnati

Bottomley's Two Circuits Win for Cards

BROOKLYN (N. Y.) July 9. (AP) The Pirates increased their lead over the Cubs to one and one-half games by defeating the Robins, 3 to 1, in the final game of the series here today as the Braves defeated the Cubs. The Pirates swept their three games in Flatbush.

Clise Dudley pitched shut-out ball for seven innings, but weakened in the eighth when the Buccaneers put five hits together for two runs. Lloyd Waner hit a home run in the ninth for the final Pirate score. Ray Kremer held the Robins well in check. The only run abainst him was made on a homer by Delphage Bissonette in the sixth.

Umpire Magerkurth, who removed John McGraw from the Giant bench last week, evicted Charley Hargreaves, the Pirate catcher, for protesting a called ball in the Brooklyn sixth. Score:

Time of game—2h.

Stockton to Be Scene of Solon Games

STOCKTON, July 9. (AP)—Lewis Moreing, owner of the Sacramento Coast Baseball League club, announced here today that on August 8 he planned to stage a Thursday afternoon game in Stockton to test this city's ability to support a midweek contest whenever the Senators are playing at home. Portland will be Sacramento's opponent on that date. If the attendance warrants, Thursday games in Stockton will be made the permanent policy of the Senators. Sunday morning games have been played here for the past ten years.

SENATORS BOW TO ANGELS, 6-3

(Continued from First Page)

when he bounced a single over McLaughlin's head. Statz laid a bunt down along the third-base line and beat it out. Earl Webb was walked, filling the bases to capacity. Berger broke the scoreless tie with a single to left for two runs. Berger and Webb advanced on the throw to the plate and both scored a moment later on "Slug" Tolson's single. Gould then replaced Crandall and retired the side.

In the sixth inning, Sandberg drew a base on balls and scored on successive singles by Haney and Statz. Sacramento matched this lone tally the same inning, Backer doubling and Monroe getting a single.

The Angels chalked up their sixth run in the seventh inning when Tolson forced Berger who had singled and came in on Dittmar's double off the left-field fence. Score:

SEALS CLUB OAKS FOR 9-2 VICTORY

OAKLAND, July 9. (AP)—The San Francisco Seals clubbed out seventeen hits today to trounce Oakland, 9-2. Hollis Thurston was hit hard by the Oaks but the locals wasted most of their thirteen safeties. Oakland used three moundsmen in an effort to stop the massacre.

It was Johnny Vergez day and the young third baseman was honored by home-town friends from Alameda. Vergez was presented with a $300 watch. Score:

YOUNG MALCEWICZ IN DEBUT AS BOXER

Joe Malcewicz's younger brother, Frank, will make his debut as a boxer next Saturday night at the Main-street Athletic Club when he faces Ray Ortega, Mexican light-heavyweight in the semi-wind-up of the weekly ring program. Joe wanted his husky young brother to follow in his footsteps as a wrestler but Frank has other ideas.

Joe Borola and Bobby Swin, featherweights, are next Saturday night's main eventers.

MAHAN SET FOR DE HATE

Dummy Mahan and Paul De Hate are ready for the main event at the Hollywood American Legion stadium Friday night and Mahan, who is a Mexican and who hopes to become the local idol of his countrymen, is a favorite. There is talk of matching the winner with Jimmy McLarnin, who is expected to take a warm-up fight here before hopping into New York for his winter campaign.

A special show has been arranged for visiting Elks and many new faces will make an appearance on the card. Charlie Cobb, fighting Erwin Rige in the special, is one. Rige has had but one fight at Hollywood and looked good. He scored a knock-out over Omar Wright in a sensational fight.

The special event is a rematch featuring Vearl Whitehead, Santa Monica schoolboy, and Matt Codan. Whitehead lost to Codan three weeks ago but the crowd didn't like the decision. The two four-round fights introduce new faces. Tony Moreno and Jess Gabuco are bantamweights in the second spot and Johnny Gabuco and Young Sport Guaydo in the curtain raiser are flyweights.

BARRACUDA, HALIBUT AND BASS RUNNING

Barracuda, halibut and white sea bass continue to be caught with great regularity by the anglers fishing from the boats and the barges at Santa Monica, it was announced yesterday by Capt. Jack Dugan. The big barge Billings has been favored with good sized crowds and in addition to barracuda and halibut, anglers on the barge have been landing mackerel, sculpin and sandabs.

Capt. Dugan also announced that best fishing from the ship Palisades and Ameco is in the early morning. Anglers who have been going aboard these boats have been catching many rock bass in addition to the other species now running.

A CHUCKLE FOR EVERYBODY

THE RETURN OF TARZAN

By Edgar Rice Burroughs

When they reached their captured village, it was too late for rescue. Already the cannibal slaves were preparing a gruesome feast under the very eyes of their Arab masters. Maddened by the sight, the Waziri warriors charged, but were repulsed by the armed Arabs. The old chief himself fell, mortally wounded.

Next day the tribe begged Tarzan to lead them to victory. So he placed their finest marksmen in the tree-tops overlooking the village. Now for days, relentlessly and without sound, their arrows of death flew forth and always a victim, Arab or cannibal, fell, pierced through the heart.

Finally, Tarzan collected his warriors and retreated a mile into the jungle to rest and eat. At midnight, alone he crept through the blackness to the sleeping village. A single sentry dosed before a fire. Softly Tarzan climbed a tree and swung lightly inside the palisades. Cat-like, he stole upon the sentry.

As Tarzan crouched to spring, the cannibal, warned by some subtle sense, sprang to his feet. Eyes wide with horror, his one thought was to escape this fearsome-looking white savage. But before he could even turn, a swift, giant hand clutched his windpipe and, struggling madly, he was borne to earth.

LAND PLOT DENOUNCED IN DEED CASE

Judge Sets Aside Tax Sale of Property on Grounds of Attempted Conspiracy

Branding it as an apparent attempt to involve a piece of real estate in so much litigation as to make it difficult for the original owner to recover it after a tax sale, Superior Judge Stafford yesterday found a deed acquired as the result of such a sale void, and set the sale aside.

An apparent attempted conspiracy existed, according to Judge Stafford, to prevent Miss Edith A. Green from recovering a piece of property, valued at $4000, acquired at a tax sale by Mrs. Grace P. Warden and Mrs. Carrie W. Peterson, her mother-in-law, for $52.13. A suit to settle the difference originally was brought in Riverside county, whence it was transferred to Los Angeles county. In her suit against Miss Green, Mrs. Warden named Mrs. Peterson as well as Mrs. Green.

Upon payment to the clerk of the court of $115.80, representing the amount paid at the tax sale and interest at 1 per cent per month, the court found for the defendant, allowing her costs and also setting aside a lien created by a bond assessment. Miss Green was represented by Attorney Murstein.

Aides of Fitts Arrest Four Men in Liquor Raid

Determined to eliminate bootlegging to residents of the Soldiers' Home at Sawtelle, Capt. Plummer, chief of Dist.-Atty. Fitts's prohibition enforcement detail and Sergt. Childers yesterday conducted a raid which resulted in the arrest of four men.

Those taken into custody gave their names as J. B. Williams, 11635 Mayfield avenue; S. E. Butler, 11642 San Vicente Boulevard; L. W. Hall of the same address, and John P. Mitchell of 863 Federal street.

The arrest report accuses the men of possession and sale of intoxicating liquor.

UTAH PICNIC SUNDAY

An all-day picnic will be held by former residents of Park City, Utah, next Sunday, the 14th inst., at Exposition Park, beginning at 10 a.m. Coffee and ice cream will be served by the committee.

WHY NICARAGUANS GO TO WAR

Girls Make Boudoir Pets of Wildcats

Sofia and Rita Brockman and Pet Wild Cat

WILDCATS as pets are the latest fad in Nicaraguan society, according to Miss Sofia Brockman, who arrived from Corinto yesterday aboard the Panama Mail liner Guatemala. Miss Brockman, daughter of the Central-American merchant prince, Enrique Brockman, was accompanied by her sister, Rita, and her brother, Enrique. They will spend several months in California.

Nicaraguan wildcats, explained Miss Brockman, are denizens of the jungles of the mountainous Nuevo Segovia country, where their rarity is accentuated by the fact that the region is the stamping ground of bandit revolutionists.

OFFICER LOSES BETS AS "SON" PROVES GIRL

Patricia Lee Sanderson weighed eight pounds when she was born yesterday morning. As a result her father, L. E. Sanderson of the homicide squad at central station, lost bets to his many friends. Lieut. Sanderson expected a son. The baby was born at 11:20 a.m. Mother and baby are reported to be doing fine.

PRISONERS REMOVED FROM MOTHERS' HOME

Chief of Police Davis informed the Police Commission yesterday that all prisoners engaged in construction work at the Minnie Barton Home for Indigent Mothers at 10225 Johanna street, have been removed from the premises with completion of work. No further protests were received from Hansen Heights residents against the presence of the prisoners.

TAX FUND DATA GIVEN TO COUNCIL

Assessment Committee in Report Tells Status of Various Commissions

The special assessment committee of the Council, created to work out a plan whereby departments controlling their own funds will contribute their share toward paying assessments, thus relieving the general city budget of this burden, reported to the Council yesterday that agreements should be drawn with these departments whereby they pay the assessments.

The committee is composed of Councilmen Burns, Davis and Lewis. The Council already is working under an agreement with the Los Angeles Board of Education, and the committee recommends that this agreement be extended to July 30, 1931. The committee recommended that the City Attorney be instructed to draw a similar agreement for submission to the Department of Water and Power. The City Attorney also is instructed to draw agreements with the library, parks and playgrounds departments, with the additional proviso that in the event the amount of the assessments exceed 5 per cent of the department's income, the excess be paid out of the permanent improvement fund.

These agreements are to be submitted to the Mayor and then to the respective commissions.

SANDINO'S NOTORIETY UNMERITED

Col. Willis, Returned from Nicaragua, Names Bandit Chief as Altamarano

Augustino Sandino has never been the guiding force of the Nicaraguan revolution, the chief instigator of three years of guerilla warfare being a mountain brigand named Pedro Altamarano, according to Lieut.-Col. Lauren S. Willis, U.S.M.C., who has commanded the Marine Corps mountain outposts in Nicaragua for the past two years. Col. Willis arrived at the port yesterday aboard the Panama Mail liner Guatemala for new duty at San Francisco.

LIEUT. COL. LAUREN S. WILLIS

"Sandino was glorified at the start of things three years ago by American newspaper correspondents and he has capitalized this publicity at every turn. He skipped out for Mexico a month or so ago, but we think it was because he is in the bad graces of Altamarano.

"Altamarano still has a stronghold in the jungles back of Matagalpa and on June 2 our forces were in a skirmish with him, killing six bandits and wounding ten without any casualties on our side. The Guardia Nacional, organized and officered by the Marine Corps, has succeeded in freeing Nicaragua of all banditry save that practiced by Altamarano in the Nuevo Segovia mountain country.

"Maintenance of peaceful conditions depends largely on the construction of adequate highways, a program which is being pushed forward by the government."

SUMATRA'S AIR SERVICE COMPLETE

East Indian Island Uses Planes on All Occasions, Says Traveler Here

Developments in commercial aviation are not confined to the great nations of the world, it was revealed here yesterday by E. D. Gothwaite of Medan, Sumatra, who, with his wife, is completing a business tour of the United States and is about to sail for his home in the Dutch East Indies.

"Aviation progress there has been remarkable," said Mr. Gothwaite at the Clark Hotel yesterday. "There is a complete air service throughout the island and passenger fares are no higher than railroad fares. The air method of travel has become very popular. One reason is that railroad trains in Sumatra do not run at night, due to the fact that all train crews are native and are not to be trusted at night."

An American by birth, Mr. Gothwaite's former home was in Washington, D. C. Mrs. Gothwaite, his American wife, is well known in Sumatra and in Manila for her activities in connection with the establishment of the Little Theater idea.

Wife of Actor Given Divorce

Charging Otto Lederer, stage and screen actor, with cruel and inhuman treatment, Segunda Yriondo Lederer, member of a Spanish family of Barcelona, yesterday was granted a divorce by Superior Judge Blake.

Lederer, his wife told the judge, would not tell her where he had been when he returned late at night, and on several occasions ordered her out of the house. They were married in 1925.

KENTUCKY SOCIAL SET

The monthly social of the Kentucky State Society will be held the 17th inst. at the El Patio Ballroom, it was announced yesterday by M. L. Bosemer, acting secretary. In addition to Kentuckians, former residents of New Albany and Jeffersonville, Indiana, also are invited to attend.

SOCIETY

BY JUANA NEAL LEVY

Miss Orine Souden, attractive younger daughter of Mr. and Mrs. Oscar M. Souden of Ponet Drive has chosen the 30th inst., as the date for her marriage to Edward Austin Calvert Hammond, Jr., the ceremony to take place at high noon in St. Brendan's Church, followed by a reception and breakfast for the bridal party and a few intimate friends at the Souden home.

Miss Virginia Sevier will be maid of honor while the other attendants will include Miss Edith Shankland, Miss Virginia Thom, Miss Betty Richardson, Miss Marjorie Harriman, Mrs. Cameron Livingston Thom and Mrs. Samuel Ritter Brown.

Harry Hammond will serve his brother as best man, John B. Brown, Jr., Jack Hammer, Raymond Wilson and Don Lawrence will usher and Mr. Souden will give his daughter in marriage.

Many lovely affairs are being planned for this attractive young bride-elect, who was graduated from Marlborough School and among the hostesses in the near future will be Miss Richardson, Miss Thom, Mrs. Thom and Miss Sevier.

Dinner Party

Preceding the opening concert of the Hollywood Bowl last evening, Mr. and Mrs. John Boyce Smith entertained with a dinner at their home in Highland avenue, among the guests being Mrs. Lelland Atherton Irish, Mr. and Mrs. Lawrence Tibbett, Sir Gilbert Parker, Mr. and Mrs. Earl Holland, Andres De Segurola, Lisa Roma, Mr. and Mrs. Joseph L. Levy, Miss Antoinette Delar, Mrs. J. Edgar Brown, Maurice De Mond, Mr. and Mrs. Norton Johnson and Mrs. Gertrude Ross.

Church Ceremony

The marriage of Miss George Money and Bearl Murphy was solemnized Saturday morning June 29 at Saint Matthias Church, with only the immediate families present.

The bride wore a French ensemble of rose taupe and her matron of honor, Mrs. E. E. Burgess, wore an ensemble of eggshell crepe. Earl B. Murphy, twin brother of the bridegroom, was best man.

Following the ceremony a wedding breakfast was served to the bridal party at the home of the bride's parents, Mr. and Mrs. James J. Johnston, after which Mr. and Mrs. Murphy left for an extended wedding trip to Lake Tahoe and other northern points.

The bride was graduated from the University of Nevada and is a member of Gamma Phi Beta Sorority and Phi Kappa Phi. Mr. Murphy attended school at Berkeley and was affiliated with Kappa Alpha Pi.

Summering Here

Mrs. Annie Parker Bross, widow of Ernest Bross, for many years managing editor of the Portland Oregonian and later of the Indianapolis Star, is passing the summer in Hollywood, and is domiciled at 6005 Carleton Way.

Mrs. Bross is a regular contributor to the Indianapolis Star and has had many articles published in the Oregonian and New York Evening Post. While in Los Angeles Mrs. Bross is serving as correspondent for the Indianapolis Star and through the courtesy of Will H. Hays, she is visiting the various studios of the "talkies" and sending articles back to her home paper of these interesting features.

Interesting Affair

Miss Erna Willis, daughter of Mr. and Mrs. James S. Willis of East Calaveras street, Altadena, was the charming hostess at a party given recently, by Theta Xi chapter of Delta Delta Delta, University of Southern California, at the home of Dr. Arthur Granger in South Las Palmas avenue. Miss Willis is president of Pan Hellenic on the campus for the coming year. She was assisted by Miss Mary Alice Parent and Miss Beatrice Blue, the affair being a formal tea.

Officers for the coming year in the sorority include Miss Frances Allan, Miss Beatrice Brandt, Miss Beatrice Blue, Miss Mary Alice Parent, Mrs. Martha Shontz (house mother,) Mrs. W. W. Comstock and Mrs. Harry Culver,patronesses.

Smart Affair

A lovely affair of recent date was the elaborate bridge luncheon and shower with which Miss Dorothy Watson of 2201 Casters Drive entertained the 26th inst. at the Chevy Chase Golf Club honoring two brides-elect of the season, Miss Eunice Caldwell and Miss Louise Wimmer.

Covers laid for forty guests featured dainty pink shaded gladioli and blue delphiniums, while place cards were tiny bride dolls. Places for the honorees featured larger bride dolls.

The shower table also featured doll brides surrounded by gifts.

Bon Voyage Party

As a bon voyage compliment to Miss Jane Danahy of Buffalo, N. Y., who is returning to her home this week, Miss Helen Baker of Altadena entertained with a luncheon in the Chinese Room of the Mary Louise Wednesday, the 3rd inst., followed by a matinee party at the Biltmore.

A color scheme of red, white and blue was effectively carried out in the flowers, crystal service and luncheon appointments, while tiny traveling bags as favors, and unusual place cards emphasized the travel motif. Those included were Miss Danahy, Mrs. George P. Baker, Misses Nancy Hawthorne, Jean Harris, Mildred Harris, Ruth Hosking, Marie Ramsey and Louise White.

Miss Danahy has been the recipient of many social attentions during her stay in Los Angeles as the house guest of Miss Marie Ramsey of Hollywood; they were classmates at National Park Seminary in Washington, D. C.

Announce Betrothal

Mr. and Mrs. Addison Gott Brooks of Gloucester, Mass., announce the engagement of their sister, Martha Nutting Brooks, to Maj. Walter DuBois Brookings.

Miss Brooks, a daughter of the late Reuben and Martha A. Brooks of Gloucester, was graduated from Wellesley, and now is serving her second term as Representative of the Sixteenth Essex District in the Massachusetts Legislature. She served as Alderman of Gloucester for two years and has been active in politics, business and in social and religious work of her community.

Mr. Brookings, son of Mrs. Emma DuBois Brookings and the late John E. Brookings of Hollywood, was graduated from Harvard College and Harvard law school, 1898. He was a major of the Twentieth Engineers during the World War, serving in France. He also was active in the American Relief Association (Hoover relief.) following the war, being stationed at Warsaw, Poland, and Riga, Latvia. He now is manager of the Natural Resources Production Department of the United States Chamber of Commerce, Washington.

Mr. Brookings was active in the lumber business on the Pacific Coast, as secretary and treasurer of the Brookings Lumber and Box Company of Highland, Cal., and of the California and Oregon Lumber Company of San Francisco and Brookings, Or.

The wedding will be some time in the late summer.

HER MARRIAGE OCCURS TODAY

Couple Will Take Long Honeymoon Trip

[Ray Huff studios]

Miss Mary Catherine Meyerseick

THE marriage of Miss Mary Catherine Meyerseick to Harold French Atkins will take place today in Amanda Chapel, Carthay Center, with Rev. Royal Balcolm officiating, followed by a reception at the home of the bride's mother, Mrs. F. G. Meyerseick, 1250 South Rimpau Boulevard. Miss Doris Meyerseick will assist as maid of honor, while Mrs. Frederick Miles Woods will be matron of honor, and Betty Lou Langhier flower girl and Jack Meyerseick will serve as best man. The bride was graduated from the University of Southern California while Mr. Atkins was graduated from University of Oregon.

After a wedding trip up the coast through Oregon, Washington and the East Mr. Atkins will bring his bride to Los Angeles to make their future home.

GUIDING YOUR CHILD

GRADUAL FREEDOM

By Mrs. Agnes Lynn

"When my boy is 21, I shall give him a latchkey and not ask him any questions. But until then he is accountable to me and he'll do as I say."

To many parents the age of 21 is thus a kind of Mason and Dixon Line between childhood and maturity. Until the miracle of the twenty-first brithday, the youth is regarded as a child who must accept the dicta of his elders in all matters of consequence; afterward he must find his own way, make his own choices and abide by the results. Before, he is not permitted to exercise his own judgment lest he court disaster; after, he is supposed to possess shoulders broad enough for any burden.

Of course, people aren't made that way. The boy or girl who is not allowed to use his own discretion during his formative years will be all at sea when, suddenly, his freedom is accorded to him.

Growing up is a gradual process and so should be the attainment of emancipation from parental leading strings. The child may begin to earn his freedom as soon as he emerges from the cradle. Bit by bit he should learn to bear consequences, use his own judgment, and make his own choices.

Let your child aequire the discipline of self-direction first in small matters which carry immediate, obvious and not too serious results. Let him learn gradually to be responsible for his actions, and as gradually he will develop the sense of values which will help him past the deeper pitfalls and the more perplexing trials that catch those young people who have not been allowed to learn the management of their own affairs.

William Poole's Rites Conducted

Funeral services for William Poole, 64 years of age, English soldier and traveler, were conducted yesterday in Grace Chapel, Inglewood Park Cemetery. Dr. Parlow of the Episcopalian Church officiated. George Cate, mortician, was in charge. Masonic services were conducted at the grave.

Mr. Poole was in the British army for many years. He was on the Nile Expedition from 1882 to 1885. He came to California in 1913 and lived in El Segundo as an employee of the Standard Oil Company for ten years.

He died Sunday at Hermosa Beach. He leaves his widow, Mary Ann Poole; three daughters, Mrs. Letitia Cardell of Redondo and Mrs. Lucy Delight and Mrs. Alice Delight of Gardena, and a son, Charles W. Poole of Hermosa.

YOUR BABY AND MINE

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

This department offers helpful hints on weaning and feeding the child from 6 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, outfits for the new baby, sleeping, walking, teething, thumb-sucking, ammoniacal urine, bed wetting, training to cleanly habits, periods of earning, cod liver oil, orange juice, hives, worms, vomiting, refractory children, spruce juice, lime water, rupture, rites and tolls and cradle cap. Before asking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular problem is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

OFFERS MANY HELPFUL SUGGESTIONS TO READERS

Mrs. H. E. B. writes: "I am a faithful reader of your column and have received so much valuable advice that I'd like to pass on some I have found helpful.

"(1.) If baby is having trouble using a regular spoon, try an orange spoon. This seems to fit baby's mouth better.

"(2.) When baby refuses to eat, try a drink of water, he may be thirsty or his throat dry.

"(3.) If baby refuses some one vegetable or food which should be in his diet, begin very slowly to add it little by little to some food which he does like. By the time he begins to have a real taste of the new food he will either like it or refuse it flatly. In that case, I discard it and use something to replace it.

"(4.) If baby won't drink from a large cup try a tiny, fancy, play cup but don't force it or baby may be turned against his milk.

"(5.) If the floor seems rather cool put coveralls on the baby. These keep him warmer and protect his clothes.

"(6.) Take baby for a walk just before lunch. Work can wait. Baby will sleep better and mother will profit by a change of scenery.

"(7.) Take one evening off every week or so and enjoy yourself away from the family, perhaps even husband. You will enjoy coming home even if the work is behind. You may have a lovely baby and a good husband but you also have a mind and personality of your own, so why not use them? Some day when baby is grown you may have use for them again.

"(8.) If an article doesn't fit your problem discard it, don't make the problem fit the article. It doesn't work.

"(9.) Always have a smile for baby. There are times when you must frown and the frown when necessary will mean more.

"(10.) (This will be more helpful next winter than now.) Babies are more active than grandma, and if the house is cold, grandma can put on a warmer dress, but if the house is too hot baby will catch cold more easily. Seventy deg. is a good temperature for the house."

Answer

Your suggestions are excellent ones. The present temperature is regulated by nature and the chief consideration is to keep baby cool. Every garment should be cotton even for the small baby, and during the heat of the day the band and diaper are quite enough.

NEWS OF THE CAFES

"Parade of the Elkettes," elaborate promenade number with the show girls costumed to represent eight of the different lodges attending the Elks convention, will be featured at the Pom Pom, Hollywood, tonight as an added highlight with "Parisian Nights," current musical revue, under the direction of William Meiklejohn.

Clarice Gannon, tap dancer from Earl Carroll's "Vanities," will lead the number, and the lodges represented will include the Jackson Zouaves, the "Georgia Peaches," the "Billings Bears," and groups from New York, Chicago, Boston, Philadelphia and San Francisco.

NEW MANAGEMENT

Paul Perrot, well-known local cafe man, formerly with the Montmartre, Ambassador and other leading dining places in the Southland, has taken over the management of the Lafayette Cafe, in West Seventh street opposite Westlake Park, it is announced. Plans are now being made to operate the popular West Seventh-street cafe, in the future, on an entirely different policy, with high-class entertainment and dancing noon and evening.

The Lafayette is artistically decorated in purple and white and special entertainment dedicated to the Elks convention is being featured all week. Friday evening has been designated as Elks night, at which time a dancing contest will be held, the winner receiving a handsome trophy.

UNIQUE DECORATION

Featuring one of the most beautiful and unique schemes of decoration in Los Angeles, in honor of the B.P.O.E. convention, Hall's Chinese Cafe, on Wilshire near La Brea, is proving the popular rendezvous of the visiting Elks. An electric sign arranged at one end of the cafe welcomes the visitors, while elaborate designs in the Chinese motif are carried out in the purple and white official colors.

Winona Love, popular dancer from Hawaii will give a new series of dances this week with the famous hula included.

SPECIAL SHOW

A special Elks dinner show, with Billy Snyder, popular West Coast master of ceremonies, acting as "pilot" will be staged at the Show Boat Cafe, Venice pier, tonight and tomorrow night when "Hello Bill!" will be the official greeting and a unique program of entertainment presented by William Meiklejohn from "dusk until dawn." This well known beach club is open nightly at 7 o'clock and is noted for its cuisine as well as its cabaret.

Bill Brokaw and his KGO broadcasting orchestra provide dance music between the revue numbers.

COLORFUL SPECTACLE

A colorful spectacle will be presented this evening at the Montmartre especially planned in honor of the visiting Elks. June Collyer, beautiful Fox Films leading woman, has been selected by the motion-picture colony officially to welcome the visitors to the cafe.

Paul Whiteman's rhythm boys will offer an entirely new bill of comedy songs and musical novelties. Danny O'Shea, whose wit is famous in Hollywood, will preside as master of ceremonies.

SONG FEATURED

"Hollywood," Lynn Cowan and Earle Foxe's fox trot ballad dedicated to the lights and shadows of Hollywood Boulevard, is being featured for visiting Elks this week by Irving Aaronson's Commanders, the famed entertaining orchestra in the Blossom Room of the Roosevelt Hotel. The number is being played in courtesy to Col. Harry M. Raine, president of the Hollywood Boulevard Association, who also arranged for 100,000 copies of the song to be distributed to the antlered brethren of B.P.O.E.

WARM WELCOME

Visiting Elks are finding a warm welcome awaiting them at C. Fred Harlow's and Pete Mirich's new Tumble Inn Cafe, located in the Ocean View Hotel, Venice. The program of entertainment this week is dedicated to the Elks convention and is being featured together with dancing from dusk 'till dawn.

HEALTH and DIET ADVICE

By Dr Frank McCoy

author of "The Four Way to Health"

Dr. McCoy will answer personal questions on health and diet, addressed to him care of the Los Angeles Times. Inclose stamped, addressed envelope for reply.

ALMONDS

CONCENTRATED FOOD

Almonds are among the most wholesome of all nuts, as they contain a large amount of fat and protein, but no starch. They are one of the few alkaline-forming nuts, and for these reasons may be used by those suffering from diabetes or acidosis. They are especially rich in phosphorus, calcium and magnesium. That the value of the almond is being appreciated is shown by the fact that more almond trees are grown than any other nut trees.

The almond is closely related to the peach tree. In fact, Luther Burbank performed an interesting experiment of crossing almonds with peaches, producing a peach with an almond center.

If almonds are finely chewed they are readily digested, but they are even more valuable in the form of finely ground almond butter, since the digestive juices can penetrate the finely divided particles more readily. Finely ground almonds may be used as a butter substitute for bread or sandwiches. The almond butter may be diluted with water to make an excellent dressing for vegetables and for salad. It may also be mixed with a large amount of water and a little honey so that it will resemble milk in composition, flavoring, and appearance, and even in the fact that it will curdle after a short time.

Almonds contain a large amount of oil and are for this reason fattening with most people. The oil is easily extracted by pressing and is of approximately the same nutritive value as the olive oil but more agreeable in flavor.

The oils usually used in soap and perfumery are taken from the bitter almonds and is not quite as wholesome for eating as the oil of the sweet almond. This oil is quite readily absorbed by the skin and for this reason may be used to advantage in massage.

Almonds are as rich in protein as lean meat. About nine ounces of almonds will provide the body with sufficient protein for one day.

In roasting almonds in large quantities, they are not baked in ovens as is commonly supposed, but are literally French fried by being immersed for a short time in boiling hot cocoanut oil. A longer roasting produces the burnt almond frequently used for flavoring ice cream.

The blanched almond is the sweet almond with the brown outer skin removed after which the almond is dried in the warm oven. Almonds may be blanched at home by first pouring boiling water over them and letting them soak for about a half-minute after which they are rinsed in cold water and the skin removed by pressure of the fingers. The brown almond skin, being acid forming, should not be eaten.

Almonds combine readily with all of the fruits and nonstarchy vegetables, but because of their richness, should not be used with other proteins or fats or with searches. They make an excellent substitute for meats by those who are inclined toward vegetarianism and who have a good digestion.

QUESTIONS AND ANSWERS

Arm Gets Numb

Question: Mrs. A. A. writes: "My right hand and arm 'sleeps' so much I can hardly do any writing. What do you think is the cause of it? I am 63 years of age, and had it a few years when I was about 40, but it left me. Please tell me what to do."

Answer: The numbness in your right arm is due to poor circulation, and this in turn may be caused by pressure on the nerves which go from the spine to the arm. A chiropractor or osteopath may be able to help you in one or two treatments.

How to Use Milk

Q.: Mrs. A. R. writes: "I read in your column that milk should not be taken with sandwiches. When should milk be used?"

A.: Milk should never be used with sandwiches or with regular meals. It should be taken by itself, or combined with one kind of fruit, or with only nonstarchy vegetables.

Stomach Trouble

Q.: Mrs. S. S. R. writes: "I have had stomach trouble for nearly two years, and very often I have distressing pains below the stomach. The doctor thinks I will have to have an operation and have the gall bladder taken out before I shall be better. Do you think I shall be obliged to have this operation?"

A.: It is unwise for me to attempt to diagnose your case through this column or to estimate whether or not you should have the gall bladder operation. I find only a small percentage of gall-bladder cases require operations, as a diet treatment will usually effect a complete cure. The diet should be tried first and if this fails it is time enough to try surgery.

Vitamin X

Q.: Alice V. asks: "What foods, including vegetables, contain vitamin E?"

A.: The vitamin E, is now called vitamin "X," and is supposed to be an unknown principal found mostly in grain. This principle is believed to be necessary to the human body for the purpose of reproduction.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

MEXICAN LAMB STEW

One pound of lamb for stew, one tablespoonful of shortening, two tablespoonfuls of flour, one chopped onion, three chopped tomatoes, three chopped green peppers, two quarts of boiling water, one cupful of green peas, one cupful of corn, one-half a cupful of rice, two teaspoonfuls of salt, one-fourth teaspoonful paprika, one egg, one teaspoonful of salad oil and half a teaspoonful of vinegar. Roll the lamb that has been cut in small pieces in the flour and brown in the shortening, add the onions, tomatoes and green peppers, and allow to simmer for five minutes, then add the hot water, and allow to cook slowly until the meat is tender. Season, add the peas, corn, cut from the cob and the uncooked rice, cook until the rice is well done, when ready to serve, beat the egg, mix the oil and vinegar with it, place in the bottom of the serving dish and pour the stew over it.

LOGANBERRY TAPIOCA

Two cupfuls of loganberries, one-half of quick cooking tapioca, one-fourth of a teaspoonful of salt, one tablespoonful of butter, one and one-half cupfuls of berry juice, one-half a cupful of sugar, a tablespoonful of lemon juice, crush the berries, sweeten to taste and let stand for one hour, place the tapioca and the water in a double-boiler and cook for fifteen or twenty minutes or until the tapioca is clear, stirring frequently. Add the butter, berry juice, and sugar, remove from the fire, add the berries, lemon juice, place in small molds, and chill until firm, serve in serbet glasses garnished with whipped cream, and whole berries.

CHEESE POTATO DUMPLINGS

One and three-quarters coupfuls of cold riced potatoes, six tablespoonfuls of stale bread crumbs, one tablespoonful of butter, six tablespoonfuls of flour, two well-beaten eggs, three quarters of a cupful of grated cheese, a seasoning of salt and paprika, cream the butter, add the riced potatoes, and the flour, well-beaten eggs, cheese and seasonings; divide the mixture and form into small balls, roll in flour and cook in boiling chicken broth, closely covered for ten miutes and serve with gravy made by thickening the chicken broth with flour.

STEWED CUCUMBERS

Take six large cucumbers, peel and cut in one-inch pieces, removing the seeds, two tablespoonfuls of butter, two tablespoonfuls of flour, two tablespoonfuls of lemon juice, a seasoning of salt, pepper, and the yolks of two eggs, place the cucumbers in a saucepan and cover them with boiling water, boil without a cover until tender, drain well, save the stock, place a cupful and a half of the stock in a saucepan, rub the butter and flour together and add to the stock, allow to simmer for five minutes, stirring constantly until thick, remove from the fire, add the seasonings and the well-beaten egg yolks, beat well, and allow to cook for two minutes, place the hot cucumbers in a serving dish, pour the sauce over them and dust the top with paprika.

Mrs. Wyman does not reply to letters, but requests for recipes are answered in the department, PRACTICAL RECIPES, published every Friday.—(All rights to reproduce reserved by A. L. Wyman.)

HOUSEHOLD SUGGESTIONS

Sometimes Easier

In the home where mother does all her own work, it is sometimes wise to have Tuesday for wash day, rather than the custom-made Monday. The house is always in disorder from Sunday, with so much to straighten up and so much accumulated dust, that it takes most of Monday to get it in order. In the afternoon a cold supper could be prepared for Tuesday and wash day would not seem such a horror, with the knowledge that the house is in order before one starts.

A Soiled Photograph

If you suddenly come across an old soiled photograph of an ancestor that you would like framed, do not be discouraged but go over the photograph with soft white bread, rubbing the soiled spots well. It will clean it beautifully.

For Nervous Hands

If you are of a nervous temperament and must keep your fingers busy, employ them to good advantage this summer and massage your scalp with the tips of your fingers during these warm nights on the darkened porch. You will be delighted how quickly your hair will respond to this treatment and increase in thickness.

Easily Buttoned

On children's clothes it is wise to sew buttons on over and over a pin. The pin can then be slipped out when the button is sewed on, leaving it loose enough to button easily. This proves a decided help to the little tot just learning to dress herself.

Dorothy Gray

To Suit Your Face and Figure

DO you like a powder that is thistledown delicate, creamy, more clinging than a light shade that suits your type? Do you prefer a mildly exotic or an audacious effect?

Whatever your taste in powder may be, in fact face powder may be, you will find it among the exquisite cosmetics offered by Dorothy Gray from the lightest to the heaviest weights, in color-tints ranging from the palest White to Tawny Rose and Sunburn; in price from one and a half to five dollars the box. YOUTH is not measured by birthdays

There is no certain point, in the calendar of feminine birthdays, which marks the end of youth . . . It is a well-known fact that many women are prolonging both the appearance and the vitality of youth by wearing CHARIS.

You must wear this unusual foundation garment to understand what it will do for your figure and your health . . . Instantly, when you try it on, you see how the adjustable design of CHARIS corrects ungraceful development of waist, hips and thighs—how it re-creates the smooth, graceful lines of youth. This perfect control over the proportions of your figure is accomplished through adjustable features found only in this patented garment.

The healthful features of CHARIS are just as plainly evident . . . physical support, exactly where most needed, provided without pressure or stiffness . . . an Adjustable Inner Belt, which strengthens and protects the delicate abdominal region.

In the privacy of your home, through actual demonstration, you can learn how CHARIS will help you. A representative will be sent at any time that suits your convenience. She will arrange personal fittings for you, in our comfortable fitting parlors, without charge . . . To make an appointment, please write or 'phone the address below.

The Adjustable Inner Belt lifts and flattens the abdomen without pressure. Notice how it supports the back.

BANKER SHOOTS WOULD-BE THIEF

Bandit Demands Money But Gets Bullet in Heel

Branch of Bank of America Scene of Shooting

Wounded Suspect Refuses to Reveal Address

A bandit walked into the Jefferson and San Pedro streets branch of the Bank of America during the noon hour yesterday and attempted to force the manager, R. E. Blaisdell, into the vault. Blaisdell reached into a drawer of his desk for a revolver and shot the bandit in the heel.

At the Georgia-street Receiving Hospital the man, who, police say, is a foreigner and approximately 35 years of age, at first refused to answer questions and would not reveal his identity other than that his first name is Joe. Later he said he is Joe Mandasic, but refused to give his address.

Three other employees and two customers were in the bank when the man entered. He walked straight to Blaisdell's desk and told him that he wanted "all the money" in the place. Blaisdell told police.

When Blaisdell replied with a shot from his pistol the man dropped to the floor and made no further resistance. In his hand was a sheet of paper on which he apparently, police said, intended to write a note to the bank official, but impulsively decided to make a verbal demand for money before he had time to carry out his first plan.

Hearing Asked to Revise Fare on Stage Line

Learning that the California Railroad Commission already has granted a permit to the Los Angeles Motor Coach Company for extension of its Wilshire Boulevard bus line to the University of California at Los Angeles for the accommodation of students, the Board of Public Utilities and Transportation yesterday decided to ask the commission to reopen the case for a hearing on the fares proposed to be charged.

The company proposes forty-six and sixty-ride books for $8.05 and $10.30, respectively, for students under 18 years of age and the board feels that this rate should apply also to students who may be over that age.

The board set next Friday morning for hearing arguments on the application of the Highland Transportation Company for extension of its service in the San Pedro district.

STREET HEARING CONTINUED

Hearing of protests against the improvement of Madison avenue between Melrose avenue and Beverly Boulevard was continued by the Council yesterday until the 16th inst., and the hearing of protests against the improvement of Santa Susanna avenue between Marilla and Schoenborn streets was continued until Friday.

Court Rules on Earle's Defense in Dancer's Suit

Ferdinand Pinney Earle may defend himself by a deposition against the $180,000 damage suit of Dolores Salazar, Spanish dancer, who accused him of betraying her under promise of marriage, according to a ruling of Superior Judge McComb, made public yesterday.

Attorney Roger Marchetti had asked for a judgment by default on grounds that Earle did not appear in court. Some of Earle's property is under attachment here, it was stated.

Miss Salazar asserted that she lived with the artist in Paris. Earle answered that the suit against him is a "shakedown," and that he did not harm her.

Camp Stoddard Not Affected by Fire Order

Orders closing certain areas in the Mt. Baldy district as a fire hazard prevention measure do not affect Camp Stoddard, according to a statement made yesterday by Gus Lundin, manager of the camp. He said District Forester Show's order, as announced by Forest Ranger Longacre of Glendora, in no way affects visitors to Camp Stoddard.

Lundin added that Camp Stoddard is in Sec. 13, while the closed areas of Stodda d Canyon are Sec. 7 and Sec. 8.

FRIEDMAN TO ADVISE CITY BOARD

Attorney Named to Serve Water and Power Bureau in Liaison Officer Job

Appointment of Attorney Paul Friedman to serve as adviser to the Water and Power Department was announced yesterday by City Attorney Werner.

PAUL FRIEDMAN

Friedman, State counsel for the Master Builders' Association of Southern California, and former deputy City Prosecutor, already has assumed his new duties.

Werner said he has placed Friedman at the disposal of the Water and Power Department in the hope of creating a closer relationship between the department and his office.

During the recent campaign Friedman was a candidate for City Attorney, withdrawing in favor of Werner.

Friedman served as a deputy City Attorney from 1923 to 1926. He resides with his wife and small son at 2304 Michigan avenue in the Boyle Heights district.

Friedman is a graduate of the University of Southern California and is a member of Zeta Beta Tau Fraternity. He is secretary of the B'nai B'rith lodge and Chief Ranger of the Metropolitan Court of Foresters.

Woman Praised for Honor Won in Music Club

Congratulations yesterday were showered on Mrs. Grace Widney Mabee when she arrived in Los Angeles from Boston where she was elected second vice-president of the National Federation of Music Clubs at the sixteenth biennial convention. Mrs. E. J. Otteway of Port Huron, Mich., was elected president.

MRS. GRACE WIDNEY MABEE

Mrs. Mabee, who lives at 321 South Van Ness avenue, has won recognition throughout the country through her work as chairman of the Department of Music in Religious Education, under the Federation of Music Clubs. Because of her work in organizing the music for the World's Sunday School Convention in Los Angeles last summer, Mrs. Mabee has been invited to take charge of the music for the International Council of Religious Education which meets at Toronto, Can., next summer.

Mrs. Mabee also has been asked to provide a musical program for the convention of the Religious Educational Associations at Atlanta, Ga., next spring.

Council Tables Widening Plans of Trolley Way

The new City Council had its first afternoon session yesterday and until nearly 5 p.m. heard protests against the opening and widening of Trolley Way. At the suggestion of Councilman Barthel the whole file was referred to the Street Opening and Widening Committee.

Mr. Barthel will attempt to obtain funds from the county, State and Federal government to aid the project, which is of widespread importance. If he obtains additional money new proceedings will be instituted.

The cost of the project is estimated at $2,894,000, the city already having allocated $190,000. The street will be 100 feet wide and will become a link in the Roosevelt Highway.

HIGH LIGHTS OF HISTORY 1389

The Story of the World War
159—Fighting on the Italian Front.

by J. CARROLL MANSFIELD

FOR A YEAR FOLLOWING THE CAPTURE OF GORIZIA BY THE ITALIANS IN AUGUST, 1916, THE ITALIAN AND AUSTRIAN ARMIES REMAINED IN A DEADLOCK ALONG THE ISONZO RIVER. THERE WERE MANY MINOR ATTACKS AND COUNTER ATTACKS, BUT NO IMPORTANT ACTION THAT WOULD CHANGE THE SITUATION.

THEN, DURING THE LATE SUMMER AND EARLY FALL OF 1917, THE ITALIANS MADE A NUMBER OF SMASHING ASSAULTS AGAINST THE AUSTRIAN POSITIONS ON THE ISONZO, HOPING TO BREAK THROUGH THE ENEMY'S LINES AND CAPTURE THE PORT OF TRIESTE.

THE ITALIANS GAINED LITTLE GROUND, BUT THEIR HAMMERING BLOWS EXHAUSTED THE AUSTRIANS. THE GERMAN HIGH COMMAND BECAME ALARMED OVER THE SITUATION. GENERAL LUDENDORFF, GERMANY'S BEST STRATEGIST, PLANNED A MIGHTY AUSTRO-GERMAN OFFENSIVE TO CRUSH ITALY AT ONE SWIFT STROKE.

LUDENDORFF PLANNED TO LAUNCH THE GREAT DRIVE THROUGH THE MOUNTAINS AT A POINT WHERE THE ITALIANS WERE LEAST EXPECTING AN ATTACK. EIGHT PICKED GERMAN DIVISIONS WERE QUIETLY WITHDRAWN FROM THE RUSSIAN FRONT, AND SECRETLY TRANSPORTED TO THE MOUNTAINOUS REGION ON THE AUSTRIAN BORDER.

the case, which got under a week ago last Monday, Getsoff that he had paid Davis as a bribe to "let up" on Lindberg, one of the defendants in the Julian fraud trials. He said that the money was passed over the basement of a downtown store and his son Dave took the money and testified that he saw a roll of bills handed to Davis.

other witnesses the State proved the fact that Getsoff Davis and Getsoff declared had given the former chief District Attorney a floor piece white dress goods and quantity of whisky.

DENIALS VOICED

total denials of most of testimony marked the cross-examination of Davis's examination Monday morning and ran on into his cross-examination was conducted by Dep. District Simpson. Under direct examination which started Monday afternoon and ended at 11 o'clock Tuesday morning, and again during cross-examination Davis declared and again that he had a bribe from the former District Attorney failed.

D'Orr directing the examination denied he ever had Getsoff's home. He denied a Christmas eve with him, that in quick succession delivered any gifts of any kind the self-confessed bribery broker, discussions conversations relating to the dismissal of the Julian fraud case against Ed Rosenthal, of accepting any money Getsoff from the man who principal witness against former county official.

Of the State's star witness, whose testimony purported to have been very friendly with Davis and stated that not only had he given the former chief deputy District Attorney a bribe but also visited him and made him other presents including a lamp, quantities of food and some cloth for a dress for Mrs. Davis. He also told of the social visit of the Davis family to his home on Christmas Eve, 1926.

Under the searching cross-examination conducted by Simpson, Davis balked for a little more than an hour. Davis told of his history in the District Attorney's office, rise to chief deputy under Keyes and then his resignation to enter private practice, which was to have been joined

He testified that he believed his former superior had been guilty in the prosecution of the case but stated that he did not believe Keyes dishonest. Then in answer to Simpson's questions he stated that he had intended to go into the practice of law with the District Attorney but seemed undecided as to whether it was to be a partnership or just an office.

Toward the end of his cross-examination Davis declared that Keyes gave him $3000 with which to open his office and said that the greater part of the money went into stocks and the rest into a stock deal. The former chief deputy District Attorney stoutly maintained, however, that all of the money was intended as office expenses or for furniture.

PLANE PROMISE CITED IN PLEA

Wife Asking Divorce Says Spouse Didn't Even Have Job After Wedding

Anything her heart desired, including an airplane if she wanted one, was promised her by Alfred L. Barnes before he married her, it was testified by Hazel Helen Barnes yesterday before Superior Judge Archbald.

But the airplane was not forthcoming, testified Mrs. Barnes, who also enumerated other asserted irregularities of Barnes in her complaint for annulment or divorce. Barnes did not even have a job, she complained.

The matter was taken under submission by Judge Archbald.

The couple married in Ventura on December 4, 1928, and separated six days later.

erate because he was a friend of my superior officer," declared Davis while explaining his association with Getzoff.

"Keyes was not dishonest but he was a tool of his pretended friends and it was because of this that I left the District Attorney's office."

When asked to explain how he could intend to go into business with a man believed by him to be insincere Davis contended from the stand that he had great respect for Keyes's ability as a lawyer and that he believed that once in the private practice the desire to be a good fellow and please his friends would be removed.

Davis throughout both his direct and cross-examination insisted that he always believed Getzoff to be "no good." He said that Getzoff at one time had offered to finance a home for him on "reasonable" terms but when an investigation was made the terms were not reasonable and the deal was called off by Davis.

Getzoff for a time occupied an office next to Davis's in the downtown building where the latter established himself after leaving the District Attorney's office, Davis said. The office was the one to have been used by Keyes when he retired from office, his former chief aide declared.

"After a while I got so disgusted with him that I threw him out of the office," Davis asserted in reply to Simpson's question as to what he had done about Getzoff taking possession of Keyes's office. The possession of the answer relative to the throwing-out process was ordered stricken from the official record by Judge Wilson.

With Davis, who during the course of his examination went through the entire history of the Julian crash investigation and trial as well as his own personal history and his connection with the District Attorney's office and his relationship with Ben Getzoff, out of the way the defense proceeded toward the close of its case with a series of character witnesses.

Headed by C. I. D. Moore, vice-president of a large insurance company, Franklin K. Lane, Jr., Richard Garvey and Vincent Morgan, all lawyers, followed each other to the witness stand and testified that Davis bears a good reputation and can be believed under oath. There was no cross-examination of this series of witnesses.

Quick Action Averts Panic in Film House

Prompt action by L. R. Reeder, motion-picture machine operator at the Art Theater, 551 South Main street, probably averted a panic among spectators early yesterday morning when a reel of film exploded from an unknown cause.

Reeder dashed from his booth to the front of the theater and told the patrons that a fire had started. He advised them to walk calmly from the place, which they did. About 2000 feet of film was destroyed before the fire was extinguished. Damage is estimated at $25.

RELIGIOUS HEALING CONFERENCE CALLED

An interdenominational health conference will be held at the Y.M.C.A. Building of Los Angeles, the 22nd and 23rd inst., with afternoon and evening sessions. Dr. Sheldon Shepard, pastor of First Universalist Church, chairman, says the purpose is to discuss the relation of religion to health, the church's attitude toward healing and methods of increasing the practical helpfulness of Christianity in daily life. The conference is open to men and women and discussion will follow each address.

CHIROPRACTORS WILL BOOST STANDARDS

The main feature of the California Progressive Chiropractic Association's annual convention, which opens tomorrow in Sacramento, according to word received here yesterday from Dr. Samuel J. Howell, president, will be to propose State legislation exacting four years of high school and two of college training for every student entering a chiropractic college. The Sacramento convention lasts two days.

MUNICIPAL SITE URGED

A request that steps be taken toward procuring a suitable site for the erection of a municipal building at Pacoima, in the San Fernando Valley, was received by the City Council yesterday from a committee of the Pacoima Chamber of Commerce. The matter was referred to the City Planning Commission and the City Planning Committee.

IMPROVEMENT SOUGHT

A petition requesting the improvement of One Hundred Sixteenth street between Alameda street and Wilmington avenue with concrete paving was filed with the City Council yesterday by a group of property owners. The matter was referred to the City Engineer and Public Works Committee.

SHIP PAINTER LIKES AIRPLANES

He Depicts Seacraft but Rides in Sky

Mr. and Mrs. J. Duncan Gleason

ANOTHER proof that things go by contrasts was found at the harbor when J. Duncan Gleason, the painter of old-time sailing ships, and Mrs. Gleason debarked from the Dollar around-the-world liner President Wilson.

For Gleason, whose reputation is based on the oldest form of transportation—the old windjammers—has as an avocation the most modern type of passenger craft, the trimotored airplane, he disclosed.

Much of his spare time and of his wife is spent on long-distance airplane junketing trips, and they recently flew from Los Angeles to New York to board the President Wilson for their vacation trip to the southern republics.

JURY DELAYS PIKE REPORT

County Investigators to Defer Findings Pending Conclusion of Trial of Davis

The findings of the grand jury in the investigation of the asserted "frame-up" and arrest of Milton Pike on complaint of Harold L. (Buddy) Davis, charging acceptance of a bribe, will not be made known until the conclusion of the present trial of Davis, now in argument in Superior Court.

Decision to postpone the official report until Friday was made known yesterday when the jury adjourned after the day's session. The delay is based on a presumption that any action of the jury at this time might have a tendency to influence the results of the hearing in which Davis is charged with bribery conspiracy and further consideration of certain legal points that have been developed during the investigation, according to Dep. Dist.-Atty. Hammon in charge of grand-jury work.

ACTION DEFERRED

Investigation of charges that R. C. Hunting, Los Angeles attorney, obtained $1500 from two clients after promising to influence a judge, a Municipal Court clerk, deputy City Prosecutor and others was concluded by the county grand jury last night but final action on the case was deferred until the next session on Friday.

Witnesses called to testify were Felice De Rico and Carla Lencioni, his mother, who precipitated the investigation by informing Raymond I. Turney, presiding judge of the Municipal Court, of Hunting's asserted misrepresentations. Attorney Hunting also was called as a witness and given an opportunity to explain his side of the case.

PAIR CONVICTED

De Rico and his mother were tried and convicted on charges of possession of liquor. The son was fined $400 with an alternative of eighty days in jail. The mother was given a straight sentence of $500 and 180 days in jail.

The grand jury also continued its investigation of charges that the National Land Value Guaranty Company had sold stock to Los Angeles investors without first obtaining a permit in this State.

According to Dep. Dist.-Atty. Hammon the investigation is still incomplete and additional witnesses will be called before the case is closed.

JOB MERGER REQUESTED

Councilman Ingram yesterday introduced a resolution asking that the Civil Service Commission take steps to consolidate the positions of patrolman and police chauffeur. The salaries and duties are substantially the same, Mr. Ingram pointed out, and the consolidation will enable the chauffeurs to share in the pension fund.

New Kind of "Birthday" to Be Celebrated

Something unusual in the form of "birthdays" will be celebrated tomorrow by Prof. Arnold Johann Gantvoort, lecturer in music at the University of California at Los Angeles. He says July 11 is "my American birthday." But the celebration is not on the anniversary of his birth, but the anniversary of his coming to America.

Prof. Gantvoort arrived as an immigrant in the United States on July 11, 1876. He then was a 19-year-old musician from Holland. On July 11, 1877, and on every July 11 since that date he has celebrated his "American birthday." His fifty-third "American birthday" will be observed tomorrow evening at his home, 846 North Edgemont street, with a smoker, when he will be surrounded by a group of his colleagues and friends from the university. He is a Thirty-second Degree Mason and his clubs include Art, Business Men's, Schoolmasters', Cuvier and Press. He is the author of several volumes on music.

Prof. Gantvoort's elder son, Carl Gantvoort, is a grand opera singer of international prominence.

CITY ATTORNEY GOING NORTH IN PHONE CASE

City Attorney Werner and Assistant City Attorney Herron plan to leave Los Angeles today, in company with two engineers from the Board of Public Utilities, to confer in San Francisco with engineers of the State Railroad Commission relative to the telephone rate hearing, scheduled for early in August.

STREET COSTS COME UP

The City Council today will take up the confirmation of assessments on the opening and widening of Raymond avenue between Eighty-third street and Manchester avenue, the improvement of Cheremoya avenue between Winans Drive and Gracioza Drive, the improvement of Cazador Drive between Cazador street and Avenue 53, and the improvement of Dillon street between Temple and Third streets.

INFECTION HITS CURE DISPENSER

First Aide of Cupid, Struck by Random Shaft, to Take Own Medicine

Miss Margaret Furlong took a dose of her own medicine yesterday when she filled out an application for a marriage license, Miss Furlong being an assistant of Miss Rosemond Rice, Deputy County Clerk in charge of the marriage license bureau at the Courthouse.

The other party to Miss Furlong's contract will be Charles C. Scharf of Texas, who will reside in Los Angeles henceforth, he announced. Rev. Hugh K. Walker, Presbyterian clergyman, will perform the ceremony at the home of Thomas J. Fitzgerald, 915 South Citrus avenue, Saturday evening. Miss Furlong gave her address as 1346 North Coronado street.

ALLOWANCE SUIT WON BY CIRCUS MAN

Wife of Al G. Barnes Loses Action for $2500 Monthly Separate Maintenance

Mrs. Sarah Jane Stonehouse, wife of Al G. Barnes, circus owner, lost her suit for separate maintenance against her husband, when Superior Judge Dooling decided a decree of the Nevada courts awarding Mrs. Stonehouse but $300 a month is valid.

Mrs. Stonehouse, formerly an equestrienne in the circus, had sued in local courts for $2500 a month separate maintenance, claiming a share in the circus and other property which she valued at $2,500,000. She asserts that the divorce obtained by Barnes in Reno is not legal, because, she said, Barnes did not have a legal residence in the Nevada city.

The plaintiff, named Carlotta Bricker, circus performer, as co-respondent.

Plans of State Fair Subject at Luncheon Today

Business leaders of this section today will hear the part they are expected to play in the combined Western States Exposition and California State Fair in Sacramento, August 31 to September 9, at a noon luncheon under the auspices of the Chamber of Commerce at the Alexandria.

Marking the seventy-fifth annual State Fair, an exposition of eleven western States will be presented in conjunction with it.

President Crandall of the chamber will preside at today's luncheon and R. A. Condee, president of the State Agricultural Society, will be the principal speaker.

Couple Unable to Patch it Up

Religion and recreation were dominant issues in the home of Harry D. Cutting and his wife Mabelle, and when the matter came before Superior Judge Burnell a month ago on the plea of Cutting for a divorce he ordered them to think it over and if possible make an adjustment.

Yesterday the couple again appeared in court, their marital status much the same as a month ago. A decree of divorce was granted the husband by Judge Burnell.

Cutting was represented by Attorneys Lewis and Neeson and Mrs. Cutting by Attorney Gallaino.

DANCER'S ACHING FEET "EXHIBIT A" IN TRIAL

The aching feet of Maria Befeki, Oriental dancer, were trotted out before a jury in Superior Judge McLucas's court yesterday, when the second trial of the dancer's $32,000 damage suit against Lillian Albertson, theatrical producer, was begun. Miss Befeki, represented by Attorney S. S. Hahn, swore that her contract was violated when she was dismissed during a performance of "The Desert Song" at the Windsor Square Theater. She said that she protested because her feet were hurt by the saraband she danced on the hard boards of the stage. Testimony will be resumed today, Attorney Louis Pink representing Miss Albertson.

FAKE WEDDING SET UP IN HEAVY DAMAGE SUIT

Charging that Walter T. Rusk induced her to go through a fake marriage ceremony, in Baker, Or., nineteen years ago, Belva M. Thebo yesterday sued Rusk for $203,000 damages. In a petition filed by Attorney Charles Orbison, Mrs. Thebo, who says her 18-year-old son is a child of Rusk's, declares that Rusk told her he had obtained a divorce in Mexico in 1927. Later she says, she found this divorce was invalid, and she obtained a divorce from him in Superior Judge Rosenkrans court the 3rd inst., when the Mexican divorce of Thebo was set aside on grounds that her marriage with Rusk was illegal.

CLASS IN ADVERTISING

Business men who are interested in advertising are offered a course in "Theory of Advertising" by Herbert M. Morgan, lecturer at Northwestern University, former vice-president of a large Chicago advertising agency, at the extension division of the University of California at Los Angeles, in the Hillstreet Building, 815 South Hill street. The class meets each Wednesday evening.

MRS. COLLINS' SUIT HEARD

Trial of $55,000 Damage Action Against Chief Davis and Capt. Jones for Imprisonment Started

Details of the imprisonment of Mrs. Christine Collins in the psychopathic ward of the County Hospital when she refused to accept another boy as Walter, her missing son, were told in Superior Judge Vicini's court yesterday, when the $55,000 damage suit of Mrs. Collins against Chief of Police Davis and Police Capitan J. J. Jones went to trial.

The boy Mrs. Collins refused to accept later was identified as Arthur Hutchens, Jr., and Gordon Stewart Northcott, who was charged with killing the Collins youth, later was convicted of killing three other boys, and the charge that he killed Collins was put off calendar.

W. S. Davis, warder of the psychopathic ward of the General Hospital, swore on the stand that Mrs. Collins was arrested and taken to the hospital without a warrant, and that she was in the hospital three days before a warrant was issued. Capt. Jones, acting as his own counsel, cross-examined Davis, and elicited a statement that it was the practice of the psychopathic officers to receive such prisoners without warrants.

Davis also testified that the business office of the Lunacy Commission, where such warrants are issued, was closed from Saturday noon, September 8, 1928, until the morning of Tuesday, September 11, due to the fact that Admission Day was celebrated on Monday, September 10, the 9th falling on Sunday.

Sherman Smith, secretary of the Lunacy Commission, testified to the same facts, and gave technical information regarding filing of psychopathic complaints.

Chief Davis, who was not in court on the opening day of the trial, was represented by Attorney Frank S. Hutton, who asked prospective jurors whether they had heard Rev. "Bob" Shuler denouncing the police department over the radio. Attorney S. S. Hahn represents Mrs. Collins.

MOTHER FACING MURDER CHARGE

Infant Burning Complaint Accuses Parent

Girl Denies Having Slain Another Child

Police Say Woman Appears Normal Mentally

Josephine Valenti, 19-year-old mother who confessed to police that she lighted the fire that burned her 8-month-old baby, Dominick, to death as he lay in his carriage outside the family home at 669 Moulton avenue, shortly before noon Monday, will be arraigned in Division Three, Municipal Court, at 2 p.m. today on a District Attorney's office complaint charging murder. The complaint was issued late yesterday by Dep. Dist.-Atty. Richardson. It was sworn to by Detective Lieutenant Condaffer.

One hour later, at 3 p.m., a Coroner's inquest will be conducted over the charred remains of the infant at the County Morgue.

MOTHER DEFIANT

Defiance that has characterized her attitude since her arrest a few hours after the murder marked the woman's demeanor yesterday when Captain of Detectives Ray Cato of the homicide detail, told the young mother that a murder complaint would be filed against her.

After more than an hour's questioning, the young woman, who calmly has told police that she lighted the blankets in which she had wrapped the baby after carefully bathing it, stoically denied that she previously had been a mother and had done away with another baby by choking it to death.

Following Mrs. Valenti's confession yesterday, anonymous calls were received by police declaring that the woman had committed a previous murder of an infant.

APPEARS RATIONAL

"He was in the way, that is all there is to it," the woman told interrogating officers. "I never have had a baby before. Some one is trying to put something on to me that I am not guilty of," she beatedly declared.

The young mother has proved more or less an enigma to investigating detectives. Her mental condition, officers said, appears to be normal. Yet she still is indifferent to the tragedy that has even caused police officers inured to crime to shudder.

The child was discovered in flames by a neighbor, John Giros, 661 Moulton avenue. For a short time it was believed that sun rays from a milk bottle had ignited the baby's blankets. The mother's indifference, however, aroused suspicion of Detective Lieutenants Condaffer, Harris and Montgomery, and a few minutes' questioning resulted in her confession.

MISS BANKY GIVEN NEW CONTRACT

Success of First Talking Picture Causes Signing Anew of Foreign Player

Any worries Vilma Banky, Hungarian actress, might have had about her future career in talking pictures were brought to an end yesterday when Samuel Goldwyn, United Artists' producer, entered into a new five-year contract with her. The details of the contract were arranged by Goldwyn over the telephone. Miss Banky is in Louisville, Ky.

The signing of the star is due to the success of her first talking picture and to her reception in various of the larger cities on her personal-appearance tour. Her first contract just expired.

"Miss Banky has proved a notable exception to the rule of the foreign motion-picture players," Goldwyn said yesterday. "In my opinion it is obvious that when a voice is easy to understand American audiences rather like the touch of a foreign accent.

"During the several years she has spent in America Miss Banky has devoted much time to learning our language, so that the American citizenship which she recently acquired would find her an American not only in name, but in fact."

Miss Banky will be gone several weeks before returning to Hollywood.

Air Mail Gains in Southland

The confidence which the citizens of Los Angeles and Southern California have in the air-mail service is reflected in the tremendous weight increase revealed in reports made public yesterday by the Western Air Express.

During the first six months of 1929 approximately 13,102,715 pieces of air mail were carried in the ships which operate twice daily between Los Angeles and Salt Lake City. This count compares to 4,456,360 pieces flown during the first six months of 1928.

DOUBLE AIR SERVICE WILL START TODAY

Double air service between Los Angeles and San Francisco is to be inaugurated today by Western Air Express. Under the new schedule a plane will leave Los Angeles for the northern city each day at 6:30 a.m. and 5 p.m., and planes will leave San Francisco for Los Angeles each day at 9:10 a.m. and 5 p.m. The flight takes three hours and the double schedule permits the passenger to have approximately four hours in the neighboring city for the transaction of business, and then return to his home, either at Los Angeles or San Francisco, that evening.

SINGER CHOSEN FOR LASKY FILM

George Lewis is Lined Up for Many Important Roles; Lewis Stone Signing New Contract With M.-G.-M.; Olive Tell to Play in R.-K.-O. Feature

BY GRACE KINGSLEY

Close on the heels of the arrival of Denis King, termed the most romantic figure on the musical stage, comes the announcement that Jeannette MacDonald is to appear opposite him in his starring production, "The Vagabond King," which he will start soon at the Paramount studios, with Ludwig Berger, noted German director, directing.

Miss MacDonald came to Hollywood recently from the New York musical comedy stage, where she was starred in such productions as "Yes, Yes, Yvette," "Boom, Boom" and "Angela," to take the leading feminine role opposite Maurice Chevalier in "The Love Parade." So well did she screen and so excellent was her singing voice, that she was signed to a contract only two weeks after the picture started.

In "The Vagabond King," which Paramount believes will be one of its greatest productions of the coming season, Miss MacDonald will have another singing-acting role. The picture is taken from Florenz Ziegfeld's production, which was written by Brian Hooper and William H. Post from Justin Huntley McCarthy's "If I Were King.", King and Miss MacDonald will sing the melody hits of Rudolph Friml.

King during the past three years has been in only three New York productions, but, all of them were hits. He was in "Rose Marie" for two years, in "The Vagabond King" for a year and a half, and has just completed eighteen months as the star of "The Three Musketeers."

GEORGE LEWIS HAS BIG SCREEN FUTURE

GEORGE LEWIS

At last George Lewis really has graduated from the "Collegians," and is about to step into the film world in real grown-up roles. Universal thinks that George Lewis has a big future, and is planning big things for him.

He is to star with Red Grange in a football story, and also will be co-featured with Barbara Kent in two pictures, titled "Flaming Daughters" and "Keep on Dancing."

His next assignment is an equally important one. He is to play the juvenile lead opposite Madge Bellamy in Universal's screen talking adaptation of Owen Davis's "Tonight at Twelve," which Harry Pollard will direct.

Mary Doran has a featured leading role, and others cast in leading parts so far are Norman Trevor and Robert Ellis.

Lewis Stone Remains

Metro-Goldwyn-Mayer studios have decided that they cannot possibly dispense with the services of Lewis Stone. Therefore they have signed him on a new long-term contract, according to word received yesterday.

Lewis Stone.

The actor, noted formerly as a stage star, has taken in the past few years some of the outstanding roles in pictures, including Menelaus in "Helen of Troy" and others. He also has gained great favor in "Madame X" and "The Trial of Mary Dugan." His most recent role was with Peggy Wood in "Wonder of Women," which Clarence Brown directed.

Universal Buys Play

Once Will Hays said that "The Command to Love" was really too spicy for picture material. But what cannot be done with a change of name and a few little erasures in text?

At any rate, Universal has secured "The Command to Love" now, and will place a notable cast in its screen talking reproduction. Joseph Schildkraut, we hear, will portray the sophisticated hero.

The chief feminine role, the one taken by the skillful Mary Nash when the piece was put on here at the Belasco, is as important as the male lead, and Carl Laemmle, Jr., is looking about for just the right actress to take it.

It is likely that Paul Fejos will direct.

Olive Tell With R.-K.-O.

That pleasing young actress, Olive Tell, is to have another chance to show what she can do in talking pictures.

Miss Tell has just been chosen for one of the leading roles in Radio Pictures' all-talking production of "The Very Idea," adapted from William LeBaron's comedy. This is her fourth talking picture.

Frank Craven is handling the stage direction of "The Very Idea," while also playing a leading role, and Richard Roeson is in charge of the pictorial direction.

Mulhalls Come Home

Jack Mulhall and his wife have returned from Honolulu, arriving on Sunday after a month's absence. They report a delightful time. Jack says that he is going to challenge Milton Sills to a surfboard riding contest on the Los Angeles River.

The actor is to return at once to work at First National studios, where he is to be co-featured with Lois Wilson in "The Dark Swan."

Betty Carter Among Us

Betty Carter, European stage and film star, has joined the Hollywood film colony. The young actress speaks French, German and Spanish, as well as her native English. She has appeared in a number of French, German and English pictures.

The one in which she is best known here is "The Ware Case," a First National picture made in England and shown throughout this country.

Victor McLaglen Leaving

After three years of toil in the vineyard of art, or that part of it represented by the Fox studios, Victor McLaglen, star of "What Price Glory" and other noted films, is going to take a vacation.

VICTOR McLAGLEN

McLaglen leaves tonight, accompanied by his wife, for the East, where he means to take in such sights as are offered in the largest cities, including New York, Chicago, Washington, Philadelphia, Boston, Cleveland and others. This will be the star's first visit to most of these cities.

He will return in a month, when he will, according to present plans, begin work at once in "The Well Dressed Man," a story of the Oklahoma oil fields.

Christies Plan Talkers

Encouraged by the success of numerous short talkers which they have made, the Christies plan to produce a large number of them, as well as some features, during the coming year, and to this end are buying a good many stories.

LOUISE FAZENDA

"Faro Nell" has been purchased as a vehicle for Louise Fazenda, while "Wives on Strike" is the name of another story which has been secured but not cast.

Florence Ryerson's "Adam's Eve," a comedy, is to be produced shortly. Mrs. Ryerson has lately been under contract as a writer to Paramount, and has written a number of notable scripts.

Among the noted players under contract to Christies for talkers are some of the best known actors in the country. They include, besides Miss Fazenda, James and Lucille Gleason, George Sidney, Raymond Hatton, Marie Dressler, Eddie Nelson, Sam Hardy, Ruth Taylor, Ford Sterling, Taylor Holmes, Frances Lee, Buster West and Charlie Murray.

Charlie Murray is to be starred in Vernon Smith's story, "The Duke of Dublin."

Gilbert and Bride Leave

Jack Gilbert and his bride, Ina Claire, are sailing the 23rd inst., on the Aquitania for London. They are to spend several weeks abroad, this being Gilbert's first trip to the other side, although Miss Claire has appeared on the stage in London.

BROWN DIRECTS DIX

Paramount officials are said to be anticipating the results of the combination of Mel Brown, director, and Richard Dix, star. The former is shortly to start handling Dix in his male production for the Paramount organization, which will be based on "The Boomerang," as an all-talking picture.

BOWL OPENING BRINGS THRONG

Fifteen Thousand Hear Symphony Orchestra

Molinari Achieves High Quality of Art

Variety Features Initial Program of Season

(Continued from First Page)

not to sound like what you might think.) In the first of these, the voice of the wife of the conducter was briefly heard. Somehow it bears a vague relationship to the "Siciliana" from "Cavalleria Rusticana," and this is possibly a matter merely of its being inspired by the same geographical locale. The composition as a whole pleased. The last section "Orange Blossoms" particularly had some novel violin effects.

FITTING MUSIC

Molinari's Beethoven in C major proved an Olympian gift in its precision. The work really shone in its final movement—easily the best in the presentation, although the others were notably done. I felt though that Molinari really had the orchestra under ideal control in the last.

"The Pines of Rome" with its shimmering web of tone, and its haunting evanescent phrases, belongs peculiarly to the Bowl. It can be heard to singular advantage there, and certainly has never been more lovely than when conducted by Molinari.

He brought to the work understanding of its poetic values to a surpassing degree last evening. The quiet and reflective moments of the composition, broken by the bird song, remain an alluring memory.

Bowl changes include the installation of a new shell as a background for the orchestra, which seems to be a vast improvement acoustically. Much experimenting has been done with the staging of the concerts, and the results this time certainly appear the most satisfying to the ear.

Pantages Gives Late Show for Jack Dempsey

Alexander Pantages announces a monster midnight matinee, Thursday, as a farewell to Jack Dempsey from the stage and screen. Following the current Pantages engagement which closes with Friday night's performances, Dempsey goes immediately to the San Diego Pantages Theater, and, after one week's stage appearance there, leaves for his mountain training quarters.

The show will be headed by Willard Mack, acting as master of ceremonies. He will introduce the various visiting celebrities, among whom will be George Bancroft, Charlie Mack, one of the Two Black Crows, Harry Fink, Helen Kane, Nancy Carroll, Belle Baker, Fanny Brice, Estelle Taylor, Hal Skelly and others.

B. P. O. E. Lodge No. 99 will take an active part in the performance, with the presence of Murray Hulbert, Grand Exalted Ruler, a large band and group of chanters. Dempsey is a member of the lodge.

Pauline Garon Seen in Films and on Stage

It needed only one glance, it is said, for Cecil B. De Mille of film note to see the acting potentialities of Pauline Garon, motion-picture player whose stellar portrayals of the jealous little girl next door in "Jonesy" at the Vine Street Theater is reputed to be one of the factors of the summer success of that American comedy.

De Mille discovered Miss Garon in the Ziegfeld Follies, contracted her immediately to appear in pictures and launched her on a brilliant motion-picture career. The Canadian girl's rise was extremely rapid. She has taken leading roles in a number of feature length films and at intervals during her picture career has enacted prominent parts in several New York stage plays, including "Buddies," "Sonny," "Lilies of the Field" and "Tarnish."

Writer Awarded Important Job

As a result of the reception accorded J. Grubb Alexander's screen play and dialogue for "The Gamblers," which started Monday at the Warner Brothers' Theater, Jack Warner has announced the signing of this writer to a new long-term contract at a figure exceeding his former salary.

Alexander has been attracting attention with his scripts and dialogue for sound films since his first appearance on the Warners' lot. His screen versions and dialogue for both "The Gamblers" and "Evidence," Pauline Frederick's starring vehicle, were well liked, and he has been requested to adapt and dialogue John Barrymore's first all-talking picture "General Crack," from the novel by George Preedy.

Orpheum Lists Special Night

With distinguished studio officials, directorial wizards and film celebrities appearing in person as a special tribute to Ted Lewis and His Musical Klowns, current headliners who recently completed their first talkie feature, "Is Everybody Happy," the Orpheum Theater has designated Friday night as "Warner Brothers Night" Special program features will be presented.

Among those specially invited to attend are Monte Blue, Frank Fay, Dolores Costello, John Barrymore, George Arliss, Myrna Loy, Conrad Nagel, Dale Fuller, Raquel Torres, Armida, Tully Marshall and many others.

"Flapjack Artist" Finds Romance

Vilma Banky

Attempts a different characterization than usual in "This Is Heaven," a Sam Goldwyn production, which starts today at the United Artists Theater.

NEW COMEDY PRESENTED AT MASON

Yiddish Art Theater Gives "Blacksmith's Daughters" in Play Routine

BY JACOB COOPER

As play after play is given by the Yiddish Art Theater group at the Mason Opera House it becomes more and more striking how facile they are in their versatility and how well trained and directed in their production.

After two days of more or less surging drama a comedy was presented last night which scintillated brilliantly under clever handling. "The Blacksmith's Daughters" by Peretz Hirschbein is one of those naive comedies wherein the love affairs of two couples become entangled. Zelde and Leah Dobbs, the twin daughters of the village blacksmith, as portrayed by Celia Adler and Bertha Gersten, are enamored alternately of their father's two assistants, Nissan Alter and Buroch Moishe, characterised by Maurice Schwartz and Anatol Winogradov. The assistants, likewise, transfer their affections, hoping to avoid each other. However, they only complicate matters further. Naturally, everything turns out for the best.

It is not so much the situations as the utter unsophistication of the play which lends its charm. Unlike Sholom Aleichem, Hirschbein does not depend on pithy Yiddish idioms to add brilliancy to his humorous (and they certainly can be pithy) dialogue. His language is simple and through its simplicity strikes surer fire than more well-contrived sallies. Even in his drama Hirschbein's language is unsullied by any conscious stylism.

The acting was quite in keeping with the author's intentions; there was no clowning, nor was there any distortion in make-up. It may well be mentioned that the Yiddish art group has shown itself extremely adept in the matter of make-up; it is cleverly done and lives up to character.

Maurice Schwartz, robust and hearty as the assistant, Nissan, displayed a fine role of sparkling fun. He has a well-trained voice, and in the third act actually stopped the show when he sang an excerpt from the services of the Jewish New Year. The audience stood and applauded until Schwartz was compelled to repeat.

Isidore Cashier, who took the role of the father of the twins, has already attracted a good deal of attention through his work in "Tevya the Dairyman," and his outstanding performance in "The Lower Depths." On this occasion he showed himself, like Schwartz, an actor who can submerge in a different role every night to the point where he is unrecognizable as the performer of the night before.

Celia Adler, who portrayed the part of Zelde, carried the audience with her. It was a strain on the audience to refrain from applauding her after every little scene. Flippant and shrewish, she scintillated throughout, springing new surprises in the art of comedy as she portrayed each angle of this capricious character.

The cast, which also included Morris Strassberg as Samuel Simche, the girl's grandfather, and Maurice Silberkasten as the bookseller, was magnificent throughout. Such rare comedy has not been seen in Los Angeles since the performance of "The Taming of the Shrew" by the Stratford Shakespearean company a few months ago.

Tomorrow the company will again bring drama to the Mason stage with a matinee performance of Ibsen's "Ghosts," and an evening performance of Ernest Tholler's "Bloody Laughter."

BEAR VISITS LION

Miss Billings, cinnamon bear cub now creating a sensation at the Elks' convention as the official mascot of the Montana delegation, will be guest of honor at Gay's Lion Farm, El Monte, tomorrow afternoon, when she will be escorted by William E. Blake, her owner, to visit Numa, motion-picture lion star, and his supporting troupe of 150 African lions.

Murnau Uses Novel Crane for Picture

F. W. Murnau has added another devil to the cast of "Four Devils," Janet Gaynor's first talking picture, now showing at the Fox Carthay Circle Theater. It is an unusual devil, towering fifty feet in height and capable of wild, dizzy dives through space.

The fifth member of the Satanic troupe, around which the story of "Four Devils" is laid, is a giant genie with arms of steel, an iron hand, the strength of a Cyclops and the speed of the wind. It is called the "Go-Devil," and gives the motion-picture camera the wings and eyes of a bird.

The "Go-Devil" weighs twenty tons and is operated by electric motors and hydraulic power delivered at 250 pounds per square inch pressure. Its construction involved the application of many engineering principles owing to the fact that great power had to be combined with speed, smoothness and the precision of a Swiss watch.

"Four Devils" will close its run the 24th inst., to make way for the world premiere the following night of Cecil B. De Mille's first all-talking triumph, "Dynamite."

Deal Closed in Northwest for Oregon Houses

Negotiations have been completed between Fox West Coast Theaters and J. J. Parker, veteran theater operator of Portland, Or., whereby the two interests will be consolidated. Properties in excess of $2,000,000 are involved in the transaction.

Harold B. Franklin, president of Fox West Coast Theaters, who completed the deal for the Fox interests, said: "This new arrangement for operation in the Northwest will be of great benefit to the theatergoing public and to the interests involved. J. J. Parker is one of the oldest operators in the State, and one of the best liked and highly respected.

"Floyd Maxwell, city manager for Fox West Coast interests, will continue to represent the Fox West Coast organization in this operation. Charles Couch, representing the Parker interests, will continue in a managerial association."

Theater Shows Flapper Story

"The Exalted Flapper," a story of a European princess in America, with Sue Carol, Barry Norton and Irene Rich, is scheduled for the Fox Boulevard Theater, starting Thursday. The film is taken from an original story written expressly for the screen.

The picture includes the idea that a girl should have the right to choose her own husband. Sue Carol and Barry Norton from a new screen team in "The Exalted Flapper."

On the stage Lynn Cowan, the melody master with his Boulevard band and girls, will be seen in "A Royal Revue." F. and M. Varieties and specialties will round out the program.

'Kingdom of God' to Start Soon

Ethel Barrymore never acts on Sundays. Accordingly, during her forthcoming brief season at the Mason Opera House, beginning on Monday night, the theater will be dark each Sunday night.

In Sierra's "The Kingdom of God," in which Miss Barrymore begins her Los Angeles engagement, there appear, in addition to the regular company, twenty-five supernumeraries. It has been several years since such a large dramatic organization has made a transcontinental tour, it is claimed.

MISTY LOVE COMEDY IS UNFOLDED

Sylvia Field Charms in Light Entertainment on Majestic Stage

BY PHILIP K. SCHEUER

"Love-in-a-Mist," as good a title as any, was the one under which a new play drifted into the Majestic Theater last evening, with Sylvia Field, late of "Serena Blandish," as chief misty lover. Immediately (since it would be bound to crop up in the review sooner or later) "Love-in-a-Mist" may be said to belong in that free and easy classification which is known as "summery entertainment."

The present piece is a collaboration from the pens of Amelie Rives, a popular novelist, and Gilbert Emery, a talented fellow of the theater who, when he is not engaged in acting before the footlights or even the camera (as he is at the moment,) turns his attention to the more serious matter of creating such able dramas as "Tarnish" and "The Hero." It is quite possible that such a pleasant frivolity as this "Love-in-a-Mist" was dictated but not read while Mr. Emery sat in front of a three-sided mirror in some remote dressing-room, industriously applying an eyebrow pencil, while Miss Rives, listening and nodding approvingly, sat with the more humble-appearing lead pencil and took notes. The result, for want of a better name (and who would ask one?) is a light comedy, a very light comedy.

The extremely fragile thread upon which the characters—seven, all told—are strung, stretches from an insubstantial Southern moon into the living-room of Diana Wynne's home. Diana, who prefers telling lies to black truths, is the charming Sylvia Field—and Sylvia Field is Diana. Miss Field is thus metamorphosed in a theatrical twinkling from the Serena who couldn't say no to the Sylvia who couldn't say so. And because she couldn't, two lovers paced the floor distrait, and one finally shot himself (in the garden, as indeed lovers always do,) but his aim was bad and he lived to marry Sylvia's sister, whose name was Sydney Rose Wynne, and that was the end of the thread.

The opening act closes with a dramatic entrance, the second act with a dramatic exit, and the last act with everybody happy. These are the high moments in a piece which dawdles along brightly—and if the phrase seems contradictory, it is still the best I can do. The second act is most felicitous in increasing its tempo, that episode which leads to the attempted suicide of the nobleman being handled with considerable skill in the writing, and not so badly in the performing.

This mild Virginia shooting affray is enacted by an amiable cast consisting of Florence Mason, Lurene Tuttle, John Litel, Mitchell Harris, Grace Hayle and David Callis, besides Miss Field. Messrs. Litel and Harris represent the contending swains, with Mr. Litel contributing a particularly affable portrait of Count Scipione Varelli, better known to his intimates as Skippy. Miss Tuttle, new to me, pleases as Sylvia's sister, and Miss Mason is good as her aunt.

A parrot which—as I am told—reposed in inaudible serenity upon its perch throughout all the rehearsals, last night burst into irrepressible cave hard upon the first-act curtain—eager at last, evidently, to contribute its mite to the amusement of the strange rows of faces out beyond, but, in its anxiety to be heard, rendering quite unintelligible the words of the human actors. It was removed, neatly, but not gaudily, by Mis Hayle as the colored maid, and the play proceeded.

Duffy Returns to El Capitan in New Drama

"If an actor loves the theater he misses the stage when he is not following his profession," asserts Henry Duffy, the actor-producer. "In my own case business affairs for the last two years have made it impossible for me to devote as much time to acting as formerly and I'm always glad to get back to the stage. I have been on it ever since childhood and nothing quite satisfies one liking portraying a character."

Henry Duffy is now rehearsing the role of Tommy Tucker in Frank Craven's comedy "The First Year" for his forthcoming appearance with Dale Winter at El Capitan Sunday. The engagement will be a brief one, as the duties of operating his Pacific Coast circuit of theaters make it necessary for the actor-producer to devote most of his time to business affairs.

In "The First Year" Miss Winter, who has not been seen here since "The Patsy," will appear as Grace Livingston, the small-town girl who weds Tommy Tucker and goes to live a life of glamour in Joplin, Mo. Included in the cast are Florence Roberts, Olive Cooper, Ann Little and others.

DINNER ARRANGED AS TRIBUTE TO GRAUMAN

Announcement is made that the Biltmore Hotel ballroom has been definitely chosen as the locale for the Sid Grauman testimonial dinner to be given the 17th inst., by the motion-picture industry and civic leaders of Hollywood and Los Angeles in tribute to the retiring showman.

Expectations are that more than 500 prominent personages are expected to assemble for the event, and arrangements are being made for the spectacular entertainment features. As part of the program, Grauman's entire career as an exhibitor will be reviewed on the mammoth stage that is to be erected, and predictions will be made as to what may be expected of him in motion-picture production.

FILM TEAM PLEASES

Fox executives are said to be enthused over the film rushes thus far of "They Had to See Paris," in which Irene Rich shares honors with Will Rogers. Miss Rich recently completed a successful vaudeville tour, which is reported to have gained her hundreds of new admirers.

Service for Fellow-men Called Elks' Chief Ideal by Newly Elected Grand Exalted R

LODGE PURELY AMERICAN BODY

W. P. Andrews Delivers His Inaugural Address

Belief in Supreme Being One of Order's Requisites

Love of American Flag Also Among Its Tenets

"*If I can stop one heart from breaking,*
I shall not live in vain;
If I can ease one life the aching,
Or cool one pain,
Or help one fainting robin
Unto his nest again,
I shall not live in vain."

With this bit of verse Walter Pemberton Andrews of Atlanta, Ga., summed up the fundamentals of Elkdom yesterday in concluding his inaugural address delivered following his unanimous election to the Grand Exalted Rulership of the Benevolent and Protective Order of Elks.

"We are all enlisted in a great cause that is fully worthy of the very best that is in us," he said in approaching his climactic quotation, "and united co-operation will achieve results that will make us proud and happy. In all our efforts to aid and serve our fellow men we are serving and glorifying God, and at the same time 'laying up for ourselves treasures in Heaven.'"

NO ATHEISTS

After some minutes devoted to an expression of a gratitude "that knows no bounds" for his elevation to the highest office within the gift of the order, the new Grand Exalted Ruler directed attention, with stress, to the fact that the two essential requisites for membership in the Elks are a positive belief in a Supreme Being and a love of the American flag.

"Every Elk demands freedom of opinion as his own sacred right," he said, "and he freely concedes this same right to every other brother; but the Order of Elks holds one prerequisite test, regarding faith, and that is positive belief in the existence of a Supreme Being, without which an applicant could not become an Elk. Every person, as a citizen and a member of society, should be judged by his deeds and not by his creed; and to deprive any person of the benefit of the divine right, is to inflict persecution, tyranny and slavery.

"The Order of Elks is distinctively American in name, in character and in purpose, requiring that every applicant must be an American citizen. Our American flag must rest upon every Elk's altar, as its first decoration; and it always receives the hearty salute of loyalty and love, upon the opening and closing of every Elks' Lodge, silently inspiring the hearts of all our brothers to the performance of their duties as Elks and American citizens."

WARTIME RECALLED

Mr. Andrews then touched upon some of the highlights in the history of the order. During the year ending March 31, 1928, he pointed out, the subordinate lodges spent in charity more than $2,500,000. Seventy thousand Elks followed the flag to France, he recalled, and more than 1100 of them made the supreme sacrifice. As an order the Elks speedily organized the Elks' War Relief Association, the speaker declared with pride, and supplied it with $1,000,000 for immediate functioning. In addition, it equipped two base hospitals in France and erected a splendid reconstruction hospital in Boston; supplied money for relief work of the Salvation Army and others, and provided $500,000 to assist ex-service men on occasions of emergency.

"The office of Grand Exalted Ruler," he continued, "will afford to me a supremely congenial and inspiring opportunity to labor in a cause that will command my brain and heart to their utmost efforts and best accomplishments. For that purpose and to that end I now summon every member of this Grand Lodge, and likewise every Brother Elk, to assume his rightful place by my side, to fight with me for the realization of those sublime ideals of brotherhood, toward which Elkdom is looking, striving and moving.

VISIT HERE RECALLED

"The first visit I ever made to an Elks' Home was in 1903, in the old home upon the hill, of Los Angeles Lodge No. 99. The courtesies and hospitalities then extended to me, and afterward by other Elks of the West, so impressed me that upon my return home I promptly applied for membership in Atlanta Lodge No. 78. And so I was duly initiated into the order on February 25, 1904."

After reviewing the origin of the order on February 16, 1868, when "the terrible fratricidal war between North and South had just closed," Mr. Andrews went on: "The aftermath of bitter hatred was still rankling in the hearts of our people, when the small voice of this new fraternity sounded the first national note of love and brotherhood, heard after the war, by adopting and proclaiming, as its cardinal principles, these divine virtues concerning which there can never be the possibility of controversy—as the four corner-stones of the superstructure of Elkdom, namely Charity, Justice, Brotherly Love and Fidelity, which all men of every faith and opinion will ever recognize as the eternal attributes of God."

KIWANIS WILL HAVE ELK PROGRAM TODAY

The Los Angeles Kiwanis Club will feature an Elks program at its noon meeting at the Biltmore today. The incoming Grand Exalted Ruler of the Order of the Elks, Walter P. Andrews of Atlanta, will be guest speaker. He has chosen for his subject, "The Working Ideals of Elkdom." The chanters from Detroit Lodge No. 34 will furnish the music. In anticipation of a heavy attendance the ballroom has been procured for the meeting. Ira F. Thompson, associate justice of the District Court of Appeal, is chairman of the day. The program will be broadcast over KHJ.

Backless Bathing Beauties Crowned in Contest

Pulchritude Prize Winners

Left to right—Lannie Sherman, first prize, most beautiful figure; Billy Balche, first prize, sweepstakes; Christine Mayer, first prize, blonde.

BEACH CITY TAKES ELKS OUT FISHING

Redondo Host to Hundreds of Delegates on Official Seashore Day

REDONDO BEACH, July 9.—A sea of purple swept this beach town today when hundreds of delegates to the Elks' national convention at Los Angeles gathered here for their enjoyment of the session's official seashore day. The day's program, of which Redondo Lodge, No. 1378, was host, opened with a deep-sea fishing contest on the barges along the bay here, and an open house at the newly remodeled clubhouse.

The ladies were the guests of the Deers' Club, an organization formed among the wives of club members of the local lodge. They were served a luncheon in the new club dining-room with an informal dance and entertainment in the lodge-room during the afternoon. Dancing at the Mandarin Ballroom and the programs at the Fox Redondo Theater were free to the visitors.

At the clubhouse all who registered were presented with a polished and mounted moonstone from the beaches here as the gift of the local lodge to the visiting members. Exalted Ruler C. J. Schaeffer, officers and members, in costumes of the early dons, received the visitors. This is the second occasion in which the Redondo lodge has been host to a national convention, having entertained during the convention of 1921. The visitors were brought here in special trains and in a caravan, and from this point were taken about the south bay district and beaches.

Leniency Plea Proves in Vain

Despite the requests of Henry Bancroft-Livingston, British Vice-Consul, and Lieut.-Gov. Carnahan for leniency, the plea of former Patrolman James W. Elliston for restoration to the police force obtained no favorable action from the Police Commission yesterday, when Chief of Police Davis opposed Elliston's return to police duty. The application was filed.

A year ago Elliston was dismissed from the force on complaint of the British Vice-Consul, following an automobile crash between a car operated by the officer and one by the vice-consul.

ELKS ENJOY BEACH CHARMS

Bathing, Basking, Bareback Beauty Contest Fill Doy's Program of Visiting Order

Beauty in backless bathing suits yesterday afternoon paraded before a judging committee of Elks and more than 50,000 spectators, when a Venice bathing beauty parade was put on for the entertainment of the antlered visitors. Miss Billy Balche won the grand sweepstakes, as well as winning third in the redhead division.

This was beach day for the Elk multitude now holding convention in Los Angeles. Their colors and fancy costumes predominated in the crowd which thronged Ocean Park, Venice and Santa Monica. Santa Monica Bay Lodge, No. 906, was host of the day and open house was celebrated at their clubhouse in Ocean Park, where ladies of the members entertained the families of visitors. Hundreds of the visiting "Bills" took occasion to enjoy a dip in the ocean, before and after the special beauty parade arranged for them.

BEAUTIFUL AND STARTLING

The beauty parade was given on the Venice pier. Forty entrants in striking, beautiful and startling bathing suits rode in motor cars on the pier and along the beach front. Passing the Venice ballroom, they were judged by a committee consisting of June Nash, Jocelyn Lee and Nancy Welford, film player; Undersheriff Eugene Biscaluz, H. W. Brown, Exalted Ruler of Santa Monica Bay Lodge, and other Elks.

The contestants were judged on beauty, of which each had an abundance. Backless suits gave greater scope to the beauty to be judged than in any previous contest. First prizes in various classes were silver cups, while the others received substantial awards in articles of value.

The winners were:

PRIZE BEAUTIES

Grand sweepstakes, Billy Balche; most beautiful figure, Lannie Sherman; most charming personality, Alta Faulkner; most beautiful brunette, Virginia De Ette; most beautiful blond, Christine Mayel; most beautiful redhead, Ruby Berer.

Following the parade the visiting Elks went swimming or sightseeing, while waiting for the commencement of the evening program. Various pier attractions were thrown open freely to Elks for the day. The night program, beginning at 8 p.m., included all the spectacular amusement attractions of Ocean Park Pier, an elaborate display of fireworks and dancing in the Egyptian, Palace and Bon Ton ballrooms. Similarr courtesies were extended by Santa Monica with the freedom of La Monica ballroom and the Whirlwind Dipper on Santa Monica pleasure pier.

Redlands Elks Will March in Great Parade

REDLANDS, July 9. (Exclusive) Redlands Elks departed today for Los Angeles where they will have a part in the great convention being held there. Redlands Elks will march with 1200 men in the Orange Belt division of the parade and will wear white shirts, white trousers, orange hats and orange ties and sashes.

The Redlands delegation which will march is headed by Exalted Ruler Cleo Burris and Secretary Lee Dague. In the group are H. Hoffman, L. Gist, S. Kanady, H. Dabis, R. Bruckart, K. C. O'Bryan, V. Gregory, R. Baird, P. H. Norton, T. Folk, H. Wade, L. Coombs, I. O. Burton, Lee Dague, I. E. Mills, R. Cotter, R. Speich, H. Taylor, O. Morgan, L. Wearne, L. A. Sabo, C. L. Bartlett, H. Brown, E. Ohmstede, P. Dallas, F. Latham, E. Prior, D. Huckaby, C. Burris, W. Yount, G. Nowell and E. Black.

The Redlands d ration also will have most of the members of the American Legion drum corps in full uniform, for most of the corps are members of the lodge.

Organ Program for Elks Today

At 4:30 p.m. today in Elks' Temple, will be given an organ program for the Elks and their ladies. Sibley G. Pease will play the following:

Large (Xerxes,) Handel; Berceuse (Op. 10, No. 6,) Bonnet; Song of Volga Boatman, Russian folk song; Melody, Dawes; Toccata and Fugue, in D minor (The Great,) Bach; "The Rosary," Nevin; "Enchanted Bells," Haberbier; (a) "Carry Me Back to Old Virginny," Bland, (b) "Abide With Me," Monk, and Solace, Pease.

ALL FILMDOM AIDS PAGEANT

Electrical Spectacle for Elks Tomorrow Night Expected to Surpass Anything of Its Kind

The entire motion-picture industry will co-operate tomorrow night in presenting the enlarged and improved $1,000,000 motion-picture electrical pageant in the Coliseum as the climax of the Elks' convention entertainment program.

This spectacle of illuminated floats will surpass any similar exhibition ever given, it was stated last night by Director General Jack L. Warner. Neither expense nor effort has been spared in preparing for the pageant, he declared.

Not only will all of the floats seen during the Shrine conclave, now decked out in new colors and with radical changes in design, appear tomorrow night, but several new floats have been added to the large fleet. The only floats which remain unchanged are those of Harold Lloyd, B.-K.-O. and Warner Brothers, the three prize winners during the Shrine event.

MANY SUN ARCS

The combined lights to be used in the pageant will represent upward of 16,000,000 beam candle power. Hundreds of enormous sun arcs, the immense beacons which are used in film studios, have been mounted on the Coliseum walls and tomorrow night will weave a fantastic pattern of purple and white beams across the evening sky.

Each float will have its separate generator to furnish current for the myriad of lights. The generator will follow the float on a special tender. These tenders have been made almost sound proof and will cause no annoyance to the audience, Frank N. Murphy, chief electrical engineer, stated.

The opening section of the pageant will consist of twenty gorgeously illuminated rose arbors, to be carried by 100 gayly costumed Elks After marching around the Coliseum arena, the Elks will "plant" the rose arbors at the east end of the field. Later in the evening a brigade of Elks will carry in 100 illuminated orange trees, which will be "planted" at the opposite end of the arena.

FINALE AT 11 P.M.

The grand finale of the pageant, it is expected, will take place at about 11 p.m. It will center about the traditional Elks eleven o'clock hour of remembrance. Conrad Nagel will give the toast. Included in the finale will be an artificial thunder storm created by special storm machines from Hollywood studios, and music by a 1000-piece band.

A polo game will precede the pageant. The Uplifters' Club team, captained by Hal Roach, will engage the Buccaneers, captained by R. L. (Snowy) Baker. The game will start at 7:45 o'clock and will end at 8:30 o'clock when the pageant will start.

Tickets admitting to the afternoon dress parade, the polo game, and the electrical pageant, cost $2.50. Good seats still are available at B. H. Dyas stores, Seventh and Olive streets and Hollywood Boulevard at Vine street.

BOY FRIEND OF GUN GIRL CONFESSES

Donald A. Murdock Tells on Witness Stand About Three Hold-ups

Donald A. Murdock, 18-year-old "boy friend" of Rudell Heath, Texas "gun girl" now awaiting preliminary hearing on forgery charges here, yesterday waived preliminary examination before Municipal Judge Ballard and, from the witness stand, admitted committing three hold-ups within a half-hour on the night of the 2nd inst. He also declared that the automobile used in the hold-ups had been stolen by him from George C. Lindh of 551 South street, Glendale, on the night of June 27, last.

The youth said that two oil stations and a candy store on Hollywood Boulevard were robbed by him. Dep. Dist.-Atty. Burgess stated that Murdock has confessed to five additional hold-ups during the ten days between his arrival in Los Angeles and his arrest on the 3rd inst. in the apartment occupied by Rudell Heath and her 16-year-old sister, Vernice Heath, at 410 North Coronado street. The prosecutor also declared that Murdock admitted meeting Rudell Heath in Tulsa, Okla., and accompanying her and her sister as far as El Paso on their way to Los Angeles. The youth said he quarreled with them there and finished his trip here alone.

LADY ELKS KEPT IN DIZZY WHIRL

Visiting Women Here, There and Everywhere

They Like Our City, Roads, Flowers and Us

Fall Style Preview Today Will Prove Lure

No better proof that their visit in Los Angeles is turning out to be a gay whirl from early morning until the wee sma' hours can be offered by the ladies of Elks than the fact that most of the time they are conspicuous by their absence at the women's headquarters in the Biltmore.

Yesterday morning, at least, the place was practically deserted, except for the hostesses in charge, and they reported that the ladies were being so beautifully dined, luncheoned, motored and what-not, that their welcoming activities at headquarters have been exceedingly light.

PUNCH SERVED

With the afternoon, however, business picked up perceptibly. In between dashes here, there and everywhere, the visitors found time to drop into the reception room for a cooling glass of punch or a refreshing cup of tea, to meet and chat with old friends and to collect advice and information before setting out on the next excursion, and for several hours Mrs. Clayton Warde, hostess of the day, and her staff of assistants, worked at fever heat to meet the rush.

Working with Mrs. Warde were Mrs. Joe Bonhaus, Mrs. Paul Robinson, Mrs. Clarence Strohn, Mrs. Harry Brown, Mrs. William Jacoba, Mrs. Ann Morgan, Mrs. L. R. C. Nestel, Mrs. Milton Wise, Mrs. Henry Learned and Miss Virginia Warde.

LAVISH IN PRAISE

Out of the general chatter which usually accompanies the tea-cups, the reactions most frequently voiced by the Elks' ladies indicated a high degree of enthusiasm over their visit. They think Los Angeles is beautiful, the decorations on the streets and public buildings are about the loveliest they have ever seen, they like our highways, our flowers are the subject of extravagant superlatives and our hospitality leaves absolutely nothing to be desired.

Among the activities of the day which were attended by the ladies were the trap shooting tournament at the Los Angeles Gun Club, open house at the Santa Monica Bay Women's Club, vesper organ recital at the Elks' Temple and the grand ball at the El Patio ballroom.

Wives of the Grand Lodge officers were luncheon guests at the home of Mrs. Jack Doyle in Santa Monica yesterday noon and last night Mrs. Doyle had a box party for them at the opening of the Hollywood Bowl.

DANCE AT CITY HALL

Today, in addition to the regular motor trips and sight-seeing expeditions, there will be a new variety of activities in a yachting trip around Los Angeles Harbor, an air circus at the Grand Central Air Terminal in Glendale and open house at the City Hall in the evening, with dancing in order in its wide corridors.

The outstanding event of the day for the ladies, however, will take place at 4 p.m., when a number of Los Angeles merchants will present a preview of fall fashions in the Cocoanut Grove of the Ambassador. More than 6000 tickets have been given out already for this feature.

Tonight Mrs. Edward Gibbs, wife of the Exalted Ruler of Lodge No. 99, will be hostess at a dinner party at the Biltmore for the wives of the Grand Lodge officers preceding the ball in the Sala de Oro for Grand Lodge officers, delegates and their ladies.

Mrs. Will Stephens will preside at the women's headquarters throughout the day.

NEAR WEST DESTROYER SHIFT NEAR

Division 45 Will Come to Southland Ports and Its Place Taken by Division 38

America's "Chinese Navy," otherwise Destroyer Division 45, which has been on the Asiatic Station since 1922 and has weathered three successive Chinese revolutions, will hoist the homeward bound pennant off Tsing-Tao next Friday morning and sail for local waters, arriving in the San Pedro-San Diego area via Honolulu on August 17.

Division 45, which includes the destroyers Hulbert, Noa, William B. Preston, Preble, Sicard and Pruitt, will be absorbed on arrival by the Battle Fleet destroyer squadrons. Its place in the Asiatic Fleet will be taken by Destroyer Division 38, including the destroyers Smith-Thompson, John D. Edwards, Barker, Whipple, Tracy and Borie, which will sail from this port for Yokohama on August 1.

Division 38 itself was on duty in the Near East and Orient for seven years prior to its return here in 1928 to serve as plane guard for the aircraft carriers Saratoga and Lexington.

Julian Usury Trial Moving

Initial evidence in the Julian usury trial of Arthur Perry by a jury before Municipal Judge Pope was presented yesterday by Deputy City Prosecutors Brockman and Lindley. Perry is accused of making approximately $2000 on a $13,000 loan in less than a month's time.

Brockman said last night that he expects to be able to close the people's case today, following which Samuel H. Miller, defense attorney, will put on his evidence.

BALLROOM THRONGED WITH ELKS

Twelve Thousand Attend Annual Event at Which Gayety Holds Sway

The Elks danced last night, something like the elevator dance, no steps. Twelve thousand of the antlered herd found their way to the El Patio dance floor to watch the grand march of the annual ball of the order, and a few of the brothers danced. About 4000 succeeded in following the lead of their Exalted Ruler and Mrs. Edward Gibbs on the floor and then started something like a five-ring circus.

Delegations from Arizona decided the tempo of the music too modern and moved into one corner with an Indian band. Tom toms and rattles provided all of the settings for a good snake dance. Only there were no snakes.

Eureka added its little bit with a night-shirt parade enlivened with a tin-can drum corps.

Over in another corner more music in a different key and more hilarious Elks and their ladies.

But somehow the leading orchestra managed to crash through and the huge floor of the Patio became a moving, sawying and modernistic flash of color. Zouaves, Dons, parade purple-coated play boys and here and there a more formal black coat.

And the ladies; everything from the most fragile of evening frocks to the equally fragile summery afternoon dresses, turning gracefully, perhaps with only a few feet to go. It was crowded—but the Elks danced.

SKY CIRCUS WILL THRILL HERD TODAY

Many Surprise Events on Menu at Air Terminal in Glendale at 2:30 p.m.

The Seventh Army Air Bombing Squadron will be one of the outstanding units to take part in the Elks' air circus scheduled for 2:30 p.m. today at the Grand Central Air Terminal, Glendale.

An army pursuit squadron and the Goodyear "blimp" Volunteer will contribute more thrills to the spectators. Arrangements to handle a huge crowd have been made by the Elks' committee handling the air circus.

No definite program was given out yesterday by Murray Durham, chairman of the aeronautical committee of the Glendale Elks' lodge, but he promised a number of surprise thrills.

TWO ELKS "LONGEST"

Jake Erlich Measures by Feet, Jacob Zeigler in Years

Thus far Jacob Zeigler, a member of the Los Angeles Lodge No. 99, is the oldest Elk in point of years to register for this convention. He is 98 years of age and is proud of the fact that next year he will be "99 of 99." Visiting him at his home, 915 South Carondelet street, is his son Isadore Zeigler of Omaha, here for the convention.

Another patriarch of No. 99 who is an enthusiastic participant of the conclave is Richard Garvey, 90 years of age.

The band contest at Westlake Park drew a crowd of 4000 people. The enthusiasm expressed in applause was exceptionally appreciative.

The lure of the sad sea waves and the bathing beauty parade was evidenced at Elks' Temple yesterday by a near vacancy at 10 a.m. in the spacious lobby and lounging room.

"Five more seats for any one going downtown." "Room for two more," is a hospitality call heard throughout the day at Elks' Temple.

Registration headquarters at the Subway Terminal Building still teemed with incoming members of the Antlered Herd at sundown yesterday.

Jake Erlich, 8ft. 6in. tall, claiming the distinction of being the tallest Elk in the world, said yesterday: "Being conspicuous requires patience, but makes you many friends if you just smile. I know what stoop, look and listen means," he added.

MILITARY OFFICER TO BE PAGEANT AIDE

Lieut.-Col. William H. Fairbanks

Lieut.-Col. William H. Fairbanks, recently awarded a Distinguished Service Medal by the United States government, is assistant grand marshal of the electrical pageant executive staff of the Elks' convention.

"I just represent No. 99," he modestly said yesterday. "These motion-picture people know how to put on a show, and Thursday night's pageant and night polo game at the Coliseum will go down as the premier event of Elks' history."

TELEPHONE AIDS ACTORS IN ROMANCE

Wedding of Paul Page and Ethel Allis Joins Stage and Screen Figures

A proposal of marriage spoken over long-distance telephone wires has just had its culmination, it became known yesterday, in the wedding of Ethel Allis, showgirl of the Ziegfeld Follies, and Paul Page, lately recruited from the stage for roles in talking pictures. The news leaked out that they were married Monday evening in a ceremony performed by Rev. Milo Jamieson, pastor of the First Presbyterian Church, Hollywood.

ETHEL ALLIS

Page, who is 26 years of age, and his bride, 24, met six years ago when both were signed for a vaudeville act. At the end of the season, they separated, Page being engaged for a dramatic production, and Miss Allis entering the musical comedy field.

PAUL PAGE

Several months ago, Page came here as a contract player for the Fox studios. Shortly afterward he was cast in a film for which the company was sent to Cuba. En route he stopped long enough in New Orleans to telephone Miss Allis at her home in Springfield Mass., and urged her to marry him. She accepted and joined him in Havana, returning here several weeks ago with the troupe. Page's home is in Birmingham, Ala., and he is a graduate of St. John's Military Academy, Annapolis.

Within a few days they will embark on a honeymoon to Honolulu, later making their home in Hollywood.

OAKLAND DRILL TEAM WINS

Elks' National Championship Gained in Contest; Santa Monica Has Best Band

Intricate formations, natty uniforms and alertness to commands aided the drill team of the Oakland Elks in marching its way to the Elks' national championship in the Coliseum yesterday.

Although the Oakland aggregation competed in Class B, open to teams of twenty-four men or under, during the preliminaries, it heeled the turf of the local bowl in formations snappy enough to catch the eye of three army captains from the Presidio at San Francisco and carry away the national crown in the final open competition.

San Francisco's drill team took first honors in Class A, defeating Detroit in a dual match. Oakland outmarched Buffalo in Class B for the right to meet San Francisco.

While the drill teams held the center of interest at the Coliseum, more than 4000 persons filled the benches in front of the band stand at Westlake Park to hear the Santa Monica Elks' Band play its way to first place in Class A and Appleton, Wis., in Class B.

The beach band came through with a percentage of 94.8, with Seattle placing second in the top class with 90.1. In Class B, Appleton's rating was 97; Everett, Wash., 93.8; Stockton, Cal., 82.5, and Pasadena, 78.2.

Class A bands included more than thirty-five musicians each, while Class B was made up of smaller organizations.

Capts. M. H. Forbes, E. N. Miner and T. E. McCarthy eyed the drill teams at the Coliseum and judged them from a military standpoint.

A majority of the teams were outfitted in military uniforms and sported guns and swords. Several thousand spectators witnessed the tricky formations and rooted for their favorites throughout the formations.

Before the drillers were allowed to show their steps the Presidio officers subjected each man to a rigid military inspection. Men on the teams were graded on uniform, armament, position and general rigidity.

Competing teams and their leaders are as follows: San Francisco, William Green; Detroit, Henry Wartosky; Huntington Park, Roy Gilbert; Portland, Ted Frieberg; Pasadena, George Cook; Oakland, Col. E. G. Hunt; Sacramento, A. R. Perkins, and Buffalo, J. Mulligan.

Capt. William Sparks led his famous Jackson Zouaves through smart formations and wall-scaling feats following the drill team competition.

Salesmen. Solicitors —10-B

REAL ESTATE
IS
SELLING
On the South Coast. Regardless of seasonal conditions you can clean up right now by selling ocean front property. This is the harvest season for beach developments. Warm weather, vacation days make prospects "beach minded." Capitalize on these conditions by joining a selling organization that is reputed to be making the highest volume of sales this year. Nothing succeeds like success. Splendid prospects furnished. Transportation paid. Unexcelled co-operation, new and highly successful lecture method, movietone motion pictures, fully improved property, sponsored by a successful subdivider and strong syndicate. Advertising and radio campaign. Ideal property, broad price range, wonderful terms, but best of all, your sales will be profitable investments for your clients.

The character of this development is such that you will be proud to be a representative of this organization. A future and expansion program holds promotional opportunities for every man who makes good. It's possible for a salesmen of ability to become independent through association with this organization. No matter what your present connection is, this is your opportunity to better your condition. Men of good selling ability without real estate experience can profit by connection with this concern. Immediate action is necessary. Contact Jerry Lyle, 3043 Wilshire Blvd., Pitarov 2141.

BELTING SALESMAN
For a Junior Executive Position.
With a large eastern manufacturer offering an excellent opportunity for a young man not over 30, preferably single, who is thoroughly acquainted with selling industrial belting on the Pacific Coast. Must be of good appearance and a technical graduate will be preferred. A man who has had some experience and a selling organization that will be particularly adapted for this work. Must be prepared to travel anywhere on Pacific Coast.
This is an excellent opportunity with a reputable old corporation, and offers substantial advancement to the right man. Moderate salary to start with commission. Write complete details of experience and qualifications and interview will be arranged. Address M. box 171, Times Office.

SALESMEN
Keen, earnest gentlemen wanted for permanent clientele building proposition.
We challenge you to give 30 min. of your time to get the facts.
SUITE 1000, SECURITY TITLE INSURANCE BLDG.

HIGH-CLASS
SECURED PAPER
SALESMEN
An organization which has in 3 years created a clientele of hundreds of permanent customers and has grown into a big financial institution, has accomplished this with modern sales and customer methods.
We use no high pressure methods. Our investment appeal is based upon mutual operation, mutual customer interest, unusual sales policy, immediate cashability, unusual security and higher yield.
We are broadening the scope of our operations and will select a few men of proper qualifications to take a very different course of education, including financial paper bonds and modern sales presentation.
To those selected will be offered an unusual opportunity to make an excellent and immediate income and to grow into a permanently substantial situation.
Call Monday morning after 9:30 a.m. at 718 Security Building, 5th and Spring street, or phone TUcker 1033 for an appointment.

FRIGIDAIRE
A subsidiary of General Motors will interview salesmen between 25 and 33 years of age who are in a position to handle local territories. The men selected will be given thorough training and satisfactory financial arrangement will be made. Training will begin July 15th. Positions open L.A. and other nearby cities. A distinct opportunity awaits the men who are sincere. Apply forenoon, MR. TYROL, 1019 W. 7th St.

TOOK JOBS FROM INDIANS

Much might be done for the aboriginal adults of the isolated Indian reservations who are now living in idleness and poverty. The West is full of work which they might be doing.

During the last decare 500,000 Mexicans have crossed the line, seeking and finding work in the United States. More of them have come than there are Indians in all the United States. They have tended to congregate in such cities as Los Angeles and San Antonio and to create new quids for the nation to digest.

The excuse for allowing them to come in has been the need of them to perform rough labor. Yet these Mexicans are actually Indians. Their blood is little different from that of their cousins across the line. They have been introduced and have created a new problem while our own Indians have languished in idleness and want on their isolated reservations.

Proper attention to securing employment for our own Indians should have resulted in their getting many of the jobs rather than these introduced Mexicans. It would have got them away from the reservations, given them an opportunity to learn, carried them far toward civilization.—[Saturday Evening Post.

ART REVEALS A NATION

Taikan Yokoyama and some other art masters will go to Italy early in 1930, and an exhibition of Japanese pictures and technical arts will be held in Paris this May at the instance of the French government. We hear also that Japanese novels, dramas and cinemas will be introduced to France.

Arts will act an important role on the stage of international sentiments. The nude realities of national traits show themselves in arts. The exchange of arts for the furtherance of international sympathy and for the promotion of mutual understandnig is a most clever and appreciable policy, but the latest introduction of Japanese arts to Europe is particularly significant. Japanese culture so far known to the world has all been of the obsolete school, and the introduction of our modern arts is relatively a recent phenomenon.

Japanese arts are fundamentally different from those of the West in intrinsic value, character and history, and will arouse an appreciable sensation in the European art world. No matter how they will be appraised or criticized, Japanese arts will give a surprise to thinkers in Europe insisten upon the learning of eastern civilization for the relief of western cultural life from decadence.—[Tokio Nichi Nichi.

ONE BY ONE

A second-hand dealer had five wooden figures. He put them together and called them "The Five Senses."

One was sold, so he named the four "The Four Reasons."

Another was sold, so he called the three "The Three Graces."

Another was sold, so he called the two "Adam and Eve."

Another was sold, so he called the remaining one "Deserted."—[Paun, Vienna.

SAVANTS WILL DISSECT NEWS

Political Science Academy Meets Tomorrow

Critical World Problems Will be Discussed

"Rising East" to be General Topic for Sessions

The Los Angeles Center of the American Academy of Political and Social Science will open a two-day conference tomorrow at the University of California at Los Angeles summer session. Some of the critical problems now engaging the attention of the world powers will be discussed by a group of American and European authorities in political science.

The lectures and conferences are scheduled for tomorrow afternoon and evening and Friday afternoon and evening. The meeting will open tomorrow with a luncheon for the speakers at the academy's sessions and will close Friday night with a public lecture by Dr. J. Ralston Hayden, professor of political science at the University of Michigan in the lecture room of the Los Angeles Public Library. His subject will be "Philippine Nationalism and the United States."

The general topic throughout the conference is "Western Imperialism and the Rising East." At tomorrow's session the Near East will be considered, and the Orient will be discussed Friday.

Speakers include Dr. Henry R. Spencer of Ohio State University, Dr. Luther H. Evans of Dartmouth College, Prof. Ernest Young of Middlesex, England; Dr. Frederic L. Paxson of the University of Wisconsin, Dr. J. Ralston Hayden of the University of Michigan, and Dean T. M. Putnam, Prof. Malbone W. Graham and Dr. Charles G. Haines of the University of California at Los Angeles.

RUSSIANS BECOMING AIR-MINDED

Amtorg Trading Company Heads Survey Aviation Industry in This City

Aviation in soviet Russia rapidly is increasing its demand for American flying equipment and its people have become air-minded virtually overnight, it was stated yesterday by Andrew W. Petroff, vice-president of the Amtorg Trading Corporation of New York City, scheduled to leave today for San Francisco following a survey of aviation industries of Southern California.

Petroff's organization exports aircraft and automobile parts to all parts of the world. He inspected the Bach Aircraft Company's factory at Los Angeles Metropolitan Airport yesterday with other Amtorg directors, L. G. Gershevich and Leonid G. Minoff. Bert White of the Irvin Airchute Company acted as guide to the Russian exporters.

Maj. Carl Spatz, leader of the Question Mark endurance flight, wired Waldo D. Waterman of the Metropolitan field yesterday to make preparations for the landing of six army pursuit and three bombardment planes at the field today. The ships will take off from Rockwell Field, San Diego, and land at the local airdrome at 9 a.m.

Stephens Will Continue With Claims on Dam

Former City Attorney Stephens and Lucius Green, formerly his chief assistant, now in partnership in the general practice of law, were employed by the City Council yesterday to continue the work of settling the claims arising from the St. Francis Dam break of March, 1928. The two attorneys will receive a retainer of $1000 per month and $100 a day for court appearances, these last not to exceed thirty, and the employment not to exceed six months.

It was explained that under Mr. Stephens' Mr. Green established and maintained for many months an office in the devastated region at Santa Paula, and under their direction the claims against the city have been reduced to a very small remaining percentage.

INMATE OF NORWALK COMMITS SUICIDE

Despondent because of her incarceration in the Norwalk State Hospital for the Insane, Mrs. Kate Finch, 66 years of age, ended her own life early yesterday morning by hanging herself with a twisted bed sheet attached to a window beam. Deputy Sheriffs Brewster and Weybright reported that the woman had attempted to commit suicide on two other occasions. Mrs. Finch had been confined to the hospital since last April.

PUBLIC-SPEAKING COURSE

Business men and women who would prepare themselves in practical speech making are enrolling in an evening course in public speaking offered by the extension division of the University of California at Los Angeles, in the Hillstreet Building, 815 South Hill street. The course is in charge of Dr. Nelson Vance Russell, assistant professor of history at the university.

PLANE SERVICE TOPIC

Airplane passenger service, as provided between Los Angeles and Wichita and Kansas City, will be discussed before the Kansas Society tomorrow evening at 246 South Hill street by W. R. Balsom of the Western Air Express speakers' department. The discussion will be supplemented by a motion picture showing the latest developments in the commercial air transportation industry.

GIRLS' CLUB AIDS COLLEGE DRIVE

Officers Will Assist Bridge Hostess

Ready to Help Their Alma Mater

Officers of Bancroft Club at Immaculate Heart College. Left to right, front row—Mary Smith, treasurer; Rose Prince, secretary; Marion Baldemann, vice-president. Second row—Mary Mabar, archivist; Lillian Mahoney, president.

IN ORDER to leave no stone unturned to insure the success of the Immaculate Heart College building-fund campaign, which begins its concentrated drive September 23, a series of preliminary committee meetings are being held Monday nights at headquarters on the campus, 5515 Franklin avenue, at which the scheme of organization and plans of procedure are being worked out in the minutest detail.

At the last meeting delegations from twenty of the twenty-one organized units were present, with George G. Clarken, general chairman, presiding. Speakers included Rev. J. J. Consty, P. J. McGarry, chairman of the cathedral unit; William Walsh, grand knight and chairman of the Blessed Sacrament unit, and Frank Barry, grand knight and chairman of St. Kevin's unit. All the speakers voiced great expectation of success in the movement to raise funds for the erection of the five college halls, which will constitute the greater Immaculate Heart College. The first building on the sixteen-acre campus site in the Los Feliz Hills at Franklin avenue is nearing completion.

Mrs. Ysabel Del Valle Marquard, president of the Immaculate Heart College Alumnae, pledged the cooperation of that organization in the forthcoming campaign.

The next preliminary gathering will take place on the campus on Friday evening at 8 p.m., when Dr. and Mrs. T. M. Savage will entertain friends and patrons of the college with a bridge party. Preparations are being made for about 300 guests.

LLEWELLYN LAST RITES DRAW MANY

Hundreds of Floral Pieces Bear Tribute to Esteem Held for Young Woman

Funeral services for Miss Virginia Llewellyn, who died in Berlin June 17, last, were conducted yesterday at Forest Lawn Memorial Park, Rev. John Atwill of San Gabriel Episcopal Church officiating.

More than 200 friends of the Llewellyn family attended and hundreds of floral offerings bore tribute to the esteem in which Miss Llewellyn had been held.

Miss Llewellyn, 22 years of age, accompanied by her parents, Mr. and Mrs. David R. Llewellyn, left Los Angeles early this year for a trip abroad and had enjoyed the tour of the Continent until she fell ill at Berlin.

A graduate of Marlborough School and prominent in the activities of the younger set in Los Angeles and Pasadena, Miss Llewellyn was known and admired by hundreds of young men and women of Southern California.

Besides her parents, Mis Llewellyn leaves her sister, Dorothy, her uncles, Reese and William Llewellyn, and her aunt, Mrs. John Milner.

Arizona Rainfall Breaks Drought

PRESCOTT (Ariz.) July 9. (AP)—Breaking a drought of more than two months, rain began to fall in Prescott at noon today. There were intermittent showers throughout the afternoon and at 6 o'clock approximately one-quarter of an inch had fallen.

Heavy rainfall was reported to the northwest, with light showers in the Verde Valley.

GOODWILL PROGRAMS

The educational year of the Goodwill Industries of Southern California will close with two unusual programs, one last night given by American folk entirely in Spanish, to which the Spanish-speaking people were invited, and a similar one tomorrow to be given by Spanish people entirely in English, and to which the American people are invited. These two programs will be in the nature of a demonstration of the work accomplished by the noontime language classes.

SALES MADE OF THREE HOSTELRIES

Christie in Hollywood, Strand and Barbara Bring Total of $1,196,000

Sale of three hotels, the Christie in Hollywood, the Strand on South Union avenue and the Barbara, at one time owned by Jack Dempsey, was announced yesterday by R. L. Langer, Roosevelt Building hotel broker.

The Christie, one of the largest hostelries in the film capital, was purchased for $321,000 by Charles E. Barber and J. W. Thomson, formerly owners of the Parkside Hotel in Kewanee, Ill. The deal involved only the lease and fixtures, the building being owned by the Christie Corporation. R. J. Matheson, former operator, is retiring.

The Strand building and furnishings were purchased for $425,000 by Louis A. V. Curtis, former hotel operator in Mexico City and in Italy. Messrs. Rothman, Pollack and Colarerchek were the owners.

The Barbara lease and furnishings, owned by Norman De Vaux of Durant Motors, was sold for $250,000, the name of the purchaser being withheld.

GAS COMPANY'S MEN WIN ESSAY CONTEST

FIRST AND SECOND PRIZES IN COAST COMPETITION GO TO LOCAL PAIR

George M. Sadler, employed in the accounting department of Los Angeles Gas and Electric Corporation, was declared winner of the essay contest of the Pacific Coast Gas Association over nearly 800 other contestants from gas utilities of the Pacific Coast, according to word received from association headquarters.

His victory carries with it a prize of a free trip to the Del Monte convention of the association, which will be held in September. Second place in the contest was likewise won by a Los Angeles Gas and Electric Corporation man when O. J. Kaufman was awarded the second prize of $50 cash.

Other local utility employees who also won prizes are Henry S. Harris and Lois E. Miller, $10 each; and T. P. Trigg, E. C. Raggio, D. W. McMillan, William R. Raines, W. F. Dyer, Mrs. Joy Hampson, Jess H. Slocum, E. F. Beatie, F. L. Washburn, Frank W. Duelks, Franklin K. Murray, F. P. Raymer, W. G. McKee, Etta Adel Schwarz, A. T. Howard, Robert L. Sullivan, J. T. Moore, R. B. Moore, George L. Moxley, E. R. Swearingen, Donald Weiss, Arthur Maltita, R. C. Menker, C. E. Cook, J. L. Bourne and Elmer M. Knisely, $5 each.

Girl Found With Forger Suspect

When detectives traced Lee Gray, 35 years of age, to a bungalow at 107½ East Avenue 26 last night, they found him living with a 16-year-old girl. She admitted to Detective Lieutenants Miller and Acker she had been living with Gray for almost a year.

Gray who, the detectives assert, has a wife somewhere in Los Angeles, was wanted on a charge of forgery, which he denied. According to the detectives Gray and four other men stole a large number of pay roll checks and cashed several hundred dollars' worth before the banks could be notified.

Gray was booked at Central Station and the girl was turned over to juvenile authorities.

HIT-AND-RUN AUTO VICTIM NEAR DEATH

Woman Left Unconscious in Street After Mishap; Others Hurt in Traffic

Struck by a hit-and-run driver last night, Mrs. Isabel Collins, 78 years of age, 3489 Second avenue, was found lying unconscious at Thirty-sixth Place and Third avenue. Her skull was fractured and she had received a compound fracture of the left leg and a fracture of the pelvis. She was taken to Georgia-street Receiving Hospital where Dr. W. L. Molony pronounced her in a dying condition.

A moving automobile struck Betty Craddock, 5, 5900 Towne avenue, last night when she ran into the street before her home, dodging from behind a parked machine. The car which hit her was driven by Dan De Bry, 16, 502 East Sixty-first street. Witnesses told police that he is not to blame. The little girl received broken ribs, broken shoulder and internal injuries. She was taken to the receiving hospital.

Knocked sixty feet by an automobile last night, Mrs. Martha Mackey, 64, colored, 1152 East Thirty-third street, was injured so severely that she was recorded as in a dying condition when taken to the receiving hospital. She was crossing at Central avenue and Jefferson street when, according to witnesses, a car driven by Robert Peck, 27, colored, 1483 West Thirty-fifth street, made a left-hand turn from Central avenue, striking her. Peck was held by University division police pending report on Mrs. Mackey's condition. Dr. Carey said that she could not live out the night.

Henry Tallman, 17 years of age, of 1637 East One Hundred and First street, suffered possibly fatal injuries yesterday when he was struck by a hit-and-run driver at First and Los Angeles streets. Eyewitnesses told police a big touring car circled the block, after knocking Tallman down, and was last seen speeding east on First street.

Tallman was taken to Georgia-street Hospital and given emergency treatment for internal injuries and a possible fracture of the skull, later being removed to Angelus Hospital where his condition was reported critical. Detective Lieutenant Kynette of the central homicide detail is investigating.

The capsizing of a speeding automobile last night threw out Claud Fincher, 30, of 4315 Homer street, who received a basal skull fracture. Fincher was riding in the rumble seat of a roadster driven by Harold Gresdel, 3719 Siskiyou street, accompanied also by Ted Grant, 4315 Homer street. According to the Highland Park police, the car was traveling at high speed when at Avenue 50 and San Rafael avenue, it overturned while making a sharp turn. Fincher's head struck the curb. At Georgia-street Receiving Hospital he was expected to die. The police held Gresdel for questioning.

Police Board Accepts Bid to Traffic Parley

An invitation to attend the regular meeting of the executive committee of the Los Angeles Traffic Association in the Biltmore at 12:15 p.m. of the 15th inst., for a conference on improvements proposed for the traffic signal system in the city was accepted by the Board of Police Commissioners yesterday.

Members of the City Council, the Los Angeles Chamber of Commerce, Building and Safety Commission and Automobile Club of Southern California also have been invited to attend the meeting.

Consolidation of installation, maintenance and operation of street traffic signals under the jurisdiction of one authority is to be discussed at the meeting.

Plans for synchronizing the signals also are to be considered.

Bandit Holds Up Cashier at Pier

By a "Times" Staff Correspondent

VENICE, July 9. (Exclusive)—A crudely masked bandit this afternoon held up the cashier of the Abbot Kinney Company, owners of the Venice Pier, while all others of the office staff were outdoors watching the bathing beauty parade. The robber took $325.

E. J. Martin was alone in the office on the second floor at 68 1-2 Windward avenue, when a man entered and asked for the manager. Martin explained that everyone else was outside watching the parade, and suggested that the man return later. He did, within five minutes, with a handkerchief covering the lower half of his face. He aimed a revolver at Martin and forced him to turn over the cash drawer's contents. Then he went out, after warning the cashier to remain quiet. Martin said the man was about 35 years of age, five feet in height, and that he has a broken nose.

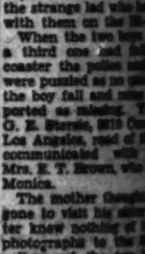
STRINGENT ORDER TO CURB FIRES

VISALIA, July 9. —Anyone adding to fire peril by throwing from an automobile lighted cigarettes, cigars, matches, ashes or any glowing substances or anything which could be responsible for a blaze will be arrested immediately. Orders to this effect have been received by the Tulare county traffic squads from State traffic headquarters. This action is being taken by the Motor Vehicle Department in an effort to curb an epidemic of disastrous grass and brush fires, which have caused considerable damage in the State during the last few weeks.

SUSPECTED GRAB-PURSE PAIR SEIZED

Accused Men Taken; Woman Trails Auto; Theft Series Charged

William L. Tierney, 28 years of age, a radio operator, and D. Oden, 31, a printer, were



WILLIAM L. TIERNEY

Peterson after Mrs. Dorothy Christine, 4567 Pickford street, had fellowed a car into which one of the men jumped after he grabbed a purse belonging to Mrs. Helena Riche, 2161 West View street near the intersection of West View and Twenty-first street.

According to officers, the men have been identified by several victims of purse snatchers. For several months an epidemic of purse-snatching by two men has been reported to police headquarters, but a search for the pair proved futile.

Both men yesterday denied Mrs. Asellino's charges, but a number of the automobiles she obtained during the chase and that they both were

Roller-Coaster Death Mystery Finds Solution

By a "Times" Staff Correspondent

SANTA MONICA, July 9. (Exclusive)—The mystery surrounding the report of two boys that a boy had fallen from a roller coaster into the ocean Sunday was cleared up last night when Bill Stercle, 14 years of age, was identified as the victim. Although the body has not been recovered, the boys identified a picture of Stercle as the strange lad who had been seen with them on the Ferris wheel.

When the two boys reported that a third one had fallen from the roller coaster the police and lifeguards were puzzled as no one else reported the boy fall and none had been reported as missing. Tuesday, however, G. E. Stercle, 2210 Cumpston street, Los Angeles, read of the mystery and communicated with the police. Mrs. E. T. Brown, who lives in Santa Monica.

The mother thought the boy had gone to visit his sister, but the latter knew nothing of it. Two photographs of the dead boy were loaned to the police, and the two boys' parents were located. Lifeguards searched all night for the body.

LINDSAY BURIAL PLANNED FOR [illegible]

LINDSAY, July 9. — Death on Main, prominent orange grower of this district, who died suddenly in Syracuse, N. Y., will be brought here for burial by the wife of the wife, who died about a year ago. Main left here about the middle of June in company with C. J. Fox for a visit to Middletown and Atlantic Coast points. He was a son, Howard Main of Sanger, and two grandchildren, Jack and Jack Main.

EIGHT FINED ON GAMBLING CHARGES

TULARE, July 9. — Eight progress came into Justice Court to answer dice-rolling charges. Arthur Fegan, Robert King, Ed Grigsley, Willys Lockard, E. L. Parker, Lockard, E. L. Parker, O'Keith, and J. Pryor, of the group whose court was the ivories was so ruddy, were fined $10 by Justice of the Peace Constable C. C. Cadle. Each was fined $10 by Justice of the Peace H. A. Charters, as was also Ben Behm, at whose home the game occurred.

INQUIRY CONDUCTED ON DEATHS IN CITY

PHOENIX, July 9. (AP)—[illegible] health officials are conducting an investigation and making laboratory tests to determine the cause of the mysterious disease that has taken four lives in a lumber camp in Graham county, thirty-five miles north of Safford, within the last ten days. It was announced today. At first it was thought that the deaths were caused by poisonous [illegible] has been ruled out.

LIGHT PLAN [illegible]

It was proposed to the City Council yesterday that [illegible] and lighting maintenance be reported from general city funds rather than by assessment as at present. The matter was filed by the Apartment House Owners' Association was filed by the Apartment House Owners' Association, and was referred to the Traffic and Street Lighting Committee.

PROTEST PROVES [illegible]

A protest received by the City Planning Commission yesterday against construction of a police station at 339-343 Westmoreland [illegible] placed on file when the commission learned that the City Council two weeks ago granted the [illegible] permission for the [illegible]

uadorian Republic, Guatemala a
Honduras.

The general tenor of the protes
and comments is a plea for co
operation of the trade relations b
tween the communicants and t
United States in the revision pro
on Trade balances now existing
favor of this country were empl
sized, and fear expressed over t
possibility of decreased purchasi
power through higher tariffs c
lessening shipments to United Stat

PARTIES CLASH

Publication of the documen
precipitated a sharp clash betwe
Democrats and Republicans,
many charging and the latter d
nying that the complaints represe
world-wide resentment over t
issue measure.

Briefly stating that foreign pu
lic are not unusual when Amer
can tariff revisions are in pro
ess, the Democrats declared su
a kind of foreign reaction now
there has been experienced.

Chairman Smoot minimized t
situation, denied a statement
Senator Harrison, Democrat, M
sissippi, that thirty-eight natio
have protested, and contended t
Democrats would vote for ra
ions higher than those now carri
in the bill on certain agricultur
products with which the notes de
at length.

"This is so simple as to belie
